ST. JAMES LOSES A PROMINENT WOMAN

MRS. W. J. GALLAGHER DIED FRIDAY AT CHICAGO

Funeral Services for Life-Long Beaver Island Resident Were Conducted Here Tuesday Morning

Beaver Island lost one of its most beloved women Friday, February 2, in the death at Chicago of Mrs. W. J. Gallagher, who succumbed after an illness of several hours at the home of her daughter, Mrs. Joseph Left.

Margaret Boyle was born at St. Janies, February 18, 1861, the daughter of William and Hannah Boyle. She was married to William John Gallagher at St. James on November 19, 1879. He preceded her in death in 1930. Mrs. Gallagher had resided at St. James her entire life except for spending the past 15 winters with her children in Chicago. She was chrituble, home-loving and a devoted mother and friend who will be greatly missed by her family and many friends.

Surviving are eight children, James H., Edward B., and William John of St. James, Mrs. Ida Scheid, Mrs. Veronica Left und Joseph E. of Chicago, Mrs. Mae Schebratt of Petoskey, and Mrs. Martha Zalusky of Ludington. Three children preceded her in death. Other survivors are a brother, Edward of Holy City, Calif., two sisters, Mrs. Edward Pratt of South Haven and Mrs. Fred Sendenberg of St. James; also 19 grandchildren and four great-grandchildren, two nieces, Mrs. Tom Bacot and Mrs. George LaBlance, and a nephew, William Gibson of Charlevoix.

Solemn requiem high mass was conducted Tuesday morning at St. Mary's church by Fr. Bernard Scheid of Chicago, a grandson, as celebrant, assisted by Fr. Edward E. Neubecker, local pastor, and Fr. Leo Kienberger of Chicago. Acting as server was Norman Gallagher, a grandson, and student at St. Mary's Seminary, Baltimore, Md.

Pall boarers were Leo Allard, William Gibson, Peter O. Gallagher, Lester Gallagher of Charlevoix, Vernon Lafreniere of St. James, Frank O'Donnell of Chicago.

An attempt to take the body to St. James for burial Tuesday failed when the McCann tug Venus failed to negotiate ice floes between Charlevoix and Beaver Island.

ODD FELLOW GATHERING HERE WEDNESDAY NIGHT

Local Lodge Entertained Members Charlevoix County Social Club

Round Lake Lodge No. 295, I. O. O. F., was host last Wednesday evening to the Charlevoix County Social Club with representatives present from Horton Bay, Boyne City and East Jordan, and visitors from Petoskey.

Grund Herald Andrew L. Bradford of Baldwin, was the principal speaker. He outlined the graod lodge progrum for the yeur, citing the edacationul program for sons and daughters of Odd Fellows und Rebekahs, the summer camp for needy boys and girls and the Blood Donors' Club, which has saved many lives.

L. Mearl Leach of Petoskey, president of the 4th district of Odd Fellows, comprising the northern counties of the lower peninsula, described the work enrried on in the district.

Short talks and assembly singing was followed by a supper served by the locnl lodge. Lee Sneathen and Walker Miles were in charge of the progran, Joe Troyer, H. C. Wilson, Joe Williams, Elwood Livingston, Fred Gill, Sims Baker, George Bergman, Walker Miles und Charles Howard arranged the supper.

MOTORISTS URGED TO BUY LICENSES

USUAL LAST-MINUTE RUSH MAY BE AVOIDED NOW

Fenton R. Bulow, Local Branch Manager, Announces Daily and Saturday Office Hours

A special appeal from Harry F. Kolly, secretary of state, urging residents of Churlevoix district to purchase 1940 automobile license plates at once, has been received by Fenton R. Bulow, manager of the local branch of the departoient of stute.

"Buy your license plates now," says Kelly, and you not only will be saving yourself the loss of time and inconvenience of standing in line, but you will be helping the state save money. We are equipped now to handle the work with our regulur staff. Rush periods require extra help, which costs the tuxpayers extra money.

Last year 1454 sets of license plates were issued in Charlevoix district, it was pointed out by Mr. Bulow. To date 139 1940 license plates have been issued, indicating that at least 1315 motor car owners of this district will have to make their way up to the license counter before March first, an average of 65 per working day.

There can be no extension of the license plate deadline after March 1, the legislature having passed an act to put a stop to tbe former practice.

"Those who haven't obtained new plates by March 1, will be unable to use their cars."

TWO COUNTY YOUTH WIN STATE AWARDS

EAST JORDAN BOYS TOP SEED SHOW COMPETITION

Curtis Nicloy and William Behling Winners at Michigan State College—Others Place at Show

(By B. C. Mellencamp)

The state seed show, held in connection with Farmers' Week ut Michigan State College, attracted a large number of potato exhibits. Competition was strong, as only district show winners displayed.

Two Charlevoix county Smith-Hughes students won the highest awards. Not alone this, but those two exhibits were placed in the open classes and competed against adults, which reflects even more credit to these two young students. Curtis Nicloy, East Jordan, won a blue ribbon on his beautiful peck of Russet Burbanks. Wm. Behling, Jr., Boyne City, duplicated this award with a peck of Kutahdins. Other winners included Elmer Hott, East Jordan, who won a second on a peck sample of Chippewas and fourth on Kutahdins. Lee Sneathen, Charlevoix, was given Awards of Merit on two samples nf Russet Rurals. Frunklin Sneathen likewise won an Award of Merit on a peck of Russet Rurals. Arthur Nicloy, East Jordan, won an Award of Merit on n peck of Russet Burbanks und Wm. Schroeder, Boyne City, won an Award of Merit on a peck of Katahdins.

In the 4-H Club competition, Albert Routley, Charlevoix, won a second award on a peck of Russet Rurals while Ronald Lyon, Iver Lyon and Albert McDonald won Awnrds of Merit.

Exhibitors from this county have ut last finished their competition for the year of 1939. They have given a splendid account of themselves in local, district, and now state-wide competition.

ODD FELLOWS DEFEAT MASONS AT CRIBBAGE

Won Fifth Contest of Series Monday Night by Margin of 215 Points

The Odd Fellows resumed their winning stride in the winter cribbage series Monday night, defeating the Masons by n wide margin in the fifth contest marking the half-way mark in the series.

With 7½ tables io play, the Odd Fellows turned in a team score of 13,478 to 13,263 for the Masons. The advantage of 215 points gave them a 571 lead for the series.

Fred Gill led the Odd Fellows with a card of 946, while Ray Ashdon was high for the Masons with 961.

The sixth contest will be held Monday evening, February 12, at the I. O. O. F. hall.

LAST TRIBUTE PAID DR. R. B. ARMSTRONG

OVER 400 ATTENDED FUNERAL SERVICES FRIDAY

Accommodations of Funeral Home and City Hall Community Room Taxed by Huge Throng

Last respects were paid Friday afternoon to Dr. Rnbert B. Armstrong, Charlevoix's beloved physician.

Attesting to the esteem in which he was held, was the attendance of over 400 persons representing all walks in life, those from home and from distaot points. With each person bidding this last farewell was probably the thought of some part Dr. Armstrong had played in their life; some crisis when his coming was anxiously awaited, some loved one he had saved, or some time when his jollity had driven gloom away.

To accommodato the large throng, seats were arranged and amplifying system installed in the community room of the city hall to cure for those who could not be admitted to the See Funeral Home. Members of the many organizations with which Dr. Armstrong was affiliated, including the Northern Michigan Medical Society, I. O. O. F., Kiwanis, Musons and Knights of Pythias, attended in a body. Seats were reserved ut the funeral home for fourteen physicians from neighboring cities. Business places were closed for an hour and at the schools a period of silence between 2 and 2:15 was muintained.

Acting as pall hearers were P. D. Campbell, M. A. Levinson, M. I. Ochs, A. L. Livingston, Harry A. Craig and Rollie L. Lewis.

Rev. G. R. Parker, pastor of the Congregational church, preached the sermon, touching on incidents in Dr. Armstrong's life and his personal greatness.

Dr. Armstrong's death brought a deep loss to this entire region and to persons who knew him throughout the country. Probably no individual could replace him in the personal regards of his friends.

BOY SCOUTS COMMEMORATE 30TH ANNIVERSARY

Nation-Wide Observance Scheduled for Week of February 8-14

"Scouting — the American Way", will he the theme of Boy Scout Week, February 8-14, commemorating the thirtieth anniversary of the founding of the Boy Scouts of America, to be opened at 10:30 p. m. Thursday with a nation-wide broadcast originating in Detroit over which President Roosevelt will speak from Washington and Dr. James E. West, chief Scout Executive, will be heard from Miami.

Throughout the Northern Michigan Scenic Trails Council, Scouts and Scouters, will purticipate in u week of activities to celebrate the thirtieth birthdny of the organization. The Scout "Good Turn" will probably be emphasized above all Scouting principals because it was a Boy Scout's service to an American business man, William D. Boyce, lost in a London fog three decades ago, that led to the founding of the Scout movement in the United States. The Scout, refusing a tip for helping Boyce find his way, introduced him to Robert S. S. Braden-Powell, founder of Scouting in England.

BIRTHDAY PARTIES NET RECORD FUND

FINE RESPONSE GIVEN INFANTILE PARALYSIS CAMPAIGN

Two Birthday Balls Held at St. James, County-Wide Party Conducted at The Argonne

Roy Winegarden of Boyne City, chairman of the Charlevoix county campaign for funds to fight infantile parnlysis, reports record success from parties held at The Argonne and at St. James.

Total proceeds from two birthday balls at St. James und the county-wide party at The Argonne, after expenses were deducted, nmounted to $123.14. This sum will be divided evenly, hulf going to the National Foundation and the other half remuining in the county to be dispensed in infantile paralysis aid by the newly-organized Charlevoix county chapter of the National Foundation.

Proceeds reported upon do not include contributions made to the "March of Dimes" campaign, results of which have not been completely compiled. Acknowledged also was n contribution of $10.20 from the Charlevoix school band from proceeds of a recent concert.

Thus Charlevoix county made another substantial contribution to the natioo-wide campaign conducted around celebrations honoring the birthday anniversary of President Roosevelt as a means of raising funds to fight polio. It was expected $1,500,000 would be provided as a result of the nation-wide cumpuign.

The celebration at The Argonne was one of the finest ever held, according to Mr. Winegarden. A fine program of entertainment was provided

Mr. Winegarden and city chairmen responsible for Charlevoix county's efforts, extend their uppreciation to the public for the fine support given.

RAYOERS DROP CONTEST TO JORDAN "5"

DEFEATED BY 31 TO 28 COUNT HERE FRIDAY NIGHT

Team Nosed Out by Last-Minute East Jordan Rally—Reserves Dropped 21 to 15 Decision

East Jordan staged a last minute spurt to nose out Charlevoix's Red Rayders in a thrilling basketball game here Friday night. The final score was 31 to 28.

The Rayders led by 4 points with but two minutes left to play and it looked like they were headed for their first victory of the season. With excitement at its highest pitch and both teams striving desperately to count, Antoine slipped behind the Rayders defense for two dog shots that evened the count. Bulow sank a long one for the lead and Crowell added a free toss for a 3-point margin.

The contest was a close one thruout. The score was knotted 4-all at the quarter, Bergman netting the two Charlevoix goals. East Jordan had a 16 to 13 advantage at the half and led by a margin of 1 point with the count 24 to 23 at the third intermission. Charlevoix scored 5 points in succession for a momentary lead which was wiped out by East Jordan's rally.

Bergman was high point man for Charlevoix with 11. Stevens followed closely with 9, McGhan scored 6 and Nowland 2. The team showed its best form of the season. Bulow and Isaman shared East Jordan scoring honors, the former with 9 and Isuman with 8.

Charlevoix's Rayder reserves were defeated for the third time in ten games, losing a 21 to 15 decision to the Jordanites. The Rayders outscored East Jordan 10 points to 4 in the initial period, but were completely out-classed in the second and third quarters. The count at the half stood Charlevoix 10, East Jordan 9 and at the third intermission Jordan led by a 17 to 11 margin. Both teams scored 4 points in the final period.

The Rayders have three more pre-tournament games. They play February 9th at Grayling, February 16th at Boyne City und return to their home court for the final contest with Harbor Springs on February 23rd.

MERCHANTS CAGE TEAM SPLITS ON TWO GAMES

Defeated at Boyne City; Win Over Petoskey Team Wednesday

The Charlevoix Merchants basketball team gained an even split in two court tilts last week. They lost 31 to 18 to the Boyne Independents at Boyne City last Tuesday evening, and defeated the Petoskey Merchants 36 to 34 here Wednesday night.

Boyne's Please-U Bakers sewed up the contest at Boyne with a last quarter splurge. Leading 19 to 18 with three minutes to play, Boyne rung up 12 points while holding Charlevoix scoreless. Charlevoix had won from Boyne in a previous contest.

Charlie Richardson led the Merchants to the close victory over Petoskey, scoring 17 of his team's points. The contest was close throughout, with neither team holding a commanding margin at any time.

Yeh! We're due for six more weeks of winter. Either the Groundhog saw his shadow last Friday or else he was blind, for the sun was shining its brightest in weeks. So on account of that, he's supposed to go back into his hole for another six weeks and we're supposed to keep coal handy.

John L. Lewis, CIO leader, revealed his true color by recent vicious slaps at President Roosevelt. When one stops a moment to reflect that the present Democratic administration leaned over backwards to strengthen Lewis' power and influence, his tactics show just what type of an ungrateful character he really is. Just because Lewis can't have everything his own way, he won't play any more and starts out slam-bang to harm those who have helped him. Stalin and Hitler are the same kind of fellows.

LANSING LETTER

By GENE ALLEMAN

Field Manager, Michigan Press Association

Just "where" is Michigan's $31,000,000 stnto deficit?

"Who" holds the bills?

How long can the state government continue to meet its obligntions with cash?

Auditor General Vernon J. Brown, in response to the above questions, presents to readers of the "Lansing Letter" a brief picture of how Michigan functions financially and how the present plight has developed.

"In the mind of the general public," states Mr. Brown, "the condition of the general fund of the state attracts most attention. However, the general fund is but one of 57 accounts into which the financial transactions of the state government are divided.

"These 57 accounts are actually required for the purpose of proper accounting. The number has not been

CENTRAL LAKE

Blaine Wilson has returned from a very profitable meeting of the Michigan Press Association at Lansing, and promises to give us a write-up of some of its doing in the Torch.

Mr. and Mrs. Tim Sommerville of Antrim, near Mancelona, were pleasant callers at the home of Homer Loper in Central Lake last Saturday, returning in the evening.

The condition of Mrs. Elias Burns remains about the same. Miss Agnes Dewey of Ellsworth is helping at the home for awhile. Mrs. Burns has been quite ill for some time.

Little Norine McGuire of Grand View, was taken to the hospital at Traverse City last week, as she had developed an abscess on the lungs. She had been brought home from the Pallister home, where she had been cared for in town, but had become worse.

The Doyle Morse twins, Dorothy and Doris, have been chosen cheer leaders for the Central Lake school basketball team. The Hopfer twins at Elk Rapids are cheer leaders there. Bellaire was winner in the tournament at the gymnasium Saturday evening.

The Central Lake Spelling Club was not very largely attended last Saturday evening at the Loper home on account of the tournament, but it is hoped to have a good attendance next Saturday evening. They are now using the Traverse City Eagle spelling list. Just a "spell up" was held last week. Mr. Loper's and Mr. Morse's side appear to be trailing. It looks as though they will have to make the cake for the supper at the end of the month. Miss Lucille Drew was the only young person present.

Relatives of James Dawson made a pleasant call on him Sunday, and reminded him he was 67 years of age. He was presented by Mrs. Gertrude Yettaw with a fine box of cherry chocolates, and by his wife with a fine cherry pie, that she is no novice at making. Callers were the Doyle Morse family of Central Lake, and the Edward Dawson family of Eastport. They are starting out right in February, as Mr. Dawson said, by using up the North Michigan cherries as fast as they can.

Friends of Fred Sweet of Jordan River will be pleased to know that he has improved very much in health since his attack of pneumonia. They say he can still shout as loud as ever, and nearly frightened Frank Sweet's horse into a conniption fit by yelling at him last week.

Melvin Bricker of Elmira is purchasing quite a supply of hardwood logs of William Farrel northwest of here, and will take them to the Bricker sawmill 6 miles west of Elmira. Mr. Hall of Traverse City, is doing some lumbering on the Phil Mudge place. Some lumbering is also being done in the Jordan Valley this winter and near Hitchcock. The logs are trucked to Muncelona.

Mrs. Minnie Gould of Jordan River has the sympathy of many friends in the loss of her husband, Earl Gould, which occurred recently. His death was caused by appendicitis. He was rushed to Petoskey hospital, but the appendix burst shortly after arriving there. He was a friend of the writer, we having stopped there while teaching at Jordan Valley. He had been farmer, mail carrier, township treasurer and township clerk, and a field worker on conservation.

G. A. Morse writes from Clearwater, Fla., that he is having a hard time keeping warm. C. H. Morse writes that it is terribly cold and rainy. Chas. Snyder sends word to forward his woolen jacket, and a wool blanket to cover up his feet with nights. He says they have no glass in the windows, just a screen, and that doesn't keep out the cold much. His wife says he never got cold feet while in Central Lake. The writer heard on the radio last week that it was at that time a register by the mercury at Jacksonville of 24 above zero. We went out and looked at a thermometer, and it showed 25 above. This was a record that we had never before observed. Looks like the earth is turned upside down, and that North Michigan is a winter resort as well as a summer resort, and that places south are the "last resort."

Mrs. Lucille Gibsop Corsaut of south of Central Lake spent the week end at the Ed. Yettaw home. Mr. and Mrs. Henry Yettaw of Ellsworth and Will of Central Lake, were Sunday visitors at the Yettaw home. Mrs. Henry Yettaw was a former pupil of the writer at Finlton.

Allen Aardema of Bay View attended the funeral Monday at East Jordan of Mrs. Rena Glass, who was a former resident of North Holland neighborhood, but had been living in Washington state.

Mr. and Mrs. Lee Osborne and children of Muscatine, Iowa, who have been spending a few weeks since Christmas with their mother, Mrs. Bertha Edwards at Bay View, left last week for their home. Mrs. Osborne was the former Margaret Edwards of Bay View.

John Edwards, who is on the police force at Detroit, arrived Sunday to spend a few days visiting with his mother, Bertha Edwards, at Bay View. Mrs. Edwards expects to return to Detroit with him, where she will spend the remainder of the winter.

Melvin Bricker, who is buying some logs on the William Farrel farm, was a caller here last week. His mother-in-law, Mrs. Crit White, was not so well Sunday. She suffered a stroke of paralysis a few years ago.

We acknowledge receipt by a friend, of statement of infantile paralysis fund. As of September 30, 1939, the receipts were $1,271,027. Michigan Department of Health received $12,900 and University, Ann Arbor $2,000. This answers one question as to accounting, which is good. But the other two: Why not take the offering under different environment, and why not leave all our offering in our own state where we have the best facilities, probably, of any in the world, for research? is unanswered.

Fruit men of the state have been congratulating themselves on our freedom from frost, and the hope that our cherries will bring a better price, on account of the freezing of fruit in the south. But wait. There is plenty of time yet for the weather to be so mild that cherry buds will come out too early and be frosted.

IRONTON

Paul Hanson entertained twenty-seven friends last Sunday.

The Ladies' Aid will meet Thursday afternoon with Mrs. J. C. Dissette.

Mrs. Clyde Ogden enjoyed the past week end with her sister in Grand Rapids.

Mr. and Mrs. J. C. Dissette and son Jimmie spent the past week end in Grand Rapids and Holland.

Mrs. Lewis Brown is able to be out again after several weeks being confined to her home with illness.

Elsa Bradley, our teacher, was an overnight guest last Tuesday of Annabelle Cunningham in Charlevoix.

Mrs. Nettie Huggard was a guest the past week end at the home of Mrs. Macy Prevost in Charlevoix.

The ferry is still running and if the weather does not get any colder it will make its regular run all winter.

Mr. and Mrs. Roy Meyers were dinner guests last Wednesday evening at the Arlo Wickersham home.

Mr. and Mrs. Roy Meyer became members of our church last Sunday morning. We extend a welcome to them.

Doan Ogden returned to his home in Romeo Tuesday, after spending several days with his parents, Mr. and Mrs. Clyde Ogden.

Mr. and Mrs. Ed. Cunningham were dinner guests Thursday at the home of their grandson "Donnie" Baumbach, in Charlevoix, celebrating his birthday anniversary.

Ralph Price, Mr. and Mrs. George Hanson and son Paul, went to Traverse City Monday. Paul re-entered the Munson Hospital for several weeks' medical treatment.

Mrs. Clyde Ogden entertained last Tuesday, Mmes. B. Saltonstall, L. Coulter, R. Withers, F. King, M. Jardine, L. Moore and S. Lewis, all of Charlevoix, with a pot luck luncheon. The afternoon was spent quilting on the Ladies' Aid quilt.

Mr. and Mrs. Ralph Price received a letter from "Don Stelle", one of our Sequanota residents, who now lives in Pasadena, Calif., that he is editing a syndicated movie forum in the city paper. He sent some very interesting copies and we extend our best wishes for success to "Don" in his new field of work.

Twenty-seven young people of the Christinn Endeavor of the Congregational church in Charlevoix enjoyed a sleigh ride to our village church Sunday evening, where they enjoyed eating evening lunch with our local young people. They enjoyed singing and also the Sunday lesson given by Rev. Parker. We would like to have them come again.

At a meeting of the Ironton Chamber of Commerce held at the home of Ralph Price Saturday evening, tentative plans were made for the annual get-together of the county club and others interested in county progress. It was pointed out that directly and indirectly, eighty per cent of the county income is derived from the resort business, and every effort should be made by citizens to foster this valuable asset. The date of the supper will be announced later. The next meeting will be at the home of George Hanson in two weeks. Their slogan is "For fish and fun, that's Ironton." The officers were re-elected: Wm. Sanderson president, Ralph Price secretary and treasurer. Committees will be announced later.

East Jordan Garden Club to Hear Paul R. Krone, Specialist in Floriculture

The Garden Club of East Jordan is sponsoring a very fine meeting on Monday night, February 12, promptly at 8 in the East Jordan city building. Paul R. Krone, specialist in floriculture, from the Michigan State College, will give an illustrated lecture on "Choice Plants for Home Gardens." In addition to this, he will discuss perennials, annuals and special flowers such as dahlias, gladiolas and tulips.

A most cordial invitation is extended to the public to attend this meeting and to enjoy this discussion. Mr. Krone has had many years of experience and training in floriculture. This topic is most timely because now is the season of the year when flower enthusiasts are making plans for the coming spring.

Remember that you are urged to attend and the date is Monday night, February 12th, in the East Jordan city building.

New Farm Account Year Starts on March First

The keeping of farm account records has been very popular and valuable to some fifty cooperators during the last year. The extension office has assisted each cooperator by giving complete instructions as to how to keep records and in taking the first inventory. Then, during the middle of the summer, a follow-up visit has been made to each cooperator in checking over all items and in bringing to the old cooperators a summary of the previous year's business. Then, at the end of the year sufficient time is spent with each cooperator in closing up the year's business so that we are sure that all items are included. It can be readily seen that such a supervision makes for a very accurate farm account record.

This year we will be glad to start ten new cooperators and, of course, we will take care of the applicants in the order of their requests. If you are interested in having a wonderful record of your farming operations, get in touch with your extension agent at once and have a place reserved for you in the program.

During the fore-part of March the 1939 books will be checked in. Expectations point to at least 40 completed books for the year. This means that 40 farmers will know all of the facts pertaining to their business. They will know how much money has been spent and how much has been received from the farm operations. In addition, this is broken down into different farm enterprises. Remember!. The most successful farmer is the one who keeps a farm account record as it reveals to him the status of each farm enterprise, and therefore, he is in a position to make proper adjustments.

WHY OUR NEW HOSPITALS REMAIN UNEQUIPPED, IDLE

Rising sales tax revenues—January, with $6,157,614, was the banner month since the state resorted to this levy—may mean that we shall escape curtailed school sessions and relief allotments, even though we do not make much headway in reducing past delicits.

Meanwhile, a dozen new hospital units, provided by PWA building program launched in 1936, stand idle and unequipped. For a decade previous Michigan's institutions—or lack of them—for the mentally sick, the crippled and the indigent ill were its shame.

Now the reason for our shame has shifted to the wanton disregard of plain economy measures which would have made available at least a part of the funds for equipping these badly-needed units.

Possibly the increased revenues now in sight will enable some of these buildings to be used by July 1. The taxpayer is not always unreasonable in his attitude toward what he feels to be unnecessary expenditures as many public officials would have you believe.

It was not a demand for an economy program which prevented appropriation of funds to put these institutions into service. It was a blind disregard of ordinary prudence and judicious planning for the adequate care of our less fortunate citizenry that has left these buildings idle.

We got federal aid to build them, out of a total of $450,000,000 federal funds sent here in the last five years, but we couldn't adjust our own load fairly. We need to be jerked up short to a realization of our own responsibilities in this matter. Following the old plan of letting people demand more and more from their government has never led anywhere but to greater waste and ultimate slavery to taxation.

LOCAL SKATERS TAKE HONORS AT PETOSKEY

Capped Three Titles in Novice Class Competition Saturday

Charlevoix skaters carried off several titles in the regionnl speed skating races conducted Saturday afternoon at Petoskey's winter carnival.

In the novice division, winners were: senior men, Ed. Raille; intermediates, Archie Livingston; juniors, Jerome Whitley; juveniles, William Russell in second place.

STATE FEEDING THIRTEEN MILLION NEW TROUT FRY

Preparations for Spring Plantings Assume Large Proportions

Fifty thousand baby brook trout, already nearly two months old, are being joined in Michigan fish hatcheries by nearly 13 million brook, brown and rainbow fry, now hatching.

Artificial light has given the 50,000 trout fry a two months' start in life. Trout fry hatch normally in January and early February. The early arrivals came from eggs purchased from a Rhode Island commercial hatchery which is successfully using artificial light to advance the time of spawning.

The fish division of the conservation department received 10,000 eggs as a gift from the Rhode Island hatchery more than a year ago and tried to buy 200,000 eggs for this winter's hatch but was supplied only 50,000. The first 10,000 held on to their two months' lead and attained nearly adult size by planting time last fall.

The state's hatcheries will be feeding 6,700,000 brook trout, 1,106,000 brown trout and 1,956,000 rainbow trout by mid-February. The total is slightly above that of a year ago.

DISTRICT HEALTH UNIT

Modification of Measles Now Possible

In District Health Unit No. 3, constituting the counties of Antrim, Charlevoix, Emmet and Otsego, there was a total of 519 cases of measles reported in 1939. These were subdivided as follows: Antrim county 330 cases, Charlevoix county 59 cases, Emmet county 84 cases, and Otsego county 76 cases. This case report was the highest since 1931 when we had 590 cases. Five deaths resulted from measles in 1939 — the highest number ever recorded for this district as far as our records show (since 1921).

Measles is one of the commonest diseases of childhood, one of the most communicable, and one of the most serious. Ten thousand deaths from measles in the United States is warning enough that this disease is by no means a trivial one. Parents who have the welfare of their children at heart will take every possible precaution to safeguard young children from exposure to this serious communicable disease. If, despite all precautions, a child is known to have been exposed to measles, parents should notify the doctor immediately. The doctor can prevent or modify the course of the disease if he reaches the child during the "incubation period" —the first ten days after exposure.

This disease is no longer regarded by the medical practitioner or the intelligent layman as one of the minor diseases of childhood from which the victim always and completely recovers. There is good reason to believe that disease of the vital organs, particularly the heart and kidneys, appearing later in life, can often be traced to the illness of infancy. Broncho-pneumonia and middle-ear disease may follow directly after a case of measles.

Till recently, however, it seemed virtually impossible to immunize against measles. Nor, lacking a more highly purified and concentrated product than is now available, can absolute assurance be offered. Nevertheless, scientific investigation has progressed sufficiently far to promise about 80 per cent immunity for as long as four weeks. In the presence of a measles epidemic, an attempt should be made to immunize every child under 10 years old.

An English physician reports that in a boys' school, convalescent adult serum was administered to 70 out of 85 who came down with an attack of measles. In some cases, the serum was given before the first symptoms of the disease appeared and in these the average period of fever was limited to 5.2 days. Others, receiving the serum shortly after the onset, averaged 6.5 days of fever. Untreated cases exhibited fever for an average of 8.2 days.

A Wisconsin worker has announced that the serum immunized 82 per cent of a group which had been exposed to measles.

Most promising is a new protein substance known as placental extract. The period of immunity conferred is still shorter than could be desired but there seems little doubt of the effectiveness of the preparation when administered prior to exposure. At least three is hope that measles may ultimately be placed in the category of smallpox and diphtheria — once deemed unavoidable, inexplicable and to be borne as philosophically as possible.

CLOTHES WASHER HAS NEW GADGETS

Motor driven pumps for emptying used water from the tub and centrifugal driers typify the new gadgets offered on washing machines. Studies of their efficiencies have led home economics extension specialists at Michigan State College to offer suggestions to those who might plan to make purchases.

Either or both of these devices probably will add to the cost of the machine, but the convenience and increased safety may repay this.

In studies by the federal bureau of home economics it was found that a power driven washing machine was purchased before other large pieces of electric equipment except in the southern states, lending importance to offering advice.

Centrifugal or spinner driers have outlet holes in a rotating cylinder. Water is whirled out of the holes until the clothes are damp-dry, removing more water than the power wringers and saving time. Recommendations are, however, that the wringer type machine may be entirely satisfactory if it is equipped with a safety feature that prevents fingers from being caught in the rollers. There should also be a safety catch within easy reach for instant release of the roller pressure.

Other points to scan in considering purchase of a machine include durability of construction, capacity, cost and quiet operation. Three types generally available include the cylinder, agitator and the vacuum type. With any selection, it is advisable to follow the manufacturer's directions for operation and care, the home economies specialists report.

Is America Safe from Attack?

We have a long and vulnerable coast line to defend. We are envied and hated by nations that desire certain of our possessions. The crux of our vulnerability is the Panama Canal. Without it, we could easily be crippled. Is it properly protected? If not, how long would it take to give it the protection it needs? Frazier Hunt, famous foreign correspondent and author, offers the result of an intensive study of the subject. Read the results of this study in his article. It appears in This Week, the magazine with Sunday's Detroit News.

Though no doubt existed, Alf Landon is on record as saying he will not be a candidate for the presidency this year.

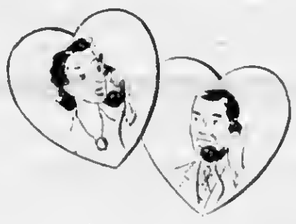
YOUR VOICE...YOUR BEST VALENTINE



Many people are likely to disagree with the old saying that "absence makes the heart grow fonder." They have found it quite the other way! Affections, like friendships, must be kept in repair. And the telephone is ready to help you. If you can't be with some special somebody on Valentine's Day, call her (or him) on the telephone. It will take your voice, a personal gift, across the miles. And there isn't a case on record where a telephoned Valentine has failed to make two hearts glow with added friendliness. Long Distance rates are lowest nights after 7 and on Sundays.

THIS WEEK IN WASHINGTON

By Your Congressman
Fred Bradley
11th District Michigan

The United States is not engaged physically in the foreign conflicts now waging in the European and Asiatic continents, but it is now dawning on the American conscience that our money has gone a long way in financing each of those wars.

Everybody wants to help Finland, and it is right that we should do everything we can—without violating the Neutrality Act.

But what about our helping Russia? That we are doing and have been doing for years by paying that country $35 an ounce for gold which it produces for less than the average cost of $12 per ounce. Likewise we are helping Japan finance its war of aggression against China. Japan sells us her gold at $1,120,000 per ton and can take in exchange scrap iron at less than $20 per ton, of which it received 180,538 tons in November. Likewise we are helping China finance its war with Japan by an Export-Import Bank loan of $20,000,000.

Another Inconsistency

U. S. Senator John G. Townsend, Deleware Republican, pointed out in a speech last week the administration's inconsisteney. Although it had gone out of its way to help China, and was trying to help Finland, he said, we still continued to buy gold and silver at a tremendous profit to those aggressor nations, which they could expend in conducting their wars of aggression.

Senator Townsend characterized our foreign policy under the New Deal as both dangerous and inconsistent. He might have added that such inconsistencies have also operated to make ineffective the domestic program to cure the evil of unemployment, millions of the taxpayers' money being spent to accomplish one objective, while still more millions were wasted to accomplish a conflicting effect.

While nothing practical can be done at this time about our foreign policy, it is well for the public to be acquainted and aroused to the effect of our gold buying inconsistencies as it concerns the welfare of both China and Finland—and our own nation.

Gold Reserves in Hiding

Back in 1929, before the depression, there was something like four billions of dollars in gold in this country. This sufficed to take care of what was considered prosperous business conditions. There had been little complaint about what is now referred to as the "velocity" or circulation of the medium of exchange. The currency changed hands rapidly. Then after three years of depression the price of gold was jumped from $20 to $35 an ounce. It became our policy to buy all that was offered, old gold as well as new production, domestic or foreign. There is now close to 18 billions of gold "in storage", much of it somewhere in the hills of Kentucky. It is against the law for citizens to have gold bullion in their possession.

Also there is an immense reserve of silver, more than we can use, it has been conceded by administration leaders, even while they argued in favor of a continuance of the buying practices.

Dangers for Inflation

Unused deposits in our banks resulting from gold acquisitions are, according to some economists, of no great consequence as long as they remain unused. These huge balances, however, constitute a potential claim upon our goods and services and because they are too large they possess great potential dangers for inflation.

It is to be regretted that many grave domestic questions such as this gold purchase policy are neglected until something happens to dramatize them as in the present case of China and Finland.

Financing Opponents

We are now placed in the unenviable position of helping finance opposed forces in the international conflicts. We loan money to one side and pay premium prices for the gold of the other.

On the other hand, since all currencies of the world are hooked up to our gold policy, we are told, we cannot refuse to buy Japanese and Russian gold without running the risk of wrecking all the currencies of the world and producing chaos.

This is a sad condition in which the nation finds itself because the present administration has preferred to follow political theory instead of common sense logic.

AT THE MOVIES

Son of Mohawk Stars in Film About Valley

When Darryl F. Zanuck selected Henry Fonda for the leading male role in his production of "Drums Along the Mohawk," 20th Century-Fox Technicolor film based on Walter D. Edmonds' great novel, it was for the solid reason that Fonda's talents were eminently suited to the part. What played only a minor part in Zanuck's selection was Fonda's Mohawk Valley heritage, which is a factor that would occur at once to the average fan to be most in Fonda's favor.

The name of Fonda belongs as much to New York state's beautiful Mohawk Valley as the name O'Brien does to Ireland.

Co-starred with Henry in "Drums Along the Mohawk" which opens Saturday, February 10, at the Palace Theatre, is Claudette Colbert, making her first appearance before the color cameras.

The Cry—"Geronimo!"—Struck Terror in West

When, in the furious border days of the latter Nineteenth Century, the cry "Geronimo!" was raised, there was no doubting the full meaning of the ominous warning. Muskets came down from their wall pegs, windows were barred and women and children hid—for the fiercest savage of them all, the revenging redskin whose no truce could satisfy was on the warpath.

This dramatic figure and his hectic times form the basis for Paramount's "Geronimo!" which opens Wednesday, February 14, at the Palace Theatre with Preston Foster, Ellen Drew, Andy Devine, Gene Lockhart, William Henry, Chief Thunder Cloud, Ralph Morgan, Marjorie Gateson, Kitty Kelly and others.

We cordially invite the public to our service and reading room.
"Spirit" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, February 11, 1940.
The Golden Text (John 4:24) is: "God is a Spirit: and they that worship him must worship him in spirit and in truth."
Among the Bible citations is this passage (John 6:63) "It is the spirit that quickeneth; the flesh profiteth nothing: the words that I speak unto you, they are spirit, and they are life."
Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 21): "If the disciple is advancing spiritually, he is striving to enter in. He constantly turns away from material sense, and looks towards the imperishable things of Spirit."

LANSING LETTER

(Continued from page 1)

taken from the advertising of a popular brand of pickles and relishes, but the figure represents actually the number of accounts required to be maintained.

General Fund

"The general fund holds popular attentinn because into it go the revennes from a large number of sources and out of it are paid the expenses of most of the large number of governmental agencies and functions.

"The "Lansing Letter" has asked me to define for its readers just what constitutes the general fund. Briefly, the general fund carries the expenses of all the various state departments, including contributions to education, public health, welfare and social aids, public safety and defense, conservation and recreation, the department of agriculture, grants to local units of government for various purposes, as well as payments to be made to the sinking funds for the retirement of bonds and the payment of interest thereon.

"In point of total receipts to and expenditures from, the general fund of course overshadows all the special funds. Total receipts to the general fund during the last fiscal year amounted to $93,768,056.02; the total expenditures from the general fund during the same period, including those expenses actually paid and those incurred but not paid at June 30, 1939, amounted to $117,483,273.57.

Point of Exhaustion

"Many people ask how the state can operate on a $31,000,000.00 deficiency.

"That, of course, can only be accomplished because funds other than the general fund carry substantial balances offsetting the overdrawn or deficiency balance in the general fund. Obviously, when the total of the deficiencies in the general fund and other funds having deficiencies equals the total of the balances contained in the funds having balances, then the cash resources of the state become exhausted.

"This vanishing point becomes dangerously close when total deficiencies reach the $32,000,000.00 level."

This concludes the auditor general's remarks.

Deficit to Grow?

Unless a combination of additional sales tax revenues and reduced liquor inventories come to the rescue, Michigan's $31,000,000 deficit is likely to grow during the next five months. (The state's fiscal year begins on July 1.

Faced with the alternative of calling a special session of the legislature to appropriate more welfare money, Governor Dickinson has decided to risk a paper deficit during the 1939-40 fiscal year and thus to permit welfare spending in excess of 1939 appropriations.

Only $2,000,000 will remain on March 1 from the $8,750,000 welfare appropriation. This is about $2,000,000 short of estimated needs from March 1 to June 30. If that sum is offset by a million dollars from a reduced liquor inventory and another million rising from sales tax revenues, then the state's deficit will stay at the $31,000,000 mark. Otherwise, it will keep climbing.

It was Murl DeFoe, liquor commissioner, who contended recently that present inventories were higher than they should be (and that buying orders were favoring a few distillers). The governor's decision is considered to be a tacit admission that DeFoe's judgment of the situation was right. (Fraok Murphy, when governor, did the same thing: liquor stocks were cut to squeeze out cash for relief.)

Where Taxes Go

The decade of 1930-40 just closed was one of business hard times.

State expenditures, however, will be $46,000,000 more than they were in 1930. Of this amount $40,500,000 constitute grants of aid to local units and only $5,500,000 is for administrative and operating costs. Out of the $40,500,000, a round $27,000,000 a year goes for new benefits, not provided 10 years ago, such as old age assistance, dependent children aid, help for blind, welfare relief and so on.

To handle the combination of local and state functions, the state's payroll during 1939 was $329,719 more than it was during the previous year. Compared with 1935, the state army of employees has increased 5,100. These are cold facts.

They afford a better understanding of the financial dilemma facing state officials today.

Shot Warns Hunter

Iron River—As he emerged into a road from the woods, Arvid Krans heard a shot, and then a bullet whizzing by his head. Down the road was a man poised to shoot again. One shot from Krans in the direction of the second hunter was enough to send the latter away frightened.

As February 12th once again brings the birthday of the man who freed our nation from the forces of revolution—who restored our union . . .

So today, we give thanks that we live in a country free from the horrors of war, where property and life are safe, where it's possible to win freedom from poverty thru hard work—and the help of a friendly bank.

Predicament!

Men came to the rescue of the buck deer, above, which had fallen into an old cellar. Apparently without food fur several days, the animal was discovered by Roy Curtis of Round Lake, Allegan county, who walked 10 miles in a blinding snowstorm to Allegan to enlist aid of conservation officers. A ramp was built of old lumber, sanded, and the buck bounded up it to disappear in the scrub oak nearby. Officers Harry Platts, Ed Clock and Harold Treat aided Curtis and W. Neal Hale, Plainview fire warden who took the above picture, in releasing the deer

voix's Red Rayder basketball team will make competition at the district tournament interesting in view of their fine showing against East Jordan last Friday night; an invitation may be extended the Michigan Golf League to hold the State Amateur tournament at the Belvedere course in July.

There's going to be two opportunities for one and all to get all the pancakes, snusage and coffee they want in the next two weeks, and free, at that. Curtis (Pat's) Market is staging such an attraction this Saturday, February 10, and Mart Block is making preparations for a "feed" the following Saturday, February 17.

The Northern Michigan Review comments on the perch fishing in Round lake and says "The run is expected to last about a week." Just to correct any wrong impression, we'll remark that perch fishing will last as long as there is ice to hold the fishermen up, which at this writing, appears to be a matter of minutes.

Haven't heard anyone complaining about the four days of nice weather that started last Friday. Temperature was well up near 40, high enough to settle the snow and thaw the roads down bare. As a matter of fact, nobody's complained about the kind of weather we've had all winter.

And speaking about weather, it just goes to show how short a person's memory is. Could hardly believe Rudy Pektul when he said there was far more ice in Lake Michigan now than on the same date a year ago. He ought to know, cause he flies over it several times a week on the Charlevoix - Beaver Island mail route. Rudy says he was able to land on Lake Charlevoix earlier this year and the same holds true for St. James harbor. With all the mild weather we've had, it hardly seems true.

Received a big, fat copy of The Miami Herald, published at Miami, Fla., and can't think of anyone else who might have sent it than Don Clothier. A front page item that interested me particularly was one stating the temperature within Miami was 33 to 36 degrees and in the citrus and vegetable areas outside Miami it was 27 to 34 degrees. The paper was dated January 28th. We sure have the laugh on those Charlevoixans who went south to keep warm.

As I predicted they would a couple weeks ago, Traverse City's chamber of commerce has raised a fund of $30,000 for resort and industrial promotion activities. It took them less than two weeks to get the necessary pledges, too. The name of James I. Morey, former well known local insurance agent, was prominently mentioned as a member of the committee on solicitation.

Kiwanis loyalty to a departed member was impressively expressed at a memorial program Tuesday night for Dr. Robert B. Armstrong. Under ordinary circumstances newspaper mention of a Kiwanis activity would be through the regular news columns, but inasmuch as I was privileged to attend this function and was so deeply impressed by the sincerity and outright feeling which prevailed, I feel it a duty to reserve its mention to this column which is my own. Gathered for the memorial program were associates of Dr. Armstrong in the medical profession and close intimate friends. Physicians who accounted their associations included Dr. B. J. Beuker of East Jordan, Dr. Dean C. Burns and Dr. B. B. Blum of Petoskey, Dr. G. B. Saltonstall and Dr. F. F. McMillan, the latter conducting the program. Dr. W. H. Parks of Petoskey, and Dr. Guy Conkle of Boyne City, were unable to attend. Speaking also were Miss Carrie Gelken, R. N., of Boyne City, L. P. Adams, a long-time and intimate friend, and Floyd A. Supp, Kiwanis president. A large photograph of Dr. Armstrong hung on the wall. It will be placed in Charlevoix Hospital as a permanent memorial. Dr. Armstrong's favorite Kiwanis songs were sung during the meeting. Dr. Armstrong was the only honorary life member of Charlevoix Kiwanis — a recognition bestowed two years ago. That in spirit he will always be present at Kiwanis meeting, I am certain.

DECEMBER SALES TAX COLLECTION SET NEW RECORD

The state board of tax administration has announced that sales taxes in December reached an all-time peak of $6,157,614.

"This is the largest monthly remittance to this department since the sales tax act took effect in 1933," Walter F. Reddy, managing director, said. "It is $721,004 above the Christmas month-in-1938."

COURIER PLANS PUBLICATION OF CITY DIRECTORY

Solicit Support of Business Interests for This Advertising Medium

The Courier has launched preliminary steps toward the publication of a Charlevoix city directory following the established principal used in larger cities of the country.

To accomplish this task, the services of an experienced directory man have been obtained to carry out the tremendous task of assembling the material required. Support of Charlevoix business interest is being solicited to finance the publication.

If published, the book will follow the same plan as established directories in Petoskey, Traverse City, Grand Rapids, Detroit and other cities of Michigan. It will contain a street list of all houses and business places, arranged numerically, an alphabetical list of all business places and residents of the city over 18 years of age, the names of all minor children, summer residents of the city and nearby resort colonies, giving their home addresses, and a list of all families on Charlevoix rural routes.

Financial support through advertisements of business interests is necessary for the reason the book is circulated without cost to each resident and to those having summer homes in this territory. The publication will advertise Charlevoix thruout the nation by being placed in libraries of directory firms.

FORMER LOCAL PHYSICIAN IS VICTIM OF PNEUMONIA

Dr. Allan M. Wilkinson Died February 2 at Hollywood, Calif.

Stricken with influenza which developed into pneumonia, Dr. A. M. Wilkinson, Hollywood, Calif., physician and vice crusader and former Charlevoix resident, died Friday, February 2nd.

At the time of the physician's death his wife, Mrs. Ada M. Blodgett Wilkinson, was confined to a private room a few doors away also suffering from influenza. Her condition was reported to be good.

Dr. Wilkinson was born in Atwood, Mich., 65 years ago. Educated in Charlevoix public schools, he was graduated from the School of Medicine in the University of Michigan in 1901. He began practice of medicine in Charlevoix and continued until outbreak of the World War when he enlisted with the rank of captain in the medical corps and served as eye, ear and nose specialist at Camp Harry J. Jones in Douglas, Ariz. Leaving the service at the end of the war he remained in Douglas until 1925, when he moved to Hollywood, where he continued as an eye, ear and nose specialist. In Hollywood, he was a fiery leader of reform, following a career begun in Charlevoix.

Besides his widow, Dr. Wilkinson leaves two sons, Dr. Allan Wilkinson and Frank B. Wilkinson; two daughters, Miss Hildegarde Wilkinson and Mrs. Earl Evans, all of Los Angeles; two brothers, James B. Wilkinson of Detroit, and Charles E. Wilkinson of Lansing.

LaBLANCE-LIVINGSTON WEDDING SOLEMNIZED FEB. 1 AT KALAMAZOO

Miss Laura Eberdean LaBlance of Kalamazoo, daughter of Mr. and Mrs. George LaBlance of Charlevoix, became the bride of Charles G. Livingston of Kalamazoo, son of Mr. and Mrs. G. R. Livingston of Detroit, on Thursday, February 1.

The ceremony was read at 7:30 Thursday evening in the rectory of St. Augustine church, Kalamazoo, by the Rev. J. R. Hackett, with a few intimate friends present.

The bride was attired in a street length frock of powder blue, with which she wore dusty rose accessories, and an orchid corsage. She was attended by her sister, Miss Mary Clare LaBlance, who wore a dusty rose costume and matching accessories. William Burke of Kalamazoo, was best man.

A reception was held at the new home of the bride and groom, on Wheaton avenue in Kalamazoo.

CHARLEVOIX COURIER

VOLUME 45 NUMBER 6 SUPPLEMENT THE CHARLEVOIX COURIER, WEDNESDAY, FEBRUARY 7, 1940 PAGES 1 TO 8 INCLUSIVE PRICE $2.00 PER YEAR

ANNUAL TAX SALE

STATE OF MICHIGAN, ss.
County of Charlevoix,

The Circuit Court for the County of Charlevoix in Chancery.

In the matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the March term of this Court, to be held at Charlevoix in the County of Charlevoix, State of Michigan, on the 4th day of March, A. D. 1940, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Charlevoix, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will psy the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall on the succeeding day, or before the close of the sale, be reoffered, and if, on such second offer or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Parm C. Gilbert, Circuit Judge, and the seal of said Circuit Court of Charlevoix County this 15th day of January, A. D. 1940.

PARM C. GILBERT,
Circuit Judge.

Countersigned,
Fenton R. Bulow, Clerk.

STATE OF MICHIGAN

In the Circuit Court for the County of Charlevoix in Chancery.

In the Matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Charlevoix, in Chancery:

Vernon J. Brown, Auditor General of the State of Michigan, respectfully shows unto the Court:

1. That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1933, as amended:

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned;

3. That extended separately in said schedule against such description of said lands thereln contained are (a) the total amount of delinquent, taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) fifty cents for expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses ao extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said achedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale thereof.

Wherefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesald taxes, interest, collection fee and charges nre valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as thereln extended;

b. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount decreed against the same, shall severally be sold as the law provides;

d. That your petitioner may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc.

Dated: January 9, 1940.

VERNON J. BROWN,
Auditor General of the State of Michigan, for and in behalf of said State.

COUNTY LAND SURVEY WILL BE MADE

CONTEMPLATED PROJECT WILL COVER ALL TOWNSHIPS

City and Rural Citizens Join in Move to Adjust Activities to Suit Proper Types of Soil

(By B. C. Mellencamp)

A most far reaching step was taken last Wednesday when the county land planning committee discussed the desirability of having an intensive land survey and inventory taken of Charlevoix county.

H. A. Berg, chairman of the State Land Planning Committee, very efficiently outlined the objectives and results that might be expected from taking an inventory of land and its proper uses. This survey will doubtless start the latter part of this month and will continue for a period of eight or nine months.

With the assistance of township committeemen, every township will be surveyed and recommendations made to the county committee as to adjustments and activities that will make for n more prosperous agriculture. It is too early yet to announce just what information may be included in this survey but there is no doubt but what all factors associated with the welfare of each township and the county in general will be stressed. The cooperatiun of all organizations and associations throughout the county has been promised.

The discussion brought forth many suggestions and recommendations. The audience entered into the spirit of the occasion by adding comments throughout the session.

At the close of the session it was decided to elect a permanent county chairman, vice chairman, and secretary. This resulted in the election of Howard Stephans, Charlevoix, as county chairman; Charles Shepard, Boyne City, as vice chairman, and County Agent Mellencamp as secretary. Announcement was made by Mr. Berg that he had authorized the transfer of Winfield Harrison, Gaylord, tu this cuunty to act as assistant extension agent during the period of this survey. Mr. Harrison will arrive on February 15th and will make his services available through the extension office.

DEDICATE NEW CITY HALL ON MARCH 4TH

"OPEN HOUSE" AND HALF-HOUR PROGRAM PLANNED

Local Citizens Will be Invited to Visit New Building, Electric and Sewage Disposal Plants

Following plans formulated Tuesday night by the city council, Charlevoix citizens will be invited and given the opportunity to inspect the new city hall, electric light plant addition and sewage disposal plant on Monday, March 4th.

In view of the fact a great majority of local citizens will have the occasion to visit the city hall for the spring primary election on this day, city officials chose the date for an "open house" and formal dedication of these several recently completed civic projects. While details are still in the stage of formation, it is anticipated a half-hour dedication program will be held, with an official from the Public Works Administration, cosponsor with the city of these projects, and city officials as speakers.

Transportation will be provided for those desiring to visit the sewage disposal plant and the Ferry avenue municipal light plant which was enlarged and new equipment instulled during an extensive improvement program completed last spring. While the new city hall, acknowledge to be one of the finest in northern Michigan, has been occupied for several months, furniture completing the project was just reecntly installed.

Full details uf the day's activities will be announced when available.

Spring Primary Election Date Changed to Mar. 4

Amended 1939 Election Law Setting Feb. 19, Failed to Apply to Certain Cities

Charlevoix's Spring Primary Election will he held Monday, March 4th, instead of Monday, February 19th, as previously announced by news items and through legal election and registration notices published in this paper.

Change to the March 4th date, after notices have been printed and posted and ballots prepared hy city officials, resulted from failure of the 1939 legislature to include all cities in amending the then existing election laws to advance date of the primary election from the first Monday in March to the third Monday in February.

Under the amended law, date of the primary election was set for the third Monday in February for all cities, villages and townships excepting those whose charter set the date of holding elections. It is apparent the amended law was designed to cover all cities, hut sections of the old law governing some classes of cities were not nmended, thus still remain law.

While many Michigan cities, including those in this county, will hold their primary election on February 19th, local city officials, following an opinion rendered hy the Michigan Municipal League following information from Attorney General Thomas Read, decided an election held other than on March 4th, would be illegal.

Thus new notices of the March 4th date have been posted and will also appear in print in this week's edition of this publication.

LOCAL BOXER ADVANCES TO STATE GLOVE FINALS

Carries Northern Michigan Colors to Competition in Grand Rapids

Interest of Charlevoix and northern Michigan boxing fans is centered this week end at Grand Rapids, where Oliver Duplessis, local lightweight, who survived Golden Gloves competition at Boyne City, Grayling and Bay City, is competing in the state finals.

Duplessis' second year of boxing has been marked by n steady string of suecesses. He won at Boyne City with three knockouts and a default, floored two opponents at Grayling, and scored one knockout and was awarded a technical knockout in the semi-finals at Bay City. He decisioned Leo Cerwin, Bay City contender, and floored Bernard Roznowski of Alpena, in one minute and 25 seconds at Bay City.

Duplessis and trainer, Joe Szymankiewicz of the WPA recreational staff, left Thursday for Grand Rapids, where the state finals run through Thursday and Friday.

Before leaving, the youth expressed deep appreciation for the support of local boxing fans for financial support which has enabled him to go through the several tournaments.

ODD FELLOWS AGAIN WIN CRIBBAGE CONTEST

Won Sixth of Series Monday Night by Margin of 201 Points

The Odd Fellows continued their winning stride in the winter cribbage series Monday night, defeating the Masons by a wide margin in the sixth contest.

With 6½ tables participating, the Odd Fellows turned in a team score of 11,847 to 11,646 for the Masons. The advantage of 201 points gave them a lead of 772 for the series.

Elwood Livingston led the Odd Fellows with a card of 942, while W. H. Mayne was high for the Masons with 947.

The seventh contest of the series will be played Monday evening, February 19, at the Masonic temple.

FEBRUARY STATE LAND SALE TO BE POSTPONED

Date Will be Announced Following Completion of Land Listing

County Treasurer Lillis M. Flanders has received word that the so-called Scavenger Sale, by the Lands Division, Department of Conservation, for 1935 and prior taxes which was taken over by the state, November 3, 1939, will not be held in Charlevoix county in February as planned, but will be held some time later in the spring or early summer.

As soon as a list can be prepared une will be mailed to the conservation officers and the county treasurer and anyone interested can look over the list.

The owner may buy back his property by paying 25 per cent of the back taxes and spreading it over a period of time paying on the installment plan, but if a disinterested party buys the land the lowest possible bid that can he accepted is 25 per cent of the 1938 assessed valuation of the property and this must be paid in cash within twenty-four hours, and thirty days given for the owner to vacate the property or pay the new owner what he has paid for the land at the sale.

NATIONAL WILD LIFE WEEK IS MARCH 17-23

Michigan Conservation Groups Planning Appropriate Observance

Conservation clubs throughout Michigan will celebrate National Wildlife Restoration Week, March 17-23, with local meetings and banquets, Harry Gaines, secretary of Michigan United Conservation Clubs, said today. There will be no statewide conservation club conventions during the week.

Statewide, however, will be the concerted wildlife stamp sale in which Michigan, with Pennsylvania, last year led the nation. Advance sale of wildlife seals, which finance wildlife restoration activity in thousands of communities, is now under way.

DISTRICT SUPERVISOR CHOOSE CENSUS TAKERS

Applications Should Not be Sent to Offices in Washington

Selection of enumerators for the population census which commences on April 1 will be made by the district census supervisors, whose offices are already opened throughout Michigan, and not through the Washington office of Senator Prentiss M. Brown, he announced today.

In a letter to the Census Area Managers, Senator Brown pointed out that with Congress in session, it would be physically impossible for his limited staff to handle the applications for some 5000 enumerators who will take the census in the state.

"When I made my recommendations for supervisors last December, I selected persons whom I believed competent to pick qualified enumerators and I have confidence in their judgment" the Senator said.

RAYDERS LOSE TO GRAYLING QUINTET

DROPPED 27 TO 25 DECISION THERE FRIDAY NIGHT

Close Contest Went Into Over-Time Period—Play Friday at Boyne; Harbor Here Next Week

Grayling nosed out Charlevoix's Red Rayders in an overtime period at Grayling last Friday night to win a 27 to 25 victory.

Inability to locate the hoop for either goals or free throws cost Charlevoix what should have been their first win of the season. They bungled 10 gift shots in the first half and missed three times as many tries at goals.

The contest was close throughout, Grayling led 4 to 1 at the quarter and 11 to 7 at the half. Charlevoix closed the breach in the third period by out-scoring Grayling 12 points to 7 and as the period closed they were on the long end of a 19 to 18 count. Grayling managed one more point than the Rayders in the final stanza to close the regular playing period with the count knotted 24-all. In the over-time period, Charlevoix was limited to a single free toss, while Grayling netted a goal and gift shot for 3 points.

Bergman and Carey shared scoring honors for Charlevoix, the former with 8 points and the latter with 7. Stevens scored 5, McGhan 4 and Nowland 1. Deckrow put on a one-man show for Grayling, scoring 17 of his team's 27 points.

The Rayders have two more pre-tournament contests. They play at Boyne City on Friday evening of this week and return to their home hardwood for their final game with Harbor Springs on February 23rd. While the team has been slowly improving in form, they have so far failed to win a contest, a most unusual circumstance as far as Charlevoix basketball teams go. The lack of victories has already set a record.

ANNUAL PING PONG TOURNEY WILL BEGIN TONIGHT

Event at School Gymnasium Scheduled Wednesday and Thursday

Play in the annual ping pong tournament sponsored by the WPA recreational department, is scheduled to open tonight (Wednesday) at the school gymnasium.

If interest in the first tournament held last winter may be taken as an indication, a large entry may be expected for this event. The tournament will be concluded Thursday evening, February 15.

FARMER-MERCHANT BANQUET SUCCESS

OVER SIXTY ATTENDED AFFAIR AT PENINSULA GRANGE

Objectives and Benefits of Federal Farm Program Outlined Before Annual Gathering

The farmer-businessman banquet and program held at the Peninsula Grange on Thursday evening, February 8, was greatly enjoyed by a fine attendance of over 60 people.

Various professional and business men representing Boyne City, Charlevoix, and East Jordan were guests of the County Soil Conservation township committeemen. This was the second year in which the city and rural people assembled together for the purpose of discussing the objectives and benefits of the farm program.

An excellent discussion of the objectives was lead by Cliff W. Wing, district fieldman. He outlined the fundamental purposes of the Agricultural Conservation program, and pointed out that after only 100 years of extensive cultivation, millions of acres of cropland have become depleted and seriously damaged. He stated that in order to have effective soil conservation there must be crop acreage adjustments. Mr. Wing clearly indicated the methods being used to bring about this adjustment thru soil-depleting acreage allotments.

A splendid banquet was served at 7:30 by the ladies of the Peninsula Grange. Following the banquet a few introductory remarks were made by Walter H. Henley, county chairman, who introduced Geo. C. Ferris as the program chairman. Juanita and Shirley Middleton entertained with special song and dance numbers. Charles D. Shepard, member of the county committee, assisted by Mrs. Shepard and Carl Prohaska, in a very clever skit, clearly illustrated the need of the farm program.

It was felt by all those present that a meeting of this type should be planned for the future, where the farmers and their city friends might get together to discuss their related problems.

TRI-COUNTY FARM BUREAU MEETING MARCH 1

Annual Gathering to be Held at Marion Center Grange Hall

C. B. Carey, district representative of the Michigan State Farm Bureau, has announced that the annual meeting of the Tri-County Farm Bureau will be held Friday, March 1, at the Marion Center grange hall.

Speakers for the event will be J. F. Yaeger, director of the membership relations department of the Michigan State Farm Bureau, and Stanley Powell, legislative representative of the Michigan State Farm Bureau, who is also an active grange leader.

This meeting is not limited to farm bureau members only, but grangers of all three counties are urged to attend also. Dinner will be served at noon by the ladies of the Marion Center grange.

GARDEN CLUB ENTERTAINED HOME OF MRS. GLENN S. SEE

The Charlevoix Garden Club met February 6th at the home of Mrs. Glenn S. See. The lesson for the meeting, "Trees," was interestingly presented by Mrs. Arthur Ranger.

The next meeting is scheduled for February 24th at the home of Mrs. Oakley Hammond. Mrs. Glenn See will present the lesson on "Cactus."

SHOT AT RANDOM

By Ken Usher

Yeh! The spring primary election is going to be held March 4th instead of February 19th as previously announced. To tell you truthfully, I don't believe people are going to vote any different March 4th than they would've February 19th, but then, things have to be legal, you know.

Glad to see "Gus" Fochtman back on his job at the Charlevoix Oil Co. Sort of completes the customary scenery around that neck of the woods.

It is certainly encouraging to note how seriously Presque Isle county sportsmen take their conservation. At a recent meeting held at Posen, nearly 600 sportsmen gathered to discuss ways and means of bettering hunting and fishing in their district. What a wonderful thing it would be if Charlevoix county sportsmen's organizations got together under one roof occasionally to talk over their problems. They are common problems—of vital interest to everyone in Charlevoix county.

"Ski" Marshall, in his St. Johns Republican, calls the Conservation Department threat to ask legislation refusing a hunting license to sportsmen failing to make game kill reports "Bureaucratic blurp which makes us see red." Some sportsmen will agree

LANSING LETTER

Field Manager, Michigan Press Association

The extent to which the present state administration is behind the Vandenberg-for-President campaign is shown by the recent activity of Governor Dickinson's private secretary, Leslie Butler.

Butler, like Miller Dunckel, the state treasurer, was active in the Michigan Young Republicans' Club. Now at the bidding of Howard Lawrence of Grand Rapids, who is Vandenberg's Michigan chairman, he is dividing his time between the governor's offices and Vandenberg promotion, the latter taking him away frequently on out-of-state trips.

Should the Republican presidential nomination go to Vandenberg, then Secretary of State Harry F. Kelly of Detroit may get the senator's blessing as a candidate for the United States senate. Kelly, a Roman Catholic and World War veteran, has

Callers at the Ed. Gregory home the past week were Mr. and Mrs. Eli Swanson from Charlevoix, and Mr. and Mrs. Bill Parsons and son.

The regular meeting of the Barnard Grange is this Friday, February 16th, and they are having a valentine box, so let's all try and remember our valentines.

The Inwood Ladies' Aid met with Mrs. Ed. Gregory last week Wednesday. There were 16 members present and one visitor. After the regular business meeting a lovely supper was served by the hostess. Mrs. Orville Hilton will entertain the Aid next time, February 21.

The card party given at the Barnard Grange hall last Saturday night was enjoyed by Grangers and families. The party was sponsored by Mrs. Orton VanDusen and her daughter, Mrs. Clarence Murray. There were 70 or more present. Prizes were given to Mrs. Medrick Waffle and Guy Stutzman as high winners, and Mrs. John Fratrick Jr. and Ronald Lyons got the "boobys." Afterward light refreshments were served in the basement and the remainder of the evening was spent in dancing and visiting.

BEAVER ISLAND

LeRoy Allers was a business caller here last Monday.

Mike Cull went to Charlevoix Wednesday on business, returning Friday.

R. Gregory and Gene Kerchinski, Charlevoix, were callers on the island Monday.

Archie Lafreniere and James P. Gallagher spent a few days in Charlevoix this week.

Mrs. A. E. Gallagher and son Emerald arrived home last Monday after spending two months with relatives in Charlevoix.

James H. Gallagher and son Earl, W. J. Gallagher and son Norman, went to Charlevoix last Monday to meet the body of their mother, Mrs. W. J. Gallagher Sr., who died in Chicago February 2nd.

Passengers on the plane coming to the island were W. J. Gallagher, Archie Lafreniere, Mrs. M. J. McCann, James P. Gallagher, Vernon Lafreniere, Mrs. H. Aultman and Frances Connaghan, who has spent the last few months in St. Joseph with her sister, Mrs. Wm. Bennett.

ACCURACY

There are several factors of vital importance in maintaining the high quality of Michigan's telephone service. One is the experienced skill of the Western Electric Company, manufacturing department of the Bell System. Another is the constant research of the Bell Telephone Laboratories. Of even greater importance is the highly trained group of Michigan men and women who assume a personal responsibility in seeing that your telephone message goes . . . swiftly and dependably . . . straight to the mark.

Many Protest CCC Cuts

The popularity of the Civilian Conservation Camps is attested by the numerous letters and telegrams from the district, protesting any reduction in the number of camps.

For my part I have believed and continue to believe that the CCC has been one of the few desirable New Deal innovations. The replanting program, forest fire protection and other conservation work has contributed something to the present and will leave to future generations some benefits to offset a part of the national debt handed down to them. Right now the government is spending $1 for every 55 cents taken in as revenue. The nation is scraping the bottom of the legal debt limit.

The situation is this; the CCC appropriation for the present year is $295,000,000, enough to support 1500 camps, of 200 men each; the President has recommended for 1941 an appropriation of $230,000,000 to provide for 1227 camps. This means a reduction of approximately 18 per cent, or the eliminntion of less than one-fifth of the existing camps. There has been no official designation of those to be abandoned, I was informed by James McEntee, acting director. Yet the telegrams indicate that every community has been made fearful that the camps nearest them have been slated for the slash. Such is not a fact. Elimination will include only those whose program is nearest completion and where the least amount of damage to the entire program will result. And after all, if we must reforest, why not put out own unemployed woodsmen to work on it. I am working on it.

Youths and Communists

The Washington rally of the American Youth Congress will have ended by the time this is read. But somehow I suspect that we are going to hear about that meeting for some time to come.

The AYC pilgrimage made a lot of noise and their meetings, in government auditoriums, were addressed by the higher-ups in the New Deal administration, no less than Attorney General Jackson and President Roosevelt himself. And, of course the First Lady was prominent in the program.

It will be recalled that it was a branch of the AYC that early this year refused to condemn Russia for its invasion of Finland. The AYC, as a matter of fnct, has been pointed to by some as Russia's first line of defense in the U. S. A. Among its leaders are several who are leaders in the Communist movement.

Yes, more will be heard about this later. Tolerance and the Bill of Rights is one thing; but sponsoring a group that proclaims its preference for foreign governments is quite another matter. Especially when that government stands convicted in the court of world opinion as a cold-blooded aggressor.

Incidentally the pilgrimage to Washington was to bludgeon Congress into voting a large appropriation. Senator Murray has proposed a bill to make available, without charge, to young persons (between 16 and 25 years of age) the services of vocational advisors. The bill, calling for $500,000,000, also makes provision for vocational training, academic work projects for college students and a system of federal scholarships. Almost like Russia!

Would Label Fish

The House committee on Merchant Marine and Fisheries, of which I am a member, is considering a bill to regulate the commercial fishing industry. The measure had its origin in Massachusetts, where the problems confronting the industry are somewhat different than on the Great Lakes.

Under the bill, which was introduced by Rep. John McCormack, fish and fishery products before or during processing for interstate and foreign commerce would be subject to inspection by the Bureau of Fisheries. Several of those engaged in the business in northern Michigan wrote to object to more federal usurpation of powers now left with the separate states. A few have stated that it might throw out some of the unhealthful fish that now find its way to market.

The bill is still in committee with the prospect that if it is reported out, the inspection will be made to apply only to frozen fish.

The hearing developed several problems confronting the commercial fishing industry. There is Canadian and other foreign competition, increased many times under the reciprocal trade agreements. Then the supply of some species is being depleted.

Other members of the committee have agreed with me that the situation calls for study and investigation and I am now considering the advisibility of a resolution to authorize such a move, to be undertaken possibly early in 1941. This seems preferable to accepting federal regulation now which may not solve the present difficulties.

Science studies strange possibilities of human hibernation. Weird tale of aging Vermont men and women deliberately frozen through the winter so they would not need to eat and thawed out in the spring in time to work on the early plantiog, links up with the new, wholly scientific freezing treatment for cancer and other experiments on how much cold we can stand and benefit hy it. A very large crowd of people attended the funeral of Gerrit Postmus Jr., Tuesday afternoon. Gerrit was fatally injured in the car accident last week Saturday evening, while he was coasting with his sled down the driveway which was banked with snow, making it impossible for a car to see him.

CENTRAL LAKE

Warm, though icy roads for church attendance last Sunday.

The Congregational church is fortunate in having veterans of the service, Reverenda Wall and Jackson, to preach on alternate Sundays, Rev. Jackson last Sunday.

The Menonite church of Mancelona will be the meeting place next Sunday of the Young People's conference. It was held last Sunday at Petoskey. About a hundred, mostly young people, attended.

There were 16 people present at Jordan River Sunday school last Sunday. Batterbee girls sang two songs and Rev. Harry Batterbee taught the Young People's class.

Miss Bernadino Brown, secretary at Jordan River Sunday school, reports Mrs. Crit White better, and that fruit and flowers were given to several people who were ill, and visits made to them by the young people. This is practical Christianity.

One of the best Young People's conferences was held at the Petoskey Menonite church last Sunday. Rev. Mitchel and family of Mancelona and young people attended. Rev. Harry Batterbee and girls of Green River, Rev. Bridges and young folks of Bliss, Rev. Madson of East Jordan and young people, and Rev. Surbrook of Petoskey and young people, also attended. Some fine papers were read and songs rendered by older and young people. We noticed Miss Evida Donaldson of Mancelona read a paper, Miss Ruth Slate of East Jordan had a fine solo with guitar accompaniment. Mrs. Mitchel and young people of Mancelona sang in a quartet, as did also a quartet from Petoskey and others from other places. Two young men from Petoskey and East Jordan read some interesting papers, one of which particularly stressed injurious effects of tobacco, liquor, card playing, dancing and movies, and cosmetics. He said, "If cigarettes used were placed together, end to end, they would reach to Mars. Money used for church work is a half million dollars, while for tobacco one and a half billion, and for liquor two and a half billion.

Rev. Batterbee and ye correspondent called on Rev. Weaver and found him much improved, though still in bed. He has had but few callers, one from Rev. Kerli, district president of American Sunday School Union of Cleveland, Ohio, and Mr. Hemingway of Boyne City. He has written but three letters since he was taken ill in December. Mrs. Weaver is about the same. Patricia is home from Kalamazoo Normal, and Richard will graduate at Houghton this spring. All are urged to write cards to Rev. and Mrs. Weaver.

The heavy fall of snow Monday morning looks as though the ground hog knew what is he was doing all right.

Miss Eileen Johnson is back to Central Lake from Central Normal, Mt. Pleasant, and will not attend any more this year. She has been visiting at the Gerald Telgenhoff home, Bay View.

Miss Elaine Empey, who has been stopping at the Gerald Telgenhoff home, Bay View, and attending high school at Central Lake, returned to her home at Norwood last week, and will not attend school any more this season.

Old Torch lake froze over last Thursday and fishing shanties are now located on the lake, and doing business again. There will soon be a chance to put up some ice again for which the lake is noted.

The Edgar Doer family of Mancelona, we understand, are resorting at Mancelona for awhile until it gets a little warmer in Florida. C. H. Morse, writing from Palm Bay, says dead fish which were frozen, were washed up on the beach, were killed by the late frost there, as well as 500 head of cattle on a ranch without shelter. Robins and other birds that go south were frozen to death. Vegetables will not be planted in some places they said as they would not grow, any more than ours would grow in winter.

Mrs. Elizabeth Mathers, 84 years old, had her birthday on Lincoln's birthday this week. She is probably one of the oldest settlers of this place. She lives all alone at her home near the town hall.

Eldon Telgenhoff has sold his team to Percy Empey of Norwooy, and Percy has sold his to Harris Sage.

John Edwards is leaving for Detroit this week, after a short visit with his mother at Bay View.

Central Lake has organized a volley ball team, and now both old and young are having lots of fun. It meets Tuesday evenings.

Mrs. Oscar Harter visited Friday at the Harry Mason bome and attended prayer meeting in the evening. Mr. DeHaan and children were present, but Mrs. DeHaan has gone to Albany, New York, to see n sick brother.

Homer Loper's side in the spelling bee lost out again last Saturday night. Mrs. Harter and Mrs. John James pronounced the words, also Dwight Bannister. Guess Dwight, Mrs. James and Mrs. Homer Loper were the best spellers, although Blaine Wilson, editor of the Torch, came out also with flying colors.

Ed. Vandenberg transacted business in the Bay View neighborhood last week, and sold some of his wood from where he lives in Banks township. Edward Dawson got a load there last week. Wood is selling well this year.

Sydney Swift and son Harold have been doing some finishing work to the interior of their house on east side of Intermediate.

Louisello Brothers have been doing good business in selling wood off the Jackson farm on the east side of Intermediate. Saturday they delivered 20 cords in three hours with their car and trailer.

Moses King has returned from a visit to his son Ralph, who was married at Grand Rapids recently to a girl of that city. Ralph has a good position in a cabinet shop there.

Mr. and Mrs. Lloyd Ward, recently married here, have gone to Detroit, where Mr. Ward has employment.

Mr. King, chairman of Central Lake school board, tells us that they have engaged Mr. Childs, former principal, as superintendent of the high school here for next year. Mr. Alexander resigned. A Mr. Strous, principal at Bellaire, was another of the applicants.

PAYMENT OF SOCIAL SECURITY BENEFITS GIVEN EXPLANATION

The revised old-age and survivors inaurance program provides for lump-sum death payments under certain circumstances.

If a wage earner who was insured dies after January 1, 1940, and leaves no survivors entitled to a monthly benefit at that time, a lump-sum death payment may be made to the widow or widower or children or parents. It must be remembered that when an insured worker dies leaving a widow who is then 65 years old or over or a younger widow with minor children in her care, she will receive monthly benefits at once, and therefore will not receive the lump-sum death payment. If the fully insured worker leaves no widow or child, but does leave parents who are then over 65 years of age, and they were dependent upon him for support at the time of his death, they will receive regular monthly benefits, and therefore no lump-sum death payment will be made.

If there is no relative entitled to monthly benefits, a lump-sum death payment of not more than 6 times the monthly benefit may be made to certain relatives or to the person paying the funeral expenses. Example: A young woman who had been working in a store for several years dies, leaving a husband as the sole survivor. It is found that her basic monthly benefit would amount to $20. Therefore, the widower would receive one check from the government for $120 (six times $20).

CONTINENTAL OIL CO. USES NEWSPAPER ADS

This Type Advertising Largest Item in Budget for 1940

"Newspaper advertising to assist the local bulk plant and service station operator constitutes by far the greatest single item in Continental Oil Company's 1940 advertising budget," A. J. Rabe, Continental advertising manager, said today.

"Continental's entire campaign is designed this year to help the local distributor of Conoco products to increase his business.

"Although the campaign will include almost every kind of successful advertising medium, our unusually successful marketing record last year, when newspapers formed the backbone of our campaign, was largely responsible for the bulk of our very large budget being spent for newspaper advertising.

"Small town newspapers, incidentally, will share in this plan as extensively as the larger metropolitan dailies. The campaign will inellude more than 1,300 papers throughout the United States and is expected to reach more than 33,000,000 readers.

FARMERS ARE WARNED OF CHICK SALESMEN

"Promises of Unknowns Don't Fill Egg Cartons," Officials Say

Ghb promises made by unknown chick salesmen will never fill many egg cartons, warns Ray Conolly, field manager of the Michigan Poultry Improvement association which has headquarters at Michigan State College.

Poultrymen in the state soon will be in the market for approximately 20 million baby chicks, a field for sales that has been attracting more and more unreliable salesmen whose tactics arouse the ire of Manager Conolly.

He'd like to warn every Michigan flock operator to beware of strangers, especially those who offer "double star" or "triple star" or "superlor" chicks from stuck with all high pedigrees that "will lay up to 300 eggs in a year."

Egg production is an inherited characteristic, therefore the breeding of the stock is more essential than promises of salesmen. Beware, says Conolly, of unwritten offers of free flock service, free culling, gifts of free chicks with remarkable breeding or an offer to install brooding equipment at cost or without down payment.

"Most of Michigan's reliable hatcherymen do not have salesmen on the road. If they do, the representatives are fully authorized as dealers in the community in which they work," Conolly warns.

"Reliable salesmen do not make rash promises. The best protection for the poultryman is to have written statements, signed by the salesman and to keep copies of the order, price list and catalog. This can help in ridding the state of inferior chicks along with the inferior salesmen."

EMPLOYERS MUST GIVE EMPLOYEES A WAGE RECEIPT

Employers are now required by law to give their employee receipts for the money taken out of their wages for old-age and survivors insurance taxes, according to Sidney Laurens, manager uf the social security board field office at Traverse City. This new requirement of the Sucial Security Act, he explained, went into effect the first uf this year.

STRAITS FERRY FLEET WILL UNDERGO REPAIR

Cotracts Awarded for Work on Three of State's Auto Ferries

Michigan's floating bridge across the Mackinac Straits—the state-owned ferry boats—has been approved for repair by the state administrative board at the request of State Highway Commissioner Murray D. Van Wagoner.

The effects of carrying 280,243 vehicles and 478,850 passengers last year are to be met with repair contracts on three boats. A repair contract on the City of Munising is to be readvertised.

The approved contracts for miscellaneous repairs follow:

SS Mackinac City—J. B. Lund's Sons, Cheboygan, $1,227.

SS Saint Ignace — J. B. Lund's Sons, Cheboygan, $1,915.

SS Straits of Mackinac—Cheboygan Snow Plow and Boiler Company, $1,394.

All contracts were awarded tu low bidders.

CONGREGATIONAL CHURCHES
G. Russell Parker, Pastor

Boy Scout Sunday broke into our series of addresses frum the gospel according to Mark. But it was worth it. The Scouts in a body with nearly everyone in uniform, made a beautiful sight. Next Sunday we will continue with our discussions from Mark.

Some may wonder why we do not have special Lenten addresses for this season. Our reply is, there are no better Lenten thoughts than are found in the addresses that will be taken from this section of the Gospel according to Mark.

The pastor's class is an interesting apot in our religious teaching department. Do you know where the line is drawn between the things of the world and the things of the Spirit? Is that a dogmatic line and the same in every Christian's life? If "to be carnally minded is death" what does Paul mean by calling Christians carnal? What makes a good citizen? Does a good citizen ridicule the public officials over him? The discussion begins at 10:30.

A COMMUNICATION

Editor, Charlevoix Courier,
Charlevoix, Michigan.
Dear Sir:

In your issue of January 31st, you mentioned the death of Dr. Robert Armstrong. I wish to extend my sympathy to his children and to the eitizens of Charlevoix.

Dr. Armstrong was not only respeeted, but loved and admired by the members of the Belvedere Club and many guests of the Belvedere Hotel. I have had the pleasure of knowing Dr Armstrong during all the years that he has lived in Charlevoix, and it is seldom one comes in contact with so lovable a character; his genial and kind disposition was in of itself a tonic that would soothe and heal many of his patients. He will be missed by us all.

Sincerely youfs,
James B. Balch.

NEW CHAMPIONS NAMED MICHIGAN STATE COLLEGE

J. D. Robioson of Pellston, Named Premier Potato Grower

Theoretical crowns will rest proudly on the heads of outstumding Michigan individouls for another year, following selections in the recent Farmers' Week at Michigan State College.

Top honors were literally broadcast to visitors from ull over the state, us varioos crops prodocers won their awards.

Premier potato grower on his 1939 record is J. D. Robinson of Pellston, for a 615 bushel un nere yield. The premier tablestock potato grower crown went to the A. M. Todd compuny und Nelson Root, Mentha. Other potato awards on the 1940 show in demonstration hall went to Alphonse Verschure for a certified bushel sample, nnd to Russell Tennant, both of Manistique, for a 32 potato sample exhibit.

Other exhibitors whose products won state crowns include J. M. Fnir of Sturgis for the corn sweepstakes, Lee Ferden of Chesaning for the best beans, Foster Hickey of Fairgrove for the best peck of malting barley, and Vernon Diller of Comins for the best alfalfa seed.

A girl with an nppropriate name, Merry Smiley of Dryden, is the new Michigan Potato Queen. She won out over Vivinn Carlson of Manistique und Opal Baker of Brethren. The three appeared during the annual banquet of the Michigan Crop Improvement Association. President Harry Reiley, Bellaire, served as chairman of the crowning.

Recipients for a yenr of the famous Bibbins' trophies for outstanding work in the prodoction and marketing of grains include M. G. Dickerson of Bloomingdale for corn, Huron county agricultural agent Emmet Raven at Bad Axe for small grains, and Bert Longpre of Corran for alfalfa.

NEW RULES MADE FOR TOWNSHIP CAUCUSES

Township Officials Must Abandon Old "Hit-and-Miss" System

The attorney general's office has wnrned township officials that they must nbandon the old hit-and-miss system of conducting county caucuses.

The 1939 legislature, Attorney General Thomas Read pointed out, revised laws governing the nomination of township officers. The informality which characterized the old style township caucuses, he said, must give way to the new code which sets forth specific requirements.

He outlined these requirements in a letter to Peter Van Ark of Holland, president of State Associntion of Supervisors. There are four distinct methods of nominating candidates, Read said. In townships which have direct primary elections, the election this year will be held February 19, instead of the second Monday in March. The other three methods of nominating candidates are by township caucuses.

In some townships, Read said, there is one non-partisan caucus. In others, each major political party has a caucus and in a third type more than one political party is represented but only one slate of candidates is nominated.

The new law requires that the township clerk give at least 10 days notice of the caucus and it must be held at least 20 days before the spring election on April 1. Candidates may be nominated by a mere plurality of votes cast at the caucus. Heretofore, an outright majority of persons attending the caucus has been required.

DISTRICT HEALTH UNIT

Health Status Improved Throughout the State in 1939

The year 1939 was looked upon as a year of improvement both from the standpoint of the District Health Department No. 3, serving the counties of Antrim, Charlevoix, Emmet and Otsego, and that of the Michigan Department of Health. This year was the safest in the State's history in which to be born. New low records were set in infant mortality, and also in deaths of mothers from causes connected with childbirth.

New preventive and control measures for certain communicable diseases were put into general use during 1939, and new studies and experimental work begun for others. Three new counties established county health departments doring the year, bringing the number of organized counties in the state to 61. Twenty-two counties still do not provide full time local health service for their residents.

Based on provisional statistics for the first ten months of 1939, the new low record for infant deaths for the state is 41.7 per 1,000. The new figure eclipsed a record set the year before at 44.54 deaths per 1,000 births. Before 1938, the next best record for the state was 47.71 in 1935. For 10 months, the 1939 record means that 309 fewer babies died in Michigan than in 1938.

In this district comprising the above-mentioned counties, the infant death rate for the twelve months was 54.5 per 1,000 live births. In 1938 the record was 55.5. Before 1938 the next best record for our district was the year when we had un infant death rate of 49.3 per 1,000 live births.

For mothers of the state, there was a lessening of maternal risks, which is viewed as equally noteworthy. In 1939, the maternal mortality was 3.1 per 1,000 births for the state, a figure just half that of ten years ago. Until the last five or six years, the death rate for mothers from causes connected with childbirth had been virtually stutionary. In this district the maternal mortality rate for the year 1939 was 1.0 per 1,000 live births. This compared with the rate in 1938 of 5.5. Previous, the lowest maternal mortality rate was 2.0 for this area.

In 1940, the State Health Department plans to make available at several centers in the state, incubators for the care of premature infants. More than 1,400 babies died in the state last year because they were born prematurely. Premature birth is the largest single cause of death among infants. Incubators plus medical and nursing care, it is believed, will prevent many of these deaths. In our counties we had a total of 15 deaths in premature infants which is one of the greatest causes of infant mortality in our area. It is our hope that the furnishing of these incubators will help us to cut down our infant death rate.

Because more babies and children are being saved from an early death the population of Michigan is growing older. The degenerative diseases of old age are taking a heavier toll than they used to. Heart disease, cancer, nephritis and diabetes largely account for a rise in the general death rate in the state last year from 9.9 to 10.2 per 1,000 persons. But children born today can expect to live on average of ten years longer than those born only a generation ago.

Births declined in 1939 in the state to 18.4 per 1,000 population as compared with 19.3 per 1,000 in 1938. This may be partly explained by the drop in marriages the year before. Marriages increased 23 per cent in 1939, so that our birth rate may be expected to overcome the drop this year. In this district our birth rate declined in 1939 to 21.5 per 1,000 population compared to 25.3 in 1938.

This fall, the State Health Department started free distribution to physicians of its new whooping cough vaccine. Whooping cough is one of the most troublesome and one of the most fatal diseases of babies and young children. It takes more lives of children under five than scarlet fever and diphtheria together. The new vaccine was proved effective in nearly four years of field testing.

Against another communicable disease—pneumonia—the state is waging a general campaign. With the aid of two new weapons, antipneumococcic serum and sulfapyridine, doctors believe that the pneumonia fatality rate may be reduced to a half or a third of former figures. Pneumonin kills a greater percentage of persons than any other disease affecting considerable numbers of people. Until recently the expected fatality has been one death one of four cases.

The whooping cough vaccine and pneumonia serum is distributed thru the District Health Department at Charlevoix to all doctors in our area. Before the pneumonia serum can be given out it is necessary that an individual sputum be typed to determine what type of pneumoniu the patient has. At the present time there are two typing stations in our district, one located at the Little Truverse Hospital at Petoskey and the other at the Tuberculosis Sanatorium in Gaylord. A supply of pneumonia serum is on hand at these stations as well as in the District Health Department at Charlevoix so as to be readily available for any physician having a patient with pneumonia.

OF INTEREST TO FARMERS
By B. C. Mellencamp

Farm Women to Learn More About Home Uses of Electricity

Of particular interest to the many farm women who now have the advantnges of using electricity, is a series of three meetings scheduled for next week. Miss Noyes will discuss the many appliances that can be profitably used in the home and the approximate cost for best results. The amount of energy used will be given. The arrangement of the kitchen and time saving and labor saving will receive attention.

The first meeting will be held in the Barnard Grange on Wednesday afternoon, February 21st, commencing at 2. The second meeting is scheduled for Thursday, February 22, in the Horton's Bay Town Hall, at 10 a. m. The third session will be at the city building, East Jordan, on Thursday afternoon, February 22nd at 2.

All farm women will certainly look forward to having this opportonity of discussing their electrical problems. Electricity certainly adds to convenience and comfort. Before you invest money in appliances, why not make an inventory of what you would like to have and then really select the ones that should be purchased first and through which you would obtain the most service. Don't fail to attend your nearest meeting. It will be worth your while.

Science Studies Strange Possibilities of Human Hibernation

An absorbing article disclosing a weird tale about aging Vermont men and women, deliberately frozen thru the winter and thawed out later, is one of many features you will find in The American Weekly with the February 18 issue of The Detroit Sunday Times. Be sure to read this startling article that links up with the new freezing treatment for cancer and other experiments on how much cold we can stand and benefit by it.

Tenants Buying Farms

Michigan within the last two years has had 57 tenant farmers beginning the purchase of farms through loans authorized by the federal Farm Security Administration. Average purchase price of these farms has been $6,095 of which $756 has been in the form of improvements. One of the purchasers has built a new home, 44 others have found it necessary to make home repairs. A total of 54 have made repairs to other buildings on their farms, and 27 have borrowed some extra money to improve the land itself.

Feed for Iron Horses

Information compiled by the United States Department of Agriculture shows the huge increase of fuel and annual cost of operating tractors, trucks and automobiles for farm use. Back in 1910 the national total was about four million dollars, but recently the annual cost has been averaging 440 millions.

Gets Prize Plates

Iron River—At least one man in Michigan got the "special" license plates he wanted this year, and that is John A. Monroe. Each year he tries to get the numbers "66", his telephone number, on bis licenses. This year he got "TH-11-99", says he knew when that number would be on top of the pile and was on hand at the license bureau to get it.

Fruit is Explosive

Dearborn — Mrs. Elizabeth Szabo received cuts on her hand from flying glass recently. It wasn't a broken window pane, but it was a freak accident. She was attempting to remove the lid from a glass fruit jar when the jar broke. Eight stitches were required to close the wound.

It's a Dubious Honor

Elsie—When village fathers decided Elsie needed a new fire truck, they purchased it from a local garage, S. B. Keya & Son. After the truck was delivered, S. B. Keyes & Son had the dubious honor of being the first to use it when their garage caught fire.

Lilies Bloom in Winter

Coleman—Calla lilies belong ordinarily to the summer season of flowering plants, hut two Coleman flower lovers have gone the seasons one better and coaxed the biossoms to come to full glory in the middle of January.

Has Rare Cactus

Lawrence—Ever see a plant with 175 blossoms? Mrs. Lulu Gage has one here. It is a Christmas cactus that measures three feet in any direction. Mrs. Gage retarded growth of the flowers when the cactus started to bloom; the profusion of blossome was the result.

Smokey Vacation

Dexter — Classes in Cansfield school near Chelsea were excused when the teacher arrived one morning to find floors and furniture covered with several inches of soot. Sheriff's men said someone, probably boys, had thrown a large amount of coal in the furnace, closed the chimney damper and opened the door.

Song is Uopopular

Iron River—"My Prayer" is a popular song that is decidedly unpopular with Dr. Alfred Miller. Approaching a slippery curve while driving near Stager Lake, as a radio singer crooned "My Prayer", Miller's car rolled over. Although the top of the car was crushed, the radio crooner continued to sing "My Prayer." Miller escaped without serious injury.

Takes Buck-Back Ride

Reed City — Loren Kilmer was ready to stick the buck he had shot and tagged when the animal suddenly rose to its feet. Grabbing the deer's antlers, Loren "took a ride" through the woods, losing his knife in the process. After nearly an hour's struggle, he was able to bring the buck back to where he dropped his knife and finally klll it.

Sunday school, 12 o'clock.

Meets first Wednesday evening of each month at 7:45 p. m.

Reading room open Saturday, 3 to 5 p. m.

We cordially invite the public to our service and rending room.

"Soul" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, February 18, 1940.

The Golden Text (Leviticus 26:-11, 12) is: "I will set my tabernacle among you: and my soul shall not abhor you. And I will walk among you, and will be your God, and ye shall he my people."

Among the Bible citations is this passage (Psalm 62: 5, 6): "My soul, wait thou only upon God; for my expectation is from him. He only is my rock and my salvation: he is my defence; I shall not he moved."

Mickey Rooney and "Jaloppy" New Comedy Act

Making an actor out of an automobile required the services of two machinists, an electrician, a radio expert and an automotive engineer, when Mickey Rooney's "jaloppy" turned comedian on its own account in "Judge Hardy and Son," eighth all-new adventures of the Judge Hardy Family, coming February 17-18 to the Palace Theatre.

"Judge Hardy and Son" sees Mickey turned detective when his father, Judge Hardy, played by Lewis Stone, interests himself in the foreclosure case of a lovable old couple, and a missing relative must be found. Mickey's sleuthing gets him into contact with three pretty girls and resulting complications with his sweetheart, Polly Benedict, played by Ann Rutherford. Hilarious trials and tribulations for Andy Hardy follow.

"The Honeymoon's Over"

Stuart Erwin and Marjorie Weaver are featured in this hilarious domestic comedy by 20th Century-Fox, "The Honeymoon's Over," which opens February 21st at the Palace Theatre. The film is chuckle-full of incidents, accidents, experiences, adventures and no end of hearty laughs. Stuart realizes "The Honeymoon's Over" when he can't make the income come in faster than the outgo goes out, while Marjorie soon discovers the difference between romance in an office and love in a cottage.

Farmer, Children, Exempt

A farmer and his minor children need no license to trap on the enclosed farmland on which they live, though this privilege does not extend to the trapping of beaver and otter.

LANSING LETTER

(Continued from page 1)

been building up a state-wide following that would be an asset, so the story goes, to the Vandenherg nomination.

Whether Dickinson will be a candidate for re-election no one definitely knows. The impression has been growing nt the state capitol, however, that the 81-year-old executive is already unofficially campaigning for the office. The number of speeches which he has made during the past 12 months would do justice to a man half his age.

Third Term Sentiment

On the Democratic side the elevation of Attorney General Frank Murphy to the United States Supreme Court has clarified the party atmosphere considerably.

Murray D. Van Wagoner, commissioner of highways, has found himself in the position of being pushed hy party demand into the nomination for the governorship. As the only Democratic elected official at Lansing, he is recognized as the party's top boss. Charles Porritt, chairman of the state central committee, is known to be a "Van Wagoner man."

Since Murphy and Van Wagoner were frequently at odds during Murphy's administration as governor, the former's appointment to the supreme court bench nicely eliminated the possibility of future conflict.

A Dickinson vs. Van Wagoner campaign would evoke interesting fireworks.

Edmund C. Shields, national committeeman from Michigan, recently confided that a fairly systematic survey has shown more than 90 per cent of Democratic leaders throughout the state favor a third term for President Franklin D. Roosevelt. Counter to the insistency of state committeemen such as Mr. Shields was a recent declaration hy Raymond Clapper, Washington correspondent, and the America Speaks polls to the effect that elements of a third term sentiment are not now in evidence thruout the nation.

Vote on Amendment?

Indicative of the metropolitan vs. rural divlsion in Michigan is a new movement to circulate petitions to place a constitutional amendment on the ballot next November 5.

This amendment would reduce the membership of the House at Lansing from 100 to 64, automatically requairing a reapportionment of House seats. It just happens that there has been no reapportionment of legislative seats since 1925, although the constitution itself snys that such shall he done every ten years. In apparent fear of metropolitan domination of upstate affairs, the legislature hns consistently declined to do anything about it, and that goes for the Democrats as well as the Republicans.

Wary of vote complications either in the cities on rural areas, most state officials have merely parried attempts to elicit their views. Attorney General Thomas Read said the present 100-member house was good enough; the legislature should merely abide hy the reapportionment mandate. Governor Dickinson, Treasurer Miller Dunckel, Secretary of State Harry F. Kelly and Dr. Eugene B. Elliott, state superintendent of public instruction, all discreetly withheld their judgment. Only Vernon J. Brown, auditor general, conceded that there was merit to the reapportionment demand and tbat some adjustments should be made.

Medical Insurance

A Michigan physician-author and the Michigan State Medical Society are responsible, so the inside story goes, for President Roosevelt's recent decision to shelve the expensive Wagner health act for a national subsidy of individual health service.

The new medical insurance plan, whereby workers with less than $2,-500 annual incomes may get full family medical care on a monthly insurance fee basis, is designed by the state medical fraternity to solve the problem of adequate medical service for the low income group.

Back of that, of course, is the threat of socialized medicine which now exists in many European countries including England and Germany.

At one time the Wagner health program, patterned after the Social Security set-ups for old age pensions and unemployment compensation, had the inside track at the White House. Michigan and California adopted in 1939 medical insurance programs. A similar plan is being considered in 13 other states. These arguments were used effectively by Paul DeKruif, Michigan author, in a personal conference recently with President Roosevelt.

Hence the outcome of the Michigan plan is being watched nationally. If the physicians' own solution fails to provide the answer, then state socialization is on its way. At least, medical leaders here privately take this view.

Pressure for Revenue

When governments spend more that they collect in revenue snd when pressure for more revenue continues, then watch out for new taxes.

The recent publicity about deficiency of hospital beds, lack of old age pension funds, need for better crippled children care and so on is an illustration how popular pressure can be created to grant state aid for deserving causes.

And so it goes. In any event it is the consumer who ultimately foots the bill. No one can reasonably dispute tbat.

and some will disagree with this opinion. On the one side are those sportsmen who recognize merit in the conservation department plan to ask game reports as a means of ascertaining the increase or decrease of game in the state's hunting areas as a barometer to base propagation and planting activities. Others disagree, however, due to the assumption the department uses the information gained from game reports to direct hords of hunters to areas where game is plentiful and away from places where it isn't so plentiful. In other words — to advertise hunting on a commercial basis, so to speak, to boost license sales. Many hunters resent the influx of "directed" hunters into their favorite places. Some might term this selfishness, but on the other hand, the hunter who pays his license fee, buys a gun and shells and keeps a dog for a year for the privilege of hunting with it several weeks, feels he should be able to keep a few secrets to himself. Any way one cares to look at the proposition, it presents a problem, it is true. One thing I am sure of, though, is that the Conservation Department better think things over carefully before arousing the displeasure of sportsmen generally by refusing a license just because they don't send in their report card.

Will acknowledge a communication from Leslie T. Shapton Post, American Legion, by quoting same in part:

"At a meeting of our post last Tuesday, there was considerable discussion about ways and means in which the American Legion could be of more service to the city and community. In the matter of bringing any industry to the city, the Legion is anxious to cooperate. It has been talked that there is a chance that the amateur golf tournament might come to Charlevoix. The post would like to go on record as being very anxious to have this event brought here this summer."

I am quite sure city officials and the board of commerce would warmly welcome participation of the American Legion in their promotional efforts and, if the prompt manner in which they obtained an oxygen tent for the hospital is a sample of their initiative, good results would be forthcoming.

It was daylight way after 6 o'clock Tuesday afternoon, so it must be that the sun is getting nearer the "other side of the fence."

Monday morning's storm was a ripper while it lasted. We probably noticed it more because of the nice weather preceding. The thermometer dropped below zero Tuesday night, too, for the second time this winter, I believe. One thing we can say for the Sunday and Monday snowfall is that it covered up a lot of grime, much to the satisfaction of most housewives, I suppose.

That minnows are scarce is proven by the fact fishermen are coming here for them from Cheboygan, Harbor Springs, Petoskey, Boyne City and almost every other point in northern Michigan you might want to mention. Last summer and fall Charlevoix fishermen had to go to Elk Rapids and Harbor Springs for bait minnows. It is generally acknowledged the scarcity is wide-spread. Notwithstanding the opinions of Dr. VanOuten, U. S. Bureau of Fisheries authority, who claims smelt do not eat minnows, many sportsmen attribute the fact they are rapidly diminishing to the untold millions of smelt which have invaded Great Lakes waters. It may seem rather far-fetched, but I've heard it predicted the day is not far off when minnow dealers will have to raise their own stock to sell.

And speaking about smelt, there's no species of fish more highly exploited since their appearance in the Great Lakes and tributaries. It started at Beulah and has spread without end. Jamborees, carnivals and celebrations herald the spring spawning runs. Thousands of people are attracted, millions of dollars are spent in the localities favored with rivers where spawning runs occur. More recently winter fishing for smelt thru the ice has become a popular sport and no place has "cashed in" on this feature more than Boyne City with its "Smeltania" village so unique with an election of city officials, provision of taxi service to the shanty village, cafeteria service, etc. They have been smart at Boyne City. Their aggressiveness is going to pay dividends. Within the past two weeks photographers from Life magazine, Colliers and Press Associations have been at Boyne to photograph their Smeltania and obtain facts about its history. The free advertising Boyne City will receive from these sources alone is inestimable. It only goes to show what aggressiveness will do.

I need your vote at the Primary, February 19th. Fred V. Tyler, Candidate for Re-election to office of City Treasurer.—5t3.

CHARLEVOIX COUNTY IS AMONG 8 ACCREDITED

Named as Bang's Disease-Free Area by State Department

Eight Michigan counties were included in the first list of "modified accredited Bang's disease-free areas" issued by the United States Department of Agriculture, according to announcement today by Agricultural Commissioner Elmer A. Beamer.

Since the submission of the Michigan list to the federal agency, testing has been completed above the Manistee-Iosco line, Beamer said, and second accreditation will probably include all Northern Michigan counties.

Michigan ranked ninth in the list of 17 states, with Alger, Antrim, Charlevoix, Cheboygan, Emmet, Grand Traverse, Kalkaska and Leelanau officially named as the accredited counties.

LOCAL DEALER COMPLETED ICE HARVEST LAST WEEK

The Charlevoix Coal & Ice Co. completed its annual ice harvest last week, storing 27,000 cakes in the old beet sugar factory building for next season's demands. The harvest was completed in record time under excellent weather conditions and an exceptionally good quality of ice was obtained from Lake Charlevoix.

SHAKESPEARE CLUB ENTERTAINED DICKENS CLUB WITH LECTURE MONDAY

The Charles Dickens Club entertained members of the Shakespeare Study Club at a lecture given at the community room of the city hall on Monday afternoon.

The lecturer, Miss Hazel Hardacre, a psychiatrist at Central Michigan Childrens Clinic, Traverse City, gave a very interesting talk on the "problem children" with whom she comes in contact and measures used to rectify their problems. Miss Hardacre's real interest in, and knowledge of her work, combined with her pleasing personality, gave everyone an enjoyable as well as worthwhile afternoon.

It is hoped arrangements can be made for Miss Hardacre to give another lecture in the near future.

The community room was prettily decorated for Valentine Day and the February legal holidays. Following the lecture, dainty refreshments were served by the executive committee.

OLSZEWSKI-LUHRS WEDDING WAS SOLEMNIZED FEBRUARY 3 AT FLINT

The wedding of Miss Dorothy Olszewski, daughter of Mr. and Mrs. Anton Olszewski of Charlevoix, and Albert Luhrs of Traverse City, took place Saturday afternoon, February 3, at Flint. Christ Episcopal church was the scene of the pretty wedding, at which the Rev. Garrett officiated.

Mr. and Mrs. Luhrs will spend the remainder of the winter in Flint, and make their home in Traverse City next summer. The bride is a graduate of Charlevoix high school, class of 1938. Mr. Luhrs and his two brothers are the proprietors of a chain of roller-skating rinks in several northern Michigan cities, and operated a rink at Moonlight Gardens last summer.

MANY ATTENDED SCOUT CLINIC AT TRAVERSE

Charlevoix Sent Representation to Meeting February 7th

Charlevoix had four representatives among a group of 125 men who spent last Wednesday afternoon and evening in attendance at a Boy Scout clinic held at Traverse City, where a study of accomplishments of the first year of the Scenic Trails Council was held and needs for the coming year reviewed.

Attending the meeting were Rev. G. R. Parker, local Scout leader, C. S. Webster, Robert Bridge and Otto Krueger.

George Chronic, regional executive from Chicago, was leader of the study, assisted by Charles Boyer, council scout executive; Hugh J. Johnson, council president; and a group of area and district workers. It was reported that 18 new Boy Scout troops have been organized in the council area during the past year, two new troops having been registered this week.

Among the topics studied were the work of the Scoutmasters on organization and operation of Scout troops; work of the troop committees and their proper organization and work of the district and area committees and boards.

Each man received instruction books, copies of the new directory of the council, catalogues, and other literature intended to be of help to him in his work.

Dinner was served at the Park Place Hotel and the business meeting and discussions were held in the Queens' Room of that hotel.

MERCHANTS CAGE TEAM SCHEDULES TWO GAMES

Play at Grayling, Saturday; Meet Pellston Here Next Tuesday

Two games have been scheduled by the Charlevoix Merchants, local independent basketball team.

On Saturday evening, February 17, the team goes to Grayling for a contest with the crack independent outfit of that city, and on Tuesday evening, February 20th, meet the highly-touted Pellston Indies on the local hardwood.

In their last contest, the Merchants were defeated by a wide margin by the East Jordan Canners on Jordan's court.

MRS. JUSTUS KNAPP IS TAKEN BY DEATH

Funeral Services for Local Woman Held Monday Afternoon

Funeral services were conducted Monday at the See Funeral Home by Rev. H. J. Pulsipher for Mrs. Justus C. Knapp, who died Thursday, February 8th, at Traverse City, following a brief illness.

Deceased, foster daughter of Mr. and Mrs. Dave Alexander, was born at Edmore, April 14, 1898. She married Justus Knapp at Charlevoix in 1922.

Surviving besides the husband is a daughter, Clarissa.

Moved by Ald. Hooker, seconded by Ald. Bellinger, that the city superintendent be authorized to purchase material listed under purchase orders numbered 95 to 99 inclusive. Motion carried by the following yea and nay vote: Yeas — Aldermen Bellinger, Heise, Hooker, Lamphear, Levinson and Wood. Nays—none.

Ald. Wood offered the following resolution and moved its adoption, seconded by Ald. Lamphear:

Whereas, the common council of the city of Charlevoix by a resolution passed on December 18th, 1939, did waive any and all claims for liquidated damages arising out of the failure of the Muskegon Construction Company, contractor on the City Hall and Fire Station Project, Mich. 1796-F, to complete the work as of October 26th, and,

Whereas, the reasons for such time extension and waiving of damages was not clearly outlined heretofore by the resolution by the common council of the city of Charlevoix.

Be it Resolved that although the contractor could have completed his work within the time specified providing the city of Charlevoix had not requested additional work for which no time had been allowed, that the contractor should be allowed an additional fourteen (14) days in order to complete his contract due to the fact that letters of authorization for certain changes, dated October 17th and October 24th were submitted to the contractor, resulting in his ability to get materials on hand in order to complete the additional changes by the time of expiration of his contract on October 26th, 1939.

Adopted by the following yea and nay vote: Yeas—Aldermen Bellinger, Heise, Hooker, Lamphear, Levinson and Wood. Nays—none.

Moved by Ald. Hooker, seconded by Ald. Heise, that the polls of primary election March 4th, be opened at 7 a. m. and closed at 8 p. m. Motion carried.

On motion the council adjourned.

CHARLEVOIX COURIER

VOLUME 45 NUMBER 7 SUPPLEMENT THE CHARLEVOIX COURIER, WEDNESDAY, FEBRUARY 14, 1940 PAGES 1 TO 8 INCLUSIVE PRICE $2.00 PER YEAR

ANNUAL TAX SALE

STATE OF MICHIGAN, ss.
County of Charlevoix,

The Circuit Court for the County of Charlevoix in Chancery.

In the matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the March term of this Court, to be held at Charlevoix in the County of Charlevoix, State of Michigan, on the 4th day of March, A. D. 1940, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is furthor ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Charlevoix, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole porcel shall be offered and sold. If any parcel of land cannot he sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall on the succeeding day, or before the close of the sale, be reoffered, and if, on such second offer or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Parm C. Gilbert, Circuit Judge, and the seal of said Circuit Court of Charlevoix County this 15th day of January, A. D. 1940.

PARM C. GILBERT,
Countersigned, Circuit Judge.
Fenton R. Bulow, Clerk.

STATE OF MICHIGAN

In the Circuit Court for the County of Charlevoix in Chancery.

In the Matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Charlevoix, in Chancery:

Vernon J. Brown, Auditor General of the State of Michigan, respectfully shows unto the Court:

1. That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1933, as amended;

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned;

3. That extended separately in said schedule against such description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) fifty cents for expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale thereof.

Wherefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

b. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount decreed against the same, shall severally be sold as the law provides;

d. That your petitioner may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc.

Dated: January 9, 1940.

VERNON J. BROWN,
Auditor General of the State of Michigan, for and in behalf of said State.

CHARLEVOIX LOST BOYNE CONTESTS

VARSITY DEFEATED 28 TO 19; RESERVES LOSE 24 TO 19

Rayders Play Harbor Springs in Final Pre-Tournament Game on Local Court Friday Night

Red Rayder basketball teams lost both games of a double bill at Boyne City last Friday night. The varsity was topped 28 to 19 and the reserves lost 24 to 19.

Charlevoix's varsity squad held Boyne to a much closer margin than in their previous meeting when Boyne romped off with a 40 to 20 victory on Charlevoix's floor, indicating improvement in the team's play. The reserves, however, handed Boyne a 14 to 11 defeat in their previous meeting, thus divided honors for the season.

Boyne held the Rayders scoreless for the entire first period, while counting 8 points. Charlevoix missed numerous chances from the foul line. The Rayders outscored Boyne 6 points to 4 in the second quarter to trail 12 to 6 at the half. Boyne made 7 and Charlevoix 4 points in the third stanza nnd the two teams scored 9 points each in the final period.

Charlevoix showed a decided weakness on gift shots, making only 9 out of 21 tries. Price and Deitze of the Boyne squad went out on four personal fouls. Boyne's average was better. They netted 10 of 16.

White made 6 points for Charlevoix, Kohler 4, McGhan and Nowland 3 each, Carey 2 and Bergman 1. For Boyne, W. Deitze was high with 9, E. Deitze next with 8. E. Deitze scored 17 points in Boyne's previous win over Charlevoix.

Boyne's reserves led all the way in winning over the Rayder secondstriagers. The count was 6 to 3 at the quarter, 14 to 7 at the half and 20 to 12 at the third intermission. Charlevoix marked up 7 points to Boyne's 4 in the final period, hut the rally fell short.

The Rayders complete their pretournament schedule on the home floor Friday night when they meet Harbor Springs' fast-traveling quintet. Defeated in every start so far this season, but showing decided improvements in each succeeding game, Friday night's tilt will be the Rayders' last chance of victory outside of tournament play.

MICHIGAN NURSERY STOCK PRODUCES BEST RESULTS

Agricultural Commissioner Elmer A. Beamer today pointed to the outstate demand for Michigan grown nursery products as ample proof that thousands of prospective purchasers of trees, plants and shrubs within the state should give first consideration to the "home-grown variety."

Michigan grown nursery stock will eliminate many disappointments, Beamer declared, in pointing out its superiority over other stock.

DUPLESSIS WINNER STATE GLOVE TITLE

COPPED NOVICE LIGHTWEIGHT CROWN AT GRAND RAPIDS

Will Represent Michigan in Regional Competition to be Held in March at Chicago

Success crowned two years of effort for Oliver Duplessis last Friday night when the Hayes township youth won the novice lightweight boxing crown in the finals of the state Golden Gloves tournament.

Eliminated at Grayling last year, Duplessis carried brilliantly through competition at Boyne City, Grayling and Bay City in his 1940 campaign which culminated at Grand Rapids.

Thursday night the youth had an easy time outboxing Ray Benson, of Jackson, to win a decision. In the semi-finals Friday night, he won by technical knockout over Donald Kelley, of Bay City, in the second round, and in the finals won the nod of both judges and the referee for a decision over Lewis Pezet of Grand Rapids. This bout was claimed to have been one of the high lights of the evening's bill, with both boys showing plenty of class.

Duplessis has been trained by Joe Szymankeiwicz of the local WPA recreational staff.

MERCHANTS DEFEATED GRAYLING CAGE TEAM

Turned 32 to 21 Win Over Crawford County Team Last Wednesday

The Charlevoix Merchants basketball aggregation hung up a decisive 32 to 21 victory over the strong Grayling Independents at Grayling last week.

With Ed. Radle leading the attack, Charlevoix led in every period. Their margin at the half was 18 to 15. Radle scored 10 points for the Merchants, while Marshall was best for the losers.

FRED V. TYLER GIVEN PRIMARY NOMINATION

WON OUT IN THREE-WAY RACE FOR CITY TREASURER BY MARGIN OF 38 VOTES

Clarence Wood Nominated Over Lou Comfort for First Ward Alderman; W. E. Goss Winner in Three-Way Race for Alderman in the Third Precinct

Present city officials were nominated at Monday's spring primary election. Voting was comparatively light. The 819 ballots east was 439 less than the record primary turn-out two years ago.

The vote indicated interest centered around the three-way race for city treasurer. This contest drew the heaviest balloting with F. V. Tyler, incumbent, receiving 365, Charles H. Lamphear 327, Elwood Livingston 127. Tyler's majority was 38 votes.

Mayor Robert Bridge, unopposed for nomination to his third term, received 678 votes, and Ray S. Hamilton, unopposed for city clerk, received 641 votes.

Angus L. Fochtman was unopposed for nomination as supervisor in the first ward. Clarence Wood, present first ward alderman, was nominated over Lou Comfort hy a margin of 17 votes. Wood received 97, Comfort 80.

Prescott Adams for supervisor, and Charles Heise, for alderman, were unopposed in the second ward.

In the third precinct, W. E. Goss, a new-comer in city politics, won out in a three-way race for alderman. He defeated his nearest opponent, M. A. Levinson, present alderman, by a margin of 45 votes. Goss received 139 votes, Levinson 94, D. J. Eckinger 82. Clarence B. Meggison, present supervisor, was unopposed for nomination.

Following is the vote by wards:

MUNICIPAL UTILITIES MUST PAY SALES TAX

Supreme Court Upholds 1939 Law Removing Immunity from Cities

The state board of tax administration has undisputed authority to collect the three per cent salea tax on electric energy sold by the Charlevoix city light department and other municipally owned public utilities.

The Supreme Court upheld constitutionality of a law passed by the 1939 legislature removing the immunity from the sales tax which municipalities always had enjoyed.

When the law was passed it was estimated it would mean an extra $500,000 a year revenue for the state. Municipalities challenged the statute, contending the state could not "license" a local governmental subdivision.

When the law was passed and upheld in a lower court, City Attorney A. L. Fitch advised the Charlevoix city council to pay the tax despite the fact the case was being appealed to the Supreme Court.

As a result, electric light bills from the city have carried the three per cent tax charge, and full payments have been made to the state.

The decision of the Supreme Court bears out the wisdom of the decision as now the city will not be liable for penalty charges that would have been assessed if the tax had not been paid during the litigation.

KIWANIANS HEAR TALK ON NORTHERN BIRD LIFE

Mrs. Floyd J. Fessenden Was Guest Speaker at Meeting Tuesday

Mrs. Floyd Fessenden, local "bird woman", was guest speaker at a meeting of the Charlevoix Kiwanis Club, held Tuesday evening, February 20th, at the Hotel Charlevoix.

Mrs. Fessenden chose as her subject, "Birds of Charlevoix County." Her talk on common and rare birds of this state was interesting and instructive. She said that Michigan has 328 different kinds of birds, and that she has, during a long study of birds, identified 199 kinds. Charlevoix county has many kinds of birds because of its large number of lakes.

Of great interest was her discussion of the Piping Plover which nests on North Point; and also the Kirkland Warbler, which is found nowhere in the United States except in the four counties surrounding Grayling.

EASTERN STAR, MASONS ENJOYED GET-TOGETHER

Large Attendance at Annual Party Last Wednesday Evening.

The annual get-together of the Masonic and O. E. S. lodges, held last Wednesday evening at the Masonic temple, was attended by over 130 members of both lodges and their wives and husbands.

Supper was served at tables decorated in the valentine theme and lit by tall red candles, and the guests spent the evening at cards and dancing. The committees in charge of the delightful party were headed by Mrs. Alfred Browe, Mrs. Albert Cook, and Miss Wilma See.

IRONTON PLAYERS WALK OFF PING PONG TITLES

Champions in WPA Sponsored Tourney Decided Thursday Night

Three of five titles in the annual ping pong tournament sponsored by the WPA recreational department were won by Ironton players in the finals last Thursday evening.

John Seiler defeated William Sanderson Jr. in men's singles finals, and this Ironton pair teamed to defeat Bob Pearl and Ed. Radle for the men's doubles crown.

Mrs. Ronald Fairbanks won the women's single title, defeating Nancy Price in the finals. In women's doubles, Nancy Price and Helen Olmstead defeated Mrs. Ronald Fairbanks and Mrs. Fred Arlen to win the title.

A third championship went to Ironton when Nancy Price and William Sanderson defeated Margy Wood and Ed. Radle in the mixed douhles finals.

The tournament drew a large entry and held the interest not only of players but by a iarge crowd of spectators during the two nights of play.

AMATEUR GOLF MEET AT BELVEDERE CLUB

EVENT IS SCHEDULED FOR DATES OF JULY 11-14

Awarding of Tournament to Charlevoix Announced Wed. by Charles D. Bennett, League President

Charlevoix is assured a major Michigan sports event for the 1940 summer season with announcement February 14 by Charles D. Bennett, president of the Michigan State Golf leaguc, that the 1910 Michigan amateur golf championships will be held at the Belvedere Golf Club.

Dates for the tournament were set for July 11 to 14, inclusive, according to Mr. Bennett's announcement.

The influx of Michigan amateur golfers is not new to Charlevoix, for the event was held at the Belvedere course three previous years, in 1930, 1931—and 1935. For the past three years the tournament has been held at the Gull Lake Country Club, Kalamazoo.

Official announcement of award of the tournament to Charlevoix came somewhat as a surprise in view of the fact that city and hoard of commerce officials had not completed plans begun two weeks ago to arrange finances for the event.

MASONS WIN SEVENTH CONTEST IN CRIBBAGE

Out-Scored Odd Fellows by 198 Points Monday Evening

The Masons halted the Odd Fellow winning streak in the winter cribbage series Monday night, emerging with a margin of 198 points in the seventh contest.

With 8½ tables in play, one of the largest turn-outs of the winter, the Masonic team scored 15,411 points to 15,213 for the Odd Fellows. Despite defeat, the Odd Fellows have a series advantage of 574 points.

Ray Ashdon turned in a card of 946 to lead the winners, while Art Richardson was high for the Odd Fellows with 953.

The eighth contest will be held Monday evening, February 26, at the I. O. O. F. hall.

SERIES FORESTRY MEETINGS CALLED

W. IRA BULL WILL DISCUSS PLANTING OF TREES

Farmers of Charlevoix Area to Meet Wednesday, Feb. 28, at Marion Center Grange Hall

(By B. C. Mellencamp)

We are glad to announce that on Wednesday and Thursday, February 28th and 29th, a series of four meetings on forestry projects will be conducted. These meetings are particularly timely as farmers are thinking more seriously of ordering young seedlings and in better care of their woodlots than ever before. Also, a person desiring to order young trees should do it at once as the supply is becoming exhausted.

W. Ira Bull, extension forester of Michigan State College, has been secured to discuss the proper practices and methods in producing best results. Charlevoix county already has a good many demonstrations on tree planting and woodlot improvement. The Agricultural Adjustment Administration is emphasizing the setting out of young pine seedlings in the program this year. A liberal payment may he earned by adopting these suggested practices.

The following schedule has been arranged for your convenience:

Wednesday forenoon, February 28, at 9:30 in the Horton Bay town hnll.

Wednesday afternoon, February 28 at 1:30 in the Marion Center Grange hall.

Thursday forenoon, February 29, at 9:30 in the Boyne River Grange hall.

Thursday afternoon, February 29, at 1:30 in the South Arm town hall.

Specialist Bull will illustrate his talk with slides and film strips which will nicely indicate the best practices in setting out pine seedlings and their care and management. The last half hour or so of each meetiog will he held in a woodlot nearhy so that each farmer can determine the practices to follow in taking eare of his established woodlot. These meetings will be of great interest to all farmers who expect to enrn payments with forestry projects.

Don't forget to attend your nearest meeting and come prepared to spend a little time out doors in a woodlot.

PARITY PAYMENT RATE ON WHEAT ANNOUNCED

Rate of 10 Cents Bushel Allotted for Charlevoix County Farmers

The parity payment on wheat for 1940, at the rate of 10c per bushel, was announced this week hy the Charlevoix county AAA committee.

This payment, according to Walter H. Henley, county AAA chairman, will be made on the normal yield of each farmer's wheat acreage allotment, if the farmer cooperates with the provisions of the agricultural conservation program.

Price adjustment, or parity payments, which supplement the regular agricultural conservation payments, will he made from the $225,000,000 appropriation provided by Congress last year. The 1940 appropriation act provided for these payments to be made on the five basic crops (corn, wheat, cotton, rice, and tobacco) if the 1939 average farm prices were less than 75 per cent of parity.

SHOT AT RANDOM

By Ken Usher

I "stuck my neck out" once before by saying something about the fog horn, but, being a glutton for punishment, I'm going to invite another shellacking by venturing the opinion there is no reason now in mid-winter, with no navigation whatsoever, of blowing the blooming thing every time a cold night creates a blaoket of mist over the lake.

Apparently the New Deal procedure of "soaking the rich" doesn't get across down in Louisiana, for I note a news dispatch telling how eight members of a grand jury resigned hecause the "rich and prominent were not indicted while small fry were." The group has previously sought to resign on the ground they were opposed to indicting men for "chicken stealing" while bigger persons went free. Who said all men were equal?

Courtesy is like making love to a widow—you can't overdo it.

Mayor Bob Bridge, it seems, has been writing some of our summer residents and telling them the temperature hasn't been below zero here this winter. He said I made a liar out of him by coming out in this column with the statement it had

Within the next few weeks while the average citizen is fretting about high taxes and wondering who will be the state party nominees next September, astute politicians will be diligently setting up party machinery for the next two years.

After township party caucuses are held, on or before March 10, the party's organization will have heen completed in each township.

If democracy hegins at the smallest unit of government, the township, then the responsibility for good government or for bad government—and likewise, good bosses or bad bosses—reats upon each citizen within the next week or so.

Here is the Michigun law, as revised by the 1939 legislature.

CITIZEN CONTROL OF GOVERNMENT AGAIN SUCCESSFUL

When 8000 New York State citizens stormed their capitol at Albany on Lincoln's birthday demanding, as they did a year ago, that state expenditures again be lowered, the chairman of the Senate Ways and Means Committee had no hesitation in saying that "their very appearance has killed any chance of passing an amendment to the state income tax law." This was designed to raise $15,000,000 additional revenue. He also promised full considerntion would be given to a possible reduction in the total state budget.

Can such a protest be made successfully in Michigan? Those who may doubt that Michigan citizens want or can get such action from tbeir lawmakers are referred to the first annual state-wide conference of local taxpayers' associations at Flint on February 23.

Only a few hundred persons—not thousands—are expected to attend, but it is their aim to find a way to organize enough citizens who are willing to study the reasons why government costs have mounted so high. Then they will study methods of cutting the costs, before making public their demands upon the legislature and their local officials, who are in large part responsihle for the increases.

Michigan municipalities now have among them some shiniag examples to follow—Kalamazoo and Albion—but nothing like Montclair, N. J., which has a $500,000 surplus this year.

MICHIGAN 300 BUSHEL CLUB HAS 98 MEMBERS

Lee Sneathen of Charlevoix in 8th Place; Average Yield 413 Bushels

In 1939 ninety-eight growers qualified for membership in the Michigan 300 Bushel Potato Club. Of this number, fifty were certified seed growers and 48 were producers of table stock. Fifty of the 98 were upper peninsula growers and 48 were from the lower peninsula. Emmet county, with thirty growers, and Houghton with twenty, were the leading counties with high producers.

The average total yield for all members was 371 bushels per acre with the average yield of U. S. No. 1's was 318 bushels.

J. D. Robinson, Pellston, was awarded the title of Michigan Premier Grower. His 615 bushel yield broke all previous state records. The high yield record prior to 1939 was 583 bushels, made by John Eiola, Hancock, in 1932. The quality of Mr. Robinson's crop was excellent—91 per cent of it met U. S. No. 1 grade requirements. He grew 18 acres of Russet Rural and Chippewa certified seed on a sandy loam soil well filled with organic matter. He fall plowed, disced and harrowed the field nine times before planting May 23. He planted 30 bushels of seed per acre using a 10"x30" spacing. Mr. Robinson did not apply stable manure but did apply 500 pounds of 0-20-20, and 800 pounds of 2-8-16 commercial fertilizer per acre. He row cultivated twice and sprayed with bordeaux eight times. With the sprinkler type of nozzle he applied about four inches of water during the summer.

The purpose of 300 bushel club and premier grower contests is to stimulate greater interest among growers in using production methods that will help insure better yields and quality at lower costs per bushel. Therefore, an important phase of the contest each year is the summarizing of the methods used by the best growers. Several agricultural agents who have carried on grower contests on a county basis have found these summaries of great practical value in improving production practices in their counties.

TWO CITIES ANNOUNCE SMELT CELEBRATIONS

Boyne City Event March 25-30; Escanaba Set for April 11-13

Dates for celebrating the silvery smelt's spring spawning run have been set in two northern Michigan communities. Boyne City's eleventh annual "festival" will be March 25-30, while Escanaba's sixth annunl jamboree will be April 11-13.

The Boyne City announcement is issued by Mayor "Bill" Smith of the 300-shack Smeltania on Lake Charlevoix ice, where smelt nnd perch are now biting good and some luckier anglers are catching whitefish and lake trout.

The Escanaba jamboree has a King's night frolic at Ford river and Queen's ball at the Coliseum on the schedule. Both celebrations are complete with banquets, parades, and queen coronation ceremonies.

MACHINES LEAD OTHER HAZARDS ON THE FARM

Specialist Urges Farmers to Avoid Unnecessary Accidents

As long as every farmer is pretty much his own engineer, farm hazards will continue to be numerous and only controlled largely by the care exercised by different individuals.

That is the deduction of H. H. Musselman, head of the agricultural engineering department at Michigan State College.

Electricity in Michigan has had such an unprecedented increase in use in rural areas in the last nine years that this new hazard alone requires exceptional watchfulness, says Professor Musselman. An incidental shock may be so light that the current user fails to realize that a well grounded circuit can easily take life.

Even the haymow still is a troublemaker.

In the haymow, says Professor Musselman, haste can easily cause accidents. Precautions include such simple things as fixing safeguards and rails around chutes, using care in pitching feed down from the mows.

In fact haste is a national farm evil and causes the majority of farm accidents. Makeshift repairs, taking chances, using machinery without guards or with guards removed are included in accident causes and all of them related to haste.

Machines take top toll as farm hazards. The older hazard from working with farm animals still is second. Unruly bulls and horses that kick are in this class of troublemakers.

The moral of which, says Professor Musselman, is to take the time to do a job correctly, so that one will have the time to complete other necessary farm work instead of being crippled or temporarily laid up because of accidents.

MICHIGAN MAPLE SYRUP GAIN PREDICTED FOR '40

Hurricane in East Probably Will Cut Down Competitive Production

That unique Americnn operation—tapping maple trees to obtain sap for sugar and syrup—ought to be put to full use in Michigan in early spring this year because of a predicted upturn in demand and prices.

Prophecies of better prices and n good out-of-state demand are made by W. Ira Bull, extension forester at Michigan State College.

In one wny, says Bull, Michigan might as well take advantage of the 1939 hurricane that swept New England and decreased the amount of syrup eastern states can produce.

Another factor is in the increased national income with prospects bright for continued employment which the forester thinks should result in a greater demand and hence a firmer price for producers of maple products.

"Tap early and remember that cleanliness is necessary to produce n high quality product for table use," Forester Bull warns sugar bush owners. "Do not force the product on the market at the beginning of the syrup season as that will disturb chances for premium prices."

Information on tapping and boiling can he obtained by writing to the forestry department, Michigan Stnte College, East Lansing.

THIS WEEK IN WASHINGTON

By Your Congressman
Fred Bradley
11th District Michigan

Can the United Stntes afford to he a "good neighbor" to other nations, aad, if so, how far must it go in Its trade with these nations to establish its claim of neighborliness? That question will be one for debate on the subject of the trade treaty agreement legislation which promises to occupy the Congressional spotlight for the next several days.

Invite Foreign Competition

Back in 1934, June 12, the Trade Agreements Act came into existence. Under its authority, the State Department negotiated foreign trade agreements which gave to designated favored nations reduced tariff rates on their exports to this country. The act was extended for another three years in 1937 and President Roosevelt has now "turned on the heat" for another three-year extension. This means that administration followers are not entirely free to vote as their judgment might dictate, but must "ride" with the party in power or suffer political consequences.

Let us turn to the record and see how some of these lowered tariff rntes effect our own major problem of unemployment. After all, there are still at least nine million citizens out of work and contrary to any claims of wonderful progress recorded in solving our economic difficultles, every citizen viewing the situation from an unbiased position understands we are right back where we started, with a set-back of around 20 billion dollars addition to the national debt. The New Dealers may lay claim to settling the Nation's problems, but for every problem settled I could name at least two that have been created because of their penchant for experimentation.

U. P. Products on List

Northern Michigan is known to have a surplus of hay crops. Growers are faced with a loss because their local markets cannot absorb the surplus, and transportation costs are too high to permit profitable shipment to the more distant markets. Yet our trade agreement negotiators, being the State Department under the Trade Agreements Act, have seen fit to lower the duty on hay from Canada. Under the 1930 Tariff Act the duty was $5 a ton. This waa reduced to $2.50 a ton, granting Canadian growers advantages in our eastern markets denied our own citizens.

Then, to make a bad matter worse, I received notice this week that the I. C. C. has granted a $2 a ton freight reduction on Canadian hay shipped to our eastern markets. This came as a surprise and a shock, because since early last year, I have tried to secure a reduced freight rate on hay from northern Michigan as a means of shipping the surplus crop to available markets, and without success.

Now I have nothing but the best of feeling for our Canadian neighbors, and I know this sentiment is shared by our people generally, but I do not believe that being a "good neighbor" imposes upon our country an obligation to grant to the Canadian markets that rightfully belong to our own citizens. We should buy everything they have that we need, but not when we have surpluses.

Some on Free List

Other Michigan products have been sacrificed on the altar of good neighborliness. Here nre a few commodities: Potatoes from Canadn, duty was 75c per 100 pounds now 37½c; fish was 2 cents, now 1c a pound; pig iron, was $1.12½ a ton, now 75e; cattle, was 3c and 2e a pound, now 2 and 1½ cents.

Hundreds of other items are listed in a pamphlet of over 160 pages put out by the U. S. Tariff Commission. Many of the imports are duty free, and among these importations are products that have raised hob with domestic concerns that have suffered as the result of this foreign competition. The fur market, for instance, went to pieces last fall. How much, do you think, was this caused by the fact the furs and furskins from Canada were placed on the free list? Pulp wood and sulphite are also on the free list.

Incidentally at the last regular session, I introduced a hill, H. R. 6630, to restore a tariff on fur importations. This bill is lying idly in committee, like other similar measures, because its enactment is contrary to the reciprocal trnde agreements negotiated hy this administration in the name of friendly relations.

JUNIOR FARM BUREAU ACTIVITIES

The Charlevoix Junior Farm Bureau is planning a big surprise for its members! That surprise is to come next Monday night at the city hall. Be sure you are there with your friends at 8:30. Members are warned to wear heavy clothing and their best spirits. The surprise is to be engineered by the losing side of the meeting that was held February 12.

MICHIGAN BELL'S BIG IMPROVEMENT PROGRAM

Will Spend $18,000,000 in Michigan During 1940 Fiscal Year

Plans for a 1940 gross construction program amounting to approximately $18,000,000 were announced today by George M. Welch, president of the Michigan Bell Telephone Company.

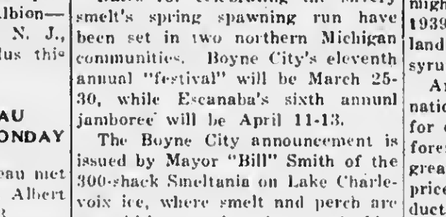
President Welch said the figure obviously might fluctuate somewhat in accordance with business conditions, but added that "at this time, it represents our best judgment as to the plant improvements and expansion that will be required to enable the company to keep pace with and ahead of telephone demand."

The program is the largest estimated by the company since 1930 Welch said. It represents an increase of approximately $5,500,000 above that of 1939. Net additions anticipated will result in the company's plant value passing the $200,000,000 mark for the first time.

Charlevoix Township Caucus

Township caucus for the township of Charlevoix, Charlevoix county, will be held at the Town Hall, Monday, March 4, at 2 p. m. for the purpose of nominating township officers for the coming year and term required by law, and for the transaction of such business as may legally come before the meeting. Oscar Stroud, Township Clerk.—Adv. 8t2.

WITHIN THE REACH OF ALL



It is no accident that America's telephone service is the best and most widely used telephone service in the world. Instead, this is the result of a long-established policy of the Bell System . . . a policy that has always sought to provide the public with the best possible service at the lowest possible price. America endorses this policy by using the telephone about 70 million times a day. . . . Guided by the same sense of responsibility to the public, the Michigan Bell Telephone Company strives to keep Michigan's telephone service *good* and *cheap*, and within the reach of *all*.

The "Cribbage Widows" were entertained Monday evening by Mrs. George Bergmann and Mrs. Sims Baker, at the Bergmann home. Bridge honors for the evening went to Mrs. John Kling, and the hostesses served delicious refreshments.

Mr. and Mrs. Keith Wagner, and the Misses Barbara and Shirley Bradley were dinner guests Sunday at the home of Mr. and Mrs. Clarence Carpenter of Vanderbilt. A beautiful birthday cake was served in honor of the birthdays of Mrs. Carpenter and Miss Barbara Bradley.

Members of Pine Lake Lodge No. 122, Knights of Pythias, will go to East Jordan tonight (Wednesday) for the first of a four-weeks series of cribbage contests with South Lake Lodge members. Games will be played at the local lodge hall on Monday nights, and at East Jordan on Wednesday nights during the series.

All members of Baxter W. R. C. No. 173 are invited to be present at the home of Mrs. Mary Ann Prevost, Friday, February 23, at a two o'clock patriotic and business meeting. Color bearers, we want you, too. All members may bring friends interested in having the Women's Relief Corps carry on. Your secretary will be there.

Mrs. Milton Block entertained several friends at a bridge party at her home on Monday evening, and was pleasantly surprised by a handkerchief shower in honor of her birthday. With three tables of bridge in play, high honors went to Mrs. Harold Byers, while consolation prize was awarded Mrs. Earl Shapton. Refreshments were served to the guests at a table cleverly decorated in the Washington's birthday theme.

The ladies of the South Side Circle of the Congregational church entertained their husbands with a banquet at the Charlevoix Hotel last Thursday evening. Covers were laid for fifty-five guests, and following supper, games were played and many amusing prizes awarded the winners. The chairmen of the committees which planned the enjoyable affair were Mrs. Charles Reinhart, Mrs. Ernest Staley, and Mrs. C. L. Davey.

TRI-COUNTY FARM BUREAU MEETING MARCH 1

Program Completed for Session at Marion Center Grange Hall

C. B. Carey, district representative of the Michigan State Farm Bureau, has announced that final arrangements have been completed for the annual meeting of the Tri-County Farm Bureau.

As given last week, this meeting will be held at the Marion Center Grange hall, Friday, March 1, commencing at 10:30 a. m. Tickets on free merchandise will be given until the 12 a. m. deadline, and prizes will be awarded at the close of the meeting. This year the order of business has been changed so that all business, and election of directors, will take place during the morning session.

The Marion Center Grange ladies will serve a free oyster and hot dog luncheon at noon, all costs of which will be defrayed by the Tri-County Farm Bureau.

The afternoon session will be given over to entertainment, and addresses by speakers. The local Farm Bureau has been fortunate in securing as speakers Stanley M. Powell and J. F. Yaeger, legislative representative and organization director, respectively, of the Michigan State Farm Bureau.

Grangers and other interested farm leaders are invited to attend.

GOVERNOR PROCLAIMS APR. 5TH ARMY DAY IN STATE

Governor Dickinson has designated April 5 as "Army Day" in Michigan.

"In view of present world conditions," Dickinson said in his proclamation, "with hopes of peace and fears of war filling the minds of people the world over, it is fitting that we observe this day as an expression of our confidence in and encouragement of the United States army."

CONGREGATIONAL CHURCHES

G. Russell Parker, Pastor

Charlevoix: Sunday school 10, worship 11, C. E. 6:45.

Ironton Sunday school 11, worship 12:15, C. E. 7:30 Thursday.

We finished with the first chapter of the gospel according to Mark last Sunday. We did not discover all of the truth nor blessings possible, but from that chapter we gathered spiritual inspiration that many will never forget. Next Sunday as we begin the second chapter we are confronted immediately with soul-stirring facts. The non-Christian can find Christ and the Christian can be strengthened. We add nothing to, nor take anything away but preach the full gospel as revealed in God's Word. If one is seeking the truth he will not be disappointed.

The pastor's class is open to you. Take advantage of it. It is for both men and women. Next Sunday our Sunday school subject appears simple, but be careful, "It is dynamite." If one is not blasted from some of his positions he has failed to catch the teaching of Christ. Our discussion begins at 10:30.

May we suggest a thought for meditation. It is spoken by Paul in II Cor. 10:12, A. R. "For we are not bold to number or compare ourselves with certain of them that commend themselves, but they themselves, measuring themselves by themselves, and comparing themselves with themselves, are without understanding."

HOSPITAL NOTES

AT THE MOVIES

Margaret Sullavan, James Stewart in "The Shop Around the Corner"

The most interesting star-director teaming of the year is featured in "The Shop Around the Corner," which comes Saturday, February 24, to the Palace Theatre for an engagement of two days. It marks the return to the screen of Margaret Sullavan for the first time since her memorable performances in "Three Comrades" and "The Shining Hour," and it co-stars her with James Stewart, who is still winning acclaim for his outstanding portrayals in two recent film hits, "Mr. Smith Goes to Washington" and "Destry Rides Again." And it was produced and directed by Ernst Lubitsch, who directed Greta Garbo in "Ninotchka," hilarious satirical comedy.

Lubitsch hand picked his cast for this, his favorite story, which is played against the background of a colorful street in Budapest and the busy little shop. Miss Sullavan and Stewart are clerks in the shop, who quarrel—constantly until they discover that the reason they quarrel is because they are in love. Frank Morgan is the shop owner. Joseph Schildkraut is the trouble-maker. Felix Bressart is the timid clerk, afraid of the boss, the butcher and the doctor, while others in the notable supporting cast are Sara Haden, William Tracy, Inez Courtney, Snrah Edwards, Edwin Maxwell, Charles Halton and Charles Smith.

If Charlevoix's mystery fans haven't spread the word among themselves by now, there's a swell detective picture coming February 28-29 to the Palace Theatre that no sleuth-lover should miss. It's "Inspector Hornleigh on Holiday," the second of the 20th Century-Fox releases starring this suavest operative of Scotland Yard. Gordon Harker plays the title role, with Alastair Sim as his grumbling but ungrudging assistant. It's a tightly knit case and all fans will find it worth their while.

OF INTEREST TO FARMERS

By B. C. Mellencamp

County Road Commission Cooperating with AAA in Purchasing Trees for Windbreaks

The county committee of the Agricultural Adjustment Administration met recently with the county road commission and discussed the opportunities for establishing windbreaks along roads throughout the county. This year no additional thirty dollar payment may be earned by any farmer who will set out young forestry trees. In as much as each acre will earn five units, it is possible to earn the maximum thirty dollars by planting four acres of trees.

The provisions state that three hundred transplants for windbreak will earn five units. The road commission is interested in buying trees for windbreak purposes as they will in time replace snow fences. However, for best results it will be required that the windbreak must start at a point 83 feet from the middle of the road and may be set out solid to a point not closer than 33 feet from the center of the road. This seems like a wonderful program and one in which many farmers should become interested. In as much as there may be a big demand for securing these trees, it will be to your advantage to contact your nearest AAA committeeman or the county agent at once.

Certainly this is a splendid effort and will make our highways far more enjoyable to drive along. A few green trees here and there will add greatly to the beauty of the roadsides. Furthermore, in a very few years these trees will be large enough to accomplish their purpose. Remember! If you are interested, put in your request immediately.

DEPARTMENT OF STATE NEWS BULLETIN

License Plate Rush Is On

Anticipating a terrific last minute demand for 1940 license plates, Harry F. Kelly, secretary of state, announced today that all divisions of his department are in high gear to take care of the greatest plate sale in Michigan's history. "A satisfactory showing has been made to date," Kelly said, "with about 45,000 more sets of plates sold this year than during the same period a year ago. However the registrations of 1939 far exceeded the previous year and we must look forward to the enormous task of supplying license plates to thousands of late buyers."

Kelly stated that the license plate business totaled more than $20,000,000 last year. This sum of money, coupled with more than $30,000,000 received from the gas tax division is turned over to the highway department. The counties in turn, receive all the money collected from the sale of license plates and six and one-half million dollars from the gasoline tax receipts.

This money, spent for new highways, bridges, underpass projects, the elimination of sharp curves, proper highway safety and directional signs contribute much to the safety of motorists who use Michigan highways.

Kelly again appealed to the motoring public to purchase their 1940 license plates at the earliest possible date. Inconvenience, discomfort and frayed nerves will be avoided by applying for plates early in the day, thereby avoiding the rush hours.

Sunday morning service, 10:45.
Sunday school, 12 o'clock.
Meets first Wednesday evening of each month at 7:45 p. m.
Reading room open Saturday, 3 to 5 p. m.

We cordially invite the public to our service and reading room.

"Mind" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, February 25, 1940.

The Golden Text (Psalms 147:5) is "Great is our Lord, and of great power: his understanding is infinite."

Among the Bible citations is this passage (James 2:12): "So speak ye, and so do, as they that shall be judged by the law of liberty."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 225): "The history of our country, like all history, illustrates the might of Mind, and shows human power to be proportionate to its embodiment of right thinking."

LANSING LETTER

(Continued from page 1)

of selecting a township party committee for each party in the township. The committee consists of three persons and selects its own chairman.

Second, the chairman elected at the preceding caucus issues a call designating date, hour and place for political caucus and transmits copy of the call to the township clerk.

Third, the clerk posts notice at least 10 days prior to the holding of the caucus (not later than March 1) in at least five conspicuous places. This notice may be published in a newspaper of general circulation in the township.

Any qualified and registered elector's name may be placed in nomination on motion of any qualified and registered elector present.

It's just as simple as that!

Plurality Nominates

Act 145 of the 1939 legislature further provides that "the candidate . . . . receiving the highest number of votes shall be the party nominee."

In other words, plurality nominates. The nominee for committeeman may receive a minority of the ballots cast; plurality only is required.

The township caucus chairman appoints a secretary and two talliers. The chairman and secretary certify the names and addresses of nominees to township election commissioners, care of the township clerk.

One joker has been detected in the law. It is this: "Provided that this section shall not apply in any township where the ticket for township officers does not contain any political party which has filed its vignette with the secretary of state." Thus, if the township has had only one party ticket, such as "People's Ticket", or "Good Government Ticket", then the new procedure for a party caucus would not prevail. But if there are two or more tickets one of which is either the Republican or Democratic parties (which have filed their vignettes with the secretary of state) then the new law must be observed.

And furthermore, if citizens distrust the party caucus plan and prefer to hold their own primary, a township primary may be authorized by the township board upon petition of 10 per cent of the electorate. Only about 150 of the 1247 townships in Michigan use the primary system. The primary date this year was Monday, February 19.

Liquor Home Rule

The fact that even control over local sale of liquor is a responsibility of local government, not a responsibility of some state commission at Lansing, was brought out recently by Murl H. DeFoe, Charlotte, a member of the state liquor commission.

"Basically all liquor permits begin at home," reminded Commissioner DeFoe.

What did he mean? Just this:

In municipalities or townships where sale of beer or liquor by the glass is now permitted, all licenses are up for local renewal on or before May 1 of each year.

The state liquor control law clearly states that except in Wayne county all licenses, both new and renewal, must be approved by local authorities (village board, city council or township board). In Wayne county the state commission may grant licenses without recommendation of local officials; actually the state commission as a matter of procedure policy obtains the approval of local police before it grants a liquor license.

Who Gets Permit Fee?

If responsibility for granting of licenses rests on local government, then who gets the liquor license revenue? Eighty-five per cent is returned to the municipality or township that approves the license. The state keeps the remainder.

How is this money to be used?

The law does not attach any strings to use of liquor revenue. It goes into the general fund for purpose of paying expenses of government. Implied in this practice is the thought, not expressed in the law, that the supervisory cost of law enforcement would be paid by these fees.

If a tavern sells beer or liquor to minors under the age of 21 or if conditions exist that are otherwise undesirable, then what can be done to revoke the tavern license?

Complaints may be registered with local authorities—the village board, city council, township board which originally approved the license application. While the law does not require the local governing body to hold a hearing, such may be done, or the board may revoke the license at any regular official session. The next recourse for action is the state liquor control commission which either may revoke the license outright or hold a public hearing.

Hotels Worried

The hotels of Michigan, many of which derive substantial revenue from the sale of beer or liquor, are anxious to eliminate abuses.

Saturday noon, February 24, at the Dearborn Inn, the Michigan Hotel Association will present a plaque to Henry Ford. Hotel managers and leading public officials will listen to an address on temperance by Governor Luren D. Dickinson.

The hotel men are going to declare their position on temperance matters and make some suggestions. From reliable sources we understand that the combination of the state hotel association and Governor Dickinson will put the liquor problem squarely on newspaper front pages.

Whatever is said, the fact still remains that good government or bad government begins in Michigan during the next few days, not next November. Democracy's grass roots, under our party system, will start then in each of Michigan's 1247 townships.

45,000 Women Who Have the Wanderlust

Jeff Davis, "International King of the Hoboes", and philosopher, explains, in an article in The American Weekly, the great weekly magazine with the February 25 issue of The Detroit Sunday Times, how dishonest, unscrupulous "trampettes" and "bumettes" are making life difficult for decent, law-abiding, industrious men and women who have the wanderlust. Be sure to get Sunday's Detrnit Times.

"IF IT'S CUSTOMERS YOU WANT---"

R. H. MACY & COMPANY, New York, is the largest retail store in the world.

Its success has been built largely on good merchandising and good advertising.

"Newspapers are the main medium of retailers because they draw to the stores more customers than any other type of advertising," states Paul Hollister, executive vice-president of Macy's.

Hollister made a three-year study of 28,000 newspaper advertisements and the actual sales results they affected. As a result, Macy's has been able to reduce "flop" advertising to about 6 per cent. Good advertising brings good returns for Macy's, and newspapers are relied upon to do the job.

been below zero twice. Inasmuch as the coast guard station is the only place where they take official temperature readings, and just to get this whole thing straight, I called "Cap" Smith to get the low down, and be darned if (officially) I hadn't lied myself, for the thermometer down there hasn't shown a below-zero reading this winter. (Just between you and I and the gatepost, though, the lake tempers the air down that way, and if the truth be known, it has really been below zero back farther away from the lake).

They tell me the whitefish fishing off Belvedere bathing pier on Lake Charlevoix is "tops" these days. The fellows are getting three or four, sometimes seven a day on hook and line.

Charlevoix better look out for its laurels! Those Irontoners walked off with three championships in the annual ping pong tournament. They may be a small community, but they do things in a big way out there.

Fishermen were able last year to get onto Round lake ice the first time just a year ago Tuesday. Doesn't seem possible it was so late, does it? Think we'll all agree, after looking at Round lake, that Tuesday will be the last time this year.

Uncle Josh, in his "Well By Heck" column in the Boyne Citizen, wants to know why it is that a red, brown or black cow gives white milk. He supposes it's for the same reason a blackberry is either red or white when it is green.

Then along comes the Boyne Citizen's "On the Aveoue" column with new uses for an electric razor, listed as follows:

Scaling fish.
Taking the head off beer.
Mowing the lawn.
Removing the fuzz from peaches.
Keeping room-mate awake.
Catching flies.
Interfering with radio.
Shaving.

Gosh, I just couldn't keep up with the changes in the election date. First it was February 19, then March 4, and finally back to February 19 again. I got dizzy, fell off the merry-go-round and got too far behind to catch up. We did have an election, though!

INSTALLATION SEAPLANE FLOAT HERE IN SPRING

Purchase of Materials for Float Authorized by City Council

Charlevoix will be placed on the airways maps as a recognized seaplane port with installation of a seaplane float on Lake Charlevoix in the spring.

The city council recently authorized purchase of materials needed for construction of the float by NYA workers, following a prior agreement for city cooperation with the NYA administration on such a project.

Following the spring breakup of ice and return of open water, the float, expected to be completed by that time, will be anchored off the Ferry avenue municipal bathing beach on Lake Charlevoix. Here seaplanes may land and make use of the float and harbor.

State aeronautic officials admit Charlevoix has one of the finest protected landings in Michigan. The same thing that holds true for yachts and boats would hold true also for seaplanes. That this city has the best deep water protected harbors on the Great Lakes is undisputed.

Ramps may be built at some future time, depending on use of the anchorage and float this summer. This would encourage all types of amphibian planes to land at Charlevoix when in this area, and may bring army maneuvers because of the facilities available.

METHODIST CHURCH LENTEN PROGRAM STARTS FEBRUARY 25

The following plan has been worked out and is being presented by the pastor of the Methodist church thru the Lenten season.

The Lenten season should mean much to the church and in fact to all those who place Christianity as one of the foundation stones to our country and to its success. It is not merely a period of time in which certain sacrifices may be made but it is also a time for all professing Christians to take inventory of themselves and their abilities for future use. It is for this reason that this particular plan has been worked out. It is hoped that every member of the church and every constituent and friend of the church will feel a responsibility to be present at as many of these services as possible.

Feb. 25: Morning service—"The Value of Time." Evening service—"What is the Christian Way of Spending Money?"

Feb. 28: Wednesday evening—"Are We Good Stewards of Time?"

March 3: Sunday morning—"The Conquest of Covetousness." Evening service—"How Many Talents Have You?"

March 6: Wednesday evening—"The Motive of Self-Denial."

March 10: Morning service—"The Conquering Life." Evening service—"Are We Priests, Levites, or Good Samaritans?"

March 13: Wednesday evening—"Are We atisfied With Our Stewardship?"

March 17: Morning service—Rev. William Helrigel will be the speaker. Evening service—Rev. William Helrigel will speak.

Every evening of Passion Week there will be special meetings in the church with Rev. Helrigel as the speaker.

There will be a Good Friday union service. Time and place will be announced later.

DISTRICT HEALTH UNIT GIVE REPORT

ACTIVITIES DURING 1939 REVEALED TO PUBLIC

Services of Health Officers and Nurses Covered Wide Scope in Four Northern Counties

The past year brought many additional health programs into the regular set-up of the District Health Department in this area, which serves these northern counties of Antrim, Charlevoix, Emmet and Otsego.

A crippled children's clinic was held for one day which afforded orthopedic attention to 110 crippled children. This was the first such clinic held here since 1931. The Children's Fond of Michigan sponsored an eye corrective program for these counties and gave 1,000 children an opportunity to have an eye examination.

Among other services were the semi-annual tuberculosis x-ray clinics, through the cooperation of the Michigan Tuberculosis Association; Molita Hutzel, social hygiene educator of the Michigan Department of Health, who spent a week in the city schools, and Mrs. Mabelle Markee of the Michigan Department of Health who has been teaching child care classes in the schools of Antrim and Otsego county for the past sixteen weeks. A summer sanitary inspector spent three months during the resort season assisting the regular sanitarian with resort inspection work.

In addition to these extra activities, the health department personnel carried on a varied and well-rounded program embracing their routine home nursing and clinical visits. A total mileage of 74,550 miles was reported as travelled in this area by the health officer, sanitarian, and five nurses during the twelve months of last year. A total of 10,743 home visits were made by the five field nurses.

Among the other services performed by the staff were the following:

Services by Health Officer and Nurses

Vaccinations	5,482
Diphtheria immunizations	817
Tuberculin tests	1,836
Tuberculosis x-rays	278
Communicable disease home visits	1,619
Tuberculosis home visits	547
Prenatal home visits	533
Postnatal home visits	354
Infant home visits	2,036
Preschool home visits	2,563
School home visits	2,542
Crippled children home visits	309
Miscellaneous home visits	240
Infant medical examinations	158
Preschool medical examinations	609
School medical examinations	2,424

Services by Sanitarian

Sanitary inspections (schools, resorts, water supplies, etc.) 2,224; milk plants and dairy farms, 550; milk bacteria counts (by our own laboratory), 456; milk sediment tests (by our own laboratory), 466; butter fat tests (by our own laboratory), 456.

Services by Dentist

Examinations at schools	1,549
Clinic visits	2,032
Teeth extracted	2,650
Fillings	4,132
Prophylactic treatments (cleaning teeth)	167
Cases completed in clinic	97

Aside from these tabulated services much time was devoted to attendance at child health committee meetings, planning health institutes, giving talks at schools, lectures to lay audiences, office interviews, newspaper service, pamphlets distribution and other means of informing the public of the newest trends in healthful living.

EXAMS ARE ANNOUNCED BY CONSERVATION DEPT.

Scheduled at Roscommon for District Between March 25 and April 5

Examinations for classifications of fish culture aide, park ranger and game farm hand are announced by the department of conservation, applications to be postmarked not later than March 15 and examinations to be held between dates of March 25 and April 5 at Lansing, Roscommon and Marquette.

All are "C" classifications to establish employment registers under the department's merit system. Application forms may be secured from the department's Lansing personnel office, from regional and district offices of the field administration division and from district headquarters of fish and game divisions.

MSC SCHOLARSHIPS ARE AVAILABLE GRADUATES

Awards to be Made on High School Records and Financial Needs

High school graduates will have opportunity to compete for 32 Michigan State College alumni scholarships, it was announced here today by Glen O. Stewart, alumni secretary.

The scholarship, equivalent to the $90 college tuition fee, will be awarded in each of the state's 32 senatorial districts to students who have outstanding high school records and who can show need for financial assistance.

Chairman of the scholarship committee in the Charlevoix district is Arthur W. Glidden, Gaylord. Candidates for scholarships are requested to have their qualifications completed and filed with a committee member in their district before May 1. Applications received after May 1 will not be considered.

Scholarship candidates are nominated by alumni groups or alumni committees in the various districts, in cooperation with high school principals. Candidates must be from the upper one-third of their high school classes, and nominations are confined to those students whose financial circumstances definitely warrant scholarship aid.

Scholarships are awarded by the Michigan State College faculty scholarship committee after results of a comprehensive examination, high school credits, and recommendations are considered.

Prospective applicants who desire further information are requested to see their high school principal or their district scholarship chairman.

CHARLEVOIX COURIER

VOLUME 45 NUMBER 8 SUPPLEMENT THE CHARLEVOIX COURIER, WEDNESDAY, FEBRUARY 21, 1940 PAGES 1 TO 8 INCLUSIVE PRICE $2.00 PER YEAR

ANNUAL TAX SALE

STATE OF MICHIGAN, ss.
County of Charlevoix,

The Circuit Court for the County of Charlevoix in Chancery.

In the matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the March term of this Court, to be held at Charlevoix in the County of Charlevoix, State of Michigan, on the 4th day of March, A. D. 1040, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien claimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned, and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of said decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'clock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall he selected by him at the county seat of the County of Charlevoix, State of Michigan; and that the sale then and there made will be a public sale, and each parcel described in the decree shall be separately exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, sueb parcel shall be passed over for the time being, and shall on the succeeding day, or before the close of the sale, be reoffered, and if, on such second offer or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness the Hon. Parm C. Gilbert, Circuit Judge, and the seal of said Circuit Court of Charlevoix County this 15th day of January, A. D. 1940.

PARM C. GILBERT,
Circuit Judge.

Countersigned,
Fenton R. Bulow, Clerk.

STATE OF MICHIGAN

In the Circuit Court for the County of Charlevoix in Chancery.

In the Matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Charlevoix, in Chancery:

Vernon J. Brown, Auditor General of the State of Michigan, respectfully shows unto the Court:

1. That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 200 of the Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1933, as amended;

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes which were assessed for the years mentioned therein, have remnined unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore bid off in the name of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have romained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned;

3. That extended separately in said schedule against such description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) fifty cents for expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid, and have remsined delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and exponses so extended in said scheduic against each parcel of land therein described constitute a valid lien upon each of the snid several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferrod or first elaim upon such lands by the sale thereof.

Whorefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

b. That within the time provided by law this court make a final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several nmounts of taxes, interest, collection fee and exponses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be neeessary to satisfy the amount decreed against the same, shall severally be sold as the law provides;

d. That your petitioaer may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc.

Dated: January 9, 1940.

CAMP CHARLEVOIX REUNION IS HELD

ANNUAL EVENT AT ANN ARBOR ON FEBRUARY 17TH

Plans for 1940 Season Outlined to Campers and Parents by Director L. C. Reimann

Ann Arbor was the scene on Saturday, February 17th, of the annual Camp Charlevoix reunion.

Campers, friends, parents nnd counsellors gathered with Chief Lewis C. Reimann for a swim in Union pool, trip through the U. of M. campus, banquet, songs and movies. From all reports, it was a grand event.

Plans for the 1940 season at Camp Charlevoix, located on Oyster Bay on the north shore of Lake Charlevoix, were outlined. Chief Reimann told of a new fishing department created to meet increasing demand from campers. Trips to lakes and streams are planned for the summer.

Another new feature will be the addition of chimes which can be heard for miles around. The chimes, patterned after those at Alpena, are made of nine pieces of railroad rails hung in the shape of a harp. They will have distinct notes and tunes can be played by hitting them with a hammer. The rails, cut to measure, were presented by the Pero Marquette Railway Co.

Mr. Reimann also announced several new sail boats will be added to the fleet and that arrangements have been made so that Snipe class sailboats will be offered the campers at a big discount. Some have already planned to bring their own boats to the camp.

As a result of a gift of $40 from the camp carnival fund last summer, four Charlevoix county rural schools were given $10 each to purchase athletic equipment. Besides the money, the camp gave the schools several boxes of books. Two boxes of books were sent to Beaver Island. Mr. Reimann told of the acknowledgment of these gifts.

Prospects look bright for 1940, according to Director Reimann, who states present enrollments are already half of the 1939 enrollment.

TWO-WAY RADIO AIDS FOREST FIRE CONTROL

Half of State's Fire Towers Now Equipped with Radio

Two-way radio communication which links observers in fire towers with fire fighting crews on the ground is credited with playing an important role in holding Michigan's forest fire losses to less than three-tenths of one per cent in recent seasons.

Half of the towers in the state's fire protection system are equipped with radio and new installations are being made as rapidly as funds allow.

DELINQUENT TAX LIST

Appearing in this issue of the Courier is the fifth publication of an 8-page supplement containing the list of 1940 tax sale property, lands delinquent for taxes of 1937 and previous years, in Charlevoix county. The supplement will be carried in five consecutive editions.

LAKE SPEARING SEASON CLOSES FRIDAY

Two-Month Winter Period Ends on February 29th in Michigan

Only one more day remains in which it is lawful to take certain species of fish through the ice with spears on inland waters of Michigan which are not specifically closed to such fishing. The two-month season ends February 29.

The law permits spearing, in season, of carp, suckers, mullet, redhorse, sheepshead, lake trout, smelt, northern pike, muskellunge, whitefish, ciscoes, pilotfish or Menominee whitefish, catfish, bullheads, dogfish and garpike.

Michigan Once Had More Lakes

Evidence that Michigan once had many more than its present 5,000 lakes remains in old lake sites that are now marl beds, peat bogs, muck lands, marshes and swamps.

Dedication Program is Scheduled Mon., Mar. 4

Citizens Invited to Inspect New City Hall, Sewage Disposal and Electric Light Plants

Plans formulated two weeks ago will be carried out Monday, March 4th, providing formal dedication of Charlevoix'a new city hall, electric light system extensions and sewage disposal plant.

Under direction of city officials, "open house" will be maintained between 1:00 and 8:00 p. m. Local citizens will be provided an opportunity to inspect first hand municipal utilities and northern Michigan's finest city hall, which, as taxpayers of this city, they are the owners. The public works to be dedicated represent an investment of approximately $290,000 in public and PWA funds.

Assisted by members of the local Boy Scout troops, city employes and officials will be on hand to direct citizens through the city hall, the sewage disposal and electric light plant, to show them in actuality what has been accomplished with the money voted for these projects. Automobiles will be provided to transport the visitors to the several buildings.

The half-hour dedication program is scheduled to be held in the community room in the city hall between 4:00 and 4:30. An invitation has been extended officials from Bellaire, Central Lake, Ellsworth, East Jordan, Boyne City, Petoskey and Harbor Springs to attend.

The tentative program outlined includes: Invocation by Rev. G. R. Parker; introduction of visiting officials and remarks by Mayor Robert Bridge; dedication address by D. R. Kennicott of Chicago, regional director of the Public Works Administration; song, "God Bless America," led by Charles Hamlin with Mrs. A. J. Stelter at the piano; benediction, Rev. Parker.

JUNIOR MARINE CLUB TO INCREASE WATER SPORTS

Plan Construction of Fleet of Small Sailing Dinghies Next Summer

Acting to stimulate interest and provide training in marine activities among younger people in Charlevoix, the Charlevoix Marine Club has started organization of a Junior Marine Club.

Plans are well under way to build a fleet of 8-foot sailing dinghies. This sporty little craft, with beam of 4 feet 4 inches, is to be built of plywood. The total material cost will be $17.50 and an additional charge of $2 will be made for use of a building form which has been provided by Will Bellinger. Sails can be anything from an ordinary bed sheet costing $1 on up, depending on the desire of the owner.

Up to the present time ten have expressed an intention to build one of the boats. Ten sets of plans have been obtained by the Marine Club.

The board of commerce has made provision for a series of summer races for dinghy owners and will awnrd suitable trophies to the winner. With sails of the boats in varied colors, such a fleet presents a colorful sight. A decided increase in marine activity is expected during the coming season.

SWINTON PIANO STUDENTS GAVE RECITAL SATURDAY

Music of Composers Born in February Made Occasion Appropriate

A group of Mrs. A. A. Swinton's piano pupils gave a program at her home Saturday evening, February 24, consisting of solos and ensemble numbers for one and two pianos.

The occasion was made appropriate to the month of February thru the introduction of music by the composer Hayden, who was born in the same year as George Washington, and of music by Chopin, whose birthday was on the 22nd of February and whose birth year was that of Abraham Lincoln.

FATHER AND SON BANQUET WAS FINE AFFAIR

Two Hundred Present at Annual Party Last Thursday Evening

The annual Father and Son banquet, given Thursday evening at the Methodist church, was a successful affair, with an nttendance of over two hundred. Decorations were in patriotic red, white and blue, with tiny flags and hatchets on the tables at which the delicious dinner was served.

Toastmaster for the evening was Harry Bingham. The invocation, given by Rev. G. Russell Parker, was followed by the father's toast to the sons, given by LaVerne McGhan. Buddy Kohler gave the response for the sons. Charles Hamlin sang a solo, and Bill Hannah and Donald Bogart sang a duet, a song they had written themselves. Speaker of the evening was Rev. W. L. Cruthers, who gave an excellent address on "Making n New World." The benediction by Rev. H. J. Pulsipher closed the program.

Mrs. F. F. McMillan, general chairman for the banquet, was assisted by Mrs. T. L. Pearl, chairman of the decorating committee; Mrs. Frank Bird and Mrs. Clarence Withers were in charge of the tickets; the program committee was headed by Mrs. Freda Shupeck, and programs were made by Mrs. Walker Miles.

REPUBLICAN STATE CONVENTION SET FOR MAY 16

GOP Meeting to Name Delegates Will be Held at Grand Rapids

Setting of the date for the Republican state convention in Grand Rapids, has removed one uncertainty from the Michigan political scene but Democratic leaders remained undecided—or uncommunicative — about their plans.

Republicans will hold a one-day state convention on May 16 to select a slate of 38 delegates and 38 alternates to the national convention at Philadelphia June 24. It will be the occasion for a thumping endorsement of Sen. Arthur H. Vandenberg as candidate for the presidential nomination.

ODD FELLOWS TIGHTEN CRIBBAGE SERIES LEAD

Defeated Masons by Margin of 452 Points Monday Night

The Odd Fellows tightened their lead in the winter cribbage series Monday night, defeating the Masons by a margin of 452 points, the largest score since the series opened. The Odd Fellows have won six of the eight contests this winter.

With eight tables at play, the Odd Fellows scored 14,638 points to 14,186 for the Masons. The margin gave them a series lead of 1,026 points with two more contests remaining in the series.

Ed. Behrens turned in the high score of the evening, 965 points for the Masons. Robt. Stafford led the Odd Fellows with 960.

The ninth contest is scheduled for Monday evening, March 4, at the Masonic temple.

DISTRICT TOURNEY TO OPEN THURSDAY

ALANSON AND MACKINAW CITY IN FIRST CONTEST

Charlevoix Matched with Boyne City in Class C Contest Friday Night —Four Class C Teams

Alanson and Mackinnw City, class D teams, will open the district basketball tournament to be held Thursday, Friday and Saturday, February 29, March 1 and 2, at the Harbor Springs high school gymnasium.

The initial game is scheduled for 7:15 Thursday evening.

In the class C draw, Harbor Springs and East Jordan were paired for the first tilt in this class at 8:30 Thursday evening. Charlevoix and Boyne City play at 9:15 Friday night. Other contests scheduled Friday night are the Boyne Falls-Indian River game in class D at 6:45, and Pellston vs. winner of the Alanson-Mackinaw City contest at 8 o'clock. Pellston drew a bye in the class D draw.

The finals in both classes are scheduled Saturday night, the class D tilt at 7:15 and the class C contest at 8:30.

Pellston, winners over Charlevoix in class C competition last year, is favored in class D. While competing in class C a year ago, Pellston has this year gone back into class D ranks.

Basing conclusions on pre-tournament performance, the class C tussle should be a wide open scramble between Harbor Springs, East Jordan and Boyne City, with the former slightly favored because of playing on their home floor. East Jordan has twice defeated Boyne, Harbor has defeated both at least once. There's little to choose from. Charlevoix, defeated in every conference game this year, is given an outside chance.

COMMERCIAL FISHERS MUST OBTAIN LICENSE

Conservation Department Plans Arrests for Violations

Arrests of wholesale fish dealers and revocations of commercial fishing licenses are being ordered by the conservation department as a last resort in enforcement of statutes requiring licensing of such operators.

Dealers' licenses must be renewed January 1 and commercial fishermen who are being penalized have failed to submit monthly reports. One hundred and twenty-one wholesale dealers were licensed in 1939 and approximately 1,400 commercial fishing licenses are issued annually.

HARBOR WINNER LAST CAGE TILT

DEFEATED CHARLEVOIX 27 TO 20 HERE FRIDAY

Reserves Won Final Game by 22 to 21 Score — Rayders Enter Tournament Play Friday

Harbor Springs defeated Charlevoix's Red Rayders by a 27 to 20 score here Friday night in the final pre-tournament game for both schools. The Rayder reserves eked out a 22 to 21 victory over Harbor reserves.

The defeat was the Rayders' fourteenth in as many games and produced a record unparalleled in the history of Charlevoix high school athletics. There is no record of a former team going through an entire season without a victory.

Friday night's score coincided with those of contests during the latter part of the season, inasmuch as the margin of defeat was considerably lower than at the previous meeting of the two teams. The contest was close with exception of the final period. Both teams scored 3 points in the first period. Harbor led by a 7 to 5 margin at the half and were out in front 15 to 12 at the third intermission. In the final quarter the victors scored 12 points to Charlevoix's 8 to increase their advantage to 7 points.

Carey and Stevens were high point men for Charlevoix, the former with 8 and Stevens with 6. Bergman scored 4, White and McGhan 1 each. For Harbor, Davert led with 9 points. Hanna accounted for 7, McBride 6.

The Rayder reserves led all the way to turn in a close 22 to 21 victory over Harbar reserves. The count at the quarter was 11 to 3, at the half 15 to 13, and at the third intermission 18 to 15. Gengle led with 7 points, Novotny and Martin scored 5 each, Mitchell 3 and Swanson 2. The victory gave the reserves quite a wide margin of wins over defeats during the season.

The Rayders will enter class C competition in the district tournament at Harbor Springs. In view of their steady improvement in play during recent weeks, the team cannot be counted out of tournament competition.

'40 EMERGENCY CROP AND FEED LOANS AVAILABLE

Application May be Made at County Agent's Office, Boyne City

Emergency crop and feed loans for 1940 are now available to farmers in Charlevoix county and applications for these loans are now being received at the county agent's office Boyne City, by Sabin Hooper, field supervisor of the emergency crop and feed loan section of the Farm Credit Administration.

These loans will be made, as in the past, only to farmers whose cash requirements are small and who cannot obtain a loan from any other source, including production credit associations, banks, or other private concern or individuals.

As in former years, the money loaned will be limited to the applicant's necessary cash needs in preparing and cultivating his 1940 crops or in purchasing or producing feed for his livestock.

Borrowers who obtain loans for the production of cash crops are required to give as security a first lien on the crop financed or, in the case of loans for the purchase or production of feed for livestock, a first lien on the livestock to be fed.

SHOT AT RANDOM

By Ken Usher

Easter Day is always the first Sunday after the full moon that falls on or next after the 21st of March. It falls this year on March 24th, which is the earliest since 1818. That's 122 years ago. This writer and most of you folks reading this probably won't live to see another date so early. And you can't blame it on Roosevelt, for it's the moon's fault.

When I think of the Roosevelts, though, I cannot help but remark: "What a family!" In this modern age of ours, when we're more or less used to unusual things, we'll have to admit that no group heretofore has ever been able to get the amount of publicity centered upon them that the Roosevelts have. From Franklin D. on down the line they hit the front page of the metropolitan press with daily regularity. Son Jimmy's impending divorce was given more space than the war in Finland, just for an example. Maybe it's the press that's at fault, but I'll string along with those of my chosen profession to the extent of believing the writers know good copy when they see it.

Those of us who believe in honest politics and conscientious conduct of governmental affairs can take a great deal of satisfaction in the way Louis-

LANSING LETTER

By GENE ALLEMAN

Field Manager, Michigan Press Association

The woods are full of deserving causes.

But few of them have the heart-throb appeal of old age pensions.

Here is an issue for politicians that is made to order, and it is becoming of greater importance each year. Pension checks have been known to increase suddenly on the eve of a state election; nominees shed salty tears as they pledge oratorically to give better treatment to the aged and infirm. In Colorado a generous pension for the aged nearly bankrupt the state treasury; California had its "ham and eggs" scheme and Ohio its Bigelow amendment last November to entice old age voters and to scare conservative business men.

In Michigan all public officials apparently agree that the state should find funds, somehow and somewhere, to put 25,000 to 30,000 persons on the old age assistance rolls who have

DEDICATION CITY HALL, TWO PLANTS, PLANNED

Taxpayers Invited to Attend "Open House" and Program Dedicating $290,000 Outlay in Public Works and Municipal Utilities

Charlevoix's new city hall, its electric system extensions and sewage disposal plant will be officially dedicated Monday, March 4th.

Financed through issuance of revenue and general obligation bonds, together with aid from the Public Works Administration in outright grants, these three projects represent an investment of $290,544.97 in municipally-owned properties. Charlevoix taxpayers obligated themselves to the extent of $183,172.35, or slightly less than two-thirds of the cost. The aggregate PWA grants, outright gifts to the city, amounted to $107,372.62.

The sewage disposal system was built at a cost of $102,171.23, of which the city share was $78,671.23 and the federal grant $23,500.00, approximate, or 23%. Total cost of the city hall was $69,482.25, of which the city contributed $38,215.24 and the PWA $31,267.01, or 45%. The electric light system extensions were completed at a cost of $118,891.49. The city's share was $66,285.88 and the PWA $52,605.61, again 45%.

City Hall Last Project

The last project completed was a combined city hall and fire station providing quarters for all municipal departments under one roof for the first time in Charlevoix's history. While a site was purchased by a council headed by former Mayor S. M. Rose 25 years ago, delay in erecting the city hall was caused by various groups being unable to agree on financing and type of construction. Ten years ago plans for such a building were prepared by a Lansing architect. A year ago, with PWA funds available for 45% of the cost, the administration of Mayor Robert Bridge successfully submitted a proposition to issue bonds for the city's share of the cost. Plans were revised and the present structure, termed the finest in northern Michigan, was built.

The building is 71x82 feet, three stories high with two above ground. It is of brick construction, veneered with Briar Hill split-face sandstone and trimmed with white Indiana limestone. The framing is reinforced concrete column and beams. The first floor is reinforced concrete, the second concrete poured on mesh and steel joists. The 4-ply built-up roof on a concrete deck, is flashed and counter-flashed with copper and carries a 20-year guarantee.

First Floor Offices

Entrance to the first floor is off State street into a vestibule and lobby. To right of lobby are combined offices of city clerk and city treasurer with two vaults and connecting private office. To the left the community room with seating for 150 persons. To rear of lobby is hallway containing public telephone booth and service stairs to basement and second floor. Beyond the hall is the fire station.

Access to the second floor is by stairs from the first floor to second floor lobby. On right of lobby are offices of chief of police, board of commerce and city superintendent, with secretary's office between and serving both. To the left is small office and cloakroom for mayor and councilmen. A rise of three steps leads to the council chambers and justice court. A door at rear of lobby leads to service hall containing upstair rest rooms and entrance to apartment of Fire Chief Charles Marshall. This apartment consists of kitchen and dinnette, living room opening onto balcony over fire station entrance, two bedrooms with connecting bath. Probably no fire chief in the United States has finer quarters.

The basement, reached from the first floor lobby, provides a large clubroom, men's and women's toilets and lounges, main storage vault and boiler room. The boiler room has a stoker-fuel steam heating plant with provision for air-conditioning of the clubroom, community room, council chambers and justice court.

All corridors, lobbies and stairways have terrazzo surface. Floors of second floor offices and rooms are covered with linoleum cemented on concrete. The first floor community room and office floors are covered with rubber tile on concrete base.

The walls of all rooms have birch panels, and counters are of birch with rubber tops. All windows have venetian blinds and sills are of marble slab. The building is insulated with 4 inches of rock wool on walls and roof.

The building was recently equipped with modern, fine new furniture and steel tiling equipment.

The building was built by the Muskegon Construction Co. under the direction of Don Herrick, city superintendent. The architect was Harold Thompson of Mullet Lake.

The new city hall provided quarters for all city departments for the first time in Charlevoix's history. Before the project was completed, council rooms and offices of the clerk and treasurer were located in the basement of the Carnegie library. Justice H. R. Fowler and Police Chief Clarence Heise had offices in the Dahlquist building and offices of City Superintendent Don Herrick were located in the Geiken building. The city was required to pay considerable rental for various offices.

Electric System Improvements

The electric system extension program was started under the administration of former Mayor Arthur Bergeon. The original bond issue approved by voters found no sale due to a legal technicality and thus the project was carried over into the administration of Mayor Robert Bridge. The proposal was also marked by discord which terminated in an unsuccessfol attempt to prevent the then city council from proceed-

CHRISTIAN SCIENCE

Sunday morning service, 10:45.

Sunday school, 12 o'clock.

Meets first Wednesday evening of each month at 7:45 p. m.

Reading room open Saturday, 3 to 5 p. m.

We cordially invite the public to our service and reading room.

"Christ Jesus" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, March 3, 1940.

The Golden Text (II Corinthians 4:6) is: "God, who commanded the light to shine out of darkness, hath shined in our hearts, to give the light of the knowledge of the glory of God in the face of Jesus Christ."

Among the Bible citations is this passage (Matthew 9:35): "And Jesus went about all the cities and villages, teaching in their synagogues, and preaching the gospel of the kingdom, and healing every sickness and every disease among the people."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 136): "Jesus established his church and maintained his mission on a spiritual foundation of Christ-healing. He taught his followers that his religion had a divine Principle, which would cast out error and heal both the sick and the sinning."

ing with purchase of a deisel unit. The original plans were thrown out in favor of the final proposal carried through to completion.

The electric system extension program provided a new deisel generating unit, addition to the Ferry avenue plant to house the deisel, installation of new switchgeur at the Ferry avenue and Bellaire plants, improvements at the Bellaire hydro-electric plant and re-conditioning of 17 miles of transmission line between Charlevoix and Bellaire.

The light plant addition, built by the Kit Carson Lumber Co., is 40x50 feet. Construction is of brick with steel columns and roof joists. The wooden roof deck is covered with 4-ply roofing. This addition houses the new 500 k. w. Rathbun-Jones 6-cylinder deisel engine, rated at 725 h. p., and bought to bring the electric system generating capacity up to requirements. In the basement is installed auxiliary equipment such as heat exchangers, fuel pump, air compressor and tanks and oil purifyer for both deisel engines. The addition provides space for a third deisel unit and, during construction, piling for the foundation of another unit was driven. The addition houses also toilet and shower room for operators.

Other improvements at the Ferry avenue plant included installation of new switchgear. Two new panels were revamped to make provision for cables leaving plant under ground. The new switch gear was installed on metal framing, surrounded by safety cage. Provision was made for an additionnl board if later required.

Electric wiring for lighting of the plant addition was furnished and installed by Wood Brothers. Robert Bonthron had the contract for the plumbing work.

Re-conditioning of 17 miles of transmission line between Charlevoix and Bellaire resulted in reduction of line loss from 18% to 7.3%. At Bellaire, the interior of the hydro-electric plant was renovated, a new roof built, old trash rack torn out and new one installed and all new switch gear installed.

Dedicate Sewage Disposal

The sewage disposal treatment plant, located on Round lake harbor, was built under the administration of former Mayor L. S. See. The office and laboratory was built over the main settling tanks. Sludge is pumped to the digestor tanks and after digestion is drawn off into tank truck and taken to drying beds at city dumping grounds. The sludge is dried and used for fertilizer on city parks and golf grounds. The system, besides the treatment plant, including river crossing, pumping stations for coust guard station and Belvedere Club grounds, und system of intercepting sewers. The contructors were the Christman-Lansing Co. of Lansing, Mich.

Finest Utility System

Next Monday, Charlevoix citizens will be provided an opportunity to visit and inspect their municipal utilities. The city hall is beyond doubt the finest in northern Michigun and the utilities are probably the most complete and best any city of Charlevoix's size can boast of. The obligation taxpayers have assumed in providing these utilities is fully justified in the provision of the best of services for the summer residents of this city. Let's look upon them with pride.

COMMUNITY ROOM FILLS LONG-FELT REQUIREMENT

The community room at the new city hall fills a requirement of long standing in Charlevoix.

With a seating capacity for around 150 persons, it is used practically every evening in the week. Various organizations and clubs in the city have found it a fine meeting place and full advantage is being taken of its facilities.

Collapsible steel chairs, upholstered in leather, provide seating. Just recently the council traded the old upright piano for a grand piano.

* **HOT CHOWDER** *
* **FOR COLD DAYS** *
* * * * * * * * * * *

There's something friendly and wholesome about a bowl of chowder on cold, crisp days. Long ago, New Englanders discovered how good this hearty dish could be. And now members of the home economics staff of Michigan State College recommend serving chowders as the main part of a luncheon or supper.

Chowder is usually thick with fish or vegetables, and some cookbooks call it "super-soup." It is a hot food that supplies the protein, minerals, and vitamins. Yet it is more interesting in texture and more appetizing in flavor than an ordinary cream soup. Salt pork gives it a distinctive flavor; and, in keeping with an old tradition, the real chowder is poured over crackers before serving.

Here is a typical fish-chowder recipe, which has been worked out by the federal bureau of home economics:

1½ pounds fresh cod, haddock, or any other large fish
2 cups diced potatoes
1 cup diced carrots
1 quart water
¼ pound salt pork, diced
1 onion chopped
2 tablespoons flour
1 pint milk
Salt
Pepper

Cut the fish into small pieces and remove the bones and skin. Cook fish, potatoes and carrots in the water for 15 minutes. Fry the salt pork until crisp, remove from the fat, cook the onion in the fat for a few minutes, add the flour, stir until well blended and add the milk. Add this mixture to the dish and vegetables, add the salt and pepper, stir frequently and simmer for 10 minutes longer. Add more seasoning if necessary, and serve over crackers.

RAILROADS AID SCHOOLS

The Iron Horse figuratively is pulling hundreds of Charlevoix county and thousands of Michigan boys and girls through school, according to Floyd E. Drake, executive secretary of the Railroad Co-Operative League of Michigan. Of this county's share of the state primary school fund, Drake declares 37 per cent comes from railroad taxes.

Charlevoix county's share of the current allocation of primary school funds totals $47,454.40, Drake explains, which is at the rate of $11.20 for each of its 4,237 school-age children. Of the $15,664,611.17 in the fund the roalroads through taxes paid $5,759,621.27, or 37 per cent of the total.

On this basis railrosd taxes made up $17,433.98 of this county's share of the fund.

"The primary school fund is one of our state's most sacred funds and without it education of our 1,399,769 current school children would be seriously impaired," Druke said. "The biggest single tax contributors to the fund are the railroads. Thus, of the $11.20 the state gives through the fund toward the schooling of each child, $4.11 is supplied from railroad taxes. It is estimated that railroad taxes are sufficient tn defray the annual cost to the public of educating 69,385 boys and girls in the state. Nationally railroad taxes are said to make possible the education of 1,300,000.

"These railroad contributions to our schools are further proof of the vital part the lines play in our economic lives, a part now threatened by the competitive inequulity they are being subjected to by unregulated other forms of transportation, none of which, incidentally, contribute a penny to public education in Michigan.

Bear Skins to Russia

In the 1860's Michigan fur dealers were shipping skins of Michigan black bear to Russia. Officers of the Russian Imperial army were greatcoats and high hats fashioned from them, according to N. H. Winchell who served as assistant to his brother, Alexander Winchell, then state geologist, in 1869-70.

CATTLE QUARANTINE IN 35 NORTHERN COUNTIES

State Acts to Protect Those Free of Bang's Disease

State Agriculture Commissioner Elmer A. Beamer has placed 35 counties above the Manistee-Iosco base line under quarantine against the free movement of cattle into the territory.

The quarantine, Beamer said, is an automatic result of the completion of the federal-state inspection program under which the counties are designated as free of Bang's disease. It prohibits the shipment of any cattle into the area without examination or certification of their freedom from the disease.

Counties placed under quarantine were Alcona, Alger, Alpena, Baraga, Benzie, Charlevoix, Cheboygan, Chippewa, Crawford, Delta, Dickinson, Emmet, Gogebic, Grand Traverse, Houghton, Iosco, Iron, Kalkaska, Keweenaw, Leelanau, Luce, Mackinac, Manistee, Marquette, Menominee, Missaukee, Montmorency, Ogemaw, Ontonagon, Oscoda, Otsego, Presque Isle, Roscommon, Schoolcraft and Wexford.

"The state is fortunate," Beamer said, "to have made such progress in the control of this disease. The northern Michigan counties will find enlarged markets for their cattle, as it will now become known as a disease free area. The quarantine does not prohibit free movement of cattle within the area or movement out of the counties but will prohibit free movement into the territory."

ERNST-SMITH WEDDING SOLEMNIZED AT CONG. PARSONAGE FEBRUARY 21

SHARPTAILS FOR BEAVER ISLAND

GAME CLUB AND STATE MAKE TEST PLANTING

Twenty Birds Transported to St. James Last Week by Airplane—Cover Considered Ideal

Historic Beaver island in northern Lake Michigan, long without a native game bird of any kind, was given a planting of 20 shurptail grouse last week in the hope of establishing these birds in the island covers.

The grouse, bought from dealers who are live-trapping in Wisconsin this winter, were shipped to Lansing by express, taken north to Charlevoix by car and then flown across Lake Michigan to Beaver island by plane. Boat transportation is out of the question at this time of year and the sharptails cannot be trapped at any other season.

The project is sponsored jointly by the Beaver Island Game Club and the game division of the state department and is being carried out under the supervision of H. D. Ruhl, chief of the game division.

It is hoped to release at least 10 more sharptails on the island within the next few weeks, making a planting of 30 in all.

So far as state game men know, ruffed grouse or partridge have never been found on Beaver island despite the fact that it affords plenty of excellent grouse cover. Prairie chickens likewise have never gained a foothold there, perhaps because of the distance of the island from the mainland. Eighteen miles of water separates Beaver from the nenrest mainland point near Cross Village.

Several years ago pheasants were established on the island at the instigntion of sportsmen there, who hatched eggs obtained from the conservation department and freed the birds. The pheasant flock thrived and increased for a few years under the protection of a closed season. Then, without warning, the birds were completely wiped out, game men believe as a result of severe winter weather and deep snow.

The Beaver Island Gnme Club decided last spring to try pheasants once more. Eggs again were obtained from Lansing and a fair number of young birds hatched and released. State game men are skeptical of the final results, however. They do nnt believe that the pheasant ean be successfuily introduced onto Beaver island because of the hard winters.

The sharptnil grouse, on the other hand, appears ideally suited to the islund, Ruhl believes. Beaver offers plenty of old abandoned farms and clearings, burnings, cutover land and grassy openings bordered by thickets. In the upper peninsula, in Wisconsin and in some areas in the northern part of the lower peninsula this type of country hus proven ideal for the sharptaii, fast gaining a reputntion as one of the best gnme birds in the United States.—Grand Rapids Press.

Grouse Wintering Well

Reports from conservntion officers in north central counties nf the lower peninsula hold promise of good ruffed grouse shooting next season. Plenty of birds are observed budding in trees. The winter, so far, has been almost ideal and birds hnve not suffered as a consequence of ice storms.

Tables for Campers

Bench-tables for use of picnickers and campers who visit Michigan's 12 state forests are being constructed at the former Alpena CCC camp, now a camp for transients. More than 40 camp grounds in state forests will be open to the public next summer.

The band concert Wednesday night drew a crowded house, manys hnd to stand.

Mrs. Lawrence Jensen has received word from Flint of the serious illness of her mother, Mrs. Lizzie Metz, who had the misfortune to fall and break one of her arms a few weeks ago.

Charlevoix county agricultural conservation committee met the farmers of this district at the Grnnge hall Monday at 10 a. m., to give them the opportunity to sign up their farm plans for the coming year.

The three basketball teams frnm Boyne City played against the corresponding East Jordan teams at East Jordan Friday night of last week. East Jordan high and junior high teams won over Boyne City's teams. A large delegatinn of Boyne City rooters came with their teams. Gaylord also was represented as the winning of the game by East Jordan gives Gaylord team first place.

SAY SMELT VALUABLE AS FOOD FOR OTHER FISH

Dr. John VanOosten Says Species a "Blessing Rather Than Curse"

Smelt is by far the most common fish-food of smelt, John VanOosten, in charge of the bureau of fisheries Great Lakes fishery investigations, declares in an historical review of smelt in the Great Lakes. Among other things, smelt are absolved of the charge of preying on young game fish.

Chief diet of smelt consists of microscopic plants and nnimals, small crustaceans and insect larvae. Stomach analyses have shown that besides eating other smelt and smelt eggs, smelt have eaten lake shiners, yellow perch, sculpin, lawyer, rock bass, herring and stickleback.

None has been known to eat young trout. Smelt are not seeking food when they nscend the streams to spawn, and young trout do not occur in the cold deep wnter resort of the smelt, it is snid.

All fish eaten are reported a small part of the smelt diet, while the smelt itself has been found to be food for brook trout, whitefish, lake herring, eel, smallmouth black bass, sauger, white perch, little pickerel, northern pike, and gar occasionally; and a common food of lake trout, landlocked saimon, walleyes, perch and burbot or lawyers.

Balancing the value of current smelt fisheries against the damage done to commercial fishing gear and the smelt's competition with gamier fish for fish food, VanOosten concludes that, "On the whole, the smelt may be considered more of a blessing to the state than a curse."

He recommends further investigation of smoking, pickling, canning and salting smelt.

nlready been qualified to receive such aid.

The merit of the cause is conceded. No one is going to argue about that.

McPherson's Forecast

When the chnirman of a state tax commission predicts that both the old age assistance roll and the nmount of individual payments will be increased by the next legislature (it convenes in regular session in 1941), then it's time to re-appraise the plan and inquire how it is going to be financed.

Furthermore, Melville B. McPherson, who holds this tax job at Lansing, confidently believes that the next step by state government will be the granting of an adequate pension to all elderly people whether they need it or not. In a talk at Michigan State College recently he explnined its justification as follows: "The present method penalizes those who hnve saved their money during their productive yeurs, and such a system cnnnot endure."

The original federal socinl security act (modeled upon Europenn experience) became h inw August 14, 1935. Although it contained provisions for relief of seven different kinds, the public thinks of the act usunlly in terms of two: old nge benefits (pension nnd assistance) and unemployment compensation.

Old age benefits nre paid to retired workers on the basis of their previous earnings nnd are not to be confused with relief payments to aged indigent persons—this relief being called "old nge assistance" in the federal act and the Michigan act which complements it.

Michigan and the federal government ench pay one-half of these last mentioned payments or "pensions"; that is, provided the total per nmount is not in exeess of $30.

1939 Amendments

The nld age assistance pnrt of the Socinl Seeurity Act was materinlly changed hy 1939 amendments made by Congress. The reserve feutnre was mostly eliminated, the basis for benefits changed, and benefits included for dependents and survivors. The rate was frozen at 1 per cent for the next three years, hoth employer nnd employee paying 1 per cent. Except for this amendment it would have been 1½ per cent for 1940, 1941 and 1942. However, it still will gn to 2 per cent in 1943 unless another amendment is made in the meantime.

The former basis for old age persinns (apart from assistance for the indigent infirm) was largely dependent upnn the total wages earned over a perlod of years; also no benefits were payable until 1942.

Now the basis for benefits is the average monthly wage, and the length of time worked is an insignificant factor in the benefit, being only an addition nf 1 per cent of the benefit for each year worked.

Furthermnre, benefits for the person of low monthly wage are mude larger in proportion to said earning, and benefits are payable beginning January, 1940, or two years before the time set in the original law of 1935.

Requirements

As the average reader of "Michigan Mirror" expects to be alive at 65, here are the requirements for your benefit payments at that age.

Minimum requirements for benefit payments are now only one and a half years of work. Those over 65 years of age are now required to pay tax and are eligible for benefits after completing at least six quarters and retiring from gainful employment except a monthly earning of $15 or less is not deduced from the benefits allowed.

The benefits to the wife who is over 65 is nne-half of her husband's allowanee, which allowance is called the "primary insurance benefit" and each dependent child under 18 receives the same. A widow over 65 received three-fourths of the primary insurance benefit and dependent children one-hnlf in case of the death of the husband and father.

It will be noted that the word "insurance" is contained in the 1939 amended act, and it seems that the present law is similar to an insurance policy whereas the original act was more like an annuity policy.

Pensions and Taxes

If the 1941 legislature is going to increase the appropriation for old age assistance, providing funds to add a minimum nf 25,000 persons to the assistance roll, then how is this deserving cause to be financed?

Mr. McPherson points to the Intangible tax revived in 1939. The state association of township supervisors, meeting recently in Lansing, went on record us favoring a return of one-third of all sales tax revenues to the township for unemployment, relief and welfare purposes.

With a red ink deficit of $31,000,000 in Michigan's general fund, the well merited need of more old age assistance presents a real problem to Michigan taxpayers. It is not our function to suggest the answer; we only present the facts as we find them and try to interpret the trend.

Just a casual reader of the Bible knows about the Scribe, the Pharisee and doctors of the law. He is also familiar with the opposition of these groups to Jesus. The scribes, a learned class, observed the Mosaic law by multiplying its precepts, and intensifying its minute ceremonial observances. So legal were they, so intent upon the law, that they missed the moral ideas. They "searched the scriptures" but missed the Christ. We have their counterparts today in those who insist upon minute observances of certain legalistic beliefs. To be a Christian one must do this, that or the other thing. But, who made any man a judge over another in his relation to his God? Next Sunday our subject for discussion is just "But."

Take advantage of the pastor's class. Plenty of opportunity to ask questions and enter the discussion. Many tell us these discussions are very helpful. We hold to no creed, doctrine, or "ism", hut to the "open Bible" which still is the Light of the World.

The Christian Endeavor is invited to go to East Jordan next Sunday and join the Presbyterian C. E. for a service. Well, we have never turned one of these invitations down yet. We leave not later than 6 p. m. from the church.

DISTRICT HEALTH UNIT

Charlevoix County's Leading Causes of Death in 1939

Medical men are frequently quoted as saying that their particular science has advanced farther in the past fifty years than in the five hundred that went before. As proof, they offer the fact that a child born in the sixteenth century might hope to live no longer than the average of 21 years. In the seventeenth century, the average life-span had increased to 26 years; in the eighteenth century to 34 years; by the end of the nineteenth century to 40 years. Boys born in 1930 might reasonably expect to live to the age of 60 to 65 years and girls to the age of 62 to 68 years. By 1960, it is confidently predicted, men will average 75 years and women 80 or more.

This is, indeed, a magnificent record, dramatically testifying to our increased knowledge and control of the bacterial and parasitic disease as well as to a clearer understanding of human nutritional needs. However, physicians admit, their greatest triumphs have been in the field of pediatrics, that branch of medicine dealing with the diseases of children and their treatment. Little or nothing has been accomplished in geriatrics, which concerns the ills to which the aging body is subject.

In Charlevoix county during 1939 a total of 196 deaths occurred. These deaths were divided into age groups as follows: Under 1 year, 15; 1 to 29 years, 12; 30-49 years, 19; 50 to 69 years, 65; 70 and over, 85. The ten leading causes of death are classified as follows: Heart disease 69, cancer 28, nephritis 15, violent and accidental 13, apoplexy 9, pneumonia 7, premature birth 6, diabetes 6, tuberculosis 6, congenital malformations 3.

More persons are now reaching middle age than at any other period in the world's history. Statisticians estimate that by 1960 approximately 36 per cent of the population of the United States will be between the ages of 40 and 65. This will constitute not only a grave medical problem—but, in the light of the industry's "forty-phobia", an aging population also constitutes a serious social and economic problem.

Unpleasant Offense

St. Johns—Arrest of a person for disturbing a den of fur-bearing animals is not a common offense, but it it more unusual when the den belongs to a family of skunks. That's what happened to Clyde Hansen of Dewitt, recently, however.

CHURCH OF GOD

H. J. Pulsipher, Pastor

Sunday Morning:

Sunday school at 10.

Worship at 11.

Evening Services:

This Sunday is National Young People's Sunday throughout the Church of God. The young people will have charge of the program at both the 6:30 and the 7:30 services. There will be special singing and speaking. We cordially invite the people of the community to come to these services.

Wednesday evening at 7:30 is our regular prayer meeting.

Thursday and Friday of this week, February 29 and March 1st, we are privileged to have with us the noted Canadian Evangelist, Rev. Harvey Pinyoun, who also is an artist with the trombone. He was associated at one time with the celebrated Billy Sunday, the great evangelist of America. We especially invite the public to come and hear this man of God these two nights.

Rev. Harvey F. Pinyoun, the Canadian evangelist, and trombone artist, will be at the Church of God two nights this week, Thursday and Friday nights. The public is invited.

Strange Tragedies of the Hunt for Hollywood Bawl's Hidden Hoard

An article in The American Weekly, with the March 3 issue of the Detroit Sunday times, will point out that eight men, interested in the treasure, died violently before an engineer tried to find the riches of Old Mexico, thought to be buried near the great stadium . . . And now his suicide seems to bear out the historic "Curse of Cahuenga Pass." Be sure to get Sunday's Detroit Times.

20,000 Ways to Make a Living

What can be done to increase employment? What is the best way to look for a job? When is the best time? Where are the biggest opportunities? Is there a shortage of "brain workers"? Does a college education pay? The answers to these questions will be given in a series of articles on job-hunting by a famous 'employment' authority, Lyle Spencer. Spencer is director of Science Research Associates, an organization that is changing job-hunting from a gamble to a science. Today he heads a staff that keeps the nation informed on 20,000 ways to make a living—and his staff is PAID $100,000 annually for the information. Watch for the first in this series of timely and important articles in This Week, the colorgravure magazine with next Sunday's Detroit News.

Dr. and Mrs. Russell Palmer's home was the scene of a musical February 22nd, in honor of George Washington's birthday. The rooms were decorated with an American flag, a charcoal painting of George Washington, red, white and blue candles, and Martha Washington geraniums. The program opened with the song "George Washington", followed by "The Star Spangled Banner", sung by all present; a piano selection "In a Boat" by Mrs. Palmer; "Marching Through Georgia" by Mae Gallagher; "Yankee Doodle" by Alice Joy McDonough; and "America" by all. Madonna McDonough, president of the children's "Melody Club", played several piano selections. During the intermission, dainty refreshments were served.

"NEWSPAPERS ARE THE BACKBONE"

There must be good reasons why successful business firms consistently use newspapers to carry their sales messages:

Listen to R. G. Landis, Pacific coast advertising director for the Shell Oil company:

"Newspapers are the backbone of our campaigns because of flexibility, because they cause a sudden activity, and because they present our story very favorably. The message advising of our 'Share the Road' emblems appeared on Thursday. By Monday a supply of a quarter million emblems was completely exhausted, and newspapers had been the only medium used up to that time. There was not even posters at the service stations."

ADVERTISING MAKES SALES; SALES MAKE JOBS. GO NEWSPAPER IN 1940

ianians ousted the remnants of the late Huey Long's corrupt political machine. They nominated over Gov. Earl K. Long, brother and heir of the assassinated "Kingfish," one Sam Houston Jones, a reformer who promises to "run the rascals out of office." If Louisiana can clean out the Longs, there's hopes now that we'll live to see the day when the McKays and Barnards are "road" out of Michigan politics.

Two pages of this issue are devoted to the impending dedication on March 4th of Charlevoix's new city hall, sewage disposal plant and electric light plant addition. Bet a plugged nickle that not one out of ten of you folks who, as taxpayers, own these fine municipal works, have ever been inside the plants. If you're one of the nine, get out Monday and take a good look at what you own!

They say the Democrats out-maneuvered the Republicans by setting their national convention date one day behind the GOP. That's nothing very unusual, for the Democrats have been out-smarting the Republicans for eight years at the very least, if my memory doesn't fail me.

A daily paper Tuesday carried an item stating some southern Michigan county was having trouble arousing interest enough among the Democrats to recruit a force to take the census. When housewives once find out the million and one questions they're going to have to answer, they won't give a hoot whether anybody takes the census.

History relates there has never been in the entire history of the world more than one good war, and that was the Trojan War, which took place a long time ago. They fought for a woman, and every soldier on both sides knew exactly what he was fighting for. It has never been done since.

Those publicity guys down in New Orleans sure "put it on thick" when talking about their famous Mardi Gras. They gave Michigan, and Charlevoix particularly a nice bit of publicity which may be a little far-fetched, but looks mighty nice in print, at that. Here's what they said: Canal street looked like Woodward avenue today, what with scores of Michigan license plates, and hundreds of Michiganians with their masks and costumes all ready for Tuesday's Mardi Gras. We in Louisiana glory in Michigan's eminence as America's No. 1 tourist state and you may be certain we are patterning our promotional activities along the Michigan plan. Just as Michigan, notably Charlevoix, is the Summer playplace for Louisianans, Louisiana is the Winter playplace for Michiganians. We down here eat your cherries and you up there eat our oranges—so we have much in common." What did I tell you!

Ice conditions certainly did change in a week's time. Last Tuesday the ice was practically gone from Round lake and except along the shore there wasn't a speck in sight in Lake Michigan between Charlevoix and the Beavers, the Manitous and as far north as the Straits. Fish boats began to bustle around the harbor and a couple even set nets. Today Round lake is again frozen solid and has a small (the bravest) quota of fishermen, while floes in Lake Michigan reach as far as the eye can see. Ten inches of snow has fallen in that period of time, too.

To Charlevoix basketball fans who are used to championship teams, the Red Rayder 1939-40 combination turned out to be quite an innovation. I don't believe athletic records will reveal where a Charlevoix team went through a season without winning a single game. But when one stops to remember that the season started with a 100% new team, and that this team humped into the stiffest competition northern Michigan class C schools have produced in years, the situation sort of explains itself.

Spring can't be awful far away, ur some of our business places wouldn't be "shining" up for summer. Notice the office of the Northern Auto Company has been redecorated and that "Pat" Curtis is painting the inside of his store and installing a lot of new equipment as well.

BRING SPECIALIST TO DISCUSS POTATO BLIGHT

Series of Three Meetings Scheduled for Friday, March 8th

(By B. C. Mellencamp)

The year 1939 saw the heaviest infectiun of late blight in potatoes since 1917. It is safe to say that the losses frum this disease amuunted to thousands of dollars to the county. Not alone this, but nearly every lot of potatoes to be used for seed this spring has the infection in varying amounts. The big problem to decide is, "Is it safe to use seed, known to be infected with blight, this spring?"

Due to its being uncommon thru this section, very few potato growers know its history and what can be done tu control it. We have secured the services of J. H. Muncie, plant pathologist, from the Michigan State College, to spend March 8th with us to discuss in detail the known facts about late blight in potatoes. Furthermore, to make it most convenient, we are holding these meetings in the three cooperative associations, where many lots of potatoes are stored, so that we can see first hand what happens in the bin.

The first meeting will be held at the Charlevoix Co-operative Company on Friday forenoon, March 8th, at ten o'clock. The second meeting will be held at the East Jordan Co-operative Company on Friday afternoon, March 8th at 1:30 and the last meeting will be held in the Boyne City Co-operative Company at 3:30 on the same afternoon.

AT THE MOVIES

Robert Montgomery Enacts Gangster Who Becomes a Lord in "The Earl of Chicago"

Starring Robert Montgomery for the second time in his screen career in a picture selected by himself and with a role he wanted to portray—the first was the psychopathic murderer in "Night Must Fall," which won him nomination for the Academy Award—"The Earl of Chicago" opens March 2 at the Palace Theatre for an engagement of two days.

One of the most unusual characterizations ever brought to the screen, it marks an abrupt departure from Montgomery's comedy wise-cracking playboy roles, with the star seen as Silky Kilmount, Chicago gangster.

Victor Saville, producer of "Goodbye, Mr. Chips" and "The Citadel," brings the film to the screen, with a supporting cast of 159 players, featuring Reginald Owen, Edmund Gwenn, E. E. Clive, Ronald Sinclair, Norma Varden, Halliwell Hobbes, Ian Wulf, Peter Godfrey and Billy Bevan.

"Santa Fe Marshall," Our Old Pal "Hoppy"

Enlisted once again in the cause of tracking down desperadoes, "Hopalong Cassidy," in the person of William Boyd, runs up against his toughest assignment in "Santa Fe Marshal," which will have its first local showing on March 6-7 at the Palace Theatre. Always one to be fair to the ladies, the famuus Clarence E. Mulford character really has his work cut out for him—for the leader of the gang of outlaws happens to be a woman!

"20,000 Men a Year"

With the nation's college youth taking to the skies, thousands strong as a result of the intensive national civilian training program of the Civil Aeronautics Authority, the Cosmopolitan production for 20th Century-Fox which is coming to the Palace Theatre on March 6-7—"20,000 Men a Year"—takes on a timely significance. Featuring Randolph Scott, Preston Foster and Margaret Lindsay at the top of a cast including Mary Healy, Robert Shaw, George Ernest, Jane Darwell, Kane Richmond and Maxie Rosenbloom, the film is said to be as electrifying as a power dive and a highly romantic love story as well.

MEMBERS TUESDAY CLUB ENTERTAINED HUSBANDS AT THIRD ANNUAL PARTY

The Tuesday Club entertained their husbands and friends at their third annual party at the home of Mr. and Mrs. Albert Cook on Park avenue, Tuesday evening.

A friendship supper was served, after which the evening was spent singing old favorite songs and playing games. Decorations were patriutic in honor of the birthday of George Washington. Mrs. Frank Courier headed the committee in charge of the evening.

Those present were Mrs. Rosa Nettleton, Mr. and Mrs. Otto Krueger, Mr. and Mrs. Frank Courier, Mr. and Mrs. Floyd Supp, Mr. and Mrs. Robert Bonthron, Mr. and Mrs. Albert Stelter, Mr. and Mrs. Albert Cook and son Glenn, Mr. and Mrs. Oscar North, Max Smith, Mrs. William J. Flanders, Miss Lillis Flanders, Miss Ione Smith, Mrs. Angus Fochtman, and Miss Olive Allen.

JOHN ROBINSON, VETERAN TAILOR, TAKEN BY DEATH

John Robinson, who died Sunday at the county farm near East Jordan, will be remembered by many Charlevoix residents.

Known to most of his friends as "Jack" Robinson, he came to this country from Ireland, his birthplace, when a boy, and had traveled all over the United States practicing his trade as a tailor. He was employed at the F. E. Cartier shop many years.

Mr. Robinson, who was nearly ninety years old, had no surviving relatives.

JUNIOR FARM BUREAU

Many Junior Farm Bureau members were surprised Monday night to find they didn't come in first in the scavanger hunt! Sandford Matchett, Miss Amy Pederson and Miss Jeanette Potter really "beat" the rest by an hour.

After a hair-combing contest which was won by Vernon Cuok and Miss Marjorie Smith, the group settled down to more quiet games.

Somewhere near 11 o'clock someone called "come and get it." The time was short before the table was empty uf pop and doughnuts.

As Miss Elsie Hilton had brought a victrola the evening was finished by a little old-time square dancing.

Game Problems Discussed

Meetings of officers and boards of directors of farmer-hunter cooperatives are scheduled for coming weeks in Eaton, Barry and Kent counties for discussions of general game problems and organization for the 1940 hunting seasons. Similar meetings, called by county agricultural agents, have been held in recent weeks in Genesee, Tuscola, Saginaw and Gratiut counties.

Smelt in Tawas Bay

Tawas bay may some day rival Crystal, Charlevoix and Cedar lakes on the west side of the state as a mecca for smelt fishermen if fishing success of recent weeks continues. Smelt are caught near the surface and are exceptioaally large. This is the first season smelt have been taken in large numbers by ice fishermen on Tawas bay.

Oscoda Boosts Bounty

Oscoda supervisors have voted an additional $10 bounty on coyotes taken in that county. The state pays $20 for females and $10 for males. Action was taken at the request of livestock and poultry raisers.

STATE OF MICHIGAN, ss.
County of Charlevoix.

The Circuit Court for the County of Charlevoix in Chancery.

In the matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

On reading and filing the petition of the Auditor General of the State of Michigan praying for a decree in favor of the State of Michigan, against each parcel of land therein described, for the amounts therein specified, claimed to be due for taxes, interest and charges on each such parcel of land, and that such lands be sold for the amounts so claimed by the State of Michigan.

It is ordered that said petition will be brought on for hearing and decree at the March term of this Court, to be held at Charlevoix in the County of Charlevoix, State of Michigan, on the 4th day of March, A. D. 1940, at the opening of the Court on that day, and that all persons interested in such lands or any part thereof, desiring to contest the lien elaimed thereon by the State of Michigan, for such taxes, interest and charges, or any part thereof, shall appear in said Court, and file with the clerk thereof their objections thereto on or before the first day of the term of this Court above mentioned; and that in default thereof the same will be taken as confessed and a decree will be taken and entered as prayed for in said petition. And it is further ordered that in pursuance of snid decree the lands described in said petition for which a decree of sale shall be made, will be sold for the several taxes, interest and charges thereon as determined by such decree, on the first Tuesday in May thereafter, beginning at 10 o'elock a. m. on said day, or on the day or days subsequent thereto as may be necessary to complete the sale of said lands and of each and every parcel thereof, at the office of the County Treasurer, or at such convenient place as shall be selected by him at the county seat of the County of Charlevoix, State of Michigan; and that the sale then and there mnde will be a public sale, and each parcel described in the decree shall be separstely exposed for sale for the total taxes, interest and charges, and the sale shall be made to the person paying the full amount charged against such parcel, and accepting a conveyance of the smallest undivided fee simple interest therein; or, if no person will pay the taxes and charges and take a conveyance of less than the entire thereof, then the whole parcel shall be offered and sold. If any parcel of land cannot be sold for taxes, interest and charges, such parcel shall be passed over for the time being, and shall on the succeeding day, or before the close of the sale, be reoffered, and If, on such second offer or during such sale, the same cannot be sold for the amount aforesaid, the County Treasurer shall bid off the same in the name of the State.

Witness tho Hon. Parm C. Gilbert, Circuit Judge, and the seal of said Circuit Court of Charlevoix County this 15th day of January, A. D. 1940.

PARM C. GILBERT,
Circuit Judge.

STATE OF MICHIGAN

In the Circuit Court for the County of Charlevoix in Chancery.

In the Matter of the Petition of Vernon J. Brown, Auditor General of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Charlevoix, in Chancery:

Vernon J. Brown, Auditor General of the State of Michigan, respectfully shows unto the Court:

1. That he is the Auditor General of the State of Michigan and makes and files this petition under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 126 of the Public Acts of 1933, as amended;

2. Tbat Schedule A annexed hereto is the tax reeord required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the description of all lands in said county heretofore bid off in the name of the State nnd thus held and upon which taxes which were assessed suhsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of the act last above mentioned;

3. That extended separately in said schedule against such description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) fifty cents for expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest nnd charges are valid, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the salo thereof.

Wherefore your petitioner prays:

a. That within the time provided by law this court may determine and decree that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several pnrcels of land described in snid schedule as therein extended;

b. That within the time provided by law this court nuke n final decree in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the severnl parcels of land therein contained;

c. That said decree provide that in default of the payment so ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount decreed against the same, shall severally be sold as the law provides;

d. That your petitioner may have such other and further relief in the premises as to this court may seem just and equitable.

And your petitioner will ever pray, etc.

Dated: January 9, 1940.

VERNON J. BROWN,
Auditor General of the State of Michigan, for and in behalf of said State.

KIWANIS TO SHOW OLD-TIME MOVIES

"NICKELODEAN NIGHT" AT GYM WEDNESDAY, MARCH 13

Two-Hour Entertainment to Bring Back Famous Stars of Silent Movies and News Events

Oldsters will remember the Nickelodean of the 1900 to 1910 period, and young folks and children should see the kind of entertainment enjoyed in the early days of the silent films.

An opportunity to have this new experience, or to relive old experiences, will be made possible on Wednesday, March 13th, at the gymnasium when the Charlevoix Kiwanis will sponsor "Nickelodean Night", a two-hour showing of silent movies dating from 1893 to 1915.

News pictures, dramas and comics make up the program. There are views of the 1893 World's Fair at Chicago, including Sandow, the strong man, and Fatima, President McKinley, Theodore Roosevelt, Wm. Jennings Bryan, the Kaiser, Andrew Carnegie and Buffalo Bill; the first dight of the Wright brothers in 1903, the Nelson-Gans fight of 1906, the San Francisco fire and earthquake pictures and a Yale-Harvard game of 1914. Also Easter style parade of 1900, gasoline buggies, Thomas Edison and his first "peep shows", excerpts from films showing the Ford Theatre scenes from "The Birth of a Nation", also such old stars as Francis X. Bushman and Beverly Bane, John Bunny, William Farnum, Wm. S. (Bill) Hart, Douglas Fairbanks, Tom Mix, Conrad Nagel and of course, Will Rogers.

There are also six complete one-reel films with Mary Pickford, Charles Chaplin, Fatty Arbuckle, Chester Conklin, Blanch Sweet, Mack Swain and the Keystone Cops.

If possible there will be an illustrated song. Featured will be piano music to fit the mood of the picture. The Kiwanis orchestra and quartette will furnish music "as" good as the pictures." This entertainment is for laughing purposes chiefly. Hiss the villain, cheer the hero, weep with the heroine and laugh with the comedians. "One thousand people are wanted for the audience."

WALTER F. CONKLIN BECOMES FIRM EXECUTIVE

Named General Manager R. J. Ederer Co., Netting Manufacturers

Becoming one of the youngest executives in the country, Walter F. Conklin, for the past several years a Charlevoix resident, has been named general manager of R. J. Ederer Company of Chicago, largest manufacturers of netting materials in the United States.

Prior to his advancement, Mr. Conklin was a member of the company's sales staff, making his headquarters in Charlevoix. He goes to the company's main office in Chicago. Branch offices are maintained in several coast cities of the United States.

Mrs. Conklin, who is visiting in Philadelphia, will join Mr. Conklin in two weeks. They will reside at 7000 So. Lake Shore Drive, Chicago.

KEITH CAREY SETS NEW BASKETBALL SCORE MARK

Netted 46 Points for Alma College to Better Intercollegiate Record

A basketball scoring record of 46 points was set in the Michigan Intercollegiate Athletic Association last Tuesday night by Keith Carey, former Charlevoix high school basketball star.

Carey netted 19 field goals and 8 free throws to wind up the conference schedule with 149 points during Alma's 68 to 29 victory over Adrian. He shattered the former record of 30 points set by Cook of Albion to annex the conference scoring title and push Alma's total scoring for the season past 1,000 points. Carey was "fed" the ball throughout the game in a pre-determined effort to set a record.

Carey was one of the star performers on the championship Charlevoix high school team of '38. In that year he averaged close to 20 points per game in regular and tournament competition which carried Charlevoix to the state class C finals.

SERVICE CLUBS OF COUNTY ARE FETED

UNITE AT EAST JORDAN MEETING TUESDAY NIGHT

Charlevoix Kiwanis, East Jordan and Boyne City Rotary Join to Promote Charlevoix County

A more unified effort in promoting the advancement of Charlevoix county is expected to result from a meeting Tuesday evening at East Jordan of Charlevoix, Boyne City and East Jordan service clubs.

Gathered at Jordan Inn for the first meeting of its kind held in the county were 23 members of the Boyne City Rotary Club, 20 East Jordan Rotarians and 25 Charlevoix Kiwanians. There was an assemblage of 65, all seeking a united front in promoting not only the betterment of their community, but the county at large.

At the close of a fine chicken dinner, Max Smith led a number of spirited songs and Charles Hamlin favored with two solos. Two selections sang by the Charlevoix Kiwanis quartette were given a big hand.

Edwin K. Rueling, East Jordan attorney, acted as toastmaster. He called upon the presidents of the three service clubs and in response short talks were given by Howard Porter, president of East Jordan Rotary, B. C. Mellencamp, Boyne City Rotary president, and Floyd A. Supp, president of Charlevoix Kiwanis.

Judge Parm C. Gilbert, of Traverse City, was the guest speaker, giving an impressive talk on measures which could be taken by the organizations present to aid in the correction of youth delinqaency.

DEDICATION PROGRAM WAS MONDAY

FINE TURN-OUT FOR CEREMONY AT CITY HALL

Mayor Robert Bridge, City Supt. Don Herrick, W. B. Hodges, PWA Engineer, Speakers

At a brief but impressive ceremony Monday afternoon, Charlevoix's recently completed city hall, its electric system extension program and sewage treatment plant were dedicated.

The combined projects, financed with municipal and Public Works Administration funds, represented an investment of approximately $290,000 in municipally-owned properties.

Mayor Robert Bridge opened the program before an assemblage which filled the community room to capacity. He reviewed briefly the accomplishments of his own and previous city administrations in providing the three projects. He stated Charlevoix held an enviable position in view of its municipally-owned public works and expressed the opinion Charlevoix citizens, who as taxpayers owned these utilities, should be justly proud.

Don Herrick, city superintendent, lauded by Mayor Bridge for his part in making the projects a reality, spoke briefly and introduced W. B. Hodges, PWA engineer, who complimented Charlevoix on its accomplishments.

Rev. G. R. Parker opened the ceremony with the invocation. Charles Hamlin led the assemblage in singing "God Bless America." Mrs. A. J. Stelter played piano accompaniment. Benediction by Rev. Parker closed the program.

A large number of citizens took advantage of the "open house" provided as an opportunity to inspect the city hall, visit the sewage treatment plant and Ferry avenue electric light plant.

A 12-page folder, outlining accomplishments of the city administration for the period of March 1, 1938 to February 29, 1940, was distributed to those visiting the city hall. Citizens who did not obtain a copy of this report will be given one upon request. The information contained in the report is interesting and instructive as a means of showing where and how the tax dollar has been spent and accomplishments resulting.

PYTHIANS AGAIN RECOGNIZE SCHOLASTIC MERIT

Plan Medal Awards to Honor Students on Friday, March 15th

Medals in recognition of scholastic attainment by Charlevoix high school students will be awarded at a benefit movie scheduled at the Palace Theater, Friday evening, March 15th.

Proceeds of the movie will go into the Knights of Pythias fund to provide these scholastic awards, following a plan instituted several years ago. Further details of the event will be announced when available.

TOWNSEND CLUB MEETING IS SCHEDULED THURSDAY

Regular meeting of the Charlevoix Townsend Club is scheduled at the customary hour Thursday evening in the community room at the city hall. Two speakers from Petoskey will address the gathering, and business of importance is to be brought up. All members are urged to be present.

REGIONAL TOURNEY OPEN AT PETOSKEY

EAST JORDAN AND PELLSTON DISTRICT WINNERS

Charlevoix Bowed Out of District Play Friday Night When Defeated by Boyne City

East Jordan was the class C and Pellston the class D winner in the district basketball tournament finals Saturday night at Harbor Springs, and as a result of their victories, enter regional competition which opens Thursday afternoon at Petoskey.

East Jordan scored a one point victory over Boyne City, winning 21 to 20. They had earlier eliminated Harbor Springs by a 22 to 21 margin to enter the finals. Pellston annexed the class D crown through a 23 to 19 victory over Boyne Falls after trailing at the half. They won their way to the finals with a one-point victory over Mackinaw City, winning 19 to 18 Friday night.

Charlevoix's Red Rayders bowed out of the district tournament Friday night. Boyne City, twice victors over the Rayders in pre-tournament play, scored a 41 to 25 victory. The contest was close in the early periods, Boyne leading 17 to 11 at the half and 29 to 21 at the end of third quarter. Ernie Dietze scored 16 points for Boyne, and Carey was high for Charlevoix with 11.

Other Harbor tournament results were: Class D—Mackinaw City 25, Alanson 12; Boyne Falls 30, Indian River 24.

Seventeen teams will compete at the Petoskey regional. In class B will be Petoskey, Cheboygan, Traverse City, Manistee and Rogers City; class C—East Jordan, Gaylord, Lake City and Frankfort; class D—Pellston, Roscommon, Houghton Lake, Onekama, Leland, St. Francis of Traverse City, Bellaire and St. Anne's of Alpena.

Officials for the tournament will be Gordon Tabraham, of Cadillac; David Bates, of Harbor Springs; Cecil Nickle, of Alabaster.

Manistee, in view of regular season play, is favored in class B. Gaylord, winner of the northern Michigan class C conference title, will be a strong contender for regional honors in class C. Several evenly matched teams are competing for the class D crown.

MASONS WINNER NINTH CONTEST CRIBBAGE MEET

Trail Odd Fellows by 924 Points With Series Final Next Monday

Monday evening, March 11, will bring to a close the annual Masonic-Odd Fellow winter cribbage contest. The series final will be played at the I. O. O. F. hall.

The Masons were winners of this week's contest, out-scoring the Odd Fellows by a margin of 102 points. Team scores for the evening were 16,404 for the Masons, 16,302 for the Odd Fellows. Despite defeat Monday night, the Odd Fellows lead by 924 for the nine contests, a margin which hardly appears surmountable.

Tony Pakorny led the Masonic victory with a card of 948. Ed. Goldstick was high for the Odd Fellows with 942. While no authorative information has been obtained, it is believed the Masons and Odd Fellows have split even in six years of play, each winning three times. Thus this year's series is the "rubber."

CONTEST OFFERS FREE VACATIONS

ESSAYS ON KNOW MICHIGAN WEEK PROPOSED

High School Boys and Girls in 27 West Michigan Counties May Enter Competition

Free vacations in West Michigan's finest resorts are available to 27 West Michigan high school boys and girls, one representing each of the 27 counties of the territory, in an essay contest sponsored by the Know Michigan Tourist Week general committee.

Principal point on which the essays will be judged will be the ability of the student to adapt the subject, "What the Tourist Business Means to Michigan," to his own community and cite actual facts and figures to bear out the contention of the Tourist Association that everyone benefits. "There was a wash woman in one resort community that earned $65 a week during the resort season and put a son through college," said J. J. Hachunas, general chairman. "That is the kind of material we want to develop in these essays rather than general, over-all statistics."

"Consequently the student who does some independent research can outrank the fine writer who gets his facts and figures out of a book," Mr. Hachunas continued.

The essay of not more than 500 words must be written and in the hands of the county chairman not later than March 31. Each county chairman will name a committee to choose a county winner and each county winner will be given a one week all-expense vacation at some resort member of the West Michigan Tourist & Resort Association.

PERCH FESTIVAL CHANGED TO FALL

ALTER DATE TO AVOID PERCH SPAWNING PERIOD

Exploitation of Fall Perch, Smelt, Steelhead and Mackinaw Trout Fishing is Planned

The conservation committee of the Charlevoix board of Commerce has set a precedent other conservation-minded Michigan communities can very well "shoot" at.

At a meeting last Thursday evening, this group went on record in favor of changing the Perch Festival inaugurated last May to a fall event as a means of preventing the taking of this species during their spawning period. Roughly estimating the number of perch taken during the two-week event last spring at 125,000, the committee calculated millions of small fish were prevented from propagating because these perch were caught before spawning.

Charlevoix being favored with both spring and fall perch runs from Lake Michigan into Round lake and Lake Charlevoix, the committee proposes to center its festival promotion around the fall run, which is out of spawning season, as a conservation measure. In view of the fact smelt may be caught in limitless numbers off the docks on Round lake and Lake Charlevoix at night in the fall, and that wonderful trolling for steelhead and mackinaw trout is then available, members of the committee expressed the belief that that time of year was the logical season for a festival occasion. Experience of the past two years has shown that the fall smelt fishing really produces fish and is a sport men, women and children, alike, may enjoy, and under favorable weather conditions. It is believed a feature worth exploiting. The fall steelhead fishing is already famous and the fall perch run produces as many fish as the spring.

Publicity on the fall festival, probably falling early in October, will be carried through the summer season. Prizes for the largest fish of the several varieties then available will be offered and entertainment features arranged to make the event attractive to sportsmen.

Another conservation angle being worked upon by the committee is the planting of aequatic plants in the west end of Lake Charlevoix to provide cover for fish. The west end of the lake at present time is entirely devoid of plant life of any description, a condition to which is attributed the fact that fish are more plentiful in the east end of the lake.

PYTHIANS BASKETBALL BANQUET MONDAY NIGHT

Teams Members, Coach and Officials to be Guests at Stag Party

The annual Pythian basketball banquet is scheduled for Monday evening, March 11, at the Pythian temple.

Following a custom established several years ago, a "feed" and program will be provided for members of the 1939-40 squads, coach and athletic officials. The party will be a "stag" affair as usual.

DR. SALTONSTALL NAMED CITY HEALTH OFFICER

Appointment Monday Night Confirmed by City Council

The appointment at Monday night's council meeting by Mayor Robert Bridge of Dr. Gilbert B. Saltonstall as city health officer was confirmed unanimously by the city council.

Dr. Saltonstall succeeds the late Dr. R. B. Armstrong, who held this appointive office many years.

SHOT AT RANDOM

By Ken Usher—

Having your birthday on February 29th every four years would have some gratifying features. One I can think of right now is that a person wouldn't be reminded every year how fast he is getting old.

There are three kinds of persons in this good old world of ours—the wills, the won'ts and the can'ts. The first accomplish everything, the second oppose everything and the third fail in everything.—Bob Humphrey in the Cheboygan Observer.

The spearing season and the close of fishing on lakes designated as "pike" lakes came to a close Friday. While Lake Charlevoix comes under the "piko" lake classification, a special ruling provides the taking of smelt, perch, mackinaw trout, whitefish and a few other species by hook and line. Pike lakes are re-opened to fishing May 15.

It's just exactly 50 more days until opening of the trout fishing season. What a relief that's going to be after a long winter.

Boyne City rocketed into the national lime-light last week with illustrated stories in Life and Collier's magazines publicizing their Smeltania village. Through these two publications, the story of Boyne's smelt fish-

SHOVELING SNOW EH. MAN O' MAN THE SNOWS WE USED TO HAVE, WHEN I WAS A LAD BACK IN THE SEVENTIES. SHUCKS THE SNOWS IN THOSE DAYS WOULD BE EIGHT TO TEN FEET DEEP, AND NOW'A DAYS WE GET EXCITED WHEN A FEW INCHES OF SNOW FALLS

LANSING LETTER

By GENE ALLEMAN

Field Manager, Michigan Press Association

Cynics of small towns are wont to wisecrack: "They roll up the sidewalks at 9 p. m."

At Houghton in the Keweenaw peninsula, which sets out into Lake Superior like a slender finger, sidewalks vanish at the first of November and re-appear about Easter Sunday.

Having just returned from the seventh annual upper peninsula highway conference held at the copper city, we know whereof we write. And perhaps therein lies an interesting yarn.

The disappearing sidewalks are due, however, to a four months' long winter which brings layers upon layers of snow and eventually hurles pedestrian paths far from sight. Last winter was one of those "exceptional seasons" of which natives talk in reverent awe if not downright braggadocio. The snow accumulated to the record-smashing total of 226 inches.

First-rate entertainment, carrying with it a world of information on the American which few people have the opportunity to view in such concentrated completeness, rewarded the crowds that flocked to St. James auditorium yesterday to see and hear the much-praised film production "Land of the Free."

The story, as unfolded on the screen is of America—of plains dotted with sheep and cattle, fields billowing with grain, valleys dotted with fruit trees, forests abounding in timber, cities teeming with human beings. The well-being of all these people is intimately linked to the country's national treasures, such as the fact that Americans, constituting 6 per cent of the world's population, mine 34 per cent of the world's coal; produce 62 per cent of the world's oil, 29 per cent of the iron ore, 32 per cent of the copper, half of the world's cotton, three fourths of the world's automobiles.

The audience learned, too, how from the other side of the world America gets, and uses, more than half of the world's production of raw silk, over half of all the coffee, and so forth.

The film story goes on to a description of the "American Way" where capital joins hands with labor and the individual is free to carve out his or her destiny. All this is being presented in a uniquely interesting manner leaving the onlooker with the feeling: "Well, well, I had no idea."

Arrangements have been made by the sponsors of the film—the Dodge Division of Chrysler Corporation—for free showings of "Land of the Free" in several hundred key cities of the United States.

The film was brought to St. James, Michigan, through the interest of the St. James school board.

Fishing, New Style!

Smelt fishermen's shanties on ice of Crystal lake at Beulah, on Lake Charlevoix and elsewhere, provide warmth and home-like comforts for thousands who dangle lines in water to hook the little, silvery fishes. Lines are reeled in rapidly and many fishermen have put smelt catching on a production basis. As right fishing for smelt continues to gain in popularity, these "towns on ice" attract ever-using numbers of visitors from other sections of the state. (Picture by Department of Conservation)

Home Economics Extension Leaders to Hold Fourth and Last Lesson March 12

The fourth and last lesson in the present Home Management Project will be given to the group leaders on Tuesday, March 12th, in the Boyne City Library at the usual time of ten o'clock. It is gratifying to note that all thirteen groups are carrying on their projects satisfactorily and no doubt will finish all requirements.

As a result of the action taken at the third lesson, plans will be developed for a county-wide tour which will replace the old style achievement day program. Everyone seems to feel that a tour through the county will be a worthwhile change and will attract more attention and be of greater value to the membership.

Tentatively, we want to visit four or five locations in the county where we can see the results of landscaping, proper arrangement in the kitchen, the advantages of electricity, and other features of interest to all homemakers.

Forestry Meetings Held Last Week Reflect Great Interest in Tree Planting

If the enthusiasm and interest shown in the recent series of four forestry meetings are any indication, then Charlevoix county is going to have more than twice as many young trees set out this year as was the case last year. The Road Commission has kindly offered to furnish windbreak trees to farmers if they set these out as per directions along their roads for snow protection. Within the next few days an order for twenty thousand young transplants will be sent in by the road commission which will assure a liberal quantity of trees for this purpose.

Any farmer interested in obtaining any of these trees for windbreak purposes should contact his Agricultural Adjustment Committeeman, the main office in Boyne City, or the county agent. Further information will be given relative to where the trees must be planted and the amount of payment in recognition for this approved practice.

We are always greatly pleased when outside foresters tell us that Charlevoix county has a larger number of good farm woodlots than other counties in this section. Let's properly manage our woodlots and set out windbreaks which not only perform an important function along the road but which add greatly to the enjoyment of the traveler. Be sure and contact the above mentioned parties and find out more about this wonderful opportunity.

Discussion on Late Blight in Potatoes Scheduled for Friday, March 8

Every potato grower in Charlevoix county should be interested in a series of three meetings arranged for Friday, March 8th, when J. H. Muncie, plant pathologist, will discuss the history of late blight, its seriousness, and means of control. Great losses were suffered last year in the majority of potato fields and we are faced with the problem of whether or not we should use blight infected seed.

The first meeting will be in the Charlevoix Co-operative Company at 9:30 a. m. on Friday, March 8th, the next meeting will be in the East Jordan Co-operative Company at 1 p. m., and the third in the Boyne City Co-operative Company at 3 p. m. These meetings are all on the same day. We have planned to hold these meetings at the above mentioned places as we will have a good many bins of potatoes that we can actually see and note the varying degrees of infection and what is happening to the potatoes that are badly infected.

These meetings will have to be somewhat brief and snappy so please be present promptly on time as all meetings will start as per the announcement. Mr. Muncie, in addition, will discuss seed treatments and various diseases that are of interest to us at this time. Hope you will attend your nearest and most convenient meeting.

CENTRAL LAKE

(Continued from page 2

Blaine Wilson and ye correspondent were county seat visitors last Saturday. Saw the editor of the Herald, coatless, and thought at first that it was sign of spring, but happened to think . . .

Lloyd Morse and family were home at Central Lake from Crystal Lake last Saturday, where he has a large tourist resort and riding school. He had just recently made the deal there.

Park View Spelling Bee had its usual meeting Monday evening, postponed until then on account of the basketball tournament. Future meetings will be again resumed on Saturday evenings. More interest is being taken in these meetings, and more school teachers and high school students are attending.

Sheriff Tanner of Bellaire was a visitor at Central Lake twice last week. One day he came to notify residents on tax titled land of the foreclosure soon on these properties. The trip Saturday, we imagine, was to observe who had licensed cars. We notice fewer cars are running, and the majority of them have the mournful black license. The sheriff is one of the "mournful" ones too, we notice. Glad he sympathizes with other poor mortals who also have to drive with a half year license. Well, Abraham Lincoln said you know, "The Lord must love the poor people, for he made so many of them.

Well, here's hoping that Abraham's party gets back in power next fall and if past records come true again, we are in for a season of prosperity when Dewey and Taft have been elected. Roosevelt and McNutt, and Wheeler and Garner, it appears, will be the "Poor Deal" and Democratic candidates, it has been prophesied. The President has been to see what "the wild waves are saying" so we may expect to soon see the fireworks started. Well, here's hoping for the best.

The Walter Anderson family of Kewadin were Central Lake visitors at the Dawson home the first of the week.

Mrs. Homer Lapey and Vivian have been quite ill with the flu, and the meeting of the Park View Spelling Bee, scheduled for Monday was postponed. It may not be held again until some time in April.

In a trip to Bellaire Monday, ye correspondent saw but one person not equipped with a license, an old maid driving a horse and cutter. Still, she might have had a marriage license as it is leap year, and she was coming from toward the county seat. In consulting the sheriff, he said that there was nothing he could do in a case of that kind.

Mrs. James Dawson of Bay View was a caller at the Doyle Morse home near Central Lake last Monday.

Lloyd Morse has not yet moved to his resort at Crystal Lake, where he will run the girl's camp next summer. The buildings are not built warm enough for so early occupancy.

Snw Mr. Hefkins of Bellaire Monday. He was celebrating his 96th birthday, and is still spry and able to get down town a half mile. He says he has ridden the bicycle this spring. He has always been a great bicycle rider. We presented him with some candy bars. He says he is still fond of candy.

BARNARD

A painter from East Jordan is decorating the church this week with the aid of some of our local young men.

We are glad to know that Mrs. Guy Davis is improving rapidly after her recent illness at the Charlevoix Hospital.

Earl Johnson and family moved back to the farm this week after residing in Charlevoix for several months.

Quite a few of our citizens attended the Farm Bureau meeting at Marion Center on Friday and report a fine instructive program.

We hear that the Wm. Shapton farm has been sold to Louis MacDonald of East Jordan, and that they will move here some time next month.

Hiram Klooster and Oscar Boss motored from Detroit Friday to spend the week end at their respective homes.

SCHMIDT'S BREWING CO. SHOWS BIG GAIN IN '39

Sales Increased to Greatest Total During Repeal Years

The annual financial report recently sent out to all stockholders of The Schmidt Brewing Company, Detroit, reveals that 1939 was Schmidt's greatest year since the repeal of prohibition.

Total sales of Schmidt's beer increased from 210,270 barrels in 1938 to 244,770 barrels in 1939. This is a jump of 16.41%—a large increase inasmuch as 1939 was not a good year for beer sales as a whole.

Net profit for The Schmidt Brewing Company for 1939, after provision for all Federal taxes, amounted to $430,908.15 equivalent to 43c per share of outstanding stock, in comparison with $257,055.20 or 26c per share in 1938. This shows an increase of 67½% in net profit.

Schmidt's officials report that this is the fourth successive year in which sales have mounted and reveal that indications point to more broken sales records in 1940.

FARMERS SHOULD SPARE GAME FROM GRASS FIRES

Nesting Season for Rabbits and Birds in Late March and April

Young rabbits often are found in their nests during the latter part of March. Pheasants nest in early April. Some songbirds nest even earlier.

The conservation department submits these "nature notes" today in issuing its annual plea to farmers to be chary in the use of fire in cleaning up marshes and fencerows.

The department's plea has less justification nowadays. Modern farmers use fire infrequently. They understand that destruction of the yearly accumulation of dead herbaceous vegetation and leaves is a check on an important natural process of soil enrichment.

"If fire must be used, it should be used early, as soon as dead vegetation is dry enough to burn," the department advises.

CHARLES HAMLIN NAMED CHAIRMAN OF SEAL SALE

Campaign to Aid Crippled Children Inaugurated Here March 1

Charles Hamlin has been appointed chairman of the local committee for the Easter Seal sale conducted by the Kiwanis Club to raise funds to aid crippled children.

The seal campaign officially began March 1st.

In accepting his appointment as chairman, Mr. Hamlin said: "I consider it a great honor and privilege to have charge of the seal campaign here. The cause of the crippled child is so appealing and the need is so great that we can hope for and confidently expect public support."

RUDY PEKRUL CARETAKER TRAVERSE CITY AIRPORT

Named by City Commission—Moves Flying School There in April

Rudy Pekrul, who has resided in Charlevoix the past winter while flying mail and passengers on the Charlevoix-Beaver Island route, has been made caretaker of the Traverse City municipal airport.

Rudy will assume his new duties following termination of the mail contract April 1. He will conduct a flying school and be in charge of mechanical work at the Traverse City airport.

Mr. Pekrul is reported to have between 50 and 60 students enrolled in his flying school at the present time.

MODEL AIRPLANE CLUB ORGANIZATION FORMED

Project Being Sponsored as Part of WPA Recreational Program

A model airplane club has recently been organized in Charlevoix and any person interested in joining may contact Ted Miller or Robert Pearl.

Meetings at present are held in the garage of the Pearl home on West Hurlbut avenue, but a larger and better meeting place is soon to be obtained. There is no age limit on membership.

Members may meet every afternoon from 3:30 to 5:30, and 7:00 until 9:30 every evening, for discussion of plans and work on model planes.

EAST JORDAN SETS DATE FOR ITS SMELT JAMBOREE

March 30th Designated for Annual Celebration This Year

Weather wise "smelters" have announced March 30 to be the date for the Smelt Jamboree both at East Jordan and at Boyne City. Plans for the festivities have not been completed but some long distance weather and water forecasting indicates that the water temperature should be at 35 degrees on that date and the smelt run well underway.

Beulah, another of the famous smelt run cities of west Michigan, has maintained a discreet silence about dates for the run.

MAPLE GROVE ODD FELLOWS ENROLL MEMBERS

Invite Other Lodges to Initiation Scheduled Thursday Night

A class of four candidates will be given the second degree on Thursday evening of this week. An invitation is extended Odd Fellows of other neighboring lodges to attend and assist with the degree work.

MSC BULLETIN SERVICE GREAT AID TO FARMERS

Total of 783,957 Bulletins Issued in Michigan Last Year

An amazing total of 783,957 Michigan State College bulletins, of which 83 and one-third per cent were sent out to fill requests of those desiring them, indicates for n year's time the scope of one service the college is providing Michigan agriculture.

The total is sufficient to have provided every Michigan farmer with an average of four bulletins during the year, reports Mrs. Lois Knowlton, bulletin clerk.

*** LOW PORK PRICE PLEASES COOKS ***

* * * * * * * * * * * *

Pork in Michigan households gains more and more popularity at least with those who pay the food bills this winter, for low prices make the meat an attractive purchase.

That leads home economics staff members at Michigan State College to make a few suggestions on best uses and methods of preparations.

Cuts of pork are easy to roast because the meat usually is tender and because the natural fat usually is sufficient to make the meat self-basting.

Especially the pork loin is easy to handle because it can be purchased in a size suitable for serving almost any family. Fresh ham makes another easily prepared meat and even the shoulder is easy to carve if the bone is removed to be replaced, perhaps, by a savory stuffing. With apples, plentiful, the usual accompaniment of apple sauce makes another easily prepared dish.

Thorough cooking is required at an even temperature. Pork should never be served if steaks, chops or roasts still show any trace of pink in the juice. There might be a trichina parasite present, but sufficient heat can kill the trichina.

Proper temperatures for roasting range between 325 and 350 degrees Fahrenheit. Roasting time should be

SERVICE CLUBS OF COUNTY ARE FETED

(Continued from page 1)

The keynote of the meeting—collective effort for the advancement of Charlevoix county — was eminently apparent in the remarks of each speaker. Dr. B. J. Beuker, of East Jordan, suggested individuals forget the cities of East Jordan, Boyne City and Charlevoix and confine their efforts on Charlevoix county.

Resulting from the meeting, in addition to creation of a lot of good fellowship, was a plan to form a community council in each of the three cities. This council would have representatives from all organizations of the respective cities, and each city council would appoint from its membership a group to serve on a county council. The council's primary purpose, after formation, would be promotion of Charlevoix county along industrial and recreational lines. April 15th was tentatively set for completion of this organization.

Continued meetings of the three service clubs was agreed. Charlevoix Kiwanis will be host the second Tuesday in July and Boyne City Rotary will entertain at a later date.

I shall still need the votes of my friends at the election April 1st. Fred V. Tyler, candidate for re-election, City Treasurer.—10t4.

Freedom!

Sharptail grouse live-trapped in upper peninsula are released near Fletcher settlement in the Dead Stream public hunting area in southern Missaukee county and on state owned land in the Pigeon River area in Cheboygan county. Above, Otto Falling, game area manager in charge of the Hansen refuge, and Conservation Officer Harry Souders of Grayling release one of several score birds which have been brought across straits this winter. The sharptail is establishing itself successfully over wide stretches of cutover lands in both peninsulas.

THIS WEEK IN WASHINGTON

By Your Congressman
Fred Bradley
11th District Michigan

You owe Uncle Sam your car.

On February 21 our gross Federal debt was $42,340,202,704.37 — your share of it, Mr. Citizen, was $325.69. Is your car worth more than that on a trade in? If you have a wife and two kiddies, you owe over thirteen hundred dollars to help "pay ont" Uncle Sam. Think it over. Between July 1 last and February 21, Uncle Sam had spent almost 6 billion dollars hard cash and taken in less than three and a half billion harder earned cash; in other words, he continues to spend a dollar for every 57 cents he takes in. You storekeepers wouldn't stay in business very long if you didn't manage better than that would you? And you housewives, how long would your husband keep out of the divorce courts if he, or you, managed your own home that way? Think it over.

The Pollution Bill

Friday the House passed an amended Barkley anti-pollution bill. The question of the pollution of our streams, lakes, and other pure water sources has been an increasingly serious one for many years. Continuously increasing pollution by sewage and industrial waste has been a serious menace to our pure water supply, to our fish and game, and to the national health.

The Census Questions

Many of you write in and protest against some of the questions of a personal nature included in this year's census. In the House we have tried on three different occasions to have these changed. Last week we tried to hold up part of the appropriation until these were modified, but were defeated each time by the administration forces. It is hoped Sen. Tobey's effort may be more successful. We contend these questions are a violation of the Constitution and Bill of Rights, that they will not be kept confidential as required by law. We also tried to have the census enumerators taken from the relief rolls, but without success.

Vacation Times Again

With the President's return to Washington March 2nd, it was disclosed that this was his thirty-second vacation trip since his inauguration. He has travelled over 181,000 miles —nearly 9 times around the world— on these trips, mostly on battleships or cruisers with other naval and aerial escorts. I recall that the much maligned Mr. Hoover used to take a quiet trout fishing trip to the nearby Rapidan. And it was he who ordered decommissioned and sold, for economy, the presidential yacht "Mayflower". Grover Cleveland used to take a little rowboat to hunt and fish on the Potomac. Quite a change in times.

Which reminds me that Justice Frank Murphy is again making the headlines with another vacation trip while court is in session.

Is Business Scored?

It has been contended that one trouble with the country is that private capital has gone into hiding, that the New Deal has scared business until it is afraid to invest in new enterprises. Well, Russell Weissman, economist, states that new corporate financing for the years 1931-1939 declined 84 per cent by comparison with corresponding years of the previous decade. In each of four of the last six years of SEC rule, less than half a billion new capital has been raised, in fact it is not getting better as shown by the fact that in 1939, with a war boom on, business raised only 371 millions.

Why Help Russia?

There are two ways to help win a fight; help one or deny help to the other. It is noted the Export-Import Bank, originated by executive order to finance trade with Russia, did grant Finland's additional request for 20 millions even though she is not permitted to purchase war materials. But why should we continue to aid Russia who has never made good on her promises to us; who continues to promote and finance Communism in this country? How are we aiding her?

1. By recognition.
2. By a commercial treaty according her unconditional most-favored-nation treatment, which means tariff concessions.
3. Licensing of armaments for sale to Russia.
4. Purchase of Russian gold at $35 an ounce which she produces for $12 and thereby establishing credits here.
5. By furnishing her valuable technical assistance. Her imports from us in 1938 were nearly 70 millions, in 1939 —$56,638,000 of which 50 percent were taken in the last four months after the war started in Europe. Her armament purchases were only about one million, all aircraft and motors, but the rest were largely machinery and materials needed for making munitions — in plants which our technicians had largely designed and supervised the construction.

War Costs Brought Home

That exports of American planes and motors to various belligerents seriously affect our own armament costs was brought home with a bang last Thursday when the President sent a message to Congress asking for an increase in aircraft operation appropriations of 20 million. Originally the budget called for $25,780,000 but to meet the increased cost of aircraft procurement, the War Department reports that the amount must be increased to $45,780,000 "Jest "it will be necessary for the Army Air Corps to ground an indeterminate number of airplanes during the fiscal year 1941 because of lack of spare engines and spare parts, and will seriously affect the training of the Air Corps, as well as reduce the number of effective planes on hand to meet an emergency."

The Republican Program

Glen Frank's report of the Republican Program Committee, now in the hands of the Resolutions Committee which drafts the platform has been widely and favorably acclaimed. Its authors firmly reject the New Deal idea that our economic frontiers have disappeared, they see greater fields ahead for individual effort under a system of private initiative for private gain than ever before—if government can be returned to the people and the people given a chance. Which reminds me that more than half of our Federal expenditures during the last few years represent government agencies and functions that did not even exist until the advent of the New Deal—and that you can corroborate that statement for yourself, if you will compare the actual expenditures for the years 1939 and 1931 as listed in the Federal budgets for 1941 and 1933 respectively.

Unhappy end of our own Sherlock Holmes. Like most of the criminals he brought to justice, the home-spun American detective made one mistake that brought his brilliant career to a tragic climax. Read of his most famous cases and how he finally tripped himself up, as told in The American Weekly, the magazine distributed with next Sunday's Herald-American.

Millions of Trees

Approximately 11 million trees are available at two nurseries maintained by the conservation department for planting on state forests, game refuges and state parks this spring. Nearly nine million are Norway, white and jack pines nurtured at Higgins lake, the remainder being game food and cover species produced at the hardwood nursery near Wolverine in Cheboygan county.

Little Fish is Fatal

Rogers City — Two Onaway ice skaters have reported how a big fish found a little fish to be a fatal mouthful. When a 20-inch pike tried to swallow a six-inch sunfish, the little fellow, instead of sliding down the pike's gullet, pushed its snout through the pike's gills. It's sharp spines made it impossible for the big fish to disgorge the meal.

Guernsey is Sold to Mrs. Beckwith

The American Guernsey Cattle Club, Peterborough, N. H., reports that a registered Guernsey bull has been sold by Sam Straw to Mrs. Beatrice Beckwith of Williamsburg, Mich. This animal is Ferdinand of Spruce Dale 273003.

Whitehall — Aa Ray Pelon, local basketball player rushed for the basket in a recent game, he was involved in a collision with two other players. A backward summersault which resulted left him with a fractured arm.

COUNCIL PROCEEDINGS

March 4, 1940

The common council of the city of Charlevoix met on the above date with Mayor Bridge presiding.

Aldermen present Bellinger, Heise, Hooker, Lamphear, Levinson and Wood.

Minutes of previous meeting were read and approved.

The communication of H. Keith Wagner was referred to committee on Parks and Buildings.

Dinner Time

When winter is drawing to a close, or snows lie deep, Michigan game refuge keepers put out food for deer. Above, guests of Elton W. Twork of St. Helen, in charge of the Ogemaw game refuge north of West Branch, show little concern at the photographer's approach. Michigan's whitetail herds are reported to be getting through the present winter in good shape.

Immunity to Whooping Cough

Despite the educational campaigns which have been conducted for their special benefit, many parents seem under the impression that vaccination against whooping cough is still in a doubtful or experimental stage.

Continuous research, however, is demonstrating that pertussis (whooping cough) vaccine can confer complete immunity on most children. In others the disease may appear but the symptoms are always mild and the period of illness is greatly shortened.

To put the case bluntly: Whooping cough which terminates in death or disability of a child—especially in the dangerous first five years of life—may be attributed to parents who failed to have the child inoculated.

Two San Francisco physicians recently reported their experiments with two groups of infants from six to 30 months of age. The first group of 211 were vaccinated and the second, comprising 182 well-nourished, well-tended children, were kept as controls, without protective vaccination.

In the course of nearly three years, 29 of the vaccinated group were exposed to active whooping cough and of this number, nine mild cases developed.

In the unprotected group, 32 infants were exposed to the disease and 29 contracted it. That no deaths occurred was due to the general good health of the children and the prompt attention given them by their doctors.

Other studies, notably those undertaken by Dr. Pearl Kendrick, of Grand Rapids, offer similar testimony.

It is now recommended that immunity be conferred by annual small injections of vaccine through the early years of childhood. These should start at the sixth or seventh month of life and preferably in the fall. The season is determined by the fact that some time is required to build up an immunity before the coming of spring and the usual epidemic.

Medical men and parents who have endeavored to check the spread of whooping cough within a family, through the medium of quarantine, are agreed that the procedure is not effective. The disease is highly contagious and the transmission of the organism from one child to another generally takes place before the symptoms are recognized in the first.

Whooping cough vaccine deserves to be ranked as one of the great contributions of science to child health.

Sunday morning service, 10:45.

Sunday school, 12 o'clock.

Meets first Wednesday evening of each month at 7:45 p. m.

Reading room open Saturday, 3 to 5 p. m.

We cordially invite the public to our service and reading room.

"Man" will be the subject of the lesson-sermon in all Christian Science church throughout the world on Sunday, March 10, 1940.

The Golden Text (Daniel 10:19) is: "O man greatly beloved, fear not: peace be unto thee, be strong, yea, be strong."

Among the Bible citations is this passage (Genesis 1:27): "So God created man in his own image, in the image of God created he him; male and female created he them."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 336): "Immortal man was and is God's image or idea, even the infinite expression of infinite Mind, and immortal man is coexistent and coeternal with that Mind."

Spencer Tracy, Hedy Lamarr Form Striking Team in "I Take This Woman" on Palace Screen

Spencer Tracy, fresh from his triumph in "Stanley and Livingstone," and Hedy Lamarr, Number One Glamour Girl of the screen, are the attraction coming Saturday and Sunday, March 9 and 10, to the Palace Theatre in "I Take This Woman," a romance of New York, which presents the European charmer in her first modern American picture.

It provides Tracy with the first romantic lover role he has ever played on the screen as the faithful scientist, Karl Decker, at whose side Miss Lamarr, as a society butterfly with a blasted romance, finds ultimate happiness and a destiny. W. S. Van Dyke II, noted for his deft human touches in romantic stories, directed.

The cast includes Verree Teasdale in the comedy lead, Kent Taylor as "the other man," and Laraine Day, Mona Barrie, Jack Carson, Paul Cavanagh, Louis Calhern, Frances Drake, Marjorie Main, George E. Stone, Willie Best, Don Castle, Dalies Frantz and Reed Hadley.

"Congo Maisie" Teams Ann Sothern with John Carroll in Laugh-Studded Melodrama

Hollywood has learned how to make a Broadway showgirl feel at home in Africa. After all, she must first feel at home in Hollywood. Now they've done it with a girl named Ann Sothern, who plays the title role in "Congo Maisie," which starts a two-day showing at the Palace Theatre Wednesday, March 13.

Miss Sothern, who until a few years ago was Harriette Lake, of Broadway, now is "Congo Maisie." It is her second interpretation of the Maisie role. In the new film, second of the series, she is a stranded showgirl in Africa. Her leading man is John Carroll, on his first Hollywood assignment and back in African adventure by proxy.

PLAIN OR FANCY, HOT ROLLS EASY

Any homemaker who appreciates the appetite response that homebaked fresh bread receives on the family table can utilize the suggestion of the home economics staff that baking day can include a few fresh rolls made from a portion of the bread dough.

It's true, say the food specialists, that some cooks find their work much easier normally by using neighborhood bakery goods.

It's also true, however, that company dinner always looks like a treat if the table contents include some homebaked rolls.

With all that philosophy, the usable suggestion the college staff members offer is that if plain rolls are on the cook's list of accomplishments, then some fancy rolls are nearly as easy to make.

There are dozens of ways to change the shape of rolls.

Finger rolls are one type. These are made merely by shaping pieces of dough into shapes about the size of a finger and the job is done. Or a type of crusty bread sticks is possible merely by making the dough pieces longer and thinner. Three of the narrow strips can be braided together for a braided roll.

Then there is the clover leaf. Three tiny balls of dough placed in a muffin tin emerge as the clover leaf, or just two in a muffin tin make a twin roll.

More elaborate is the pinwheel roll. The dough is rolled out thin and spread with soft butter and a filling of sugar and cinnamon or sugar with nuts or dried fruit. The rolls then are rolled up like a jelly roll and cut off in one-inch sections.

LANSING LETTER

(Continued from page 1)

Now for a Tall One!

President Grover P. Dillman of Michigan College of Mining and Technology relates this one:

"While in Chicago last fall I happened to have luncheon with Robert Hutchins, president of the University of Chicago. He asked me how the winters were at Houghton.

"I said I liked them fine, but that last winter we did experience some extraordinary weather. A March blizzard raged for two nights and three days. We closed the college for two days. A Chicago passenger train became snowbound somewhere near Houghton and for 21 hours no one knew where it was. Roads were blocked. Traffic was paralyzed. Snow was up to the windows of the second story of houses.

"Finally when the storm had subsided, highway crews went out on snowshoes to find the highways. Carrying long poles, they walked ahead of rotary snow-removal machines and prodded the poles down into the snow to locate tops of stranded automobiles left on the roads. The snow was not deep.

"I'll never forget the dirty look that President Hutchins gave me. To this day I believe he thought that next to Paul Bunyon himself I was the biggest liar he ever heard of."

Far North as Quebec

The vanishing sidewalks (and automobiles) are but an introduction to a post-depression development in the upper peninsula.

Houghton, for example, is as far north as Quebec, Canada!

It is farther north than Duluth, Minnesota.

Yes, it snows there at the slightest provocation and we're beginning to think perhaps it is a mere confirmed winter habit. In fact, while we were witnessing the 54th annual ski tournament at "Suicide Hill" at Ishpeming, home of the famed Bietila brothers, a raging snowstorm blew off Lake Superior and in five minutes' time had completely obliterated the hill. Fifteen minutes later the air cleared, and competition was resumed. But in a half hour it was snowing again. And so it went.

This season the snowfall has been almost disappointingly light, less than 90 inches on March 1.

While skiing and hockey have been leading spectator sports in the upper peninsula for years, outdoor winter sports have had a tremendous boom during the past few years. They portray brighter days for this air-conditioned playground of the middle west where winters are long, summers are short.

Ski Tows, Toboggans

But don't think of upper peninsula winter sports in terms of "suicide hills" where hardy Finlanders and Scandinavians risk their necks for the thrill of 200-foot acrobatic leaps in mid-air. There are seven ski jumps in this region.

Tenderfoot ski amateurs will find ski tows in operation at these points north of the Straits of Mackinac: Iron River, Ishpeming, Houghton, Hancock and two at King's Gateway south of Watersmeet.

Here is a twentieth century way of taking your winter sports capsule without getting the bitter taste.

A ski tow is a long cable reaching from the top of the ski run to the bottom of the hill. At the top (the hill at Hancock is over 600 feet high) is an engine that revolves a big drum. After skiiers have descended the hill, they grab on to the cable and are slowly pulled to the top, unfatigued and unwinded for another breath-taking slide.

Ski tows have been provided in the lower peninsula at Petoskey, Cadillac and Alpena, according to our information.

It is a new wrinkle for Michigan in winter sports enjoyment.

Keeping Roads Open

Casual remarks to Lansing friends that we had just been at Houghton elicited comments, most of which were like this:

"Well, did you have any trouble getting there?"

Times have apparently changed! Today the state expends nearly half a million dollars each winter to maintain roads in the upper peninsula. One-third of the total maintenance fund is used north of the Straits to keep open one-fifth of the state's highway mileage. Sixty-five per cent of this money pays for removal of snow.

If you have never taken a trip during the heart of winter into the land of Longfellow's "Hiawatha" and the fabulous story-telling Paul Bunyon, you have a new experience and thrill to look forward to. And rest assured that the traditional hospitality of upper peninsula people will assist you in having a royal good time.

What's the Best Time to Apply for a Job?

There's a lot more to seeking employment than merely being willing to work. Do you know, for example, whether a college education pays? Or, if there's a shortage of brain workers? Or, where today's biggest opportunities lie? Lyle Spencer, famous employment authority who's making a science of job-hunting, answers these questions in an important series of articles. Be sure to read them every Sunday in This Week, the colorgravure magazine with Sunday's Detroit News.

WHY NEWSPAPER IS PREFERRED

Charles M. Edwards, School of Retailing, New York University, has the following to say about the newspaper as the medium for retail advertising:

"No other medium affords an opportunity to reach such a large and diversified group of readers in a desired, limited area, regularly and frequently, at the appropriate time, and at such a reasonable cost per reader.

"Because the newspaper transmits news of what is going on in the community, state, nation and the world, it is read avidly by more people than any other medium. News of merchandise for family and home is read as eagerly as is news of political, sporting, theatrical and other events, provided the goods advertised are timely and are of genuine interest to readers."

(Continued from page 1)

ing was put before probably no less than 5,000,000 readers. Wish I had the money it would have cost to buy the space given by the two publications.

What with the sun shining its brightest and the temperature somewhat above freezing, March entered like a lamb. If we believe in fairy tales, the month is supposed to go "roaring out like a lion."

Receipt of a communication from Rev. C. E. Taggart, former pastor of the Congregational church, recalls a pleasant acquaintanceship. Rev. Taggart is wintering in Lake Wales, Fla., and asked that we extend greetings to his old friends in Charlevoix.

Animal trainers agree that the female of all species are easier to train than the male. It would be taking quite a chance with the truth to extend that belief beyond animals.

Ouch! Nothing is a toy balloon with the skin off.

While it is a little early to look for trailing arbutus, it is not too early to remind everyone that this flower should be clipped with scissors if taken at all, and never pulled up by the roots.

Statistics released by the state department of agriculture, revealing livestock losses from dogs in Michigan last year aggregated $125,000, and that Charlevoix county's share was $1,040.35, provides food for thought. This loss takes in livestock alone and does not cover the amount of game killed. Both taken together, the total would probably be even more staggering. Game should be taken into account, too, for its value from a sportsman's viewpoint is inestimable. Getting back to the department of agricultural report, it is stated the best remedy for the situation is to insist upon strict enforcement of the now existing dog laws by city and county authorities. This lack of enforcement applies nicely to Charlevoix county. At every session the board of supervisors dally around with the problem, do a lot of talking and accomplish nothing. The cities do nothing at all to enforce the dog laws. Each year the prosecuting attorney's office sends out warnings to dog owners their dogs will be killed if the tax isn't paid, but nobody ever hears of a dog being killed. The county treasurer gives the sheriff a list of delinquents months after the tax deadline is past, as a rule, so the net result of effort to collect dog tax or rid the county of dogs upon which no tax has been paid, amounts practically to nothing. The owner who values his dog as a hunting companion or pet keeps it at home and pays his tax annually. The others pay nothing and let their dogs run. In the meantime the county is full of stray dogs, preying upon livestock and game in the country and trampling gardens and over-running private property in the cities. As long as there are laws to prevent such things, it hardly seems too much to expect enforcement.

PARKSIDE DINING ROOM MAKES IMPROVEMENTS

Additional Table Accommodations Provided by Alterations

Extensive alterations providing additional serving accommodations at the Parkside Dining Room, operated by Mr. and Mrs. Franklin McFarland, have been completed.

The kitchen, which occupied a large space at the rear of the dining room, has been removed to the basement, providing space for eight additional tables, three in the main dining room and five in a private dining room established at the rear overlooking Round lake. The private dining room will be open for reservation and for parties.

All heavy cooking is done in the basement kitchen, also dish washing, thus eliminating noise. Elevator service connects the basement kitchen with a first floor kitchenette equipped for handling short orders. A new 21-ft. refrigerator unit is equipped with coils for ice water. Numerous other items of new equipment have been installed.

New drapes and curtains, and nautical type wall and ceiling lights have been installed. The interior has been redecorated, the lower walls in green and the upper walls and ceiling in cream, providing an attractive combination.

Recent improvements have made the Parkside one of the finest restaurants in northern Michigan and the owners are to be complimented.

KIWANIS FAVOR PROBATION RECOVERY CAMPS

Seek Action by State Kiwanis to Establish Camps in Michigan

The Charlevoix Kiwanis Club unanimously authorized its officers to request the governing officials of the Michigan District of Kiwanis to make establishment of Probation Recovery Camps a Kiwanis objective.

Construction of such camps was authorized by Act 195 of the 1935 Legislature, but the solons have failed to provide funds for even one of these camps.

The Legislature provided in the law that the camps should be located in such regions of the state which are adapted to reforestration and the development and conservation of the natural resources.

A person convicted of a crime, and who is declared to be eligible to probation may be sent to a probationer camp. Parolees and probationers shall be confined in separate camps.

Upon the completion of a probationer camp, the Circuit Judges could, in proper cases, order youthful offenders confined in the probationer camp, instead of in a state prison where of necessity they must come in contact with hardened criminals.

The law provides that the camps shall provide educational and instructive courses of both civil and semi-military character, and of a vocational and physical nature best suited to equip and train the inmates as good citizens.

GARDEN CLUB MEMBERS GUESTS ON TUESDAY OF MRS. F. J. FESSENDEN

The Charlevoix Garden Club met at the home of Mrs. F. J. Fessenden, Tuesday of this week. The lesson of the afternoon was "Birds of Charlevoix County", which was given in an interesting manner by Mrs. Fessenden. After the lesson, lovely refreshments were served by the hostess, and featured a frozen dessert molded and colored to resemble natural flowers, such as lilies, hyacinths, daisies, roses, morning glories, and zinnias.

The next meeting will be at the home of Mrs. Arthur Ranger, Tuesday, March 19. Mrs. A. J. Hammond will give the lesson on "Spring Bulbs."

CHARLEVOIX COURIER

VOLUME 45 NUMBER 11 — EIGHT PAGES — THE CHARLEVOIX COURIER, WEDNESDAY, MARCH 13, 1940 — PRICE $2.00 PER YEAR

UNION SERVICES FOR GOOD FRIDAY

AT METHODIST CHURCH AFTERNOON MARCH 22ND

Pastors of Four Local Churches, Revs. Armstrong, Ringenoldus and Helrigel to be Speakers

The Good Friday service will be held in the Methodist church Friday, March 22.

It has been the custom for the past few years for all the churches in the city to cooperate in this service. The same plan will be followed this year. It has also been the custom for all business places to close from 1 to 3 in the afternoon, giving everyone in store and office an opportunity to attend this service if they so desire. It is understood that large cards will be placed in the store windows indicating the hours of closing.

If there are those who cannot attend the entire service there will be opportunity to leave during the singing of the hymns. "The Seven Last Words" will be the general theme of the service. The order of the service will be as follows:

12:55 Prelude.

1:00 Opening devotions—Rev. J. W. Alexander.

1:15 First Word: "Father Forgive Them for They Know Not What They Do"—Rev. Rolland Armstrong. Hymn "Never Further Than Thy Cross."

1:30 Second Word: "Verily I Say Unto Thee, To-day Shalt Thou be With Me in Paradise"—Rev. H. J. Pulsifer. Hymn "In the Cross of Christ I Glory."

1:45 Third Word: "Woman, Behold Thy Son! Behold Thy Mother"—Rev. Harold Ringenoldus. Duet "Galilee."

2:00 Fourth Word: "My God, My God, Why Hast Thow Forsaked Me?"—Rev. W. L. Cruthers. Hymn "When I Survey The Wondrous Cross."

2:15 Fifth Word: "I Thirst"—Rev. W. H. Helrigel. Hymn "Alas and Did My Saviour Bleed."

2:30 Sixth Word: "It Is Finished"—Rev. G. R. Parker. Anthem "Into The Woods the Master Went."

2:45 Seventh Word: "Father, in'o Thy Hands I Commend My Spirit"—Rev. J. W. Alexander. Hymn "Beneath The Cross of Jesus."

3:00 Benediction. Postlude.

MARCH IS MOST SEVERE MONTH FOR DEER HERDS

Winter Break-Up Finds Yarding Areas Short of Feed

The specter of hunger stalks thru northern swamps as winter loosens its grip. And man is less terrifying than the shadow cast by the specter.

In some swamps, deer are summoned by the thud of the ax. The animals, ordinarily frightened by man's movements, approach to feed on cedar browse which is placed within their reach when trees are felled to obtain fence posts.

Conservation department workers report instances of deer feeding on top branches of felled trees while wood cutters are lopping limbs farther down the trunk.

This month is a critical time. While the present winter has been comparatively open and the movement of deer has been less impeded by heavy snows, the deer in overpopulated areas are not in good condition. Available browse has been largely exhausted in other winters and severe cold or above normal snowfall during the remainder of the month may exact heavy toll in some areas among weakened animals.

ODD FELLOWS WIN CRIBBAGE CONTEST

SCORE FIFTH VICTORY IN NINE YEARS' COMPETITION

Losing Masons to Fete Winners at Annual Cribbage Banquet Next Monday Evening

Monday night's play concluded the 9th annual Masonic-Odd Fellow winter cribbage contest with an Odd Fellow victory.

Next Monday evening, March 18th, the victors will be guests of the losers at the annual cribbage banquet to be held this year at the Masonic temple. Prizes for high and low scores during the 10-game series will be awarded.

The Odd Fellow victory was their fifth since the contest was inaugurated in 1931. Each lodge had won four contests and the Odd Fellow victory gave them the advantage of having won five to the Mnson's four.

In the final contest, the Odd Fellows won by a margin of 283 points for a series lead of 1,207. There were eight tnbles participating and team scores were 14,449 for the Odd Fellows, 14,166 for the Masons. Evening high scores were turned in by Elwood Livingston with 964 for the winners, Elliott Lewis with 932 for the Masons. In the series just closed, the Odd Fellows won seven of the ten contests.

When the series was inaugurated, a perpetual trophy was provided nnd each year name of the winner is engraved upon it.

GOLF COURSE PLAN OIVIDED COUNCIL

OPERATION AS 18-HOLE LAY-OUT TO BE CONTINUED

Mayor Robert Bridge Cast Deciding Vote on Proposal at Monday Night Council Session

Tho Charlevoix municipal golf course, the former Charlevoix Golf Club course deeded to the city by the Chicago Club of Charlevoix, will continue to be operated as an 18-hole lay-out during the coming summer as the result of action taken Monday night by the city council.

Due to an annual operating deficit resulting from lack of player support hy both local and summer residents, a proposal to cut the course to 9 holes was under consideration. Lacking a recommendation from the golf committee composed of Charles Hamlin, H. A. Craig and Oakley Hammond, the matter of operating policy came to a council vote Monday night after considerable discussion.

Council members split evenly on the motion to continue operating the entire 18 holes, Mayor Robert Bridge voting with Aldermen Harry Hooker, M. A. Levinson and Clarence Wood in the affirmative. Opposing the proposnl were Aldermen Charles Heise, Charles Bellinger and Charles Lamphear.

Action was taken to provide landscaping of the grounds surrounding the new city hall with authorization given the mayor and clerk to enter into a contract with the Charlevoix County Nursery to do the work.

A regular pay roll aggregating $2,857.18 was authorized by the council.

SPECIAL TRAINING MEETINGS TO BE CONTINUED

Second Series on "Effective Solling" Opens Thursday, March 14

Classes in "Effective Selling", conducted the past several weeks, will be continued for another six-weeks period.

From nine to seventeen people have been on hand for each meeting of the class, mnny men having been present for each meeting. Most of these plan to continue, it being their opinion that the class is worth while.

The first class of the new series will be held on Thursday, March 14th at 7:30 in the commercial room of the high school. Miss Marinn Norris, who is conducting similar classes in Petoskey and Cadillac, will again conduct the grnup. These classes are sponsored by the State Department of Public Instruction and the Charlevoix bonrd of education.

KRCHAK FARM HOME DESTROYED BY FIRE FRIDAY

Family Lost All But Few Items of Household Furnishings

The home of Mr. and Mrs. John Krchak, a tenant residence on Loeb Farms, was completely destroyed by fire Friday afternoon.

The blaze was believed to havo started either from an over-heated chimney or spark on the roof. The family saved only a few items of furnishings.

An impassable roadway leading off M-66 to the house below the bluff prevented assistance from tho local fire truck which went to the scene.

I shall still need the votes of my friends nt the election April 1st. Fred V. Tyler, candidnte for re-election, City Treasurer.—10t4.

DISTRICT SCOUT MEETING MONDAY

LEADERS GATHERED HERE AT HOTEL CHARLEVOIX

Reports of Progress and Plans for Future Discussed by Visiting Representatives

Charlevoix members played host Monday night at the March meeting and dinner of the Northern District Committee, Boy Scouts of America. Attending were 30 business and professional men from Charlevoix, Cheboygan, Alanson, Boyne City and Petoskey.

The event was at the Charlevoix Hotel with George John, of Petoskey, as chairman. The Rev. Father Malachy Cashman gave the invocation and the benediction.

Interesting and encouraging reports came from various committees and plans were furthered for a district court of honor at Petoskey, April 9 and for a scout rally on April 26 at a city yet to be selected. Early visits to each Scout troop are planned by the committee on health and safety while another training course for Scoutmasters and Scout committeemen is being planned for spring.

Goals for the year were set and include six new Scout troops, three Cub packs and one Sea Scout ship. Membership increase quotas set include 150 Scouts; 100 Scouters; 90 Cubs; and 32 Sea Scouts.

Chairman John named H. C. Spitler, Heber Curtis and Walter Schlechte as a committee on troop sponsoring organizations for Petoskey. Charles Boyer, area executive, suggested that other cities and towns have similar committees to assist in their work.

Mr. Boyer reported that Scout troops were in process of formation at Alanson and Pellston and an Indian troop in Petoskey. He reported that East Jordan has asked for a Scout troop and that Mackinaw City had reported much interest in Scouting nnd Sea Scouting.

The Rev. G. R. Parker, leader of the Charlevoix group, reported this city's present troop quota filled and said that work on a second troop will be started at once. Cubs and Sea Scouting are to get attention here immediately.

The closing talk was by Al Weber, publisher of the Cheboygan Observer, who expressed appreciation for the program of Scouting.

The April dinner and meeting of the committee will be in Petoskey on April 9 with the May meeting in Cheboygan at a date to be decided upon later.

ELECTRIC DEPARTMENT EMPLOYE BADLY BURNED

George Shanaquet Victim of Line Accident Saturday Morning

George Shanaquet, employe of the municipal electric light department, suffered severe burns on both hands Saturday morning when he grasped a high voltage wire while doing line work.

When the accident hnppened, Shanaquet was making contact on a 4,000 volt line to connect a transformer on a pole opposite tho Belvedere hotel. The shock rendered him unconscious and he was saved from falling by his safety belt. Fellow workmen aided him to the ground.

He received fourth degree burns on both hands and, according to reports, will lose some of his fingers.

SHOT AT RANDOM

By Keo Usher

Acknowledge a belated New Year's greeting from Mrs. Ben Nowlnnd. She sent it from Louisvllle, Ky., with the remark she didn't have time to tell where she was going when she left last September. She's been visiting in Ann Arbor, Detroit, Cleveland, Dayton and finally Louisville, since leaving and will soon start visiting her way back home.

If you ask me, there was some mighty funny doin's down at the postoffice Frilny morning. The boys all got together and had a "shower" for Louie O'Nell. Gave him a lot of gadgets of one sort and another just like the women folks do now and then. Will give you two guesses to figure it out. Some guys sure have all the luck!

Charlevoix apparently isn't the only place losing business because its citizens shop away from home. Tho Boyne Citizen comments editorially on the case of the Gamble Store manager in their city auditing books of the Petoskey Gamble Store nnd finding the names of many Boyne City people trading at the Petoskey store. The point stressed particularly is the fact that Bnyne City people went to Petoskey to buy the samo things the Boyne City store handled and at the snme price. They urge their citizens

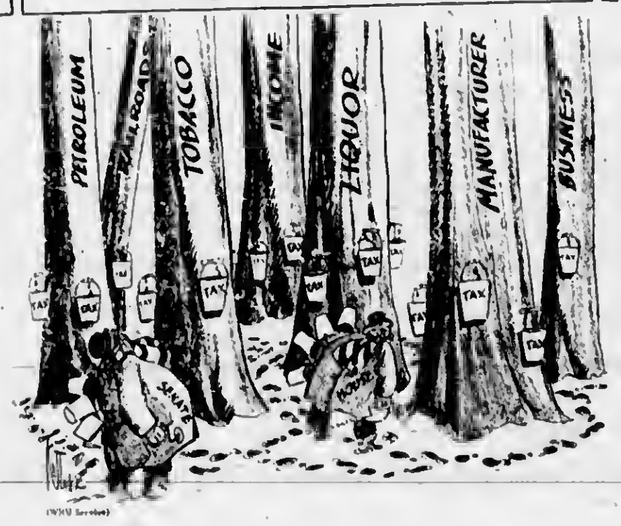
Looking for More Trees to Tap



LANSING LETTER

By GENE ALLEMAN

Field Manager, Michigan Press Association

Yes, in Michigan you cnn find:

Ghost villages, rows of empty houses, spnced uniformly as though tombstones in n grnveyard. Windows boarded up. No smoke from chimneys. Everywhere a scene of desolntion, silent in mid-winter under a blanket of white sepulchral snow.

A year-round natural temperature of 94 degrees and 16-foot snow fences, believe it or not, less than two miles apart.

Rugged pine-tipped shores as scenic as anything you can find in beautiful Maine.

Such are some of the picturesque features which we recently viewed in the Keweenaw peninsula, Michigan's most northernmost part of the upper peninsula which sticks out into Lake Superior like a sore thumb.

It is also a region where more than 8,000 persons today nre on relief, where the county is able to pay only 15 per cent of its welfare bills.

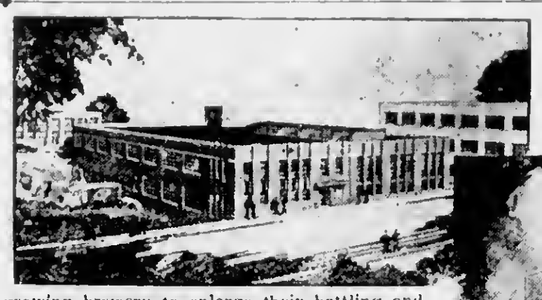
THE SCHMIDT BREWING COMPANY SPENDS $310,000 FOR EXPANSION



It has just been learned from officials of The Schmidt Brewing Company, Detroit, that greatly increased sales of Schmidt's Beer during 1939 and the anticipation of a still further increase during 1940, has prompted this fast growing brewery to enlarge their bottling and storing facilities. The amount being spent for this latest expansion totals approximately $310,000.00 and is divided between a new addition to the present bottling plant and the erection of a new stock house.

The addition to the bottling department is reinforced concrete of the same modern glazed block lined construction as the present building. This addition increases the total size of the plant 50% and affords about 75% additional storage area.

It was also learned that a new bottling unit and other interior improvements will increase the bottling capacity 125%. This new unit, which is said to feature the most modern features to insure clean, sterile bottles, proper filling and pasteurizing, automatic labeling and automatic packing, will enable Schmidt's to bottle 600,000 bottles of beer a day.

Cora Timmer, who has been employed in Grand Rapids the past winter, returned home Saturday.

Richard and Peter Kruis of Wyoming Park, near Grand Rapids, were visiting relatives here a few days.

Albert DeJong and Jacob Timmer were in Phelps Tuesday afternoon, calling on Wm. DeJong and family.

Miss Julia Senneker and Mrs. Henrietta Bolhuis of Grand Rapids spent the week end with their parents, Mr. and Mrs. U. Senneker.

The sale held at the Siebe Brock farm last Wednesday, was well attended and everything sold at a good price. The family left for Grand Rapids.

Some of our young people called on James Rubingh Monday evening, who is improving nicely at present. Mr. Rubingh was hurt in the auto accident December 11.

Nick Jongert of near Central Lake will hold an auction sale next Tuesday, March 19, of stock and tools and furniture, beginning at 1 o'clock. Mr. and Mrs. Jongert lived there for 10 years, coming from Grand Rapids. They intend moving back there next week. They live four miles north of Central Lake.

Banks township caucus was held Thursday, March 6. Only one ticket this spring. The following persons were nominated: Supervisor, Bert DeYoung; clerk, Tracy E. Boss; treasurer, William Kouyer; justice of the peace, Albert Elzinga; member board of review, John DeGroot; constables, Abe Speckman, Peter VanderArk, Bert DeGroot and Nick Brock; township committee, W. P. Smith, Gerrit Rubingh and H. J. Timmer.

NORWOOD

R. E. Stafford was a business caller in Traverse City on Tuesday of last week.

Mr. and Mrs. Newton Pierce and family of East Jordan called on the former's father, Harris Pierce, Sunday afternoon.

Mr. and Mrs. Milton Richardson, also Mr. and Mrs. Stanley Lord, were business callers in East Jordan Saturday evening.

Mr. and Mrs. Albert Parsons of Ellsworth were Sunday afternoon visitors at the home of Mr. and Mrs. William Alward.

Saw Alward, who has spent the winter in Ellsworth, has returned to the home of his brother and sister-in-law, Mr. and Mrs. William Alward.

Lloyd and Archie Swartout, who have spent the past two months in Detroit, are visiting at the home of their sister and brother-in-law, Mr. and Mrs. Lester Harwood.

Mrs. R. E. Stafford was pleasantly surprised on Tuesday evening of last week, when twelve of her friends gathered at her home to help celebrate her birthday anniversary. The evening was spent playing bunco with prizes going to Miss Jane Parsons and Miss Marjorie Richardson, after which a pot luck lunch was served with a beautiful birthday cake. The guest of honor was presented with a lovely gift.

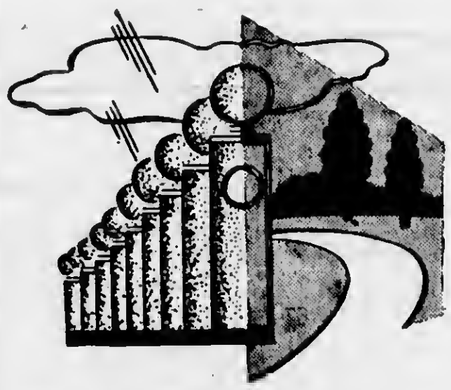
MICHIGAN BELL TELEPHONE COMPANY



"A PENNY A MILE THROUGH ADVERTISING"
Says Gas Station Man*

"Advertising Gives You Better Gas for Less Money"

"You see that gas pump? Well, every gallon of gas coming out of that pump is good; and what's more, you know it's good. That's largely because the company whose gas I sell advertises. That company has developed a reputation for selling a product of high quality. It has improved its product from time to time, and has told you about the improvements through advertising . . . Today, you know that you can go into any gas station where that company's sign appears and get the standard products—of the same high quality that it is in every other station selling that gasoline. Now, that's confidence, and you have it because the company's name and reputation for selling a sound product is known to you, and is constantly kept before you, by advertising . . . Nowadays, your gas costs you about a penny a mile, probably less than that. Do you think you could get good gasoline so cheap if there wasn't any advertising done by motor car and gasoline companies, by chambers of commerce, resorts, and other advertisers to make you want to go places and see things? I don't think so, Mister that wouldn't make sense to me."

High Spots on Record-Breaking Run

Signs of the times in a motor age—these highway markers tell the story of a two-year, 100,000-mile truck test run recently completed by Chevrolet. In Canada, Mexico and every state of the Union, the truck operated on all types of highways and under every conceivable weather hazard, setting a new world mark for sustained and certified automotive operation, under the sanction and official observation of the American Automobile Association. The unit carried a 4,590-pound "payload." An average of 15.1 miles per gallon of fuel was maintained throughout the 100,000 miles, at an average operating speed of 33.07 miles per hour. Oil mileage was correspondingly high—1,072 miles per quart.

BEAVER SEASON OPENS MARCH 20

TRAPPERS HOPING NOW FOR ICE-FREE STREAMS

Two Otter May be Taken This Year for First Time — Charlevoix County Open to Trapping

Ice-free streams are what beaver trappers are hoping for as their 1940 season in 13 lower Michigan counties opens March 20, five days later than last year. Trapping will continue until April 10. In the upper peninsula the season runs from April 1 to 15.

Last season nearly 2,000 trappers took 6,422 beavers. Trappers, who must be Michigan residents, pay $2 for a special license which permits taking of up to eight beavers. Number and size of traps are not subject to regulation but traps must not be set nearer than 50 feet to a beaver lodge, hole or dam. Firearms may not be used.

To learn something of the nature and abundance of otters, after 15 years of complete protection, the conservation commission this year is allowing each licensed beaver trapper to take two otters, in 24 designated counties, in beaver season. Otter are believed to have been taken in beaver traps inadvertently and illegally disposed of.

Otter have proved difficult to study in the field because of their wide range and secretive habits. Carcasses of all otters taken this season must be turned in when the pelts are sealed, for use in scientific study. Among other things, alleged otter predation on trout will be investigated.

All otter and beaver pelts must be sealed at the conservation district headquarters nearest the place of trapping on or before April 15 in the lower peninsula or April 22 in the upper peninsula. Fee for the sealing with a metal seal, which prevents fur bootlegging, is $1.

Both beaver and otter may be trapped in 24 counties: Gogebic, Ontonagon, Baraga, Iron, Dickinson, Marquette, Delta, Alger, Schoolcraft, Luce, and Houghton county south of the canal, in the upper peninsula; Cheboygan, Presque Isle, Otsego, Montmorency, Alpena, Kalkaska, Crawford, Oscoda, Alcona, Missaukee, Roscommon, Ogemaw and Iosco counties in the lower peninsula.

Beaver alone may be trapped in 21 additional counties: Menominee, Mackinac, Chippewa, Emmet, Charlevoix, Antrim, Leelanau, Benzie, Grand Traverse, Manistee, Wexford, Mason, Lake, Osceola, Clare, Gladwin, Arenac, Newaygo, Mecosta, Isabella and Midland.

In these counties certain designated streams or parts of streams will remain closed to trapping.

CHRISTIAN SCIENCE SOCIETY

Sunday morning service, 10:45.
Sunday school, 12 o'clock.
Meets first Wednesday evening of each month at 7:45 p. m.
Reading room open Saturday, 3 to 5 p. m.
We cordially invite the public to our service and reading room.

"Substance" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, March 17, 1940.

The Golden Text (Revelation 4:8) is: "Holy, holy, holy, Lord God Almighty, which was, and is, and is to come."

Among the Bible citations is this passage (Psalm 33:6, 9): "By the word of the Lord were the heavens made; and all the host of them by the breath of his mouth. For he spake, and it was done; he commanded, and it stood fast."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 468): "Substance is that which is eternal and incapable of discord and decay. The spiritual universe, including individual man, is a compound idea, reflecting the divine substance of Spirit."

CORRESPONDENCE

PHELPS NEWS

We are glad to have Douglas Falting back to school after having been sick with the flu.

Billy and Richard Falting were visitors of Sidney and Louis DeJong Saturday morning.

Robert Balch, Junior Plumber and Marven McGinnis were visitors of Ben Drost Sunday afternoon.

Mr. and Mrs. Archie Balch and daughter Shirley were Sunday afternoon visitors of Mr. and Mrs. William Ager and children.

The Phelps school has joined a new club called the "Phelps Golden Rule." We have our meetings on Mondays and the dues are two cents a week.

ROCK ELM

Thermometers registered zero here Monday morning.

Jessie Lawton repaired a radio for Bernie Kloster last week.

Ben Smatts called on Jesse Lawton to tow his car to East Jordan for repairs one day last week.

The highway department has now opened up some of the side roads that have been blocked through the winter.

The roof of a shed on the back of Elmer Jensen's barn, collapsed last Thursday from the weight of snow and ice.

East Jordan basketball team won their second trophy at the tournament in Petoskey last Friday. They played Lake City.

CENTRAL LAKE

The weather cleared up for a good day for Sunday school last Sunday.

It is hoped to combine Grand View and Greenwood Sunday schools at Greenwood this year. The people at those places are asked to be studying the problem before organization on Sunday, April 7th.

Paul Gardner tells us that they intend reorganizing Sunday school at Turner about the first Sunday in April. They had a very successful Sunday school there last year.

The Mennonite District Conference was held with the Mennonite church at Munceiona last Sunday. The young people carry on most of the program at these meetings with songs and papers on religious subjects.

A very interesting letter from Mrs. Helen Gould, who is at Petoskey Lockwood Hospital, was read at Jordan River Sunday school last Sunday. Mrs. Gould is improving rapidly, and very heartily thanked Jordan River for the gift she received from them.

North Milton young people and the Batterbee sisters were visitors Sunday forenoon at the Jordan River Sunday school. The Batterbee girls sang. They and the North Milton girls will sing there at Easter services a week from next Sunday, March 24.

Green river Sunday school will be re-organized the first Sunday in April so Otis Bundy informs us. Bush and Jordan River have been running successfully all winter. A week ago Sunday, Bush had 31 in attendance. The side roads were plowed out at Jordan last week, letting out the Morris and Calkins families, and the former were present last Sunday.

Rev. G. A. Weaver is up and around again after his long seige of illness, so reports Mrs. Gould. It is hoped he will be able to be on the field again by April 7th, three weeks hence.

Only five above zero Monday morning.

Antrim County Teacher's Institute next week Tuesday, March 19th. All come. It will be held at Munceiona.

William Carey and family returned Saturday afternoon from their winter's visit with relatives in Detroit.

Moses King has gone to Detroit for an indefinite visit with relatives and friends. We understand he is a candidate for register of deeds for Antrim county at the coming fall election.

An interesting session of Maple Hill Grange was held at Eastport last week in which a large crowd participated. Several interesting talks were given by county and local people.

Mrs. Grace Hooper circulated an anti-liquor petition in Torch Lake township this spring, consequently the subject will be voted on at election there Monday, April 1st.

A. Snitseler of Bay View is up and around again, but was not able to get down to Democratic caucus this year. No Democratic caucus was held this year in Central Lake township.

A Republican caucus was held at the town hall last Saturday with the following nominations: Supervisor, Mr. Rushton; treasurer, Harold Titus; clerk, Guy White; justices, Robert Watson and Ralph Watkins; highway commissioner, Albert Loper.

Village election this year is a calm affair. Two tickets of the same names were put in the field, headed by Chas. Box for president. Little interest is displayed, apparently, in any villages of the county. The death of Ed. Bedell, Bellaire's former supervisor, occurred recently, and vacancy was filled by appointing Mr. Hierlihy.

The state and national elections appear to be about the only ones drawing public attention, and the outcome of them is quite apparently assured, with the popular Melvin McPherson and Mr. Flyn as governor and lieutenant-governor, and Chas. E. Dewey and Robert Taft as president and vice-president.

A NEW PROTECTION *for* OUR DEPOSITORS

In keeping abreast of the times The Charlevoix County State Bank offers a new service to its customers without additional cost to them, through installation of the

RECORDAK PHOTOGRAPHING MACHINE

Every check deposited or cashed, drawn on us or out-of-town banks, is photographed by the machine so that this bank will have a permanent picture of every check as a protection against loss, fire or misplacement in the mails. A photographic reproduction can be made from the original picture, and used where it is impossible to secure a duplicate check.

The new machine is on display at the Charlevoix County State Bank. You are cordially invited to inspect this new equipment.

Officers of the bank will welcome the opportunity to explain this new service to you.

STEP OUT IN STYLE

BUY CHEVROLET!

This year the automobile industry is putting on a style parade as never before—and leading this parade of motor car beauty is the new 1940 Chevrolet.

Just as Chevrolet for 1940 leads in beauty, so does Chevrolet lead in sales. And Chevrolet's nationwide public acceptance is recognition of Chevrolet's greater all-round value. Chevrolet gives peak performance with maximum economy — and with extra riding and driving ease.

Chevrolet's finer features — Perfected Knee-Action Riding System*, Exclusive Vacuum-Power Shift, Super-Silent Valve-in-Head Engine, "Royal Clipper" Styling, and Perfected Hydraulic Brakes—all make Chevrolet the biggest and best buy of the year.

From front of grille to rear of body—for length where length counts—Chevrolet is the longest of all lowest-priced cars, 181 inches. This extra length means extra luxury—extra richness of appearance.

Visit the Charlevoix Oil Company today! Take a trial drive in the leader of the low-price field. You, too, will agree that "Chevrolet's First Again!"

ROAD OFFICES GIVEN TRUCK LOAD LIMITS

Truck Operators Warned to Observe Rulings Now in Effect

State Highway Commissioner Murray D. Van Wagoner today warned truck operators to keep informed of loading restrictions on state trunklines from March 1 through May 31.

The state statute governing road restrictions requires the department to put them in force whenever soft weather conditions make normal truck load limitations n threat to road surfnces.

The department is furnishing all district offices and district maintenance garages with limitation orders as they are issued. Content of the orders is given newspapers for publication.

Van Wagoner said the first order probably would effect trunklines south of M-20 only. Each order makes effective definite limitations for loads on specific axle construction. Roughly, the orders cut londs 25 per cent on concrete trunklines and 35 per cent on roads without concrete surface.

Unless unusual conditions prevail, the commissioner said, restrictions would be lifted long before the final date set by stutute.

CROWN SMELT KING AT EAST JORDAN JAMBOREE

Many Features Planned for Spring Festival on March 30th

Other towns can have their queens when they celebrate, but East Jordan will crown a king when sportsmen hold their annual smelt jamboree there March 30.

A program that includes archery, boxing, races, wood chopping and log birling contests, the coronation and a comic parade has been arranged for the afternoon. In the evening there will he fireworks, the smelters' ball, and, of course, dipping for smelt in the Jordan river.

An outdoorsmen's banquet Friday night, March 29, precedes the full day celebration.

MARION TOWNSHIP HELD ANNUAL CAUCUS TUESDAY

A. J. Bolhuis Heads Single Ticket for Office of Supervisor

Marion township nominated officers to uppear on the April general election ballot at the annual caucus held at the Mnrion town hall Tuesday afternoon.

The slate named was as follows: Supervisor, A. J. Bolhuis; clerk, Jay Adams; treasurer, Charles Cellner; highway commissioner, August Cellner; justice of the peace, W. K. Straw; member board of roview, H. E. Cunningham; constables, Glenn Cummings and Raymond Cunningham.

JUNIOR FARM BUREAU

At the Junior Farm Bureau meeting of March 11 things happened and happened fast. One of the first things discussed was the possibilities of giving a play. Members chosen to inspect their communities for talent were Elsie Hilton, Florence White and Freda Willis.

A benefit party for the Krchak family was planned. The cake-walk and dance is to be held on March 20. For the music it was unanimously decided Ed. Vratanina, with Delmer Lyons and Lawrence Ecklund as his assistants, would be the best possible committee. Lula Mitchell, with Merle Blanchard, Florence White and Freda Willis, will take care of all the food beyond cakes.

Clifford Struthers, who has been elected to the board of the Tri-County Farm Bureau, spoke to us on the escapade for new members followed by an exciting election between Ed. Vratanina, Clifford and Elsie Hilton for vice presidency. Miss Hilton carried the election by a very small majority.

COUNTY STATE BANK INSTALLS NEW EQUIPMENT

Recordak Provides Photographic Record of All Checks Handled

In order to provide better banking facilities for this community, the Charlevoix County State Bank has recently installed the most modern Burroughs bookkeeping machine and a Recordak.

The bookkeeping machine, while posting all entries as the older type Burroughs, also carries a proof of the work in the machine. It further analyzes each account on which any items are entered. The speed and accuracy with which this machine calculates the many entries is quite a marvel to behold.

The Recordak is now being used by many banks for photographing various checks and other items which pass through the bank. These photographs are made on a 16mm. film and, as soon as developed, can be projected on a screen within the machine. This gives the bank a photographic record of each check which has been paid or deposited.

In case a check which has been lost is desired by a customer to use as a receipt, the bank can secure a photostatic copy of the check, which the courts have recently accepted as proof of payment.

Both of these machines are now in operation, and officers and employees will be glad to demonstrate them at any time.

SWEET PEA NEEDS AN EARLY SEEDING

Homemakers in Michigan as in any other state smile when they are successful in getting a colorful crop of sweet pens to flower somewhere around the home.

Difficulties usually all involve the nature of the plant. Sweet peas, says C. E. Wildon, floriculturist at Michigan State College, need to be seeded early with special planting care.

First step is to spade up a deep trench even two to three feet in depth if drainage is good. Into the bottom gues some well rotted manure and ground bone. When planting time comes the trench is nearly filled with soil and seed placed three to four inches deep, half an inch apart.

Cover at first with about two inches of soil, advises Wildon, and when the pens are up, more soil can level up the trench. The plants will need support, such as brush or netted chicken wire.

SLIGHT DECLINE IN COMMERCIAL FISH

VALUE CATCH DROPPED $114,716 DURING 1939 SEASON

Lake Trout Continue to Lead All Other Species in Value — Whitefish Declined Most

The $2,224,284 harvest by commercial fishermen in Michigan waters of the Great Lakes in 1939 marks a continuance of the slight but steady decline of Great Lakes fish production in recent years. The records of the fish division of the department of conservation indicate that the value of the 1935 catch was $2,822,000, while in 1936 it was $2,559,000; in 1937, $2,415,000, and in 1938, $2,339,000.

Greatest decline of the 1939 season was in the whitefish haul, which at $311,859 was worth $128,957 less than in 1938, and the take of chubs which at $129,610 was worth $71,816 less than in the previous year.

Lake trout continue to be by far the most valuable commercial species in Michigan's Great Lakes waters, supplying more than six million pounds worth $911,742 in 1939, $21,665 more than in 1938. Lake herring also showed a $23,888 gain for the year, with a 10,956,255 pound harvest in 1939 worth $328,688. Yellow pike perch (walleyes) taken in 1939 had a value of $291,271, nearly $85,000 above the 1938 figure.

Saginaw bay waters proved most productive, with a yield of 8,454,058 pounds, more than a million pounds above the 1938 production. The rest of Lake Huron yielded 5,366,659 pounds, an increase of 778,852 pounds; Lake Superior yielded 5,422,740 pounds, an increase of 231,148 pounds; and Lake Erie yielded 1,265,574 pounds, an increase of 46,401 pounds, over the previous year.

These gains were more than offset by the 2,569,159 pound drop in Lake Michigan production, which was 7,569,159 pounds in 1939.

Total 1939 production of 28,178,145 pounds was 504,266 pounds under the 1938 total.

Among less valuable species taken by commercial fishermen, an increase in 1939 in the worth of the total catch is recorded for pilot fish or menominees, saugers, catfish, bullheads and grass pike. The total catch of white suckers and mullet, carp, perch, smelt, red suckers, sheepshead, white bass and rock bass was worth less than in the year before.

DAIRY 4-H MEMBERS OFFERED MEDALS, TRIPS, AND $3200 IN COLLEGE SCHOLARSHIPS

The campaign for better dairy methods and conditions, promoted the past three years through the National 4-H Dairy Production Demonstration Contest, will be continued during the current year with increased awards. As heretofore, it will be supervised by county and state extension agents, and is open to all boys and girls enrolled in dairy projects.

Additional information and assistance may be obtained from county agents in planning demonstrations which must concern breeding, growing, feeding, fitting and judging of dairy cattle or production and handling of milk and cream on the farm. County elimination contests will determine the teams to compete at state finals.

The awards are offered to stimulate members to become better informed on dairy methods, to encourage them to pass along their knowledge, and to give them experience in public speaking, team work, and sportsmanship.

Gold and silver medals are provided for members of first and second ranking teams in the counties. State winners will make the trip to Harrisburg, Pennsylvania, with all expenses paid, for the finals at the National Dairy Show to be held there October 12-19. The Kraft Cheese Company provides the medals and trips, in addition to $3200 in college scholarships to be apportioned to national blue award winners—$250 to each member of the first ranking team and $150 to members of the second team in each of the four extension sections.

NO LICENSE NEEDED FOR FARM TRACTORS

Attorney General Thomas Read Makes Ruling on Matter

Attorney General Thomas Read has held that tractors, used solely for agricultural purposes, are not motor vehicles and do not need to be licensed.

In an opinion written for Itha H. Miller, Eaton Rapids chief of police, Read ruled that regardless of the fact that the tractors crossed trunklines in moving from one field to another or from one farm to another, they were not classed under the law, as motor vehicles.

He also informed Miller that his opinion included trailers behind tractors and motor cars converted into tractors for farm use.

GREATEST SINGLE TAKE ILLEGAL NETS IS MADE

Fifty-One Boxes Chub Gear Taken from Green Bay Area

The conservation commission announces that state fish law enforcement officers Wednesday confiscated their greatest group of illegal nets in a single arrest.

H. R. Sayre, chief of the field administration division, reported to the commissioners that 51 boxes of nets sufficient to cover 17 miles of water, were taken in the Green Bay area near Washington Island. He explained that the nets, believed to be owned by Wisconsin fishermen, were illegal because of their undersized mesh.

PORTABLE radiotelephone transmitter, receiver and aerial (right), and operators' control unit for sending and receiving (left) —two complete sets of which the Michigan Bell Telephone Company has added to its equipment for the purpose of bridging gaps in telephone wires created by fire, flood, storm or other emergencies. Each unit, equipped with two-way telephone, is self contained and can be transported quickly by car, truck or plane, one to each end of a wire-break, for temporarily restoring communication with isolated towns. Telephone wire connections with the sets will permit resumption of service on a limited basis until the break can be repaired. The units will be stationed at Lansing because of that city's central location.

DISTRICT HEALTH UNIT

Concerning Dental Health

For some years the teaching has gone forth that the diet and health of the expectant mother is very important in the formation of sound deciduous teeth; that the crowns of deciduous teeth are completed before birth; that if the expectant mother does not have sufficient minerals in her diet, the mineral elements in her own teeth may be depleted to furnish them to the developing fetus; that even at any age after teeth are formed certain vitamins and minerals are very important in maintaining sound teeth and preventing dental decay.

Recent painstaking research seems to be proving that those statements are fallacies and based on wrong premises. Dr. Rudolf Kronfelt, in an article on "Calcification and Decalcification of the Human Teeth" in the October issue of The Journal of the Michigan State Dental Society, seems to present a very strong case and many of his conclusions are confirmed by other research workers and much clinical evidence.

Of course a well-balanced diet is important for the expectant mother as well as for people at all ages for general nutrition, but we should not make claims for it concerning teeth which cannot be supported by fact.

From the factual standpoint today concerning building and maintaining good teeth, it would seem that we can say that a well-balanced diet is important between birth and eight years of age (14 if we include third molars) in building well-formed teeth, but that there is no known diet or vitamin which will build teeth that are impervious to caries; that reduction of sugar and other carbohydrates in the diet will cut down dental decay; that the toothbrush properly used can help prevent decay on certain exposed surfaces of the teeth and may help prevent gingivitis and pyorrhea, but that the toothbrush can not do much to prevent decay where it most usually starts, in the pits and fissures and in the interproximal spaces; that by far the most important factor in maintaining dental health is early and periodic dental care by a competent and conscientious dentist, starting at 2½ or 3 years of age.

We know that dental caries is one of the most prevalent diseases known to man, and that its results markedly affect health, appearance, and comfort. We have as yet no known method of prevention and no easy method of control, but it can be controlled if certain procedures are carried out, which it is difficult to get the public to adopt. They and we would like some easier way.

But until some easier way is found and proven to be a fact, the dentist in his office and the dental health worker with broader contacts should not promote methods that are not borne out by research and clinical observations as established facts. A statement once made, especially from a seemingly authoritative source, is difficult to overtake.

Dentistry has been according recognition as a scientific profession. Real scientists are careful of their statements. Dentists and health educators should adhere to the facts properly balanced and emphasized. That accomplishes more in the end. Where there is doubt it is best to qualify.—W. R. Davis, The Journal of the Michigan State Dental Society, Vol. 21, No. 11, November 1939.

AT THE MOVIES

"Everything Happens at Night"

A completely different type of picture for Sonja Henie, in this 20th Century-Fox film Darryl F. Zanuck presents the famed skating star in a combined dramatic and comedy role at the Palace Theater, Saturday and Sunday, March 10-11.—

Sonja's amazingly developed acting ability makes her perfectly at home in the story and of course there are sequences in which Sonja disports not only on skates but on the sheer, shimmering ski slides of the Alps. Although Sonja's role is essentially dramatic, light comedy touches are injected when Ray Milland and Robert Cummings, as two rival newspaper reporters, fall for her and fight for her love as well as for one of the biggest stories of the day. Directed by Irving Cummings with a deft touch, "Everything Happens at Night" is exceptional entertainment.

"High School"

Jane Withers is in "High School" now and Palace Theatre patrons are promised an abundance of heart-throbs and thrills when her new 20th Century-Fox starring picture of that title comes to town on Wednesday and Thursday, March 20-21.

The film casts Jane as a Texas rancher's daughter who zooms into high school and immediately gets into trouble as a result of her know-it-all attitude.

Jane's quite a "young lady" in this film, and is concerned with dates, party dresses, school spirit, campus shindigs and all the rest of a "Frosh's" problems.

Real authentic background is a highlight of the picture, for it was filmed with the cooperation of San Antonio's famous Thomas Jefferson high school. Jane even becomes a member of the renowned Girls' Lasso Club at the school, but not until she has learned a lesson in "school spirit."

Featured in her support are Joe Brown, Jr., Lloyd Corrigan, Claire DuBrey, Lynne Roberts, Paul Harvey, Cliff Edwards, Lillian Porter and John Kellogg. George Nicholls, Jr. directed and John Stone was associate producer.

ECONOMY CLAIMS REFUTED

"Claims of economy in state government are conclusively refuted by payroll figures recently published," says Ernest T. Conlon, general manager of the Chamber of Commerce of Michigan. He added that they were at an all-time high with every probability of their being increased instead of lowered.

The figures are as follows:

1933, $14,566,849; 1934 $15,184,839; 1935, $17,197,311; 1936, $19,714,885; 1937, $23,185,250; 1938, $25,295,288; 1939, $25,623,007.

"From this compilation we find," said Conlon, "that during the past seven years the payroll has been jumped $11,056,158. This increase has occurred during various administrations, leaders of which all prated loudly of economies which would be accomplished.

"This is only one department of state government but it offers convincing proof that promises concerning a lessened tax levy have not been kept. Furthermore, it is conclusive evidence that they never will be unless the taxpayers through united action bring this about.

"The constant and insistent demand of public officials is: 'Give us more money to spend.' In some rare instances we find an office holder conscientiously trying to reduce the cost of running his job and to run it more efficiently. If he succeeds, however, his savings are usually lost to the taxpayers through the extravagance of some other department.

"The state's deficit in the general fund last July was approximately $30,000,000. According to the auditor general, it will be in the neighborhood of $2,500,000 more at the end of the current fiscal year, unless some way is found to cut expenditures.

"At the present time there seems to be no movement under way looking to economy and a reduction of the deficit. On the contrary we hear of proposals to increase the sales tax from 3 to 4 cents. If this proposition should go through, it would mean an addition of some $20,000,000 annually to the state's income.

"What would become of these added funds? Would they be utilized to reduce the deficit? Hardly! They would be spent for other purposes.

"Then there is a new plan—earmark certain funds for certain specific purposes. If this is done in one instance there will be other demands made and granted which will eventually result in all state monies being tied up.

"Then, when there are no more funds available, new taxes will be forthcoming to meet needs which will arise.

"It would seem that many state officials devote most of their time to figuring out how they can get more money from the taxpayers regardless of their ability to pay."

Speaking of the State Chamber's campaign to cut out extravagance in government and bring about more equitable levies, Conlon said:

"We feel that we are making splendid progress. Our affiliated units in each of the 83 counties of the state are being rapidly built into effective bodies of taxpayers who will play an important role in convincing the state legislature and public officials that a halt in excessive spending must be effected.

"Through radio, pamphlets, newsreels and with the general support of the newspapers of the state, we have made the public acquainted with the serious condition of our state finances. We believe that this educational campaign has been of great value in bringing home to our citizens that fact that economy must come or that eventually we will face a condition that will be extremely disastrous.

"From now on, aside from this work, we shall devote our time to bringing more direct action to bear on several of these governmental problems."

Farm Account Co-operators to Check in Books on March 18 and 19

All farm account co-operators will meet by appointments with representatives of the Farm Management Department on March 18th and 19th. Each record keeper will spend approximately an hour in carefully checking through the various divisions of the book to insure accuracy and completeness.

Several new cooperators have started keeping a farm record so that approximately fifty books will be kept for this new year beginning March first. We can still handle several more so kindly get in touch with your county agent if you would like to start a book this new year.

Nothing in the world will give you such vital information about your farm business as keeping a record. The farm management department of the state college performs a wonderful service in summarizing the results shown in each book and in developing a report which shows the strong points about your farm operations. Those who want a farm account book without our extension assistance may have one, free of charge, upon request. We hope to hear from all who are interested.

Careful Attention Must be Given to Prevent Reappearance of Late Blight in Potatoes

The three meetings conducted last week Friday were of great importance to all potato growers in the county. There has been so many wrong impressions of the disease that it seems worthwhile to recommend certain practices as protective measures.

In the first place, late blight is carried in the seed and, as a result of last year's heavy infection, practically all seed potatoes have the disease in varying degrees. Also, the infection moves from the seed upward into the stalk and leaves of the potato plant. Under favorable weather conditions in September the infection spreads from a few diseased plants to healthy plants growing alongside. Spread of the disease takes place by means of spores produced on the diseased plants which are splashed and blown to nearby healthy vines.

The nearest approach to protection is to carefully sort over the seed potatoes and remove all tubers showing sunken or depressed areas which are good indications of the disease. Underneath each sunken area will be found brownish areas extending usually an eighth to a quarter of an inch in the flesh. Seed treatment accomplishes some protection against blight but does not kill the fungus when it is underneath the skin and in the flesh of the tuber.

The program to follow would certainly be, first, to take more than the usual amount of time in sorting the potatoes that are to be used for seed purposes. Then use seed treatment, either Corrosive Sublimate or Semesam Bel which will help in the control and, in addition, prevent scab and scurf. No doubt Semesam Bel will be used much more than Corrosive Sublimate as it is much cheaper in price and will do the same job.

It is then best to sprend out the potatoes so that they will green sprout. This gives you a second check on the vitality of the tubers and the weak sprouts should be eliminated. Better yet, it would be good sound advice to buy seed that is known to be free from blight and start a little seed plot of sufficient size to give you the desired quantity of seed needed for 1941. The majority of farmers have been extremely careless in their seed selection and, in many cases, it would pay big dividends to establish a new source of seed. See your local dealer who will have some suggestions to offer as to where you can get good seed.

New Vegetables Worth a Tryout

Freshly plowed or spaded Michigan gardens will soon prove better harbingers of spring than the fabled groundhog, but there are to be a few standby traditions broken if gardeners follow the suggestions of a certain authority at Michigan State College.

The idea is to try some of the newer and apparently more superior strains and varieties of vegetables.

Here are some of the citations offered by Keith C. Barrons, member of the college horticulture department:

In snap beans there is the new Tendergreen, suitable for successive plantings for its long, round green pods. Stringless Refugee is somewhat later in maturity but worth a trial, for canning factories are purchasing this type extensively. Kentucky Wonder, a pole bean, is still later.

Green sprouting broccoli is another Barrons' suggestion for trial. Detroit Dark Red is still apparently the superior red garden beet. Early Wonder is an earlier kind.

Savoy cabbage gives a variation, darker green and more crinkled than other cabbage. Carrots are being modernized in color, sweetness and shape. Barrons suggests Red Cored Chantenay or Supreme Half Long.

Plant breeders have helped the sweet corn cause. Hybrids suggested by Barrons for a trial in Michigan mature in the order named—Seneca 60, Northern Cross, Golden Cross Bantam and Ioana.

Head lettuce, thanks to plant breeders, apparently is now a good Michigan garden crop if planted early to such a variety as Imperial 44. For a garden not too far north Barrons suggests trying Rutgers tomatoes. For early maturing peas, Thomas Laxton; for thick peppers, California Wonder; McDonald rhubarb; early Prolific Straightneck squash. And for those seeking rudiments of gardening to combine with these tips about trying new vegetable varieties, there is the Extension Bulletin No. 4, "The Home Garden", available through county agricultural agents or by writing the Bulletin Room, Michigan State College, East Lansing.

Uniform Plates Save Temper, Too

In addition to saving taxpayers' dollars and facilitating the work of law-enforcement officials, uniform automobile licenses are being credited with saving motorists many weary minutes of standing in line out in the cold, waiting for a chance to buy their 1940 plates.

Less congestion was experienced this year than in any previous year, according to reports from branch managers received by Harry F. Kelly, secretary of state. In the Detroit area, where hundreds of people, in former years, were lined up for blocks outside of branch offices, applicants were "under roof" at all times. The average time required for the issuance of a plate was four minutes, while the longest period of waiting was six minutes.

"One big reason for the improvement," said Secretary Kelly, "is that clerks were no longer required to devote valuable time to digging up special plates. All plates were issued in sequence. The motorist who asked for a special number was a rarity."

Up to the March 1 deadline, 1,013,582 plates had been issued.

Uniform numbering also simplified bookkeeping operations, said Kelly, with the result that office forces kept up with their work from day to day, whereas in former years they were months behind.

"Thus," Kelly concluded, "we not only have saved money in clerical hire, and in the cost of producing the plates, but we've saved the time and perhaps the tempers of car owners."

Directories of the 1940 licensees are already rolling off the presses and into the hands of law-enforcement officials, months ahead of the usual time.

LANSING LETTER

(Continued from page 1)

Depression Dregs

Unsuited for farming, this forested peninsula was once a bee-hive of mining activity with a score or more copper mines in feverish, prosperous operation.

The population of Houghton county was at one time second only to Wayne county (Detroit) for the entire state! Then came the disastrous and bitter labor strike in the twenties, opening of copper fields in the west and in South America, and finally the Great Depression of 1929-32. Ravaged by adversity, this copper country touched dregs of depression to a degree almost unknown elsewhere in Michigan. Entire train-loads of residents left Calumet in one month. At Detroit, Flint and other industrial centers there are today literal "colonies" of former Houghton county folk who departed not from choice but from dire necessity.

Such is some of the remarkable background of a region that is as far to the north as Quebec, Canada.

Recovery Road

Undaunted by reverses, Houghton and Hancock (separated by only a bridge) are steadily recovering economically.

They are looking forward optimistically. Here is the picture as we found it a week or so ago:

While the iron ranges near Marquette, Iron River and Ironwood are enjoying good times due to war demands, the copper mines of the Keweenaw range are having difficulty in competing with open mines in Arizona, Montana, Chile and other points.

The Quincy mine at Hancock, for example, has sunk its main shaft to a depth of 9,100 feet! It is the deepest mine in the United States. Underground at that low level the temperature is 94 degrees the year around, winter and summer. Above ground are 16-foot snow fences.

When miners are lifted in cars at a 45 degree angle, they emerge into the daylight like men coming out of a Turkish bath.

Working nine hours a day, they drill through solid rock, blast out the copper ore, and place it into elevator cars which are lifted by long steel cables to the surface.

The Calumet and Hecla Mining Company last full employed 147 men underground, 1,104 others above ground. The smelting works and reclamation plant operate at Lake Linden; the mine is at Calumet.

But the total number of miners employed in Houghton county, according to the last state report, was 3,099. This is a mere fraction of the army of yesteryears. Hence the shutdown mines, deserted villages.

College Boom

Where copper mining is sluggish because of unfavorable competitive conditions and the current price of copper (protected as it is by a 4-cent tariff), the Michigan College of Mining and Technology at Houghton is enjoying a boom.

Together with a steady growth of the tourist business, the college has contributed substantially to the recovery of this copper area.

Although 5 per cent of Michigan's population is in the upper peninsula, this northland college has doubled its enrollment during the past five years. In that respect it has duplicated Michigan State College's remarkable record, identically the same. The major sport is ice hockey; the University of Alaska team flew down two years ago to take on "Tech" in a series of games.

Today, one-fifth of the student enrollment study mining, although the college of mining has a world-wide reputation and is far better known outside of Michigan than within it. Among its graduates is William Hannold, Los Angeles, mining partner of Herbert Hoover for many years.

In August, 1935, Grover C. Dillman assumed the presidency and the expansion continued its natural momentum. The most recent course, added to a list including metallurgy, mechanical engineering, civil engineering, electrical engineering, chemistry and chemical engineering, is that of forestry.

"Within 200 miles of Houghton lie 50% of all the national and state forest area of the nine states in the central region," explained President Dillman.

Climatical Benefit

There is a climatical stimulation of this northland country that is highly beneficial.

With the natural advantages of forests and rugged hills and the haunting "frontier" appeal of ghost mining towns, the Keweenaw peninsula is rich in tourist possibilities. Brighter days are sure to come to this northernmost land of the upper peninsula, the worst hit of all during a long depression.

Got quite a kick out of a photograph on the front page of a recent issue of the Traverse City Record-Eagle. It showed a large group of Traverse City residents wintering in Florida standing before a large sign welcoming the Tin Can Tourists of the World, Inc., to Traverse City for their summer re-union. The funny part of the picture was, that while taken at Tampa, Fla., every person in the group had on a mackinaw, overcoat or some other heavy wrap. Didn't speak so well for the sunny south!

Starting April 1, Traverse City will adopt a new parking plan whereby all store employes will use a designated parking lot, thus providing more space in front and behind business places for out-of-town visitors. Sounds like a good scheme.

Jay Adams, out Marion Center way, says his wife planned a job on this writer by taking a photo of some robins and sending it in as proof of the "first robin" story. He says it's a good thing she didn't though, for the robins turned out to be Groesbeeks and the joke would have been on her.

Charlevoix was unusually popular last week. Circuit court was in session with a couple of spicy cases on trial.

Oscar North, Charlie Hamlin, "Doc" Nettleton and Harold Lamb went to Grand Rapids last Saturday to hear the quartettes compete in a contest sponsored by the Society for the Preservation and Encouragement of Barber Shop Singing in America. They're the Kiwanis quartette, by the way, and after hearing them sing at the Rotary-Kiwanis banquet last week in East Jordan, I thought they were mighty good, but Oscar says you should have heard some of those groups at Grand Rnpids. Being a modest fellow myself, I can appreciate their view.

ANNUAL PA AND MA BANQUET WAS DELIGHTFUL AFFAIR FRIDAY EVENING

The annual Pa and Ma banquet, given Friday evening at the I. O. O. F. hall by the ladies of the Rebekah lodge, was greatly enjoyed by the sixty guests present.

The tables were decorated in green, in honor of St. Patrick's day, with dainty favors at each place. O. P. North was toastmaster for the program.

Rev. W. L. Cruthers, speaking for "Pa", gave a short speech, while Mrs. Cruthers responded in "Ma's" behalf. Miss Ernestine Chew played two piano solos, and a baritone horn duet was given by Robert Gill and Warren Helms. The Misses Helen Hamlin and Leona Struthers gave a vocal duet, and Miss Helen Ikens gnve n delightful reading.

REGIONAL CAGE TITLES DECIDED AT PETOSKEY

Traverse City, East Jordan and Alpent St. Anne Winners

A record crowd of 2,584 spectators witnessed the finals in the regional cage tournament at Petoskey Saturday night, with Traverse City, East Jordan and St. Anne's of Alpena carrying off the honors in their respective classes.

Traverse City, twice beaten by Coach Danny Smick's Manistee quintet during the season, pulled the big surprise of the tournament by running away with the Chippewas, 37 to 12, for class B honors. The Trojans led at the half mark, 17 to 6.

East Jordan, nn underdog at the start of the season, ended in a third place tie in their own class C conference league, upset the old npplecart to trounce Gaylord, 17-7 in the finals in their class. Gaylord wound up in first place in the season league for northern Michigan. Neither team was able to make a field gonl in the first half which ended 3 to 1 with Jordan leading. The winners tallied four points in the third frame to three for Gaylord but ran away in the final quarter to count 10 points.

St. Anne of Alpena made it two regional championships in a row by taking the lanky Onekama team in a free-scoring tilt, 40 to 33.

CIRCUIT COURT WILL RE-CONVENE THURSDAY

Jury Returned Verdict of Guilty in Three Criminal Cases

Judge Parm C. Gilbert will re-convene circuit court on Thursday of this week to complete the March term which was adjourned Saturday.

Besides disposal of probationers and several non-jury cases, last week's court session was taken up with three criminal cases.

A jury returned verdicts of guilty against Lawrence Dillon, of Boyne City, on a bastardy charge; Isaac Denemy on a charge of robbery not armed.

James Harmon, of Flint, was found guilty of assault with intent to rape, and William Mathers, of Boyne City, on a charge of assault and battery.

Sentence will be imposed upon those found guilty of criminal charges at Thursday's session.

SEVENTH ANNIVERSARY FARM PROGRAM OBSERVED CHARLEVOIX COUNTY

The seventh anniversary of the National Farm program, was observed in Charlevoix county, Friday evening, March 8, at the Barnard Grange hall. This meeting was sponsored by the Junior Farm Bureau, and was attended by 87 persons.

Following the splendid dinner served by the ladies of the Barnard Grange, n most attractive program was introduced by Mrs. Hazel Murray, which consisted of a variety of music and other entertainment. A very clever play was presented by various members of the Grange. Music was fhrnished between acts by William Pnrsons and the Lyon brothers.

The radio broadcast from Washington was tuned in at 10 o'clock to hear President Roosevelt, Secretary Wallace and Postmaster General Farley address the farmers in observance of the nnniversary.

UNION SERVICES FOR GOOD FRIDAY

AT METHODIST CHURCH AFTERNOON MARCH 22ND

Pasters of Four Local Churches, Revs. Armstrong, Riegeneldus and Helrigel to be Speakers

The Good Friday service will be held in the Methodist church Friday, March 22.

It has been the custom for the past few years for all the churches in the city to cooperate in this service. The same plan will be followed this year. It has also been the custom for all business places to close from 1 to 3 in the afternoon, giving everyone in store and office an opportunity to attend this service if they so desire. It is understood that large cards will be placed in the store windows indicating the hours of closing.

If there are those who cannot attend the entire service there will be opportunity to leave during the singing of the hymns. "The Seven Last Words" will be the general theme of the service. The order of the service will be as follows:

12:55 Prelude.

1.00 Opening devotions — Rev. J. W. Alexander.

1:15 First Word: "Father Forgive Them for They Know Not What They Do"—Rev. Rolland Armstrong. Hymn "Never Further Than Thy Cross."

1:30 Second Word: "Verily I Say Unto Thee, To-day Shalt Thou be With Me in Paradise"—Rev. H. J. Pulsipher. Hymn "In the Cross of Christ I Glory."

1:45 Third Word: "Woman, Behold Thy Son! Behold Thy Mother" —Rev. Harold Ringenoldus. Duet "Galilee."

2:00 Fourth Word: "My God, My God, Why Hast Thou Forsaken Me?" —Rev. W. L. Cruthers. Hymn "When I Survey The Wondrous Cross."

2:15 Fifth Word: "I Thirst"—Rev. W. H. Helrigel. Hymn "Alas and Did My Saviour Bleed."

2:30 Sixth Word: "It Is Finished" —Rev. G. R. Parker. Anthem "Into The Woods the Master Went."

2:45 Seventh Word: "Father, Into Thy Hands I Commend My Spirit"—Rev. J. W. Alexander. Hymn "Beneath The Cross of Jesus."

3:00 Benediction. Postlude.

MERCHANTS MEET CO-EDS IN GAME THURSDAY

Country's Leading Girls Team Scheduled for Appearance Here

Local basketball fans are looking forward with anticipation to a contest Thursday night at the school gymnasium between the Charlevoix Merchants and Helen Stephens Olympic Co-Eds, world's champion girl team.

The Co-Eds, who play men's teams and men's rules, are billed as one of the country's greatest basketball attractions.

Two games are scheduled for the evening. The Merchant reserves play the Petoskey Potts Laundry at 7:15 and the main contest is scheduled at 8:30 o'clock.

Close Season in "Blue"

Petoskey's Winter Sports Club got by without going in the red this year. The club paid all its obligations and has a little money left over for next year, and have organized, elected officers and began planning for next year.

The Rebekah Past Noble Grand Club will hold a baked goods sale, Saturday, March 23, in the Brown Building.—Adv. 12t1.

PUBLIC FISHING RIGHTS EXTENDED BY PURCHASES

Ten Miles on Au Sable River Purchased by Conservation Dept.

Purchase of frontage on five lakes and one trout stream for $33,000 inaugurates the state's program of providing publicly-owned places of access for Michigan fishermen.

Lakes on which continuance of public fishing is assured are Orchard and Union lakes, in Oakland county; Strawberry lake and Lake Chemung in Livingston county, and Lobdell lake in Genesee county. The 4,200 feet of trout stream frontage purchased is on the north branch of the Au Sable river in Crawford county, 10 miles by river from the mouth of the stream.

These first purchases are designed to protect the present public fishing privileges where private development might soon exclude the general public from good fishing grounds. With lake and stream improvement, and fisheries research, the access-lands purchased are financed with 40 cents earmarked from the $1 received for each fishing license.

CRIBBAGE BANQUET HELD MONDAY NITE

MASONS HOSTS TO ODD FELLOWS, SERIES WINNERS

Grant Crandall Heads Odd Fellows, J. C. Marshall Masonic Captain for 1941 Contest

Odd Fellows were feted by the Masons at the annual cribbage banquet Monday night, bringing to a close the ninth winter series between the two lodges.

Following customary procedure, the losers prepared and served the banquet to the losers. Incidentally, it was the fifth time the Masons put on the "feed" since the series opened nine years ago.

Rev. G. R. Parker, pastor of the Congregational church, was the speaker, giving an interesting talk on fellowship as created by such functions as the cribbage tournament.

Prize awards for series high score went to John Curtis of the Odd Fellows, and to Ray Ashdon of the Masons. Consolation prizes were awarded Grant Crandall of the Odd Fellows and H. R. Fowler of the Masons.

Captains were chosen for the 1941 winter series. Grant Crandall will head the Odd Fellows team and J. C. Marshall was chosen leader of the Masonic team. S. O. Sorensen, who has acted as secretary of the cribbage club since its inception, was re-elected.

TIME NEARING FOR ANNUAL SMELT RUN

11TH ANNUAL BOYNE FESTIVAL OPENS MARCH 25

Jamboree at East Jordan is Scheduled for March 30th—Hours for Dipping are Designated

West Michigan's annual smelt runs are getting closer to the opening day and, anticipating the events, the conservation department has announced schedules of dipping hours for Boyne City and East Jordan, center of Charlevoix county celebrations. The communication setting the hours follows:

"At the request of smelt festival committees of Boyne City and East Jordan, the conservation commission has designated the following hours as open to dipping: At Boyne City regulations for dipping have been set up for the period of March 25 to 30, inclusive. Except for March 30, when special hours are set, the dipping will start at 10 p. m. and continue until 11 p. m. The second dip will be from 2 a. m. until daylight. On March 30th, the first dip will start at 11:15 p. m., at which time it will be broadcast over WJR, and it will last until 12:15 a. m. The second dip will be as usual, 2 a. m. until 3 a. m.

At East Jordan the dipping will start at 9 p. m. each evening and be continuous from then on."

In the meantime committee of both cities are busy with entertainment plans. At Boyne City, on March 30th, there will be dances, a community sing, fishing activities, broadcast of dipping from the river, and a banquet from 5 to 9 p. m. Other customary and many unusual stunts are being arranged.

East Jordan's program includes crowning of the "King of Smelt" on March 30th, boxing, races, wood chopping and log birling contests, coronation and comic parade in the afternoon, smelters' ball, fireworks and dipping in the evening.

The annual outdoorsmen's banquet is scheduled the evening of March 29th, preceding the full day celebration.

Well Known Indian Succumbed After Brief Illness—Funeral Monday

James Genia, well known local Indian, died Friday evening, following a brief illness.

Mr. Genia was born April 17, 1883, at Manistee. He came to this vicinity in 1915 and a year later married Clara Shananaquet Davis, who preceded him in death in 1933.

Surviving are four sons, Floyd, Joseph, LeRoy and Howard.

Funeral services were conducted at 2 o'clock Monday afternoon by Rev. John Alexander at the Greensky Indian Mission. Interment was at Greenaky Indian cemetery.

RURAL SCHOOL HOUSE DESTROYED BY BLAZE

The Wright school house, north of Ellsworth, was destroyed by fire during school hours on Wednesday afternoon of last week. The teacher and six students were present when the fire was discovered and all retired from the burning structure safely.

A defective chimney was believed to have caused the fire.

I shall still need the votes of my friends at the election April 1st. Fred V. Tyler, candidate for re-election, City Treasurer.—10t4.

HONOR STUDENTS ARE RECOGNIZED

MISS BETTY WILLIS IS NAMED CLASS VALEDICTORIAN

Miss Louise Young Won Salutatory Honors — Eight Others Are Given Honorable Mention

Selected for their outstanding scholastic attainment, Miss Betty Willis and Miss Louise Young have been named valedictorian and salutatorian of the Charlevoix high school senior class of 1940.

Miss Willis, daughter of Mr. and Mrs. Fred Willis, attained an academic rating of 97.02 to lead the class. She took a great interest in school activities, serving as president of the freshman class, was a member of the school band for three years, worked on the school paper, served as treasurer of the Athletic Association three years, was a member of the Girls' Club, played a leading role in the junior class play and will take another leading part in the senior play now in the early stages of preparation.

Miss Young, daughter of Mr. and Mrs. Earl A. Young, has an academic rating of 96.55 for the four high school years. She has been a member of the school band three years, has been interested in Girl Scouts, served on the staff of the school paper and acted as assistant editor her senior year, played a lead in the junior class play and has a major part in the approaching senior play.

Other members of the class of '40 whose scholastic attainment places them among the highest ten are Robert Craig, William Eccleston, Margery Edwards, Robert Gill, Elsie Hilton, Frances Meggison, William Ochs and Roberta Seymour.

CHAPMAN IS NAMED AS NEW HEALTH DIRECTOR

Appointed Last Thursday to Succeed Dr. Carleton Dean

Dr. Wallace M. Chapman, formerly of Kentucky, was appointed director of District Health Unit No. 4 by the District Board of Health last Thursday.

Dr. Chapman succeeds Dr. Carleton Dean, who was appointed as deputy state health commissioner after many years of service as director of the District Health Unit.

Originally from California, Dr. Chapman was awarded his medical degree there. He took post-graduate work at Johns Hopkins University and for the past five years has been engaged in public health work in Kentucky.

District Health Unit No. 4 includes Antrim, Otsego, Charlevoix and Emmet counties. It receives funds from the federal government, the state government, the boards of supervisors and the Children's Fund of Michigan.

Dr. Chapman will reside at Charlevoix, headquarters for the unit, with his wife and two daughters. They have taken up residence in the Conklin home on Meech street, Charlevoix.

BOY SCOUT OFFICIAL COMING MARCH 25-26

Health and Safety Executive Will Be at Traverse City

Announcement has been made by Dr. E. F. Sladek, health and safety committee chairmnn of the Scenic Trails Council, Boy Scouts of America, that he will be host on March 25 and 26 to Lewis Hall, assistant director of the health and safety division of the Boy Scouts of America.

Mr. Hall, whose office is in New York, will visit the council to confer with Scoutmasters, commissioners and health and safety men to better acquaint them and train them on new ideas and new programs in Boy Scout health and safety activities.

The first scheduled meeting will be on Monday, March 25th. On March 26th, at 4 p. m., the members of the council health and safety committee will meet and at 7 p. m. the central district committee will meet with guests from the district committees from the three other districts of the council. All of the scheduled meetings will be held in Traverse City because of its central location in the council.

REO CROSS PLANS WAR REFUGEE AID

SEEK HELP FROM CHARLEVOIX COUNTY CHAPTER

Those Willing to Make Garments for European War Sufferers Asked to Notify Mrs. R. F. Sloan

Garment-making for European war refugees will be started soon by the Charlevoix County Chapter of the American Red Cross, according to Wallace O. Donnelly, field representative from the Red Cross midwestern area office in St. Louis, here last week to confer with chapter officials on plans for the production program and other chapter activities.

Mrs. Robert Sloan, Charlevoix, chairman of the chapter's volunteer special services, will have charge of the project, Donnelly said. Arrangements are being made for a workroom, he added.

"Production will include making men's sweaters, women's and children's dresses. The chapter will be one among hundreds throughout the United States now engaged in this project in response to urgent requests from belligerent nations for such assistance among war refugees."

Volunteers for the project are asked to notify Mrs. Sloan as soon as possible, the Red Cross representative emphasized. Further plans for conducting the production program will be announced later by Mrs. Sloan.

SMALL GAME HUNTERS TO AGAIN WEAR TAGS

Conservation Department Will Continue Numbered Back-Tags

Small game hunters will wear the numbered back-tags again in the fall of 1940.

The field administration division, which administers law enforcement, reported hunters wearing tags showed more respect for property rights, gave farmers less trespass trouble, and brought less illegal game in off the fields. For its value as a deterrent to all classes of violations of game laws, the conservation commission has approved use of the back-tag again this year.

SPRING SCHOOL VACATION FROM MARCH 21ST TO 26TH

Charlevoix public schools will be dismissed Thursday afternoon for the annual spring vacation period.

Classes will be resumed Tuesday morning, March 26.

SHOT AT RANDOM

By Ken Usher

Walter Alexander, former Charlevoix junior high principal and for several years superintendent of schools at Central Lake, will be superintendent of schools at Northport next year.

The Movie "Gone With the Wind" should remind us all of the $20,000,000,000 the Democratic administration has borrowed during the past seven years.

That wild deer are always a popular attraction is attested by the number of motorists visiting feeding stations maintained by the conservation department in the Hanson game refuge west of Grayling. Was included among the dozen or more local parties visiting these stations along M-76 last Sunday. Saw as high as 15 deer feeding at one rack. Hundreds of motorists passed by in an endless procession. The sight was well worth driving the distance to see.

Traverse City in class B, and East Jordan in class C, upheld the long standing caliber of northern Michigan basketball teams in state competition this year. Traverse, while inconsistent during regular season play, walked off with the state class

LANSING LETTER

By GENE ALLEMAN

Field Manager, Michigan Press Association

While the "Vandenberg-for-President" bandwagon is rolling along at accelerated speed, friends of the Michigan senior statesman at Washington are keeping a close watch on his political fences for another six-year term in the United States senate.

Here is an illustration, told for the first time.

Michigan has a sizeable bloc of Finnish votes. Many of these are in upper peninsula counties.

When the Russo-Finnish undeclared war was raging furiously, Michigan citizens of Finnish ancestry were outright sympathetic with pleas to rush guns, ammunition, trucks and other fighting material to the beleaguered democracy.

Swept by compassion for the embattled Finns, Rep. John D. Dingell, democrat of Detroit, went so far as to introduce a house resolution authorizing the United States govern-

Mrs. Grace Cole returned from Charlevoix Monday.

Wilfred O'Brien and Wm. Ricksgers returned home from Charlevoix Friday.

Capt. Deto and John Gallagher, local coast guards, were visitors in Charlevoix Friday.

Clair Webster, Karl Erber, Mr. Johnson and F. W. Cuberworth spent a few hours here Wednesday on business.

BARNARD

Miss Ruth Matchett came from Lansing Saturday to spend the Easter vacation at home.

The Ladies' Aid Society will meet this week Thursday afternoon with Mrs. Robert Matchett.

Ernie Brock, who has been employed in Detroit, is spending a few weeks with his parents, Mr. and Mrs. Frank Brock.

The Easter church service will be held Sunday evening at 7:30. Special music by some East Jordan young people. Everyone welcome.

We expect to hear of strict law enforcement the coming year in our neighboring township of Norwood, since three hustling ladies are running for the office of constable.

IRONTON

The Ladies' Aid will meet with a pot luck dinner Thursday at the home of Mrs. Clyde Ogden.

Mr. and Mrs. F. Milward left Saturday for several weeks visiting in various places in Florida.

Mr. and Mrs. T. White of Hale, and F. Massey of Flint, were guests the past week end at the Clyde Ogden home.

Paul Hanson "chauffeured" himself to Sunday school Sunday morning. We were all glad to have Paul with us again.

Mrs. Ivan Tompson of Charlevoix was a guest last Thursday at the home of her parents, Mr. and Mrs. Clyde Ogden.

CENTRAL LAKE

Mrs. John Anderson has returned to her home at Creswell after spending the winter months in Chicago.

The North Milton young people will have n song as one of the numbers on the program for Easter services at Jordan River next Sunday.

Miss Agnes Dewey, who has been assisting at the switchboard at Ellsworth, has been visiting with her aunt, Mrs. Walter Anderson at Creswell.

Sunday school people will please take note that Rev. Neyden will be present at Creswell on Sunday morning, March 31st, and at Turner on the afternoon of the same day to reorganize Sunday school.

Arthur Russell and wife attended last week the 25th wedding anniversary of Mr. and Mrs. Frank Blakely and wife of Eastport. Mr. and Mrs. Lloyd Ward and Edward Dawson and family were present.

Our new missionary, taking Rev. Weaver's work, came on the field last Thursday and is located at Petoskey. We are glad to report that Mr. and Mrs. Weaver are a little improved in health. Rev. Weaver is directing the work from his home at Petoskey.

Teacher's Institute is being held this week Tuesday at Mancelona. The program is about the same as Charlevoix county's, the program sent by Mr. Palmer, for which we thank him. He never forgets to send us a program of educational activities in Charlevoix county.

Bellaire Methodist church will be the place of Easter morning services this year. Last year a fine service was held by the Presiding Elder at Alden, when Rev. and Mrs. Meengs and young people's choir took part. This week, Tuesday evening, Easter services will be held at North Holland church.

Special Easter services will be held at Bush Sunday school next Sunday, also at Menonite church, Mancelona, and new members of the church will be received. A wedding will be held at Mancelona of two prominent young people of Nazarene church there at the same time. Some people are in a quandry of which to attend.

We should have said that Herbert Ruggles was the person again nominated for supervisor of Central Lake township. No Democratic caucus held as Albert Snitseler, for committee chairman, has been ill for several weeks. He never has missed but one caucus in about 50 years, and that was at the time of the death of his wife.

We heartily commend the stand that Gov. Dickinson is taking on the statement that every teacher should abstain from tobacco and liquor, or else get out of the teaching business, and that school boards should not hire any of that kind of teachers. A resolutinn should be passed by every Teacher's Institute meeting favoring the governor's stand on the problem.

There was only one village caucus, Republican, and the entire ticket was elected, with Mr. Box again as president, who skipped but once (last year) in 12 years as president. Art Knowles is one of the trustees. Most all village tickets of the county were just one caucus affairs. Torch Lake township meeting people will vote on sale of liquor at the meeting in April.

The writer visited Mrs. Gould at Lockwood Hospital, Petoskey, Saturday, and found her just preparing to leave, having been very much improved in health. Visiting Little Traverse Hospital, we found Jack Bruce and Newtnn Allen getting along as well as could be expected. Mr. Bruce has had a long siege of illness, some nine weeks at Ann Arbor, where he was operated on, and then at Lockwood, and now at Little Traverse. Here is hoping he soon gets permanent relief.

Most sideroads of the county have recently been plowed out, and farmers are able to be out again. The Grand View road has not yet been opened at present writing. Under next year's Republican administration it is hoped to have the Grand View and DeVries sideroads and the Larabee Corners that have "hung fire" for the seven "lean years" all graded and ready for traffic. At present accounts, Dewey and Taft are expected to sweep the country. We have heard many Democrats say they are going to vote for Republican ticket next fall.

"Mrs. Caesar", a New Serial Novel by a Famous Author

Opening chapters — with illustrations in color — of a thrill-packed novel by Wallace Irwin, internationally famous for his "Letters of a Japanese Schoolboy", will be found in The American Weekly, the great weekly magazine with the March 24 issue of The Detroit Sunday Times. Here is a novel about a husband and wife, to whom a searing tragedy brought love and understanding.

Life is a series of radiations. If you radiate calmness and courtesy, most people will reflect them back to you; if you talk savagely, such a procedure will be met in kind.

FOREIGN POLICY?

A word here about the President and his emissnry to Europe to do—just what—we do not know. What we do know though is that it is darn poor business now, as it has always been in the past, for us to become involved in foreign power politics.

Muny people believe Franklin Roosevelt thinks he will never become a famous President unless he is n war President. They cite our other war Presidents and along with them other men just as capable who have held the office such as Grover Cleveland and how little is known about him in comparison to them.

They say 16 to 20 days is all that is needed to stir us to war frenzy. So we here repeat a warning by our first President—Stay out of all foreign entanglements. They can only lead to harm for us all—or words to that effect.

It is as true today as then. We will only suffer more than we already have if we become involved in another of their wars. We know now that war does not solve any problems.

The effort may be made to fight the coming presidentinl election on the basis of foreign policy. If that happens it will be a trick of the Democrats because of their utter failure to straighten out our domestic problems after eight years of extravagnnt effort. We should not be misled by such tricking. We think the next party in power in Washington should be elected to that job only on a basis of what it will propose to do to rectify the sorry mistakes made by the New Deal crackpots. No other platform should satisfy us if we are true, red-blooded Americans.

Perhaps when this job is done properly we will then be able to assume a different uttitnde toward our distant neighbors across the seas.

RAILWAYS SPEED UP FREIGHT MOVEMENTS

Average Speed on Lines 20% Greater Than Twenty Years Ago

Avcrage speed of American freight trains today is 62% greater than it was in 1920, the Michigan Railroads Association reports.

The daily average distance traveled by trains today is 401 miles, compared with only 247 miles in 1920. This represents the nverage time to move all freight between terminals, including all stops enroute.

The speed-up of freight movement, the association reports, has resulted in savings rnnging from hours to days to shippers and is mude possible not only by improvements in locomotive and freight car construction, but improvements in roadways, signals, operating methods and expedited handling of freight through terminals.

A new high record in fuel efficiency is also reported by the association. For each pound of fuel consumed in freight service the railroads now handle 8.89 tons of freight and equipment one mile against 5.8 tons in 1920. To move 1000 tons of freight a mile the lines use 112 pounds of fuel against 172 pounds in 1920, an increase of 35%.

New locomotives, modernized old locomotives, continued progress in scientific treating of boiler water and improved operating methods account for this new high fuel efficiency, the association reports.

EVEN TAFFY PULL GETS SCIENCE AID

Even the old-fashioned party idea of a taffy pull needs to hand out compliments to modern science. For such a device as a sugar cookery thermometer is a far better guide for candy than the guess of the best cook.

So suggestions of other uses need not offend even the experts. Several pointers recommended by home economics staff members at Michigan State College deal with temperatures.

Egg dishes and other foods with delicate proteins need low temperatures. Fruit whips take an oven at 225 to 250 degrees Fahrenheit. A slow oven 250 to 300 degrees seems best for sponge cake and custards. Soufffles nnd angel food cake does best at 300 to 325 degrees.

Most cakes go up a few degrees, 325 to 375, and cookies usually turn out the best in a moderately hot oven 375 to 400 degrees. Rolls and muffins get the 400 to 450 degree treatment, while a very hot oven 450 to 500 degrees is used in special treatments such as the first step in baking popovers.

Oven thermometers and regulators thus serve their purpose. The roast meat thermometer enables a cook to turn out a more perfect roast. Utilizing a special thermometer for controlled temperature in deep-fat frying proves an advantage.

Even in the refrigerntor, temperature control is an aid in keeping foods in better condition. Dairy products, broth and desserts usually need temperatures under 45 degrees, about as cold as the coldest part of the refrigerator storage.

SUMMER VISITORS VERY PROFITABLE

TOURIST SURVEY REVEALS INTERESTING FACTS

Third of Charlevoix County Business Shown to be Derived from Summer Vacationists

Incomplete returns from the business survey being conducted in connection with the Know Michigan Tourist Week program show some unusnl figures on employment and business provided by the Tourist and Resort industry, according to J. J. Bachunas, general chnirman of the program. Eleven of the 27 counties in West Michigan are either complete or near enough completion to be tabulated.

"In the questionnaire we attempted to learn primarily the nmount of employment provided by the Tourist and Resort industry and the percent of annusl business attributed to the industry," Mr. Bachunas said. "There are questions asked also ubont type of business for the purpose of nscertaining the kind of business affected and the extent."

"In most cases," Mr. Bachunas said "best results from the questionnaire were received in eases where the county committee called on the businessmen."

On the basis of the questionnaires returned Emmet county showed 329 persons employed because of the tourist industry and .489 percent of the annual business of the county traceable to the tourist and resort trade.

Antrim county, with 143 questionnaires returned from 12 communities show 161 employed and .494 per cent of business tourist and resort.

Charlevoix county with three communities reporting with 87 questionnaires show 139 employed and .334 per cent of business.

Leelanau county, with 54 questionnaires returned from six communities show 84 persons employed and .501 per cent of business.

TWO GIVEN SENTENCES IN PRISON AT JACKSON

Crimioal Cases Disposed of Tuesday by Judge Parm C. Gilbert

Two defendants convicted by jury trial of criminal offences at the March term of circuit court for Charlevoix county were sentenced Tuesday to terms at state prison, Jackson, by Judge Parm C. Gilbert of Traverse City.

Isaac Denemy, 30, local Indian, was given 2½ to 15 years for robbery unarmed.

James Harmon, 25, of Flint, convicted of nssault with intent to rape, received a sentence of 4 years 9 months to ten years. William Mather, 24, of Boyne City, companion of Hurmon, received a sixty-day jail sentence, must pay $50 costs and was plnced on prohation two years, for assault and battery.

Sentence of Grant Kinner, of Ellsworth, convicted for forgery, was suspended until the May court term.

Lawrence Dillon, of Boyne City, convicted of bastardy, was ordered to pay $8 per month support.

ADDITIONAL LOCALS

Mr. and Mrs. F. J. Fessenden departed Sunday for a motor trip to Grand Rapids and Lansing, snd to Muskegon to visit their son-in-law und daughter, Mr. and Mrs. Charles Hahn.

Miss Caroline Geiken of Boyne City, spent the week end with Charlevoix friends.

Miss Elizabeth Stocum, nurse at Charlevoix Hospital, left Monday for Rockford to spend ten days with her mother.

Mrs. Lillian Hanson returned Monday from Saginaw, where she had attended a one-week trnining course given by the Michigan Bell Telephone Co.

Wood Ties Still Lead

Foresters in the United States service point out that although more than 2,500 patents havo been issued in the last 50 years for using substitute products for railroad tie materials, wood ties still are most widely used. Nearly a billion wooden ties are in service, it is estimnted. An annual renewal of 100 tics to the mile is considered average, nlthough some railroads have yearly replacements of but 50 to 75 ties to the mile. Three-fourths of the 50 million used annunlly nre treated before they are laid in rondbeds.

FARM PUMPS ARE NOT THREAT INLAND LAKES

Use for Irrigatioo Less Than Natural Evaporation

Pumps used for irrigation of Michigan fields in general prove no serious thrent to the level of lnkes und streams used for water supplies.

Ask Q. E. Robey at Michignn State College about any danger nnd that is his answer.

For proof he points out that in summertime the naturul surfnce evaporation when no rainfall occurs is about 2½ inches in a month. That is what happens to the water level on some of the state's inlund lakes nnd ponds.

Where streams and lakes are spring-fed, the inflow of water often is as much as the evaporation even without rainfall.

But the pump used by the average truck farmer for irrigating a portion of his farm usually has little or no appreciable effect on the water level.

In some of Robey's studies he has found as much as five acres of a field being watered from a lake which had a square mile of surface. To put an inch of water on the five acres would lower the lake only one-hundred and twenty-eighth of an inch.

Even a smaller lake covering 40 acres could be lowered but an eighth of an inch if a farmer drew off enough water to put an inch over five acres of land.

"Some day the problem may be serious, but not now," says Robey. He studied the question seriously in recent years to find any menace to the tourist and summer vacation value of the 5,000 lakes and 2,000 streams which dot Michigan.

I shall still need the votes of my friends at the election April 1st. Fred V. Tyler, candidate for re-election, City Treasurer.—10t4.

CONSERVATION OFFICER HAS 2-LB. BLACK BEAR

Unusual Speciman Will be Mounted for Public Inspection

Don Gillies, conservation officer of Alcona county, has come into possession of an unusual wildlife trophy. It is a cub black bear, weighing only two pounds, which Gillies is having mounted.

The cub wns found by Officers Gillies and Wilburn Adair along the route of a new road being surveyed north of Black River near the Alcona-Alpena county line. One of the survey crew had stepped on the she bear while running the line across its den. The older bear took flight, temporarily abandoning the club, nnd the men reported their find to the conservation officers.

When the officers nrrived at the scene a day later they found that the mother bear had returned to the den, but had left it again on finding her cub dead. The cub had not yet developed to the point where the eyes opened.

I shall still need the votes of my friends at the election April 1st. Fred V. Tyler, candidate for re-election, City Treasurer.—10t4.

ANGLERS FACING PERIOD OF INACTIVITY

All But Designated Michigan Inland Lakes Closed Until May 15th

With closing of inland lakes of Michigan to fishing Mnrch 31, anglers face the period of greatest inaction of the yesr, except for the smelt runs which are the occasions for celebrations in a number of northern Michigan communities.

Waters remaining open to fishing are the Great Lakes and connecting waters, non-trout streams, trout streams designated open to hook and line fishing throughout the yenr, and certain lakes directly connected with Lake Michigan.

Trout streams and trout lakes will be opened to fishing again on April 27. Pike lakes will bo opened to fishing again on May 15 when everything except black bass, bluegills and sunfish may be taken. These species may not he taken from any waters until June 25 when all inland lakes aro opened.

Miss Mildred Withers, secretary to city superintendent Don Herrick, was feted at a surprise birthday party at the city hall Saturday morning, when city officials and office employees gathered in the apartment of Fire Chief Charles Marshall for refreshments and a birthday cake.

Mr. and Mrs. Ray L. Kipke and three daughters returned Sunday night from a week end visit with relatives in Lansing. Mrs. Minnie Kipke, the former's mother, returned with them for a visit. They had been accompanied to Lansing by Mrs. Lenu Maloney, Mr. Kipke's sister, who had spent two weeks here.

Mr. and Mrs. Louis Shapton entertained with three tables of bridge, at their home Thursday evening. Prizes for high scores went to Mr. and Mrs. Ernest Staley, while consolation prizes were awarded to Mrs. Fred Willis and Harold Byers. A delicious luncheon was served by the hostess after the card games.

Mr. and Mrs. Earl Miller, accompanied by Mrs. M. J. McCann of St. James, left Thursday to spend a week in Chicago. They were joined at Kalamazoo by Miss Marjorie Miller and Omer McCann, who attended the Beaver Island party in Chicago before returning to their studies at Western State Teachers College.

T. L. Pearl is reported to be much improved in health, although still confined to Charlevoix Hospital. His mother, Mrs. Eva Pearl, returned Monday to her Grand Rapids home after spending two weeks here, and his son, Thad, left last Friday for Grand Rapids and Detroit after a two weeks' visit with his parents.

Miss Ellen Koskela returned Sunday from Marquette, where she had been called several days before by the illness of her father, H. Koskela. Her sisters, Mrs. Thomas McMeekan and daughter, Mary Ellen of Lansing, and Miss Edna Koskela, who had been visiting in Lansing, accompanied her to Marquette. Mrs. McKeekan and her daughter returned to Lansing Sunday.

The birthday anniversary of Mrs. Emma Bogart was honored last Wednesday evening at a party given by her daughter, Mrs. Greg Shadko, at the Shadko residence on Petoskey avenue. Dinner was served at a table daintily decorated in orchid and yellow, with a large birthday cake. Guests spent the evening at bridge. Mrs. Frank Coatta and Mrs. Harry Glossenger were awarded prizes. Other guests were Mesdames Marie McCall, Frank Chvatil, Campbell Shaw, Florence Ripley, and Jesse Smith.

THIS WEEK IN WASHINGTON

By Your Congressman
Fred Bradley
11th District Michigan

A meeting was held in Washington last week with M. W. Turkelson of Madison, chairman of the Regional Planning Committee for the northern lakes states, and members of congress representing what is known as the cut-over areas of Michigan, Wisconsin and Minnesota. I called this meeting to further the efforts now being made to formulate a definite program for the rehabilitation of this area.

The planning committee, named by what is now the National Resources Planning Board at the request of my predecessor, made a study in 1938 of the social and economic conditions in our cut-over areas, and this report was printed and made available last fall. The recommendations were general, and dealt with conservation and forestry, land uses, industry and employment. It remained for a program to be formulated giving effect to these general recommendations.

Several Agencies Involved

From the beginning, it has been my belief that the situation did not call for the formation of another government bureau, but rather for the coordination of the work of agencies already existing, principally the Forest Service, Farm Security Administration and the Soil Conservation Service, all under the Department of Agriculture, and the Civilian Conservation Corps, now under the Federal Security Agency.

Each of these federal agencies has indicated an interest in the plans and an intention to cooperate, but it has taken all this time to get started and Mr. Turkelson's visit to the capital was to learn first hand what kind of a program might be agreed upon. As a result of the conference, the chairman will call upon his Regional Planning Committee to agree to a draft of recommended activities, which will be submitted to the National Resources Planning Board and the members of congress.

Conference Scheduled

Secretary Wallace of the Department of Agriculture has agreed to attend a conference called for the purpose of discussing the rehabilitation program with members of congress. He wrote me recently informing me that he would be ready for such a meeting as soon as his department was through with hearings connected with its legislative appropriations.

Col. F. C. Harrington, administrator of the Works Projects Administration, also indicated an intention to attend the conference. His letter was a reply to mine in which I suggested the desirability of employing WPA labor on forest projects. In this letter to Col. Harrington I stated:

"I am extremely interested in the possibility of initiating projects in my district, both in state and national forests, designed to carry on the reforestation, stream and lake improvements and similar projects looking to the improvement of our recreational and resort facilities, which work has been done by the Civilian Conservation Corps, and which in several instances will come to a close with the proposed abandonment of certain camps in my area March 31st in the event that the budget proposal for a reduction in the CCC appropriation for 1941 is sustained by congress.

"This program, aiming at the restoration of our wooded areas and recreational facilities, has been quite popular in our district, due to the fact that we realize an increasingly greater share of the income for a large proportion of our people must come from the tourist and resort business. It has long been my contention that it was logical to assume that better results in this type of work could be secured through the employment of our local labor than through the employment of young men from the urban areas. This because of the fact that a great many on relief are experienced woodsmen, while the CCC officials themselves admit that it often takes several months of training before these urban youths are of value."

Col. Harrington expressed himself as sympathetic with the proposal and interested in its possibilities, provided the requirements of the WPA regulations are met.

The developments are such that we may hope to emerge from the state of just talking about what should be done, and actually accomplish something in the way of rehabilitation. Several recent trends emphasize the need for action; the proposed curtailment of CCC; difficulty of local communities to open up WPA projects; the necessity for projects which can be maintained by those sponsoring them.

Forestry and conservation work is well adapted to the needs of the time and despite the crying necessity for bringing the federal expenditures within the national income, some way should be found to justify the cost of a constructive program of rehabilitation through conservation and forestry projects.

YOU CAN PAY MORE -but why?

You can pay a lot more than the modest Chevrolet price for a motor car. But you'll find yourself asking, "Where can I get any more beauty, driving and riding ease, road action, safety and all-round value than I get in Chevrolet for '40?" . . . Particularly when you consider Chevrolet's extremely low prices and Chevrolet's exceptionally low cost of operation and upkeep!

A new kind of beer retailing is bringing wholesome recreation to millions of Americans!

America's new kind of beer retailer wants to sell good beer, of course . . . but he is also keenly aware of his social responsibility to the community. He *makes sure* that his place is clean and inviting—and scrupulously free of anti-social influences of any kind.

The Brewing Industry wants *all* of beer's retailers to be of this type. We do *not* want any other kind. And we are taking *action* to eliminate any abuses in beer retailing that may occur.

We have instituted a new plan . . . now in effect in a few states and being extended as rapidly as possible . . . to protect your right to drink good beer in decent surroundings. May we tell you about it . . . in an interesting *free* booklet? Write: United Brewers Industrial Foundation 19 East 40th Street, New York, N. Y.

Owns Hen That Crows

Brown City—Crowing is usually a talent reserved to male chickens, but Mrs. James Stokes has a combination rooster-hen. The fowl has the comb and wattles of a rooster, as well as general size and appearance of one, but its plumage is that of a hen.

Dad, Son Meet in Crash

Constantine—Frank Caseman and his son, Lloyd, met at a street intersection here one day, but not under pleasant circumstances. Driving separate cars, the two men ran into each other. While the cars were damaged, neither father nor son suffered injuries.

Finds Long Lost Cash

Bellaire—Robert J. Anderson, 81 years old, of Rapid City, received a pleasant surprise recently when he got a letter containing $30. All the letter said was, "Your father lost this 40 years ago." Anderson does not know who sent the money.

Armed Surprise

Birmingham—As E. V. Sevald left a community house dance, he put on his overcoat, reached in the pocket, and pulled out a blue steel revolver, loaded and ready for action. Puzzled, he gave it to police. Later it was claimed by a Detroit man. Overcoats had been switched at the dance.

Pays Fare Late

Milan — Twenty-two years ago a woman boarded a train here, bound for Adrian, but failed to buy a ticket. After a brief discussion, the conductor paid her fare, with the promise it would be repaid. Recently a local railroad agent received 50 cents from the woman passenger, who now lives in Lansing.

Stalled Car Burns

Mt. Pleasant—When Edward Pulliam's car stalled as he was enroute to Grand Rapids, he parked it beside the road and walked back to this city for a mechanic. Meanwhile, a passing motorist reported an unoccupied car ablaze near the city. When Pulliam returned, only the charred remains of his auto were left.

Like Live Bears Best

Standish—Finding two badly chilled bear cubs in the woods, Willard Dunn took them home and revived them. His two children protested, however, when he turned them over to the conservation department, saying they were much better than teddy bears for pets.

Suffers Duplicate Injury

Riverdale — A state highway department employe severely injured an eye while cutting brush near here. Back on his job, a week later a sharp piece of brush flew up and hit the previously injured eye.

IN COUNTRY

How much safer and freer and more agreeable to live in rural communities where everybody knows everybody! What a relief not to have to be suspicious of everybody—a usual safeguard among milling multitudes in great cities! What a source of comfort to know every one, to know what to expect from everyone—a happy assurance in the country. Perhaps everybody in rural territory cannot always be trusted to do what he says he will do. Perhaps he is too weak always to reveal the truth. But if he is a double-crosser—no matter how sly—he soon becomes known and he is branded and avoided as such. It is impossible to know everyone in a big city, and slickers more easily conceal their dark, devilish motives there. In the country there are no great extremes of riches or poverty. People are not engaged in an incessant, feverish grind for dollars, and the result is an easier, more friendly state of mind. —Wayne (Neb.) Herald.

COUNCIL PROCEEDINGS

March 18, 1940

The common council of the city of Charlevoix met on the above date with Mayor Bridge presiding.

Aldermen present Bellinger, Heise, Hooker, Lamphear, Levinson and Wood.

Minutes of previous meeting were read and approved.

The mayor appointed Dr. Douglas Nettleton to serve on the golf committee.

Moved by Ald. Hooker, seconded by Ald. Wood, that the city superintendent be authorized to purchase material listed on purchase order No. 187 and equipment and parts for Ford sewage disposal truck. Motion carried by the following yea and nay vote: Yeas—Aldermen Bellinger, Heise, Hooker, Lamphear, Levinson and Wood. Nays—none.

On motion the council adjourned.

Ray S. Hamilton, City Clerk.

Why Retailers Use Newspaper Advertising

Squarely in the middle of today's intricate economic scheme stands the modern retailer. Without his services America's $32,600,000,000.00 retail sales would collapse.

To maintain this huge volume of business, consumers must be told where, what, when and how to buy. Because newspapers are read by virtually all consumers, retailers depend primarily on newspaper advertising.

People turn consciously toward newspaper advertising to aid them in their buying decisions. Many consumers consult no other source.

This is why retailers use far more newspaper advertising than any other kind. Last year their newspaper advertising expenditures amounted to more than $382,000,000.00.

B championship, bringing the title to northern Michigan for the first time in many years. East Jordan, regional winners at Petoskey for the first time in many years, reached the state class C semi-finals. Congratulations to both!

Uncle Josh in his "Well by Heck" column in the Boyne Citizen, usually expresses some worth while thought. He remarks on Easter Sunday, quoted herewith, are no exception:

"Easter Sunday is a week from next Sunday. It should be a day of rejoicing and happiness for most people. It is different from most holidays in that it is not celebrated by revelry and drunkenness. There seems to be something sacred about it that stays the hand of those who ordinarily 'celebrate' all other holidays and it is right and proper that it should be so. Coming as it does in the spring-time, when all nature takes on new life and being symbolical of the new life that the Great Master promised the world, and proved it, by His self-resurrection, it is therefor not a time of debauchery, but of joy, hope and new reaching out for faith in eternity."

Capt. Charles Allers brought the conservation department patrol boat into Charlevoix harbor last Saturday, March 16th, believed to be the earliest date in record for entry of a vessel from Lake Michigan. A boat whistling for the swing bridge was a welcome sound, too. It reminded us all Spring cannot be far away, even though the heavy blanket of snow covering the country-side is a sharp contrast to the ice-free status of upper Lake Michigan.

Archie Belding, local real estate dealer, will vouch that Courier want-ads pay. He recently received an inquiry to one of his ads from St. Louis, Mo., and had previously got answers from several other states. Was even surprised myself how much territory the "old sheet" really covers. So if you have anything to sell, rent or trade, or something you want to buy, you now know how to go about it.

While European countries have probably now become accustomed to blackouts, they're a rare thing in this country and such will be the case on Sunday, April 7, when the moon will black out the sun in an annular or ring eclipse. Astronomers say the moon's disc will cover 85 per cent of the sun. While southern states will witness the phenomenon to the greatest degree, they say we'll all get in on it.

Just when is the first day of spring? Two calendars hanging in the kitchen contradicted each other. One signified the 20th, the other the 21st. Since President Roosevelt started monkeying around with dates, you can't tell a darn thing about anything. In the meantime, today (the 20th) will do for the first day of spring. The temperature is moderate, the sun shining brightly—about everything one could ask for, I guess.

WHITLEY-IRWIN WEDDING SOLEMNIZED AT DETROIT, MARCH 2ND

Mr. and Mrs. Tim Whitley of this city have announced the marriage of their daughter, Carroll, to Kenneth Irwin of Detroit, son of Mr. and Mrs. Philip Irwin of Detroit. The wedding took place Saturday, March 2, at Detroit. For the ceremony, the bride wore a powder-blue flannel suit with white angora trim, and carried white gardenias.

Mrs. Irwin is a graduate of Charlevoix high school, class of 1937. Mr. Irwin is connected with the Excell Equipment Co. of Detroit.

After a trip through the eastern states, the couple will make their home in Detroit.

QUESTION FROM A BUSINESS MAN

"When and where should I borrow?"

When

Borrow whenever you can use credit profitably. Some specific instances are: to take cash discounts,—to purchase seasonal merchandise, to finance the filling of orders.

Where

The place to borrow, of course, is here at the bank where your application will be welcome and all information will be kept confidential. Rates, as you know, are moderate.

FLINT-CHARLEVOIX PARTY PROGRAM IS COMPLETED

Annual Get-Together Scheduled for Saturday, April 6, at Flint

Complete plans for the annual party of the Flint-Charlevoix Club, scheduled for Saturday, April 0, are outlined in the following communication from Mrs. Annis Bennett:

"The president of the Flint-Charlevoix Club, William R. Coates and Mrs. Coates, entertained the other officers and families, Saturday, March 9th, to complete plans for the annual party to be held Saturday, April 6th, at 6 o'clock. W. T. Driggett, who is spending the winter in Flint, was a guest at the meeting.

"Miss Ann Coates, chairman of the kitchen committee, has chosen Mrs. Florence Coates Bergeron, Mrs. Evaleen Graham Gross, Mrs. George Coates, William Bacot and Edward McIsaac as her assistants. The co-operative supper will be served at 6 p. m. Will each family bring one or more hot dishes—salad or cake, and buttered rolls.

Elmer J. Meggison has arranged a most entertaining evening to follow the supper and business meetlag. Musical numbers, tap dancing and a humorous skit, followed by cards and dancing, will complete the program.

"The party will bo held in the V. F. W. hall, 134½ West 2nd street, one half block west of South Saginaw street and next door to the Elk's temple.

"A most cordial invitation is extended to all former, as well as present residents of Charlevoix, by the publicity chairman, Mrs. Howard Bennett."

The T. L. Pearl Barber Shop is now open for business.—Adv. 12t1.

MAY ENFORCE A STATE-WIDE DOG QUARANTINE

Strenuous Effort to Stamp Out Rabies is Under Consideration

Dr. H. Allen Moyer, state health commissioner, said Friday it is probable a strict dog quarantine will be placed on Michigan's 68 lower peninsula by April 1.

"Michigan annually fights the infestation of rabies by placing bans on certain counties," Moyer said, "but year after year the same condition results. The time has come when we must stamp out rabies once and for all."

Moyer said such a quarantine was tentatively agreed upon yesterday at a conference with officials of the agriculture and conservation departments. He said police powers of the health department will be used to enforce the quarantine.

The action followed State Agricultural Commissioner Elmer A. Beamer's charges that lax enforcement of dog laws is costing counties $125,000 annually in livestock losses. Beamer said county officials were reluctant to enforce dog laws.

Six counties were previously quarantined by the department of agriculture because of the appearance of rabies for a 90-day period. They are Barry, Calhoun, Saginaw, Genesee, Eaton, and Van Buren.

I shall still need the votes of my friends at the election April 1st. Fred V. Tyler, candidate for re-election. City Treasurer.—10t4.

BEAVER ISLAND TOWNSHIPS HELD CAUCUSES

Single Slate of Township Nominees Is Named in Each

Single slates of candidates were nominated in St. James and Peaine townships at caucuses held last week, with present officers receiving the nominations in most instances.

The St. James township slate to appear on the April 1 ballot is: Supervisor, Roland J. McCann; clerk, Mike Cull; treasurer, Nels Lafrenlere; highway commissioner, Lawrence McDonough; justice of the peace, Vernon Lafreniere; member board of review, William Belfy; constable, Don Lawrence.

The Peaine township ticket is: Supervisor, William M. Greene; clerk, Clara Schmidt; treasurer, Hubert Aultman; highway commissioner, John Ricksgers; justice of the pence, George Ricksgers; member board of review, Daniel J. Boyle; constable, Robert F. Burke.

St. James township voters will vote on a special proposal to raise 2 mills for 5 years for general fund purposes.

A good deal of kicking is directed at the wide range of questions asked by census takers, but there is no way to sidestep the inquisitorial process. Numerous questions, some of which seem an undue invasion of privacy, will provide a lot of work in compiling returns, much of which may be worth little or nothing to the present generation or to posterity.

ST. PATRICK'S TEA ENJOYABLE EVENT FRIDAY AT METHODIST CHURCH

A St. Patrick's Day tea was given Friday afternoon at the community room by the ladies of the Methodist Literary and Sewing Club, with more than a hundred guests present.

A delightful program was presented under the direction of Mrs. Freda Shupeck, which featured a piano solo by Don Bogart; a piano duet by the Misses Marielle and Phyllis VanAllsburg; a piano trio by Douglas and Audrey Byers and Lois Shapton; Miss Iva Howe sang two Irish songs, accompanied on the piano by her sister, Miss Ira Howe, who also played several solo selections; and Suzanne Miles gave a piano solo.

Tea was served at small tables decorated in green and white, each centered with a tall green lighted candle. The ladies in charge were Mrs. Lephia Hammond, Mrs. Frank Bird, Mrs. Earl Shapton, Mrs. W. F. Meyer, Mrs. John W. Alexander, and Mrs. Joe Williams.

GARDEN CLUB ENTERTAINED TUESDAY HOME MRS. ARTHUR RANGER

The Charlevoix Garden Club met at the home of Mrs. Arthur Ranger, Tuesday afternoon, March 19. Mrs. O. J. Hammond gave a very interesting lesson on "Spring Bulbs." The next meeting will be with Mrs. Harold Hallett on Tuesday, April 2. Mrs. Karl Erber will give the lesson on "Garden Pools" at that time.

HOSPITAL NOTES

George H. Ecker of Boyne City was admitted Tuesday for treatment.

LaVerne Link underwent a major operation Wednesday.

Julius Brusse of Boyne City was admitted for treatment Friday.

Mrs. Lillian Crandall was admitted Sunday for minor surgery.

Mrs. Albert Routley submitted to a major operation Monday.

Mrs. Henry VanderSlik of Ellsworth was admitted Sunday for treatment.

Mr. and Mrs. John Mol are the parents of a baby son, born Wednesday, March 13.

LISTING REVERTED PROPERTY FORMS HUGE TASK

Though title to the more than two million acres of tax delinquent lands in 47 northern counties reverted to the administration of the department of conservation November 3, so extensive is the task of checking and posting the descriptions that by mid-March deeds to reverted lands in nine counties had still to be transferred to the department's lands division.

The Rebekah Past Noble Grand Club will hold a baked goods sale, Saturday, March 23, in the Brown Building.—Adv. 12t1.

In Memoriam

In memory of our dear one who left us one year ago, March 21.
I cannot say, and I will not say
That he is dead, He is just away!
With a cheery smile and a wave of the hand
He has wandered into an unknown land.
And left us dreaming how very fair
It needs must be since he lingers there.
And you, oh you, who the wildest yearn
For the old-time step and the glad return,
Think of his faring on as dear
In the love of There, as the love of here;
Think of him still as the same, I say
He is not dead—he is just away.

DISTRICT HEALTH UNIT

Program in the Control of Syphilis

A successful syphilis control program may be simply stated. Its aim should be finding and effectively treating all cases of infectious syphilis in any community. This means all cases of syphilis of less than five years duration, including early congenital syphilis, and all women having syphilis during pregnancy. All other cases of syphilis can be forgotten, as a communicable disease problem. We agree with Keys, who states "that eight out of ten persons with syphilis cease to be infectious after three years, even though they do not receive treatment; 99 out of 100 cease to be infectious after four years, and the proportion of infections from persons with syphilis of more than five years standing is infinitesimal."

It is a responsibility of our health departments to supply follow-up service where requested for infections cases of syphilis lapsing treatment. It is not necessarily their responsibility to do so for late non-infectious cases.

What, therefore, is the status of present efforts at syphilis control? We are recognizing only 25% of our early cases, and effectively treating only 25% of these. This means that only one case of early syphilis in 16 is adequately controlled.

"Such tests and reports shall not be made a matter of public record but shall be available to local health officers and to physicians treating the patient."

It is felt that this law will accomplish much towards the eradication of congenital syphilis in Michigan. The test should be a part of the routine examination of every pregnant woman, regardless of her social or financial status, at the time of the first examination. It is hoped that lay educational efforts will help in bringing such women to their physicians early in pregnancy. If the presence of syphilis is recognized by the fifth month of pregnancy and adequate treatment given, the birth of a normal baby is almost assured. This is the highest type of preventive medicine. The discovery of the presence of syphilis at delivery through a cord Wassermann, although desirable if previous test could not be made, is inadequate, since the most highly effective treatment for congenital syphilis is preventive treatment given the mother before delivery. The new birth certificates are now in use. It is hoped that the great majority of our birth certificates will show that the test has been made early in pregnancy.

In the first place, we are going to treat cases who have had syphilis for less than fuur years. Exceptions to this rule will be: we will treat all cases of syphilis for prenatal women; we will also treat cases that show some special sign, that are infectious or that present such symptoms such as syphilis of the eye. Aside from these, we will not undertake the treatment of syphilis.

Act 272, P. A. 1919—regarding all records concerning venereal disease are declared not to be public records.

CHRISTIAN SCIENCE SOCIETY

Sunday morning service, 10:45.

Sunday school, 12 o'clock.

Meets first Wednesday evening of each month nt 7:45 p. m.

Reading room open Saturday, 3 to 5 p. m.

We cordially invite the public to our service and reading room.

"Matter" will be the subject of the lesson-sermon in all Christian Science churches throughout the world on Sunday, March 24, 1940.

The Golden Text (Matthew 6:19) is: "Lay not up for yourselves treasures upon earth, where moth and rust doth corrupt, and where thieves break through and steal."

Among the Bible citations is this passage (Romans 8:5,28): "For they that are after the flesh do mind the things of the flesh; but they that are after the Spirit the things of the Spirit." And we know that all things work together for good to them that love God, to them who are the called according to his purpose."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 444): "In some way, sooner or later, all must rise superior to materiality, and suffering is oft the divine agent in this elevation. 'All things work together for good to them that love God,' is the dictum of Scripture."

Old Masters Reflect the Easter Story

Probably the richest field of all art is the portrayal of scenes of Holy Week, the most carefully detailed period in the life of Christ. Two full pages in the Pictorial Rotogravure Section of Sunday's Detroit News tell this beautiful story as revealed by paintings of the greatest artists of all time! Be sure to see and save these pages, Sunday in The Detroit News.

AT THE MOVIES

Fred Astaire and Eleanor Powell Dancing Together

When the two greatest dancers of thu contemporary stage and screen get together in a single production, it's news. Such news is verified in "Broadway Melody of 1940," coming to the Palace Theatre Saturday, March 23, for an engagement of two days, and starring Fred Astaire and Eleanor Powell.

Spectacular in all of its departments, these two stars are given a suitable send-off for their first co-starring feature. Nine dances, ranging in type from tap to ballet, six Cole Porter song hits, gigantic sets, a notable cast, Norman Taurog as director, all add up to the prediction that "Broadway Melody of 1940" is due to take its place as the year's most entertaining and eye-filling film.

The cast, in addition to the three dance stars, Astaire, Powell and Murphy, features Frank Morgan, Ian Hunter, Florence Rice and Lynne Carver.

In addition to "Begin the Beguine," five new Cole Porter tunes are introduced, including "Pease Don't Monkey With Broadway," "Between You and Me," "I've Got My Eyes on You," "I Happen to Be in Love" and "I Concentrate on You."

Top-Notch Thrill Quota Achieved in "Parole Fixer"

The movies turn their batteries of indignation on corruption in the parole system in the Paramount picture "Parole Fixer," which March 27th makes its debut in the Palace Theatre. Considered as an exciting argument for reform or as an hour of action melodrama, it is top-notch entertainment.

Under Robert Florey's astute direction the rapid-fire film action is carried to a stirring climax in which all the malefactors are brought to justice. "Parole Fixer" is studded with excellent individual performances, but we commend to your particular attention the work of William Henry, and the beauty and talent of Virginia Dale.

LANSING LETTER

(Continued from page 1)

ment to sell 10,000 of the new Garand semi-automatic rifles to Finland for only $1 each. With Dingell it was a matter of principle, not politics. He just felt that way about it.

Vandenberg Absent

On February 13 the United States senate resumed consideration of a bill to provide for a $20,000,000 loan to the Republic of Finland by the Reconstruction Finance Corporation.

While congress enacted a strict neutrality act last summer, just prior to the outbreak of the European conflict, such neutrality limitations become operative only when the nations involved officially issue declarations of war. Furthermore, the President invokes the neutrality act through a proclamation declaring the existence of war.

Because Americans sympathized with Finns, just as they do for the Chinese, unneutral acts have been condoned by congress if not openly participated in. The proposed loan to Finland was in the latter classification.

Senator Prentiss Brown advocated passage of the bill, pointing out that it was an advance of credit and that the money would be spent in this country to purchase American-made goods.

The debate continued, but Senator Vandenberg was absent from the scene. When the final roll-call was taken, the "yeas" included Brown but not Vandenberg who was officially listed as "not voting."

On the day before (Lincoln's birthday) Senator Vandenberg had spoke at a Republican dinner in his home town, Grand Rapids. Taking a plane for Washington, he was grounded by a snowstorm in Pennsylvania at 3 p. m. Not until late at night could the plane take off with its party. And the Finnish loan vote was taken at 5 p. m.

Senator Clark of Missouri, also recorded as not voting, remarked when his name was called that he was paired with Vandenberg. "If the senator from Michigan were present and voting, he would vote 'yea'. If I were permitted to vote, I should vote 'nay'."

When the Michigan senator arrived belatedly at Washington, he stepped off the plane. And with him was none other than George H. Heldeman, Finnish consul to Michigan!

Brown on Hatch Act

The ides of March point clearly to the approach of the 1940 election.

Congressmen are anxious to establish a record of their actions so that, when the campaign is on, they may proclaim "I point with pride" or warn "I view with alarm."

Hence some statements are made frankly for public consumption. To a certain degree they are obviously exaggerated for political effect.

When the Hatch act was passed last year curtailing the political activity of federal employees, President Roosevelt said that it did not go far enough. He favored extension of the Hatch act to state employees whose departments received federal aid grants. Senator Hatch's new bill was then introduced in the 1940 session. It would effectively muzzle state machines, some of which have not been too cooperative with New Deal senators at Washington.

When the bill came up for consideration last week at Washington, Senator Brown proposed an amendment to forbid contributions to campaign funds by any beneficiary of any tariff, excise or otherwise of any contract with the United States or any of its agencies. This applied even to stockholders, officials and employees of corporations.

Brown recalled the $600,000 contributions of the DuPont family to the Republican campaign in 1936. He refreshened the memory of the Pew (Sun Oil) family's donations of $310,000 to the GOP coffers. Conspicuous by its absence was any mention of $500,000 advanced to the Democrats by the John L. Lewis-United Mine Workers wing of the CIO. When Senator Robert Reynolds of North Carolina brought it up later somewhat gleefully, Brown explained that the Lewis loan had been fully repaid.

Counter-Attack

Actually Brown's move was not in behalf of the Hatch act. It was an obvious counter-attack.

This became evident when the junior senator cited Michigan's corrupt practices act governing political expenditures, and declared that Michigan had adequate protection today to control the situation in Michigan. He even raised the issue of state's rights.

Strangely enough, however, the Brown proposal has historic support. It was advanced by Pres. Theodore Roosevelt in his annual message to congress on the state of the union on December 3, 1907. "Teddy" wrote: "Under our form of government voting is not merely a right but a duty, and, moreover, a fundamental and necessary duty if a man is to be a good citizen. It is well to provide that corporations shall not contribute to presidential or national campaigns and furthermore to provide for the publication of both contributions and expenditures." Roosevelt advocated a congressional appropriation to finance party campaigns.

It was Senator Brown, unyielding to pleas from the White House, who voted with Democrats and Republicans to defeat the Supreme court "packing" bill. Independent in his thinking, he refuses to be a rubber stamp.

And so the record is being written. It is a forceful reminder that 1940 is a campaign year.

Twa new members of the Camp Charlevoix staff of counsellors for the 1940 season which opens July 2, have been announced by Lewis C. Reimann, director.

Campers will be trained in riding, roping and guided on trips by Bill Felts, who graduated this month from the University of Arizona. He was judged the top rider at the intercollegiate rodeo held this month, attesting the training he received while heing raised on Diamond-V Ranch near Tucson. An expert calf reper, trick rider and all-round cewboy, he will center his training at camp around these features.

Jerry Wilsen, 1940 feotball captain at Oberlin College, will be e new staff member. Heavyweight wrestling champion and all-around athlete at the college, he will teach hoxing and wrestling as well as werk in ether sports.

Salling will take on a new interest at the camp during the 1940 seasen with the addition of several new snipe class sailboats. A number of parents will buy these boats and have them sent to the camp to be manned by the campers who own them. The owners and their friends will be taught how to properly sail the boats.

Camp Charlevoix raeently got into the public eye by being written up in the new beok "Hello Michigan" by Bereniee Bryant Lowe. A chapter describes a trip a bey tonk with his uncle through Michlgan and goes into interesting detail regarding a day spent at Camp Charlavoix.

Increasing enrollments indicate a fine season at Camp Charleveix.

Buck Deer Rescued From Lake Michigan Ice Floes

Robert Bergman, Dale Bradley Risked Lives to Save Stranded Animal Sunday

What might have been ane of nature's tragedies was averted Sunday afterneon when Robert Bergman and Dale Bradley rescued a small buck deer stranded in slush ice about a mile off shore north of the picrheads in Lake Michigan.

The two men dragged flat-hottom steel rowboats ever the treacherous moving ice cakes to reach the animal. Frightened by their approach, the deer jumped out into open water, hut the men herded it hack into the ice again, lassoed it first then tied its feet securely with ropes and hauled it into ene of the heats. They rewed nearly to South Point, where absence of ice ullowed a landing.

According to reports, Mrs. Gaorge Smith witnessed the deer walking down the heach behind their Michigan avenue residence, and saw it frightened onto the ice by a swooping bald-headed eagle. It fell repeatedly after reaching the outer slush ice and finally laid down, apparently either injured or exhausted.

An attempted reseue by Capt. Charles Allers with Michigan Patrol Boat No. 1, now in harher here, failed. Also a party composed of George Smith, Don Swinton, Cliff Gregory and Bergman failed to reach the deer in the morning, and it was not until late afternoon that Bergman and Bradley completed the rescue.

The two men dragged their hoats, one containing the deer, across the ice to the shore drive near Boulder Park. A road has been plowed by the county road eommissien to this point and the animal was traneferred to a truck and brought to Hooker's stables, where he occupied a stall during the night. Monday morning Conservatien Officer Ed. Deuel released the animal in the woods at the Waller farm north of the city.

Hundreds of persens had watched the deer and efforts to reseue it during the day.

WOLVES, COYOTES, DECREASED BY TRAPPING

Lowered Bounty Payments Given as Proof Predators Diminishing

Decline in the number of wolves and coyotes bountied in the first months of 1940 is part of an extensive trend, a comparison of the first two years in which the present bounty system has been in effect reveals.

Twenty per cent fewer coyotes and 33 per cent fewer wolves were taken in 1939 than in 1938, but the number of wolves is so small in proportien to the numbar of coyetes that the decrease in beunty peyments was 20 per cent also.

In 1939, of the coyotes beuntied, 774 were adult males, 757 adult females, 269 mala pups and 266 famale pups, a total of 2,066 coyotes, 527 less than in 1938. Of the wolves hountied, 18 were adult males, 10 adult females, two male and three female pups, a total of 33 wolves, 16 less than in 1938.

The totai 1039 cost of $36,665 was $9,335 less than in the year before, at the rate of $15 for males and $20 for females of hoth species, regardless of age. January and February, 1940, payments total $2,220.

SMELT CELEBRATIONS SATURDAY

PROGRAMS GO AHEAD WITHOUT "RUN" OF FISH

Boyne Postpones Broadcast But Will Hold Program — East Jordan Doing Likewise

Despite weather conditions which have prevented the "run" of smelt up the Jordan and Boyne rivers, East Jordan and Beyne City are going ahead with pluns for their annual celebrations.

Boyne's festivul opened Tuesdny, March 26th, and will climax with a full afternoon and evening program Saturday, March 30th. Features for that day include: 2 to 5 p. m., exhibits at gymnasium, games nt recreation center, wood-chopping and log-sawing contests at Veterans' Park; 8 to 9 p. m., movies nt gymnasium; 11 p. m. to 1:30 a. m., council fire and "tall story contest" at Veterans' Park. The annual banquet is scheduled for 6:30 at Dilworth Hotel. An interesting program has been arranged.

East Jordan's annual jamboree opens with the wild life banquet Friday evening, March 29th, at the high school gymnasium. Leading conservation officials will appear on the banquet program. Saturday's attractions include the usual features such as coronation of the National King of Smeltium, the Newaygo Newt spitting contest, fireworks signalling the "Charge of the Night Brigade" and the smelters' ball. Other attractions listed are a rolling pin throwing contest, pie-eating contest and sports.

Due to the uncertainty of smelt running the Boyne river because of low temperatures, the broadcast from the river has been postpened indefinitely but will be held when the run is on. Otherwise the program as outlined above will be carried out.

SHOT AT RANDOM

By Ken Ushar

Charlevoix's annual general city election is scheduled next Monday, April 1. Despite lack of opposition on the ballot, it is to be hoped voters will exercise their voting franchise—which is not only a privilege in the Democratic nation of ours, but a duty one should not fall in the habit of neglecting.

Guess Spring is definitely on its way. At least our southern sojourners are returning, and that's a pretty positive sign. The Fitch's, Mr. and Mrs. Art and Katherine, are home from Miami; Joel Johnston is back from several months of travel in southern states; Mr. and Mrs. Ray Shearer are at the home stand following an 8000-mile trip to Old Mexico and the West; Den Clethier and the Miasus must be somewhare between Florida and home, 'cause haven't heard from them for weeks; understand "Mac" McCarthy and wife are here, and all the others will be along soon now. Almost like a homecoming.

Here I've been talkin' about Spring either being here or on its way, when the commercial fishermen are all in a lather about the piar entrance being plugged with ice so's they can't get out to their nets and the snow's almighty deep in the fields and woods

LANSING LETTER

By GENE ALLEMAN

Field Manager, Michigan Press Association

The Hatch act extension to state employees, which passed the Senate at Washington last week and is now before the House, is another illustration of the gradual breakdown of states' rights through granting of federal aid.

A parallel exists in the system of state grants to local governments.

Together they have confused the taxing picture, making it more difficult to pin the blame on any one agency, and the inevitable result has been a shifting of responsibility from public officials at home to others miles away either at the state or national capital.

Because both federal and state governments have been increasing the granting of aid, the Hatch act was really inevitable, regardless of

HOLE IN GROUND PRODUCES CHEAP FEED

Out of the ground in midwinter on the farm of Harry Woodworth, north of Charlotte, is coming a vitamin-carrying low rost feed. It's sweet clover silage made in the summer of 1939. Above is the picture is C. F. Huffman, dairy authority at Michigan State College, reater, testing the feed by smell. At right is S. T. Dexter of the rollege farm rrops department. The two men are probing processes and results of this new feed storage method. The sweet clover silage being fed on the Woodworth farm this winter rontains nearly 10 times as much rarotene as hay does at this time of the year. Caratene is in the green coloring, is a sourre of vitamin A and is a health protertor. The Woodworth trench silo held about 150 tons, produced on 10 arre cut up in a silo filler and treated with 60 pounds of beet molasses t tha ton.

THIS WEEK IN WASHINGTON

By Your Congressman
Fred Bradley
11th District Michigan

Last week I went on official duty outside of Washington, as a member of a special committee of the House Mines and Mining Committee. Three others from the committee served with me—Rep. J. Hardin Peterson of Florida, Rep. Thomas Winter of Kansas and Rep. Fadjo Cravens of Arkansas. Our assignment was to investigate the disaster at the Willow Grove Mine, near St. Clairsville, Ohio where 73 coal miners lost their lives March 16th.

In my opinion, based on evidence which I heard, the explosion was caused by the ignition of coal dust, of which there was an excessive amount, according to some of the witnesses. Any spark could have set it off, the lighting of a pipe, or cigaret or even a spark from one of the cutting machines.

On one day, I went 4 miles into the mine, walking the last mile to the last entry. The havoc of the explosion was evident on all sides. Even at the time of my visit when 47 bodies had been recovered, there were 10,000 tons of debris remaining to be cleared away, the work being slowed up by the need for hand digging when portions of bodies are uncovered.

On Friday last, the committee went down into the mine again and spent over six hours taking testimony from n number of witnesses.

This testimony will be presented to the Mines and Mining Committee, and will be used in connection with its consideration of S-2420, a mine inspection bill passed by the Senate and awaiting action by the House.

There has been considerable controversy over the legislation, some contending that it would simply set up another useless federal bureaucracy, extending the power of the federal government over the states, while others contend that it is desirable and necessary as a means of protecting the lives of those engaged as coal miners.

Rep. Shafer in Hospital

After finishing my work with the investigating committee, I drove 200 miles out of my way Saturday morning to go to Salem, Ohio, where my colleague, Rep. Paul Shafer of Battle Creek, lies in a hospital in serious condition, as the result of injuries sustained March 21 when his car crashed into a guard rail.

Rep. Shafer was hurrying from Washington to Three Rivers, Michigan, driving alone when he crashed at one o'clock in the morning. He suffered a broken rib, crushed vertebrae and severe lacerations, and possibly a brain concussion. He was unconscious most of the time but recovered momentarily sufficient to recognize me. Physicians in charge of him were hopeful to save him, if complications did not set in. A proposal to move the Michigan congressman to a Washington hospital in an army plane was abandoned because it was felt to be too dangerous.

Appropriation Bill Up

The House is working this week on the appropriation bill for the Department of Labor and the Federal Security Agency and related agencies which include the Civilian Conservation Corps. Because of the public interest that has been shown in the CCC camps, it might be an opportune time to tell my readers a little of something of how appropriation bills are handled.

The total appropriation amounts to $954,000,000 and is intended to cover the cost of operating the "related agencies" already mentioned, viz: Department of Labor, Conciliation Service, Divisions of Public Contracts, Labor Statistics, Immigration and Naturalization Service, Children's Bureau, Women's Bureau, Wage and Hour Division; Federal Security Agency, Office of Education, Civilian Conservation Corps, Public Health Service, Social Security Board, National Youth Administration, Employes Compensation Commission, National Labor Relations Board and Railroad Retirement.

Budget estimates are prepared by the Bureau of the Budget functioning under the president. Its estimates are taken up and studied by the Appropriation Committee of the House, where all appropriation bills must originate. After a study of the proposals, conducted through hearings, the committee makes its recommendations to Congress in the form of a report, which accompanies the bill embodying the appropriation requests. In the case of these agencies already mentioned, the "$954,000,000 represents a sum $12,000,000 lower than the amount recommended by the Budget Bureau.

$230,000,000 for CCC

The appropriation for the CCC camps was approved by the committee at the figure recommended, $230,000,000, which would provide for 1227 camps, and compares with $295,000,000 for the current year during which 1500 camps were operated.

During the present session, the House has rather consistently approved the figures recommended by its Appropriation Committee. Likewise it will be noted that when the bills have gone over into the Senate, increases have been voted, as was done last week in the Agricultural Appropriation bill. When the two branches fail to agree, the legislation is sent to conference where committees, representing both compromise their differences, and the conference report must then be accepted or rejected by each branch.

Congressman Albert Engel, representing Michigan's 9th District, presented a very comprehensive analysis of the activities of the Federal Security Agencies last week, pointing out the danger of making lump sum appropriations for the several agencies. This has permitted administrators to juggle government funds, spending more for certain activities than was contemplated by Congress. He exposed the fact that the Social Security Board last year made 7,087 administrative promotions at an annual cost of $538,180, just ahead of the effectiveness of the Reorganization Act which would have forbidden such promotions for one year. The board was able to do this, he stated, because it had asked for and received more money than it needed for other items of expense of its operation.

Rep. Engle also presented an exhaustive analysis of the operation of the CCC camps and recommended certain changes which would allow larger enrollments without adding to the total cost. By cutting down the $58,000,000 expended last year for civilian employes, receiving $2,000 a year or more, at least 55 camps could be added to the 1227 proposed for next year at a cost of $230,000,000, he pointed out.

AT THE MOVIES

Fred MacMurray, Barbara Stanwyck in "Ten Best" Cinch

Good boy meets bad girl. Result: great picture.

That's "Remember the Night," the scintillating, fast-moving romance starring Barbara Stanwyck and Fred MacMurray which opens at the Palace Theatre Saturday, March 30. It's a cinch for a top spot in any "ten best" list.

The supporting cast of "Remember the Night" is headed by Beulah Bondi, Elizabeth Patterson and Sterling Holloway, all of whom turn in excellent work.

Joel McCrea and Nancy Kelly Star in "He Married His Wife"

With playwright Sam Hellman and Author John O'Hara collaborating with seasoned Scenarists Darrell Ware and Lynn Starling on the screen play of 20th Century-Fox's new light comedy, "He Married His Wife," Charlevoix seemingly has a fine bit of entertainment in store for April 3, when the picture will open at the Palace Theatre.

Joel McCrea and Nancy Kelly are co-starred in the film, with Darryl F. Zanuck in charge of production, and their roles are said to be completely different from those which brought them both to screen fame. Both won their laurels in highly dramatic roles and their casting in a rollicking comedy is considered highly unusual in Hollywood circles.

Other favorite names are included in the cast and fans will welcome the latest appearances of Roland Young, Mary Boland and Cesar Romero. Also featured are Mary Healy, Lyle Talbot, Elisha Cook, Jr., and Barnett Parker.

CORRESPONDENCE

CENTRAL LAKE

The snow plows were out at 7:30 Sunday and made fine roads for Easter-going people, for which we thank the road men.

Hope Thomas Guyer will soon be better from his recent accident. He has been a faithful church attendant for many years.

A change has been made in the schedule for organization of Sunday schools at Creswell and Turner. Creswell will be organized a week from next Sunday, on April 7, at 10:30 in the forenoon, Turner on April 7, at 2 o'clock in the afternoon.

Quite a novelty for a person to have his cars frozen the fourth day of spring. Easter thermometer registered 5 above zero. Florida, however got 71 and Louisiana 81, while Devils lake had 16 below, so says the weather bureau.

G. A. Morse and family, C. H. Morse, and the Verd Carpenter family, it is reported, are treking back to north Michigan in the hopes of escaping the spring floods in the southern states. Perhaps they will bring back some of those frozen fish with them. It is said that people there now say that the fish froze in northern waters and floated down, but they don't explain why they didn't thaw out.

Walter Anderson and family of Creswell visited last week at the John Dawson home in Central Lake. Mr. Anderson has given up his position with the Klooster garage and will try farming again.

Was entertained for dinner at the Wm. McLachlan home at Creswell Sunday. The strawberry pie served was fine, and the first we had ever eaten. They have finished enclosing the north and south porches on their home, which now makes quite an improvement in the building. Edmund Curtis, a former pupil of the writer, did the work.

Torch Lake village lost a building, one of the old landmarks of the place, by fire last week. It had recently been used by Mr. Crapsey as a store and gas station. At one time it was used for a town hall, and some years ago for a community church. How the fire was caused, or whether there was any insurance, we had not heard.

Most people have finished their ice harvest at Eastport from Torch lake. The ice has been of fine quality this year. The bay has not yet frozen over and probably won't this year. If not, it will probably temper the climate considerable for fruit this year, as there will probably be an exceedingly warm spell that will start the fruit buds prematurely this spring, as we have had so much unseasonable cold weather in March. Fruit ought to sell well in this state as so much has been frozen in the south.

STATE-WIDE SAFETY CONFERENCE PLANNED

Highway Commissioner Announces Department to Hold Contest

Plans were under way this week for a state-wide contest among Michigan high schools as a part of the preliminary program of the Michigan State-Wide Safety Conference to be held in Lansing May 22, 23 and 24.

State Highway Commissioner Murray D. Van Wagoner, general chairman of the conference, said the school safety division of the conference would sponsor the contest and that it has the approval of Dr. Eugene B. Elliot, superintendent of public instruction. According to tentative plans the competition will be between schools rather than between individual students. Every high school in Michigan—rural as well as city—is expected to participate.

N. E. Borgerson, of the department of public instruction and chairman of the school safety division of the conference, said that details of the contest had not yet been worked out.

Two students will be selected to represent the winning school on the conference program. They will make the trip to Lansing with all expenses paid.

DOG QUARANTINE IN 47 COUNTIES

ORDERS ISSUED SATURDAY BY LANSING AUTHORITIES

Health and Agricultural Departments Join in Movement In Territory South Manistee-Iosco Line

Orders for a dog quarantine in the southern 47 counties of Michigan, effective April 1, were released Saturday by the commissioners of health and agriculture.

In making the declaration for an indefinite period until the epidemic of rabies has subsided, the commissioners receded from their previous position that the entire 68 counties of the lower peninsula be quarantined. The order covers only those units below the Manistee-Iosco line.

Commissioner Elmer A. Beamer explained that there is little rabies in the northern counties, most of it blamed to importation of dogs from the south. The quarantine can be extended to the north or rules to prevent moving of dogs in the area can be established without quarantine, Beamer suggested.

Spread of rabies notwithstanding, numerous county quarantines established by Beamer made necessary invocation of broad police powers vested in Dr. Henry Allen Moyer, health commissioner, who has worked jointly in establishment of the first general qunrantine Michigan has seen. Under the terms of the declaration, all dogs in the southern area must be confined or muzzled and no dogs may be brought into or taken out of the area.

Moyer believes six months of the quarantine may bring the disease under control, so that restrictions may be lifted in time for the hunting season.

Rules and regulations are before members of the state council of health and further special rules are to be drafted within the next 10 days, Beamer said.

Beaver Trapping

Hundreds of beaver trappers braved ice cold streams beginning Monday, March 20, in 13 lower Michigan counties, hoping to get the limit of eight permitted them under special license during the season which ends April 10. In the upper peninsula, the season runs from April 1 to 15. Beaver may be trapped in 45 Michigan counties. After 15 years of complete protection, otter also may be trapped during the beaver seasons in 24 counties, with a limit of two per license. Last season nearly 2,000 trappers took 6,422 beavers.

AN OPEN LETTER

To the Honorable Mayor and City Council of the City of Charlevoix, Michigan,

Gentlemen:

I am in receipt of your "Report of the City of Charlevoix, March 1, 1938 to February 29, 1940," which I have read with great interest. The report shows that it has been very carefully prepared, and the fine achievements of your honorable body in advancing the material interests of your splendid little city are stated so simply and so clearly as to be readily comprehended by everyone. I am sure everyone will echo my expressions of grateful commendation for the splendid work you have done; the splendid record you have made. I regret, however, that I must take exception to one statement made in this report, hence this letter.

For more than 40 years myself and family have been spending the summer seasons in Charlevoix, and today—perhaps unknown to you—we feel that we have grown to be one of you; that Charlevoix means to us much more than a "summer home." We have grown to regard the citizens of Charlevoix as old friends and neighbors, and we look forward from year to year to renewing these old friendships in the cordial welcomes and hearty handclasps we have always received.

During these 40 years we have noted with pleasure your splendid little city of today emerging from the swaddling clothes of a backward village and taking your place and being recognized as an outstanding community among cities of your size. We have noted with admiration how the capacities of your citizens have expanded and kept pace with your city's growth, until it is not an exaggeration to say that your business men are also outstanding. From among the last named your honorable body has been selected and entrusted with the duty and rsponsibility of guiding the destinies of your city affairs. It is not surprising, therefore, that your city affairs are being so well handled.

During these 10 years, too, I have seen many of your business men grow to manhood and take their places among the active and useful citizens of your community; and, without exception, I regard you all as men of character and integrity. I am sure none of you would knowingly and intentionally mislead your fellow-citizens by misstatements. Knowing this, and having faith in you, I cannot refrain from calling your attention to a glaring misstatement in your otherwise admirable report—a misstatement which you repeat four times, emphasizing same in black type.

You say, with reference to so-called "gifts" from the Federal Government, amounting to $118,960.35, that same **"does not have to be paid back by the city in any way."** Technically this may be true, as it does not become an obligation of the city as a whole; but, I submit, that it is a rank misleading misstatement. Instead, you should have pointed out to your fellow-citizens and neighbors that as individuals they were repaying and must repay every cent of these so-called "gifts" and more also, because there are thousands of communities the country over which have received similar or greater "gifts" from our spendthrift administration, and as a coasequence every citizen is being indirectly taxed to reimburse this New Deal administration for these "gifts." I submit that instead of your black-type, misleading misstatement you should have used the black type to emphasize to your neighbors that every time they buy a loaf of bread, gallon of gasoline, a package of tobacco or cigarettes, a ticket to a movie, etc., they are being taxed to repay this unwise and too-generous New Deal administration. Because of the very large number of similar "gifts" the country over, these indirect taxes must continue for many, many years to come. "These gifts do not have to be paid back in any way!" Why, gentlemen, you are repaying them now, and your children, your grandchildren and their children will still be paying for centuries to come. This in black type in your statement would have been a service to your citizens because more truthful.

Our Federal indebtedness since the present administration has come into power has increased 24 billions of dollars, and is rapidly mounting every day. We are told that of this stupendous sum only three billions of tangible assets can be shown, that 21 billions have vanished into thin air, and that there are more unemployed today than when this spending orgy was inaugurated. Realizing that "we can no more spend ourselves into prosperity than we can drink ourselves sober," I feel it my duty as a citizen to write this open letter of protest.

If whenever you gentlemen light your pipes, whenever you join the ladies in puffing a cigarette, you will allow your minds to "think on these things," I will feel repaid for bringing to your attention what I consider an omission of a civic duty from your otherwise creditable and laudable report.

With highest personal regards to all of you, I am, for sound government, — Cordially yours,

James L. Disette

Indianapolis, Ind., March 16, 1940.

HEALTH AND HYGIENE

Drinking Fountains

The so-called "sanitary" drinking fountain, now a convenience common to schools, office buildings and other public places, can be a prime means of transmitting disease unless it is properly designed and installed. The committee on plumbing of the American Public Health Association has found it advisable to draw a list of specifications for the construction of such fountains if they are to be really sanitary. The committee recommends that:

1. The fountain should be made of impervious material such as vitreous china, porcelain, enameled cast iron, other metals or stoneware.

2. The jet of water should issue from a nozzle of non-oxidizing, impervious material set at an angle from the vertical and at an elevation above the edge of the bowl so that the end of the nozzle will not be flooded in case a drain from the bowl becomes clogged.

3. The end of the nozzle should be protected by non-oxidizing guards to prevent the mouth or nose of persons from touching the nozzle.

4. The inclined jet of water from the nozzle should not touch the guard in a manner to cause splattering.

5. The bowl of the fountain should contain no corners which would be difficult to clean.

6. The bowl should be so proportioned as to prevent unnecessary splashing at a point where the jet falls into the bowl. Self-cleansing, anti-splash rims are recommended.

7. The drain from the fountain should be connected to a separate waste pipe.

8. The water supply pipe should be fitted with a valve or control which will regulate the rate of flow to the fountain. The valve manipulated by users of the fountain should merely turn the water on and off.

9. The users' control valve is less likely to spread contagion when operated by the knee or foot.

10. The height of the fountain from the floor should be convenient for users. When children of various ages also drink from the fountain, several steps or elevations are advisable.

11. Water should not be allowed to splash over the bowl. It should flow at a rate of not less than one-half gallon per minute and at a nozzle pressure not exceeding five pounds to the square inch.

12. The waste opening should be provided with a strainer and the waste pipe should be of sufficient size to carry off water promptly.

"I RELY ON ADVERTISING WHEN I BUY"

Says Housewife*

"Advertising Saves Me Time, And Saves Me Money"

"I've heard that someone has said that Russia gets along without advertising. Well, so did Ancient Egypt, but I'd rather live here now, and read the Advertising . . . I'm not trying to be funny. First of all, it isn't true that Russia gets along without advertising because I have seen advertisements of the Russian Government and Russian Travel Agencies in this country. But that's not important . . . Advertising does a lot for me that I couldn't do for myself. It tells me usually which products are good. When I see an ad for a breakfast food, I generally know what that food is and its characteristics are; and I can tell whether the price is right. That is so true and so important to me and other women that even potatoes and onions today are being packaged, branded and advertised—they are of selected quality and size, are clean, and come in accurately measured quantities in standard packages. I have confidence in advertised products because I have found them to be reliable. So, I buy without hesitation, and that saves me time . . . As for price, I have found that advertised goods sell on a 'quality-price' basis. For the price, the advertised product usually offers as much, and sometimes more than the unadvertised product of similar quality. I say, without hesitation, therefore, that Advertising saves me money, too."

Owns Huge Jewel

Birmingham—A clear Brazilian topaz, believed to be the largest fine crystal in the world, has been acquired by the Cranbrook Institute of Science at Bloomfield Hills. Weighing 100 pounds, it is a single transparent yellow crystal, with 15 natural facets. It was discovered four years ago during excavatians in Brazil.

Unhurt in Crash

St. Clair—Walter Wagner of Detroit failed to see a train on a grade crossing until it was too late to avoid a crash. His car was wrecked when it rammed the side of the train, but Wagner emerged unscathed.

Bobcat is Pet

Thompsonville—Patricia Perry of Glennie is the owner of an unusual pet. It is a tame bobcat, captured last summer when but a few days old. The cat has been trained to overcome its natural fear of humans so it is tame enough that Patricia can take it to school.

Old Estate Probated

Caro—The estate of Alex McDonald, missing for 57 years, is now being probated here. Last letter received from Alex by relatives was in 1883 from Cape Town, South America, where he had gone to work. It is thought he was the victim of a cholera epidemic there.

Hurt by Dream

Burlington—A dream that he was trapped in a burning building caused Abe Ralston painful injury. All he can remember is the dream, but broken glass showed he left his bed, crashed through a plate glass window in his home, walked to a barn, broke out window bars, and got in the building. When he awoke, he was locked in the barn. A passerby released him. Ralston's legs were badly cut.

They Weren't Soldiers

Ithaca—A bombardment of shots and strangely clad figures were responsible for a hurry call to the sheriff's office here recently. Investigating, officers found four white-clad men with guns in a farmer's field. They were well-known county residents who had copied Finnish army tactics and donned white butchers' aprons as camouflage while hunting crows.

Flowers Bloom Early

New Haven—Spring came early to New Haven this year, or at least signs of it did. Early in March, Mrs. John Stier picked several sprigs of blooming forsythia, lilacs, and spirea from bushes at her home.

Dog Saves Lives

Portland—When Mrs. John Hudson heard her dog barking, she went outside to investigate and saw a car overturned on the highway in front of the Hudson home. She called her husband, who flagged passing motorists to help take three injured passengers out of the car, two of them unconscious. The dog's barking was credited with saving the lives of these two.

Auto Taxes on Up-grade

Motor vehicle registration fees for 1939 totaled $21,965,018, an increase of $1,117,705 over the previous year, according to figures compiled by Harry F. Kelly, secretary of state. The receipts cover licenses for all kinds of motor vehicles, from a motorcycle up to a giant truck; fees for the transfer of licenses and titles, issuance of duplicate plates, dealer licenses and driver's permits.

For license plates alone, car owners paid $19,935,345, of which $19,893,910 was apportioned directly back to the counties for highway improvement and maintennnce. The balance, $41,435, represents the state's cost of collection.

Registration of vehicles of all types was 1,326,302, as compared with 1,270,373 for 1938. Greatest increase was in the passenger car division, 54,578 more licenses being issued. Commercial cars jumped from 112,133 to 116,186; house trailers from 9,568 to 10,904.

Gas tax collections for 1939 were $29,788,442, as against $27,679,287 for 1938.

PROCRASTINATION

You remember the story of the Irishman and the leaky roof, how he didn't mend it in fair weather because he didn't need to, and how he couldn't do so when it rained.

Well, that Irishman isn't the only fool to be laughed at—there are millions more like him.

Government statistics show that $50,000,000,000 ought to be spent to repair homes and public buildings.

If individual citizens "mended their roofs," thereby employing idle labor, they would not have to pay heavy taxes to support idle workers. —Frank B. Craig.

LANSING LETTER
(Continued from page 1)

the "politics" which motivate members of Congress in varying degrees.

Consider then the growth of federal aid, if you please, as it applies to Michigan.

Social Security

The federal social security act, a child of the New Deal, is supported by taxes—contributions by employers and employees.

When benefit payments for unemployment compensation started in Michigan on August 1, 1938, Michigan's fund totaled $65,288,000. The fund at the first of 1940 was $46,500,000, a gain of $9,000,000 over the balance of one year ago. Contributions during 1940, it is estimated, should exceed benefit payments by $10,000,000 making a total reserve at the first of 1941 of around $46,000,000.

Benefits to unemployed citizens have reached a total of nearly $77,000,000. Contributions have totaled $121,200,000.

Old age assistance, public health service, and employment service are other federal aid activities which have been created since the beginning of the Roosevelt administration.

447 Millions, Relief

During the past five years Michigan has been allocated for emergency relief a total of $447,143,503.97, according to a White House report submitted to Congress. The Work Projects administration expended $315,238,130.33 during this time, for state work. Administration overhead was $8,151,016 additional.

Last year brought an all-time high in federal expenditures in Michigan, a total of $131,014,257. Other years' spending of federal money here were: 1938 — $74,634,690.34; 1937—$81,381,923.61; 1936 and 1935—$109,221,045.08.

Agricultural benefits were $13,422,951.67, this money going to the farmers in AAA payments for soil conservation, loans, rural rehabilitation and relief.

The NYA accounted for $9,846,401.88; public health service, $2,348,993.35; U. S. Housing Authority, $3,526,393.86—and on and on.

National Forests

One-sixth of the land in Michigan is owned by federal and state government and hence is tax-free.

There are 1,666,543 acres in national forests; state forests totaled 1,075,000 acres; state game areas, 500,000 acres; state parks, 30,000 acres; national parks, 120,000 acres; federal waterfowl refuges, 100,000 acres, and sub-marginal land projects (Waterloo, for example) 115,000 acres.

The state today holds approximately 2,000,000 acres of land due to tax delinquency.

The vast federal and state holdings of forest land placed Michigan in the national limelight with regard to reforestation work. One-fourth of all the trees planted with public aid in the United States last year were in Michigan.

Highway Federal Aid

An important recipient of federal aid in Michigan is the state highway department.

At the first of March before the house roads committee Murray D. Van Wagoner, commissioner of highways, appeared to plead for continuation of federal aid grants.

Presenting a 10-year program of highway needs in Michigan, Van Wagoner proposed the following spending with the aid of federal money:

Immediate widening of 606 miles of trunklines, $94,838,000.

Future widening of 1326 miles of trunklines, $181,323,000.

New belt lines around cities (four to six lanes), 251 miles, $56,970,000.

Express roads from Detroit to Chicago, Detroit to Toledo, 320 miles, $177,720,000.

Replacing 7618 miles of gravel roads and worn-out concrete pavements, $400,000,000.

The 9400-mile trunkline system carried 61 per cent of the traffic; received 53 per cent of the money spent.

State Payrolls

The growth of federal aid grants to Michigan, social security and otherwise, accounted last year for more than $400,000 increase in state payrolls. Payroll expenditures for the past two years were as follows:

	1938	1939
Unemployment compensation	$1,167,372	$1,403,700
Employment service	1,114,034	1,300,980
Public Health	429,192	477,947
Old Age Pensions	658,266	639,216
Highway	4,527,083	4,578,115
	$7,895,947	$8,399,958

The increase in state payrolls for these federal aid activities for 1939 over 1938 was $504,011.

The total increase of all state departments and institutions for 1939 over 1938 was $329,719.

Otherwise, if it were not for the federal aid departments, Michigan would have shown a decrease in state payrolls last year instead of an increase. However, the same economy claim could have been made by the previous state administration. For the year of 1938 alone the unemployment compensation payrolls jumped from $302,095 in the previous year to $1,167,372; the employment service shot from $29,022 to $1,114,034.

Money and Votes

A fear that the spending of such vast sums of public money would lead to misuse of power by politicians in the interest of perpetuating themselves in public office led to the enactment of the Hatch act, affecting only federal employees.

Then Senator Hatch in the 1940 session proposed extension of the Hatch act, forbidding political activity by federal employees, to state departments which receive federal aid grants.

Under a general amendment to the Hatch act, adopted by the Senate under sponsorship of Senator Prentiss Brown, Van Wagoner would be permitted to run for governor in 1040 without resigning his present office. He would be permitted to take a leave of absence without pay during the campaign. His term as highway commissioner expires in 1942 when he would run for re-election, if he was not elected governor next November.

Thus the Hatch bill, designed to curb political control through spending of federal money, drives a further wedge into the widening gap between federal and state governments. States' rights, already a fading principle, would take still another setback. Federal spending is responsible.

YES, ADVERTISING IS READ!

Because the Newspaper is an invited guest to the home, it is preferred by the public as a medium for both news and advertising (news of merchandise).

Here are some interesting facts about advertising in newspapers brought out by a survey conducted by Syracuse University, Syracuse, New York:

Of the persons surveyed—

90% said they would prefer a newspaper with advertising to one without ads.

97% said they would prefer radio without advertising.

97% said newspaper advertising helped them in their shopping.

5% said radio advertising was not offensive.

Newspaper advertising won over radio 92% to 8% in reply to the question: Which influences you most in buying?

and Saturday's storm buried most of the country folks off the main roads behind big drifts. Well, you've got to admit us newspaper fellas are optimistic, anyways.

Understand Sheriff Floyd Ikens is sort of lonesome since the jail population has dropped to two inmates, the lowest in over a year.

If Congress would apply the same methods in governmental affairs that a businessman does in his own affairs, how things would be simplified! When a businessman has someone owing him a lot of money, he just cuts off that fellow's credit. But down in Washington they're stewing over the matter of lending money to those European nations that already owe us billions of our hard-earned cash loaned to them in the last war. Only one answer seems sensible. Don't lend any more until they're paid up.

Some few local citizens happening to be on Bridge street at the right time Monday afternoon were treated to an unusual sight. A large bald-headed eagle, after sitting on the ice on Round lake for a long period, pursued and finally caught a seagull. The eagle swooped after the frantic gull, knocked into the water several times before making the capture and winging to a tree on the Chicago Club grounds to enjoy his meal. Two crows, apparently unawed by this monarch of the skies, made things uncomfortable for the eagle, chasing him around the resort grounds several times before giving up. One comes to the conclusion the eagle must have been pretty hungry to make a meal on seagull meat, not to mention winging into the center of the city to hunt its prey.

Note with interest that the Emmet County Sportsmen's Club is opposing a contemplated dog quarantine in lower peninsula counties as a step towards eradication of the alarming spread of rabies. Just offhand, it would seem such a quarantine should be welcomed as a means of solving the stray, and unlicensed dog problem, with its accompanying loss in livestock and wild game. Under quarantine regulations, owners of hunting dogs and pets would keep their valued animals under leash at home where they should be, and the strays would be disposed of. It is true we don't have much trouble from rabies in this region, but we do have plenty of trouble with stray dogs. Can see no gain in opposing a quarantine which would eliminate this troublesome situation.

In Morrisville, Vt., the municipal electric light plant pays all village expenses. The residents haven't paid a cent of property tax for four years, yet they enjoy the use of an airport, hospital, golf course, and have repaved the main street after installing modern sewer and water mains. It is not impossible to picture Charlevoix in such a desirable position. Maybe not in a year or two or three, but sometime when our fine improvements have been paid for and income exceeds out-go. That such a situation is not impossible with our set-up is something for taxpayers to keep in mind.

An interesting letter from a Charlevoix farmer was received recently by Congressman Fred Bradley. Said Mr. Bradley in the House of Representatives on March 4: "We have heard it said many times and unquestionably with justification, that many of our citizens have lost heart and now prefer to become wards of a paternalistic government.

"This morning I received a letter from one of my constituents which proves that this feeling of despair is not universal in our land. His attitude is that of millions of other sound, substantial citizens living in our rural communities. His letter which follows should be a word of encouragement to us all."

Here is the letter:

Dear Fred: I received the little booklets all okey. Don't have any trouble on my little 17-acre farm. Can keep about 25 head of cattle on the alfalfa I grow on the 17 acres; don't need any county agent's advice. Just want to be let alone by these smart fellows.

I have owned my farm 41 years. I know best what to grow on it. Plenty stock, and keep cow dung right on it, and when I want money from the bank, I always have milk on my pant legs and shoes; that's the security I put up and it always gets the dough. But, Fred, we've got to make a change. Things have gone far enough. We've got to make more babies and less 'mobiles and tractors. The killing of 25,000 people a year won't last always; these were every one consumers, they had better be on a farm than on the road in a car making Henry Ford more money. Put all idle men on a piece of tax-title land and farm it with his hands and a pair of horses, and he will sleep better at night.

Fred, we've got to go back while there's a few left.

MICHIGAN LEADS ALL IN SALE HUNTING LICENSES

Permits Sold to 682,605 Hunters, Reported for Year 1938

More hunting licenses are sold in Michigan than in any other state in the nation, according to the U. S. bureau of biological survey, which has just completed its national compilation for 1938.

Michigan's national lead of 682,605 licensed hunters is followed by Pennsylvania's 661,443 and New York's 657,810. Ohio was fourth with 565,104, and Indiana fifth with 389,092.

Some 7,500,000 sportsmen in the country bought 1938 hunting licenses, and the income to the states, together with federal income from sale of more than a million duck stamps, brought to $13,500,000 the revenue from this source. Returns reflect an increase in the number of hunters since 1935 of almost a million a year, the survey reports.

State revenue from hunting licenses in Michigan was $932,660, a figure exceeded by both Pennsylvania and New York.

Michigan ranked fourth in the sale of hunting licenses to non-residents, with 3,680 sold. Pennsylvania licensed 7,584 non-resident; Maine, 5,105; and New York, 4,244.

EXPECT STRAITS TO BE OPEN ABOUT APRIL 5TH

Early Start of Navigation Reported Due to Light Ice

The U. S. Navy hydrographic service reports that the Straits of Mackinac—gateway to Lake Michigan—"should open to shipping" between April 5 and April 10.

Like all northern areas of the Great Lakes, the Straits have been frozen shut since early winter. The report said clear ice up to 24 inches thickness extends to both ends of the channel.

Ice at the Soo, gate to Lake Superior, was reported 14 inches deep, but many portions of the lake itself were open or ice was drifting. The extreme western end of Superior was frozen, but there was no ice off Grand Marais, Minn., or northeast from two harbors.

I shall still need the votes of my friends at the election April 1st. Fred V. Tyler, candidate for re-election, City Treasurer.—10t1.

Merchants Defeated Co-Eds in Game Here Thursday Night

Five hundred basketball fans saw the Charlevoix Merchants defeat Helen Stephens Olympic Co-Eds at the school gymnasium last Thursday night.

While no set-up from standpoint of ability, the girl aggregation was no match for the local team. The contest was a good exhibition, however, and the Co-Eds saw to it that fans were entertained with hair-pulling and tackling features not ordinarily included in basketball court etiquette. The fans liked it.

The final score was 26 to 22.

FIVE NEW SUPERVISORS ELECTED

JOIN BOARD AT ORGANIZATION MEETING APRIL 9

Oscar Stroud Won From R. C. Korth in Charlevoix Township by Draw From Hat After Tie Vote

Five new supervisors will be seated at the organization meeting of the Charlevoix county board of supervisors, convening here Tuesday, April 9th.

As the result of Monday's election, Oscar Stroud succeeds R. C. Korth in Charlevoix township in one of the most peculiar election decisions on record in the county. With the final vote tied at 48 each, the two men drew slips from a hat and Stroud won the draw. Other changes are John Taylor succeeding H. L. Smith in Bay township; Howard Wood succeeding Henry Davey in Chandler township; Martin Duff succeeding Charles Baker in Hudson township; Angus L. Fochtman succeeding E. E. Cross in Charlevoix first ward.

The remaining twenty members of the county governing board will be the same as last year. Several, however, retained their offices by narrow margins, notably the veterans Howard L. Stephens in Hayes township, and William M. Sanderson in Eveline. Supervisors retained were: Joe Topolinski in Boyne Valley, Clyde Clute in Evangeline, Wm. M. Sanderson in Eveline, Howard L. Stephens, Hayes, A. J. Bolhuis in Marion, Dan Buckley in Melrose, Orton VanDusen in Norwood, William M. Greene in Peaine, Roland J. McCann in St. James, Calvin Bennett in South Arm, Claude Pearsall in Wilson, Roy Caldwell, James R. Dean, J. R. Parker and Harold Saffron in Boyne City, William Bashaw, Barney Milstein and Robert Barnett in East Jordan, Prescott Adams and Clarence B. Meggison in Charlevoix.

In most instances, present offices were re-elected in the 15 township precincts.

Next Tuesday's board meeting will be for the purpose of organization, naming of chairman and committees, Barney Milstein, East Jordan, is the present board chairman.

BOARD OF COMMERCE BANQUET ON APRIL 11

W. J. Froberg, New Buffalo, Speaker at St. Mary's School Hall

E. J. Edwards, president, has announced plans for a Charlevoix board of commerce banquet to be held Thursday evening, April 11, at St. Mary's school hall.

The banquet at 6:30 o'clock will be followed by a program with William J. Froberg, manager of the state highway department tourist lodge at New Buffalo, as the principal speaker. Short talks will be given by Mr. Edwards, Mayor Robert Bridge and City Superintendent Don Herrick. Entertainment features are being arranged.

An invitation has been extended city officials of Petoskey, Boyne City and East Jordan to attend. All local citizens are invited to be present.

Entertained Garden Club

Mrs. Harold Hallett entertained members of the Garden Club at her home on East Upright avenue Tuesday afternoon.—Mrs. Karl Erber led the discussion on the topic, "Garden Pools."

BELIEVE INCREASE OF SMELT IS LEVELING OFF

Drop in Hook and Line Catches from Crystal Lake is Noted

First indication that smelt in Michigan waters are not going to increase indefinitely, but may have begun to level off in numbers in an adjustment to the available food supply, has been noted in Crystal lake ice fishing. Winter catches there are reported not up to the standard of previous years.

Local residents have begun discussing the comparative worth of winter hook and line fishing and spring dip netting, and whether dip netting at spawning time should be restricted for the sake of improvement in winter fishing.

Report that smelt receipts at Chicago exceeded 17 tons on one day recently is considered indicative of the smelt concentrations that precede the spawning runs.

TYLER IS ELECTED OFFICE TREASURER

GIVEN MARGIN 69 VOTES OVER LAMPHEAR MONDAY

Other Republican Nominees Placed in Office by Better Than Average General Election Vote

All present city and ward, and one new ward officer were elected at Monday's annual spring election, continuing an unbroken precedent of placing republican nominees in office.

A single contest, the opposition of Charles H. Lamphear to Fred V. Tyler for the office of treasurer on slips, brought out n better than average general elcetion vote. Over 700 ballots were cast, compared to five hundred and some odd a year ago.

Tyler, incumbent and nominee for the office of treasurer at the primary, defeated Lamphear by a margin of 69 votes. He lost the first ward 69 to 70, carried the second 156 to 153 and the third 168 to 101.

Two new officials were named at Monday's election. They were Angus L. Fochtman as first ward supervisor, and William E. Goss as third ward alderman. Fochtman, named to fill vacancy caused by the resignation of E. E. Cross, was nominated in February, and Goss won the aldermanic nomination in February over M. A. Levinson.

Robert Bridge was re-elected to his third term as mayor and Ray S. Hamilton to his thirteenth term as clerk. Prescott Adams and Charles Helse were returned as supervisor and alderman, respectively, in the second ward, Clarence B. Meggison was re-elected supervisor of the third ward, and Clarence Wood as alderman in the first ward.

Other present aldermen are Charles Bellinger in the first ward, Charles Lamphear in the second, Harry F. Hooker in the third.

LOST WHEEL CAUSED DELAY IN TRAIN SCHEDULE

Regular schedules of the Pere Marquette Railway were disrupted last Wednesday when a freight train lost a wheel at New Richmond on its run from Chicago to Grand Rapids.

Because of this mishap the passenger train was delayed two hours on its run north and the run from Traverse City to Petoskey was cancelled.

Raise Chickens by Mass Production Methods at Korth's

New, Modern Battery Plant Has Capacity of 500 Fine Broilers Every Week

Housed in a building 40x50 feet in dimensions at the farm operated by R. C. Korth and son, Lawrence, at the southwest city limits of Charlevoix is a chicken manufacturing plant.

To the average individual, raising chickens is associated with clucking hens and their broods of peeping chicks. At Korth's place this chicken raising business is done on a quantity production basis not unlike the manner in which modern motor cars are produced. The eggs go into one end of the building and chickens come out the other, except, of course, it isn't quite as simple as that. The operation from egg to broiler requires 11 weeks.

The building itself is divided into five rooms, incubation, nursery, finishing, dressing and feed and supply.

In the incubating room are two incubators capable of hatching 1200 chicks each week. Electric heat is used. A temperature of 99¾ to 100¼ degrees is maintained in cold weather, lower in warm weather. The humidity is carried at 85. When the eggs begin to "pip" at 19 days they are transferred from the incubating compartment to the hatching compartment where they remain until hutch is completed in 21 days. The chicks are then put in boxes to "harden off" for from 12 to 18 hours, then are transferred to the nursery room.

In the nursery room are four starting batteries, heated by electricity to an average temperature of 85 to 95 degrees. Each holds 500 chicks. After 18 days they are transferred to the intermediate batteries, which are unheated. The chicks, now larger, are thinned down to 300 per battery. There are 8 intermediate batteries. As the chicks grow older and larger, they are thinned down still more.

At the age of 5 weeks they are ready for the finishing room which contains 7 batteries. Again the number per battery is decreased. Here

FORMER LOCAL WOMAN IS TAKEN BY DEATH

Mrs. Lucius Ranney Succumbed Last Wednesday at Lansing

Word has been received here of the death March 27th at Lansing, of Mrs. Lucius S. Ranney, former well known Charlevoix resident.

She was born at East Jordan, August 3, 1887, the daughter of George W. and Addie Crawford. Following her marriage to Lucius Ranney, the couple lived in Charlevoix many years before moving to southern Michigan.

Surviving besides the husband are a daughter, Mrs. Thelma Klenke; one grandson; two sisters, Mrs. W. H. French of Allegan and Mrs. A. G. Rogers of East Jordan, and a brother, Irving Crawford of East Jordan.

Funeral services were held last Friday at Grand Ledge.

PYTHIAN SISTER CLUB DISBANDED ON MONDAY

Treasury Funds Voted for Memorial to Dr. R. B. Armstrong

Disbandment of the Pythian Sister Club, successor to the Pythian Sister lodge, was voted at a meeting held Monday afternoon at the Pythian hall.

The action was taken in view of inactivity of the organization over an extended period. Funds remaining in the club treasury were voted to a community fund, which, it is understood, is to be raised to finance a memorial to the late Dr. R. B. Armstrong.

PROMINENT SUMMER RESIDENT IS DEAD

Mrs. Alice D. Dissette Succumbed March 31 at Indianapolis, Ind.

Charlevoixans will learn with deep regret of the death at 2 o'clock Sunday of Mrs. Alice D. Dissette, 67, at Indianapolis, Ind., following a long illness.

She had been a member of the Belvedere Club for some 30 years, and was the daughter of Reverend Peter and Mary Depree.

She is survived by her husband, James I. Dissette, five children and five grandchildren.

TROUT FISHERMEN EYE WEATHER FOR OPENING

Season Less Than Four Weeks Away —Opens on April 27th

Trout fishermen now busy tying their favorite flies and planning their trips for opening day—the last Saturday in April, which this year is April 27—are also keeping an eye on the weather.

If the snow goes early and quietly, trout streams have time to clear up, and fly fishermen may enjoy their sport. But if the snow goes late, the streams may be muddy and still roily on opening day, and then bait fishermen have the advantage. Streams still in flood stage offer little or no fishing.

More than 80 designated trout lakes also are open April 27. They furnish some of their best fishing in the early days of the season.

HENDRICKSON FISH TUG REBUILT DURING WINTER

Craft Made "Maiden" Trip Into Lake Michigan Monday Morning

The rebuilt Hendrickson diesel-powered fish tug "Lucille II" made its "maiden" trip into Lake Michigan Monday.

During the winter season the interior and upper structure of the craft has been rebuilt. New oak frames were installed and an over-all house structure built. The boat formerly had decks forward and aft. Installation of some machinery and equipment is still to be completed.

Rebuilding of the boat by Russ Hendrickson, assisted by Frank Allison, makes it one of the best fish tugs in the harbor.

SPEECH CONTEST ELIMINATIONS COMPLETED

Miss Mary Willis Won First Place in Declamations Friday

Charlevoix high school will be represented in the sub-district speech contests later this spring by Mary Willis in declamations, and Amy Pederson in oratory as the result of local high school eliminations completed last Friday morning.

Miss Willis won the declamatory contest with "Intervention in Cuba" by J. M. Thurston. Davida Blake was second with "Call to Arms" by Patrick Henry, and Marjorie Smith placed third with "At the Grave of Napoleon" by Robert G. Ingersoll. Other contestants were Jean Black, Jerry Novotny and Lillian King.

Miss Pederson had previously won local competition in oratory and will represent Charlevoix high school together with Miss Willis.

REPUBLICAN CLUB ORGANIZED FRIDAY

LOCAL WOMEN'S GROUP MET TO NAME COMMITTEES

Organization Campaign in Preparation for Approaching Fall Primary Election Under Way

Committees were appointed at a meeting of the Charlevoix Women's Republican Club, held Friday afternoon, March 29th, in the community room at the city hall.

Mrs. Leo Carey, vice-president, presided. An opening song and salutation of the flag was followed by a brief memorial service for the late Mrs. R. B. Armstrong, president of the organization at her death.

Committees named were: Enrollment—Mrs. Lelah Simmons, Mrs. Archie Belding, Mrs. Fred Tyler; program—Mrs. Grover Geneit, Mrs. Annie Saltonstall; publicity—Mrs. Mollie Smith, Mrs. A. J. Usher; decoration—Mrs. Floyd Ikens, Mrs. H. R. Fowler, Mrs. Archie Belding; by-laws—Mrs. Frank F. Bird, Mrs. Annie Saltonstall, Mrs. E. E. Stroud.

Clarence B. Meggison, chairman of the Republican County Committee, was present to give many interesting facts on organization for the approaching fall primary election and to answer questions by the assemblage.

Those desiring to join the organization may do so by giving 25c to the secretary, Mrs. A. J. Usher, or any member of the enrollment committee.

In the future the organization will meet the fourth Friday of each month.

MINNOWS ARE FISH; PROTECTED IN CLOSED LAKES

Illegal to Transport Minnows from Lakes During Closed Season

Minnows are fish!

The conservation department calls attention to the fact in directing attention to the regulation which prohibits taking of fish from inland lakes and streams during closed seasons.

If a lake or stream is closed to fishing, by law, the removal of minnows from such water is in violation of law and such penalties obtain as are imposed for violations of regulations in the removal of game fish.

ACHIEVEMENT DAY SET FOR APRIL 12

ANNUAL 4-H CLUB EVENT TO BE AT BOYNE CITY

Morning and Afternoon Program is Announced by B. C. Mellencamp, County Agricultural Agent

(By B. C. Mellencamp)

The 4-H Club Spring Achievement Day will be held in the Boyne City high school gymnasium on Friday, April 12th.

This will be one of the largest exhibits ever displayed on this annual occasion. The facilities of the gymnasium will be taxed to the limit to handle the large number of exhibits and the estimated crowd of eight hundred people. The club members are mighty proud of the articles they have completed and would enjoy nothing better than to have you see the wonderful work which has been accomplished. Another pleasing display will be something like twenty sets of posters shown by the schools that have given hot lunches.

The big features of the program will be a free movie at the Boyne City theater, the big dress revue, talks by representatives of our boys' and girls' club department, and other pleasing numbers. At the conclusion of the program announcements of awards will be given to the deserving club members. The entire public is invited to attend and enjoy the afternoon program. This will be a wonderful opportunity to see these splendid young folks and what they have accomplished during the year. Remember! You are cordially invited, one and all, and come early. Following is the splendid program that has been developed:

Forenoon—9 to 10, viewing exhibits; 10 to 11:45, free movies at theater; 12 to 1, noon hour; 12:30 to 1:30, wood identification contest.

Afternoon—Chairman, B. C. Mellencamp, county agricultural agent; invocation, George Hemmingway, Boyne City; dress revue, 150 participants, accompanied by Miss Juanita Middleton; address of welcome, F. K. Killian, superintendent of schools; response to welcome, Sharon Crego, Boyne Falls; remarks, Wm. C. Palmer, county school commissioner; solo, Miss Elizabeth Penfold, East Jordan; talk, Miss Lois M. Corbett, assistant state club leader; music, Doris and Warren Reynolds, Boyne Falls; talk, A. G. Kettunen, state club leader; closing remarks, O. F. Walker, district club agent.

MAKE TAX RETURNS TO LANSING OFFICE

Business Men Asked to Observe Change Made a Year Ago

Businessmen not aware of the change made a year ago in the compilation of sales tax returns are urgently requested to file returns with the State Board of Tax Administration at Lansing.

A change was affected from the Traverse City district offices to the Lansing office. Approximately 500 misdirected returns were made to the Traverse City office between March 10 and 15. Taxpayers are reminded that those returns be made to the Lansing office.

Bet the Petoskey Transportation Co. wishes their Str. J. B. Johns had been put in winter quarters at either Charlevoix or Harbor Springs instead of Boyne City. Understand their Chicago warehouse is out of cement and there the boat is ice-bound at Boyne City and probably will be for several weeks yet.

Cheboygan county is held up to Michigan as a shining example of economy in government by the publication "Michigan Taxpayer." The publication, issued by the Michigan Public Expenditure Survey, Inc., with headquarters in Detroit, said: "In the first five months of operation under the $46,000 budget the county taxpayers' association persuaded the supervisors to adopt last fall, expenditures have run $2,500 under the appropriations. At this rate the county's general expenditures will amount to only about $40,000, compared with $67,000 levied and spent in fiscal 1939. In all the 85 years of its history Cheboygan county never before used the budget method." Perhaps there is something in this budget plan other counties can profit by.

"The Republican party must enlist the interest and support of young voters if it is to win the next election."

James Thomson, chairman of the Republican State Central committee, was referring primarily to the national ticket. But the same philosophy, he said, would apply to Michigan in 1940.

A hard-headed, practical farmer who was weaned in politics on upstate rural campaigns, Thomson has no apprehension about the outcome of the 1940 campaign in this state. He feels that voters are growing more disillusioned about the national administration, as evidenced by the present level of unemployment at between ten and twelve million workers. But he has a realistic viewpoint of the

Finding Tuberculosis Early

Not so many years ago tuberculosis topped all other causes in producing deaths. Even more serious than the great number of deaths was tha fact that most of them occurred amoag individuals who were in the useful years of their lives.

Most adults of today can remember when tuberculosis, or consumption as it was known, was identical with thia, gaunt appearing individuals who usually did not live long.

Today the situation is rapidly changing. A visit to a modern tuberculosis sanatorium reveals individuals who do not appear to be suffering from any disease at all. The reason for this gratifying change lies in early discovery of cases. These cases are found early hy closely watching those groups of people among which tuberculosis is liable to be present. There are two such groups. Tho first is made up of individuals who come in continuous contact with known cases. The second consists of young people, usually in the late years of high school, or in early college years. Every member of these two groups should have repeated x-rays. Unfortunately such a widespread use of x-rays would be very expensive. To help solve the problem, a simple skin test has been developed which is reliable in indicating those who are quite definitely not suffering from active tuberculosis. This eliminates most of the group, the remainder are x-rayed. Those found to have tuberculosis through this routine, as a rule, haye an infectioa of such a minimum extent that it would be impossible to discover it on physical examination alone. Such cases often have rosy cheeks, and healthy appearances, with no outward indicatlon of the trouble which will surely come if treatment is not begun.

Because the onset is so benign, and so gradual no one is aroused hy it. Those found to have early cases often refuse to believe the existence of tuberculosis in themselves. Sometiaars physicians and public health workers wish that early tuberculosis might be ushered in by high fever, a skin eruption, or somo other terrifying manifestation which would arouse society to concerted action against it. In that way it might be eradicated even as smallpox has been almost banished. The tendency today is to feel that becausa tuberculosis is common it is not dangerous.

This spring the District Health Unit, constituting the cnunties of Antrim, Charlevoix, Emmet and Otsego, will again carry on widespread skin tests among the two groups described as being mnst liable to have early tuberculosis. These tests will be followed by x-rays for those who need them.

In order that the campaign may succeed, everyone must understand why these things are done, and, understandiag, actively conperate.

Heury's lovable outlaw of the Old Southwest will come to the screen of the Palace Theatro on April 10, 11, when 20th Century-Fox's "The Cisco Kid and the Lady" presents Cesar Romero as the aew Cisco. Marjorie Weaver and Virginia Field supply the romantic interest to this most romantic of all American outlaws and plenty of exeitement, action and laughs are promised.

Diamond Empire Servos as Localo for Picturo

The adventure-rife diamond-mining country of Kimberley, and South Africa's gay and sophisticated metropolis, Cape Town, form the setting for Paramount's exciting aew comedy drama, "Adventure in Diamonds," which opens April 10 at the Palace Theatre. The locale is one seldoat seen on the silver screen.

With Georgo Brent and Isa Miranda playing the star roles, "Adventure in Diamonds" tells of a romance between a young British flying officor and a lovely lady crook who plans to rob the fabulous Kimberley diamond cache. Prominent in the supporting cnst are Elizabeth Patterson, John Loder and Nigel Bruce. George Fitzmaurice directed.

Makers of dictionaries say the "new deal" is evolving a new language in this country. It is also evoking a lot of the old-fashioned cuss words.
